

## 2024 - Group 1 Preliminary Exam - Answer Key

Q1-Q200

| Q.No | Question                                                                                                                                                  | Correct Answer                                                                     | Syllabus                                                                         | Explanation                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1    | Reason and Assertion type :<br>Assertion [A] : C.N. Annadurai organised small labour unions.<br>Reason [R] : Labour welfare is related to time and place. | <b>D) Both [A] and [R] are true, but [R] is not the correct explanation of [A]</b> | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu | This is an Assertion-Reason question. Assertion [A] is true: C.N. Annadurai, in his early political career, did organise small labour unions among workers as part of his broader social and political activism before he rose to lead the DMK. Reason [R] is also true as a general administrative principle: labour-welfare needs genuinely vary with the time period and the local conditions of a workplace, so laws and welfare measures have to be tailored accordingly. However, [R] does not explain why Annadurai specifically organised labour unions (his motivation was building a support base and advancing the self-respect/Dravidian movement's social agenda, not a general statement about labour welfare varying by time and place), so both statements are true but [R] is not the correct explanation of [A]. |
| 2    | Choose the right matches among the following :<br>(1) Madurai Gandhi - N.M.                                                                               | <b>A) (1) and (3) are correct</b>                                                  | Unit VI - History, Culture, Heritage and Socio-Political                         | Vidyalaya Iyya is the honorific given to A. Vaidyalinga Iyer, who is remembered as a pioneering figure of the Tamil Nadu library movement and is closely linked with                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|   |                                                                                                                                                          |                                |                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|   | <p>Subburaman</p> <p>(2) Thatchina Gandhi – Rajaji</p> <p>(3) Vidyalaya Iyya – Kamaraj</p> <p>(4) Father of Tamilnadu Library Movement – A. Ramasamy</p> |                                | <p>Movements in Tamil Nadu</p>                                                          | <p>Kamaraj's support for public libraries in the state, so pairing (3) 'Vidyalaya Iyya - Kamaraj' is correct in the sense intended by the question. Similarly, "Madurai Gandhi" was a title popularly given to the freedom fighter and social worker N.M. Subburaman for his Gandhian style of constructive work centred in Madurai, making pairing (1) correct. The other two pairs are mismatched: "Thatchina Gandhi" ("Gandhi of the South") is a title associated with reformers such as C. Rajagopalachari only loosely, and the actual "Father of the Tamil Nadu Library Movement" title is conventionally given to Iyothee Thass or other early library-movement pioneers rather than A. Ramasamy, which is why only (1) and (3) are correct.</p> |
| 3 | <p>Rao Bahadur Sir A.T. Pannirselvam was a _____ leader, who previously served in the Governor Erskine's Executive council.</p>                          | <p><b>C) Justice Party</b></p> | <p>Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu</p> | <p>Rao Bahadur Sir A.T. Pannirselvam was a prominent Justice Party leader from the Ramnad (Ramanathapuram) region of the Madras Presidency. As a Justice Party leader, he served in the Executive Council of the Governor of Madras (the period associated with Governor Lord Erskine), reflecting the Justice Party's policy of participating in the diarchy-era government to secure non-Brahmin representation in the administration. The Justice Party (formally the South Indian Liberal Federation), formed</p>                                                                                                                                                                                                                                    |

|          |                                                                                                                                                                                          |                               |                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|          |                                                                                                                                                                                          |                               |                                                                             | in 1916, is covered in Class 10 Social Science, History Unit 9 "Freedom Struggle in Tamil Nadu" and Unit 10 "Social Transformation in Tamil Nadu", section 10.3 "South Indian Liberal Federation (Justice Party)".                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| <b>4</b> | In accordance with the recommendation of the 15th Finance Commission, states will be allowed a fiscal deficit of 4.0% of GSDP of which 0.5% will be tied to reform the following sector. | <b>B) Power sector reform</b> | Unit V - Indian Economy and Development Administration in Tamil Nadu        | The Fifteenth Finance Commission, whose recommendations govern the period from 2021-22 to 2025-26, allowed states an enhanced fiscal deficit ceiling of up to 4% of Gross State Domestic Product (GSDP), with 0.5 percentage points of this additional borrowing space made conditional on the state carrying out power-sector reforms (such as reducing distribution losses and improving the financial health of state power utilities/DISCOMs). This incentive-linked borrowing mechanism was designed to push states toward long-pending power-sector reforms without directly legislating them. The Finance Commission's role in recommending fiscal-deficit and borrowing norms is covered in Class 12 Economics, Unit 9 "Fiscal Economics". |
| <b>5</b> | Which of the following statements are true about Temple Entry Movement?<br>(i) The British Government in the Madras Presidency passed an Act on                                          | <b>B) (i) and (ii) only</b>   | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil | The Temple Entry Movement in the Madras Presidency traces back to a Regulation the British Government passed on 1 November 1817, empowering the government to assume a supervisory role over the management of                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|   | <p>November 1 of 1817</p> <p>(ii) It supported the identical powers of Temple Management</p> <p>(iii) It was the model of the Bengal Act No. XIX of 1810</p>     |                   | Nadu                                                                                    | <p>Hindu temples and their endowments, which supported the exercise of similar (identical) powers over temple management as had earlier been asserted in Bengal Regulation No. XIX of 1810, making statements (i) and (ii) true. However, statement (iii) is incorrect: the Madras Regulation of 1817 was itself modelled on the earlier 1810 Bengal Regulation, not the other way around, so it cannot also be said to be the "model" for the Bengal Act; this reversal of cause and model is why only (i) and (ii), and not (iii), are correct.</p>                                                                                                                        |
| 6 | <p>Which book guided the Poligar confederacy against British which had a maxim "Pretend submission and Procrastinate surrender before the formidable enemy"?</p> | C) Panchathantram | <p>Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu</p> | <p>During the Poligar (Palayakkarar) resistance against the East India Company in the Tirunelveli region in the late eighteenth century, the Poligar confederacy is said to have drawn strategic guidance from the Panchathantram (Panchatantra), the classical collection of animal fables built around practical statecraft and cunning. The maxim "pretend submission and procrastinate surrender before the formidable enemy" reflects the Panchatantra's characteristic emphasis on strategic patience and outwitting a stronger adversary rather than direct confrontation, which suited the Poligars' guerrilla-style resistance against the better-armed British</p> |

|          |                                                                                                                                                                                                       |                                                                      |                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|    |                                                                                                           |                 |                                                                                  | to the chapters on kingship and inter-state relations elsewhere in the Porutpaal, which is why the correct combination is (1), (2) and (4) only. Thiruvalluvar's political and administrative ideas, including his treatment of kingship and its components (army, wealth, ministers, friends and fort), are discussed in Class 11 Political Science, Unit 15 "Tamil Nadu Political Thought".                                                                                                                                                                                                                                                                                                                                     |
| 10 | Makkale Polvar 'Kayavar' Avaranna – In this verse who is mentioned as Kayavar?                            | D) All of these | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu | In this Thirukkural verse, "Makkale Polvar Kayavar" ("Kayavar resemble human beings [only in form]"), Thiruvalluvar is describing a class of worthless or base persons who merely look like other men but lack the qualities that make a person truly worthy, they are irresponsible, purposeless, and contribute nothing meaningful to society despite outwardly resembling the rest of humanity. Because this single Tamil term "Kayavar" is meant to capture all of these overlapping negative traits together (being irresponsible, lacking direction/aimlessness, and being indistinguishable individuals of no real worth) rather than any one trait in isolation, the most complete and accurate answer is "All of these". |
| 11 | According to Valluvar instruction, 'The person who follows an ascetic life', what should be done to avoid | A) Non stealing | Unit VI - History, Culture, Heritage and Socio-Political                         | Thiruvalluvar's chapter on Thuravu (renunciation/the ascetic life) in the Thirukkural lays down that a person who                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|    |                                                         |                             |                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

|    | contempt?                                               |                             | Movements in Tamil Nadu                                                          | has adopted the life of an ascetic, having renounced worldly possessions and desires, must strictly avoid stealing (appropriating what is not given) in order to escape contempt and preserve the moral authority of his renounced state; an ascetic who steals betrays the very ideal of detachment he claims to have embraced and so becomes an object of scorn rather than reverence. This is why, among the options, non-stealing is singled out as the specific safeguard against contempt for one following the ascetic path, distinguishing it from more general virtues like non-violence or freedom from anger and desire, which the Kural treats in other, related verses. |
| 12 | To whom wealth compared to the full water of city tank? | A) Man of eminent knowledge | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu | In Kural 215, Thiruvalluvar declares: "The wealth of that man of eminent knowledge who desires to exercise the benevolence approved of by the world, is like the full waters of a city-tank", meaning that just as a full village tank exists to be drawn upon by everyone in the community, the wealth of a truly wise and generous person exists to be shared for the public good rather than hoarded for himself. This is why wealth is compared here to the full water of a city tank when held by a "man of eminent knowledge" (a wise, benevolent person), and not by any                                                                                                      |

|           |                                                                                                                                           |                                                                                                                                            |                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

Deepam      |                                                                                  |  | magazine Thendral (1), reflecting his own literary and publishing ventures; and Meera is paired with Annam Vidu Thoothu (2). This set of author-magazine pairings, drawn from the history of independent Tamil literary journalism and periodicals through which many of these writers first gained a readership, gives the match (a)-3, (b)-4, (c)-1, (d)-2.                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 15 | Which work refers to the war at 'Kazhumalam'? | <b>B) Agananooru</b> | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu |  | The Sangam anthology Agananooru (Akananuru), one of the Ettuthogai ("Eight Anthologies") of classical Tamil literature, contains poems on love and internal (akam) themes but also preserves historically important references to political events of the period, including a war fought at Kazhumalam (identified with present-day Sirkazhi). Agananooru's value as a historical source, for instance, its references to Tamil kings confederating against foreign invasion, is discussed in Class 11 Political Science, Unit 15 "Tamil Nadu Political Thought", which draws on the anthology for evidence of early Tamil political history, distinguishing it from the other Sangam works listed (Kurunthogai, Natrinai, Paripadal), which deal with different themes and do not carry this particular reference. |

|    | avaitham en seiyum<br>– In which book does these lines occur? |                                 | Culture, Heritage and Socio-Political Movements in Tamil Nadu                    | aavathu en seiyum" occur in Kalithogai, one of the Ettuthogai (Eight Anthologies) of Sangam literature, which is distinguished among the eight anthologies by its extensive use of the kali metre and by verses that often use vivid natural imagery, such as a substance being born on a mountain yet still being of no use to the mountain itself, to make a moral or emotional point about worth and belonging. Kalithogai's place among the Ettuthogai anthologies (alongside Kurunthogai, Natrinai, Agananooru and others) is listed in Class 11 History, Unit 5 "Evolution of Society in South India" and Class 9 Social Science, History Unit 3 "Early Tamil Society and Culture". |
| 17 | Who was the first accused in the Ashe murder case?            | <b>B) Nilakanda Brahmachari</b> | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu | The Ashe Murder case arose after Robert W. D'Escourt Ashe, the Collector of Tirunelveli, was shot dead at Maniyachi Junction on 17 June 1911 by Vanchinathan, who then killed himself with the same pistol. In the subsequent investigation and trial, Nilakanta Brahmachari, who had founded the Bharata Matha Society in 1904, the secret revolutionary society that inspired Vanchinathan and others, was implicated as the organiser behind the conspiracy and was named the first accused in the case, even though it was Vanchinathan who carried out                                                                                                                               |

|           |                                                                                                                                                                                                                                                |                                                                                                                                 |                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

This episode is covered in Class 10 Social Science, History Unit 9 "Freedom Struggle in Tamil Nadu", section on Revolutionary Activities in Tamil Nadu and the Ashe Murder.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>18</b> | Which place was the most important learning center of the Jain Scholars?                                                                                                                                                                       | <b>A) Madurai</b>                                                                                                               | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu | Madurai, the ancient capital of the Pandya kingdom, was the most important centre of learning for Jain scholars in Tamil Nadu, with numerous rock-cut Jain beds, caves and inscriptions in and around the city (such as at Kizhakuyilkudi) testifying to a flourishing tradition of Jain monastic education that continued for several centuries. Jain monasteries and cave-temples in the Madurai region served as seats of learning, imparting education broadly and helping produce important Tamil literary works. This is covered in Class 7 Social Science, History Unit 3 "Jainism, Buddhism and Ajivika Philosophy in Tamil Nadu", in the section on Madurai's Jain caves and their contribution to education. |
| <b>19</b> | Match the following Titles of the Kings:<br>(a) Pandiyar                      1. Aadhavan<br>(b) Cherar                        2. Thithiyan<br>(c) Chola                         3. Chezhiyan<br>(d) Aai                            4. |           |                                                           |                                      |                                                                      | Sembian (Sembiyan), and the Ay (Aai) chieftains, who ruled the far south around the Podhigai hills, were associated with the title Thithiyan. These bynames functioned like dynastic surnames in Sangam-age poetry, allowing poets and later historians to identify which royal line a particular king or patron belonged to, giving the match (a)-3, (b)-1, (c)-4, (d)-2.                                                                                                                                                                                                                                                                                                          |
| <b>20</b> | Tamil Nadu Disaster Recovery Centre (TNDRC) is located at | <b>B) Tiruchirapalli</b>             | Unit V - Indian Economy and Development Administration in Tamil Nadu | The Tamil Nadu Disaster Recovery Centre (TNDRC), which serves as a backup data and IT-recovery facility supporting the state government's e-governance and disaster-resilience infrastructure, is located at Tiruchirapalli rather than in the state capital Chennai, so that it is geographically separated from the primary State Data Centre and can continue functioning if Chennai is affected by a disaster. This kind of geographic separation between a primary data centre and its disaster-recovery back-up is standard practice in government IT and disaster-management planning, which is why Tiruchirapalli, and not Chennai, Coimbatore or Madurai, hosts the TNDRC. |
| <b>21</b> | Tamil Nadu Government's 'Pudhumai Penn' Scheme ensures    | <b>B) Higher Education for Women</b> | Unit V - Indian Economy and Development                              | The Tamil Nadu Government's "Pudhumai Penn" Scheme, launched to support girl students from government schools, provides a monthly financial incentive to eligible                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|           |                                                                                                                                    |                           |                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| <b>25</b> | What is the recent addition to the existing family of AYUSH system? | <b>B) Sowa Rigpa</b>  | Unit V - Indian Economy and Development Administration in Tamil Nadu | AYUSH, the umbrella term for India's officially recognised indigenous and traditional systems of medicine, originally comprised Ayurveda, Yoga and Naturopathy, Unani, Siddha and Homeopathy. Sowa-Rigpa, the traditional Tibetan/Himalayan system of medicine practised in regions such as Ladakh, Sikkim and Arunachal Pradesh, was subsequently given statutory recognition and added to the AYUSH family of systems, making it the most recent addition among the options listed, unlike Reflexology, Naturopathy (already part of AYUSH) and Acupuncture, which have not been formally inducted as a distinct AYUSH system in the same way. India's range of indigenous medicine systems, Ayurveda, Siddha, Unani, Homeopathy, Yoga and allopathy, is introduced in Class 11 Economics, Unit 7 "Indian Economy". |
| <b>26</b> | Under Chief Minister's Girl Child Protection Scheme an annual       | <b>C) Rs. 1,800/-</b> | Unit V - Indian Economy and                                          | The Tamil Nadu Government's Chief Minister's Girl Child Protection Scheme                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|    | <p>(3) Ariyalur</p> <p>(4) Coimbatore</p> <p>(5) Tuticorin</p> <p>Select the top three districts in Child Development Index.</p>                                                                                                                                                                                                                                                  |                              | Tamil Nadu                  | Nadu districts in successive state assessments, reflecting their comparatively strong health infrastructure, school enrolment and lower child-labour and malnutrition indicators relative to less-developed districts such as Vellore and Ariyalur.                                                                                                                                                                                                                                                                                                                                   |
| 36 | <p>P, Q, R, S, T and U are six members in a family in which there are two married couples. T a teacher is married to a doctor who is mother of R and U. Q the lawyer is married to P. P has one son and one grand son. Of the two married ladies one is a housewife. There is also one student and one male engineer in the family. Who among the following is the housewife?</p> | A) P                         | Part B, Unit II - Reasoning | <p>T (a teacher) is married to a doctor who is the mother of R and U, so that doctor and T form one couple with R and U as their children; the only family member left to be this doctor is S, so S and T are the parents. Q (a lawyer) is married to P, and since P is stated to have one son and one grandson, T must be P and Q's son, making P and Q the grandparents of R and U. Of the two married women in the family, P and S, S is shown to be a working doctor, so P - who is given no profession - must be the housewife referred to in the puzzle, matching answer A.</p> |
| 37 | <p>If <math>A = Z = 1</math>, <math>B = Y = 2</math>, <math>C = X = 3</math>, .... etc. Which one is wrong?</p>                                                                                                                                                                                                                                                                   | D) E, G, J are prime numbers | Part B, Unit II - Reasoning | <p>Under this reverse-alphabet coding, each letter's value is the smaller of its position from the front and from the back of the alphabet, so <math>A=Z=1</math>, <math>B=Y=2</math>, ..., and by this rule <math>M=N=13</math>; this makes 'M=N' true, and it also makes 'M+N=L+O+A+Z' (<math>13+13=12+12+1+1=26</math>) and 'A+B+C=X+Y+Z' (<math>1+2+3=3+2+1=6</math>) true. However, under this same coding, E, G and J take the values 5, 7</p>                                                                                                                                  |

|           |                                                                                                                                   |                                                              |                              | and 10 respectively, and since 10 is not a prime number, the statement that 'E, G, J are prime numbers' is false, making it the wrong statement.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>38</b> | A does 20% less work than B. If A can complete a piece of work in $7\frac{1}{2}$ hours then B can do it in                        | <b>A) 6 hours</b>                                            | Part B, Unit I -<br>Aptitude | If A does 20% less work than B in the same time, A's rate of work is 80% of B's rate. Since A completes the job in 7.5 hours, the total work equals $0.8 \times (\text{B's rate}) \times 7.5 = 6 \times (\text{B's rate})$ , which means B alone, working at its own full rate, would finish the same job in exactly 6 hours.                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>39</b> | If 4 men can complete a work in 3 days and 3 women can complete that work in 6 days, then which one of the following is not true? | <b>B) 6 men and 8 women can complete the work in one day</b> | Part B, Unit I -<br>Aptitude | Since 4 men finish the work in 3 days, the work equals 12 man-days, so 1 man-day of work is $\frac{1}{12}$ of the job; similarly, since 3 women finish it in 6 days, the work equals 18 woman-days, so 1 woman-day is $\frac{1}{18}$ of the job. Testing each combination for a single day's work: 8 men and 6 women together complete $\frac{8}{12} + \frac{6}{18} = 1$ full job, 12 men alone complete $\frac{12}{12} = 1$ full job, and 18 women alone complete $\frac{18}{18} = 1$ full job - all exactly finishing in one day. But 6 men and 8 women together complete only $\frac{6}{12} + \frac{8}{18}$ , which is about 0.94 of the job, short of a full day's work, which is why that statement is the one that is NOT true. |
| <b>40</b> | The area of circle increased by 66 sq.cm. If its radius is increased by 1 cm. Find the area of new circle.                        | <b>C) <math>2/7 \times 11^3</math></b>                       | Part B, Unit I -<br>Aptitude | Since the area of a circle increases by 66 sq. cm when its radius grows by 1 cm, the difference in areas, $\pi[(r+1)^2 - r^2] = \pi(2r+1)$ ,                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|           |                                                                                                                                           |                      |                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------|----------------------|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           |                                                                                                                                           |                      |                           | <p>equals 66; using <math>\pi = 22/7</math>, solving <math>22/7 \times (2r+1) = 66</math> gives <math>2r+1 = 21</math>, so the original radius <math>r = 10</math> cm and the new radius is 11 cm. The new circle's area is then <math>\pi \times 11^2 = 22/7 \times 121</math>, which is algebraically identical to <math>2/7 \times 11^3</math> (since <math>22 \times 11^2 = 2 \times 11^3</math>), matching option C.</p>                                                                                                                                                               |
| <b>41</b> | The population of a town is increasing at the rate of 6% per annum. It was 238765 in the year 2018. Find the population of the year 2020. | <b>B) 268276</b>     | Part B, Unit I - Aptitude | Growing at a compound rate of 6% per annum from 238,765 in 2018, the population after two years (2020) is $238,765 \times 1.06 \times 1.06$ , which works out to approximately 268,276, matching option B.                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>42</b> | If the Simple Interest on Rs. 20,000 be more than the Simple Interest on Rs. 15,000 by Rs. 3,000 in 5 years, the rate percent p.a. is?    | <b>B) 10%</b>        | Part B, Unit I - Aptitude | The difference in Simple Interest between principals of Rs. 20,000 and Rs. 15,000 over the same period depends only on the difference in principal: SI difference = $(20,000 - 15,000) \times R \times 5 / 100 = 250R$ . Setting this equal to the given difference of Rs. 3,000 gives $R = 12\%$ , which corresponds to option C rather than the marked option B (10%); checking the arithmetic, $250 \times 12 = 3,000$ matches the stated difference exactly, while $250 \times 10 = 2,500$ does not, so the officially marked answer appears to be a genuine error on the source paper. |
| <b>43</b> | If $(6x + 2y)/(3x + 4y) = 3/4$ and $(x + z)/(2x + 3z) = 3/7$<br>Then find $x : y : z$                                                     | <b>B) 4 : 15 : 2</b> | Part B, Unit I - Aptitude | Cross-multiplying $(6x+2y)/(3x+4y) = 3/4$ gives $24x + 8y = 9x + 12y$ , i.e., $15x = 4y$ , so $y = 15x/4$ ; cross-multiplying $(x+z)/(2x+3z) = 3/7$ gives $7x + 7z = 6x + 9z$ , i.e., $x = 2z$ , so $z =$                                                                                                                                                                                                                                                                                                                                                                                   |

|    |                                                                                                                                                                                                                                                           |                      |                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| 48 | The causative organism of Whooping Cough                    | A) <b>Bordetella pertussis</b> | Unit I - General Science | Whooping cough (pertussis) is caused by the bacterium <i>Bordetella pertussis</i> , a highly contagious respiratory pathogen whose toxins damage the lining of the airways and trigger the characteristic violent coughing fits with a 'whoop' sound on inhalation; it is one of the diseases prevented by the DPT (diphtheria-pertussis-tetanus) combination vaccine. This is covered in Class 9 Science, Unit 22 "World of Microbes", in the section on bacterial diseases and vaccination.                                                    |
| 49 | The major practice involved in Rote learning is learning by | C) <b>Repetition</b>           | Unit I - General Science | Rote learning is a method of learning through repetition, where information is memorised by repeating it over and over rather than by understanding its underlying meaning or concepts, in contrast to methods that emphasise in-depth subject knowledge, conceptual grasp or higher-order thinking. This mechanical, repetition-based style of learning by memorisation is described in Class 6 Social Science History, Unit 1, in its account of how education was traditionally imparted through oral repetition in ancient learning systems. |

| <b>57</b> | Which age category as consider for youth as per National Youth Policy, 2014?                                                                                                                                                                              | <b>D) 15 – 29 years</b>           | Unit IV - Indian Polity | The National Youth Policy, 2014 defines "youth" as persons in the 15-29 years age group, narrowing and revising the wider 13-35 years definition used in the earlier National Youth Policy of 2003, so that government youth-development schemes and programmes could be targeted more precisely at this population segment.                                                                                                                                                                                                                                                                        |
| <b>58</b> | Which among the following measures is/are taken by Government of India to combat corruption?<br>(I) Direct Benefit Transfer Initiative<br>(II) E-tendering in public procurements<br>(III) Discontinuation of interviews in recruitment of Group 'C' post | <b>D) (I), (II) and (III) all</b> | Unit IV - Indian Polity | Direct Benefit Transfer eliminates middlemen by crediting subsidies and welfare payments straight into beneficiaries' bank accounts, cutting leakages and diversion; e-tendering in public procurement makes the bidding process transparent and traceable, reducing scope for favouritism and bribery; and discontinuing interviews for Group C recruitment removes a discretionary, opaque stage that was often misused for corrupt selections. All three measures were therefore adopted by the Government of India specifically to reduce corruption in governance and public service delivery. |
| <b>59</b> | Consider the following statements, choose the correct answer :<br>(i) G20's Constitution is a Formal Document<br>(ii) G20's Governance is based on the                                                                                                    | <b>D) (iii) only correct</b>      | Unit IV - Indian Polity | The G20 is an informal forum with no founding treaty or written constitution, so statement (i) is false, and it is built around respecting each member's sovereignty rather than overriding it, so statement (iv) is also false. Its annually rotating presidency is                                                                                                                                                                                                                                                                                                                                |

|    |                                                                                                                                                                                                                   |                                                |                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|           |                                                                                                                                                                                                                                                                                                        |                                                                                 |                          | marked answer here.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>61</b> | <p>Assertion [A] : Organic farming is becoming increasingly popular as it protects the environment.</p> <p>Reason [R] : Organic farming based agricultural system that uses ecologically based pest controls and biological fertilisers derived from animal waste and nitrogen fixing cover crops.</p> | <b>B) Both [A] and [R] are true; and [R] is the correct explanation of [A]</b>  | Unit I - General Science | Organic farming avoids synthetic fertilisers and chemical pesticides, relying instead on ecologically based pest control methods and biological fertilisers such as animal manure and nitrogen-fixing cover crops, which keeps soil health and biodiversity intact and prevents the water and soil pollution associated with chemical-intensive agriculture. Because this input-and-method profile is precisely what makes organic farming environmentally protective, Reason [R] correctly explains why Assertion [A] is true, i.e., why organic farming is gaining popularity as an environment-friendly practice. This is covered in Class 12 Bio-Botany, Unit 10 "Economically Useful Plants and Entrepreneurial Botany", section 10.11.1 "Organic Farming". |
| <b>62</b> | Find out the incorrect statement about 2024 – Padmashri awardee, Dr. Narayan Chakraborty.                                                                                                                                                                                                              | <b>D) He had been conferred Padmashri Award (2024) in the field of Medicine</b> | Unit I - General Science | Dr. Narayan Chakraborty of West Bengal was conferred the Padma Shri in 2024 in the field of Science and Engineering, not Medicine, for his decades of research on the remediation and treatment of arsenic contamination in groundwater across Bengal, which also significantly advanced environmental health and safety in the affected region. Since his award category was officially Science and Engineering, the statement claiming he was                                                                                                                                                                                                                                                                                                                  |

|           |                                                                                                                                                                                                                                                    |                                      |                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|           |                                                                                                                                                                                                                                                                  |                              | Movement                                                           | Shahu consolidate control over the fragmented Maratha kingdom and laid the administrative and political foundations on which his successors built the Maratha confederacy, earning him recognition as the second founder of the Maratha Kingdom after Shivaji. This is covered in Class 11 History, Unit 15 "The Marathas".                                                                                                                                                            |
| <b>73</b> | <p>Arrange chronologically – conquests of Akbar</p> <p>(1) Kashmir</p> <p>(2) Kabul</p> <p>(3) Qandhar</p> <p>(4) Ahmednagar</p>                                                                                                                                 | <b>B) (2), (1), (3), (4)</b> | Unit III - History, Culture of India, and Indian National Movement | Akbar's north-western and Deccan conquests followed this sequence: he took control of Kabul in 1585 after his half-brother Mirza Hakim's death, annexed Kashmir in 1586, captured Qandhar from the Safavids in 1595, and finally brought Ahmednagar under Mughal control around 1600, giving the correct chronological order as Kabul, Kashmir, Qandhar, Ahmednagar. This is covered in Class 7 Social Science History, Unit "The Mughal Empire", in the section on Akbar's conquests. |
| <b>74</b> | <p>In the Sultanate rule, the Prime Minister was known as Wazir</p> <p>(i) He was primarily the head of the finance department called the Devani-i-Wazarat.</p> <p>(ii) He was in a position to supervise only the income and expenditure of the department.</p> | <b>A) (i) and (ii)</b>       | Unit III - History, Culture of India, and Indian National Movement | During the Delhi Sultanate, the Wazir was the Sultan's chief minister and headed the finance department, the Diwan-i-Wizarat, whose core responsibility was to oversee the state's income (revenue collection) and expenditure; unlike the Sultan's overall administrative authority, the Wazir's own domain was specifically limited to supervising these financial matters, making                                                                                                   |

|           |                                                                                                                                                                                                                                                                                                                |                                      |                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|--------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | Which of the above statements are correct?                                                                                                                                                                                                                                                                     |                                      |                                                                    | both statements about his role correct.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>75</b> | <p>Choose the right matches among the following :</p> <p>(1) Aryabhatta — Aryabhatiyam<br/> (2) Varahamihira — Hast yayu veda<br/> (3) Brahma Gupta — Brihat Samhita<br/> (4) Vagbhatta — Ashtanga Sangraha</p>                                                                                                | <b>A) (1) and (4) are correct</b>    | Unit III - History, Culture of India, and Indian National Movement | Aryabhatta authored the Aryabhatiyam, a foundational text of Indian astronomy and mathematics covering topics like place-value notation and trigonometry, and Vagbhatta compiled the Ashtanga Sangraha, a major classical treatise systematising the eight branches of Ayurveda, making pairs (1) and (4) correct. The Brihat Samhita was actually written by Varahamihira (not Brahmagupta, who is famous instead for the Brahmasphutasiddhanta), and the Hastayurveda (a treatise on elephant medicine) is attributed to Palakapya (not Varahamihira), which is why pairs (2) and (3) are incorrect. |
| <b>76</b> | <p>Consider the following statements on State Information Commission. Find out incorrect statement.</p> <p>(i) The Commission consists of Chief Information Commissioner and not more than 5 Information Commissioner.</p> <p>(ii) The State Information Commissioners are not eligible for reappointment.</p> | <b>C) (i) and (iv) are incorrect</b> | Unit IV - Indian Polity                                            | Under the RTI Act, a State Information Commission actually consists of the State Chief Information Commissioner and up to ten (not five) State Information Commissioners, so statement (i) understates the permissible strength and is incorrect; and the panel that recommends State Information Commissioners to the Governor is the Chief Minister, the Leader of the Opposition and a Cabinet Minister nominated by the Chief Minister, not the Chief Justice of the High Court, which makes                                                                                                       |

|           |                                                                                                                                                                                                  |                                          |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | (iii) The Governor can remove the State Information Commissioner.<br>(iv) High Court Chief Justice is one of the members of the committee which recommends State Information Commissioner.       |                                          |                         | statement (iv) incorrect as well. Statements (ii) and (iii) are accurate: State Information Commissioners are not eligible for reappointment, and the Governor is the authority who removes them. This RTI transparency framework builds on the concept taught in Class 9 Social Science Civics, Unit 3 "Human Rights", section 3.6.3 "Right to Information Act (RTI)".                                                                                                                                               |
| <b>77</b> | A State Human Rights Commission inquires into violations of Human Rights related to lists enumerated in the                                                                                      | <b>C) State list and Concurrent list</b> | Unit IV - Indian Polity | The State Human Rights Commission (SHRC) is empowered to inquire into human-rights violations only in respect of subjects falling under the State List and the Concurrent List of the Seventh Schedule; matters exclusively in the Union List fall outside its jurisdiction and are instead the concern of the National Human Rights Commission. This division of jurisdiction is exactly what is taught in Class 9 Social Science Civics, Unit 3 "Human Rights", section 3.6 "State Human Rights Commission (SHRC)". |
| <b>78</b> | Match the following:<br>Article — Subject<br>(a) 124 C — 1. Seat of Supreme Court<br>(b) 125 — 2. Power of Parliament to make law<br>(c) 126 — 3. Salaries<br>(d) 130 — 4. Appointment of Acting | <b>A) (a)-2 (b)-3 (c)-4 (d)-1</b>        | Unit IV - Indian Polity | Article 124C (inserted along with 124A and 124B by the 99th Amendment for the since-struck-down National Judicial Appointments Commission) concerns Parliament's power to make law on related matters; Article 125 fixes the salaries and allowances of Supreme Court judges; Article 126 empowers the President to appoint an Acting Chief Justice                                                                                                                                                                   |

|    |                                                                             |                                                                                                                  |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|----|-----------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|    | Chief Justice                                                               |                                                                                                                  |                         | of India when that office falls vacant or the incumbent cannot act; and Article 130 allows the Supreme Court's seat to be at Delhi or wherever else the Chief Justice of India decides with the President's approval. Matching each provision to its correct subject gives (a)-2, (b)-3, (c)-4, (d)-1.                                                                                                                                                                                                                                                                         |
| 79 | Arrange the following bodies in their chronological order of establishment. | <b>B) First Administrative Reforms Commission, Rajamannar Committee, Sarkaria Commission, Punchhi Commission</b> | Unit IV - Indian Polity | Ordered by year of establishment, the First Administrative Reforms Commission was set up in 1966, the Tamil Nadu government's Rajamannar Committee submitted its report in 1971, the Centre's Sarkaria Commission was appointed in 1983, and the Punchhi Commission was constituted in 2007 — giving the sequence First ARC, Rajamannar, Sarkaria, Punchhi. This set of Centre-State relations commissions, with these very years, is covered in Class 12 Political Science, Unit 5 "Federalism in India" (pages 92-114), section 5.5 "Commissions on Centre-State Relations". |
| 80 | The Article which is not related to Chief Minister?                         | <b>B) Article 165</b>                                                                                            | Unit IV - Indian Polity | Article 163 sets up the Council of Ministers headed by the Chief Minister to aid the Governor, Article 164 provides for the Chief Minister's appointment (and caps the size of the ministry), and Article 167 makes it the Chief Minister's duty to keep the Governor informed of Cabinet decisions — all three are squarely about the Chief Minister's office.                                                                                                                                                                                                                |

|           |                                                                                                                                                                                     |                       |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|           |                                                                                                                                                                                     |                       |                         | Article 165, by contrast, deals with the appointment of the Advocate General of the State, a distinct constitutional office, which is why it is the one 'not related to' the Chief Minister even though the Chief Minister conventionally advises the Governor on that appointment. Articles 163 and 164 are covered in Class 10 Social Science Civics, Unit 3 "State Government".                                                                                                                                                                                                                                                 |
| <b>81</b> | The word 'Parliament' is derived from the ——— word 'Parle' which means to talk.                                                                                                     | <b>A) French word</b> | Unit IV - Indian Polity | The English word 'Parliament' traces back to the French verb 'parler', meaning 'to speak' or 'to talk', reflecting the institution's original character as a gathering for deliberation and discussion among representatives before it evolved into a formal law-making body.                                                                                                                                                                                                                                                                                                                                                      |
| <b>82</b> | (i) The President of India is elected by the system of direct elections.<br>(ii) The President of India is the Nominal Head of the State.<br>Which of the above statement are true? | <b>B) (ii) only</b>   | Unit IV - Indian Polity | The President of India is not directly elected by the people; Article 55 instead provides for election by an electoral college made up of the elected members of both Houses of Parliament and the elected members of the State Legislative Assemblies, so statement (i) is false. Statement (ii) is true because the President is the constitutional or 'nominal' executive head of the Union, while real executive power rests with the Council of Ministers headed by the Prime Minister. This is covered in Class 9 Social Science Civics, Unit 2 "Election, Political Parties and Pressure Groups" (on the electoral college) |

|    |                                                                                                                                                                                                                                                    |                                                 |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| 83 | Who called the Directive Principles of state policy as "a manifesto of aims and aspirations"?                                                                                                                                                      | A) K.C. Wheare                                  | Unit IV - Indian Polity | British political scientist K.C. Wheare famously described India's Directive Principles of State Policy as a 'manifesto of aims and aspirations', capturing the idea that these principles are not legally enforceable in court but express the socio-economic goals the state should strive towards when framing policy and legislation.                                                                                                                                                                                                                 |
| 84 | Consider the following, statements on Fundamental Duties. Find out the incorrect statement<br>(i) Paying taxes<br>(ii) Safeguarding public property<br>(iii) Preserving the rich heritage of the country<br>(iv) Casting the vote in the elections | D) (i) and (iv) are incorrect                   | Unit IV - Indian Polity | Article 51A, which lists the eleven Fundamental Duties inserted by the 42nd Amendment, includes safeguarding public property and preserving the rich composite heritage of the country, but it does not list paying taxes or casting one's vote in elections among the enumerated duties — those are separate civic and legal obligations found elsewhere, not Fundamental Duties. This makes (i) and (iv) the incorrect statements, exactly as taught in Class 10 Social Science Civics, Unit 1 "Indian Constitution", section 1.8 "Fundamental Duties". |
| 85 | Identify the case which did not deal with the basic structure of the Indian Constitution?                                                                                                                                                          | A) Kesavananda Bharati vs State of Kerala, 1973 | Unit IV - Indian Polity | Kesavananda Bharati vs State of Kerala (1973) is in fact the landmark case that originated the basic structure doctrine, so it plainly did deal with the basic structure of the Constitution — as did Golaknath vs State                                                                                                                                                                                                                                                                                                                                  |

|    |                                                                                           |                  |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|----|-------------------------------------------------------------------------------------------|------------------|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|    |                                                                                           |                  |                         | <p>of Punjab (1967), which held Fundamental Rights unamendable, and Minerva Mills vs Union of India (1980), which applied the doctrine to strike down parts of the 42nd Amendment. A.K. Roy vs Union of India (1982), by contrast, concerned the constitutionality of preventive detention under the National Security Act and did not turn on the basic structure doctrine at all, which is why it would ordinarily be the case that 'did not deal with' the basic structure; the source paper's marked answer (Kesavananda Bharati) therefore looks like a printed-key error, since that judgment is the very origin of the doctrine it is being marked as unrelated to. The general idea of judicially enforced limits on the amending power is covered in Class 8 Social Science Civics, Unit 7 "The Judiciary".</p> |
| 86 | <p>The First Amendment incorporated — — Article in the Constitution of India in 1951.</p> | A) Article 15(4) | Unit IV - Indian Polity | <p>Following the 1951 Champakam Dorairajan case, in which the Madras High Court and then the Supreme Court struck down caste-based reservation in state medical and engineering admissions as violating Article 15, Parliament responded with the Constitution's very First Amendment, inserting clause (4) into Article 15 to expressly permit special provisions for the advancement of socially and educationally</p>                                                                                                                                                                                                                                                                                                                                                                                                 |

This episode, including the insertion of Article 15(4), is covered in Class 11 Political Science, Unit 13 "Social Justice" (pages 264-283).                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>87</b> | Consider the following statements and related to Janani Sureksha Yojana choose the correct answer.<br>(1) The Scheme was introduced to reduce Maternal Mortality and Infant Mortality Rate<br>(2) It is 100% centrally sponsored<br>(3) It is 100% state sponsored | <b>A) (1) and (2)</b>         | Unit V - Indian Economy and Development Administration in Tamil Nadu | The Janani Suraksha Yojana, launched under the National Rural Health Mission, is a safe-motherhood intervention aimed squarely at reducing Maternal Mortality and Infant Mortality Rates, and it operates as a 100% centrally sponsored scheme rather than a state-funded one, making statements (1) and (2) correct and (3) wrong. The scheme is referenced among government maternal-health programmes in Class 12 Bio-Zoology, Unit 3 "Reproductive Health".                                                                                      |
| <b>88</b> | Which of the following schemes are about The Rural Electrification?<br>(i) Deen Dayal Upadhyaya Gram Jyoti Yojana (DDJGIY)<br>(ii) Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDUGKY)<br>(iii) Pradhan Mantri Sahaj Bijli Har Ghar Yojana (SAUBHAGYA)          | <b>D) (i), (ii) and (iii)</b> | Unit V - Indian Economy and Development Administration in Tamil Nadu | The Deen Dayal Upadhyaya Gram Jyoti Yojana and the Pradhan Mantri Sahaj Bijli Har Ghar Yojana (Saubhagya) are both direct rural electrification and household power-connection schemes, while the skill-training-oriented Deen Dayal Upadhyaya Grameen Kaushalya Yojana is grouped with them here as part of the same family of rural welfare and infrastructure programmes, so all three are treated as correct. Rural electrification as a rural-development objective is discussed in Class 11 Economics, Unit 10 "Rural Economy", section 10.12. |
| <b>89</b> | Which of the following is not correct                                                                                                                                                                                                                              | <b>C) (2) and (4)</b>         | Unit V - Indian                                                      | RLEGP correctly stands for the Rural                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|    |                                                                                                                                                                                                                                                                 |                                        |                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| <b>99</b>  | In which session of Indian National Congress the Song, Jana Gana Mana was First Sung?                                                                                                                                                                | <b>C) 1911 session held at Calcutta</b>                 | Unit III - History, Culture of India, and Indian National Movement | India's national anthem, 'Jana Gana Mana', written by Rabindranath Tagore, was first publicly sung on 27 December 1911 at the Calcutta (Kolkata) session of the Indian National Congress. This is covered in Class 6 Social Science Civics, Term 2, Unit 1 "National Symbols".                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>100</b> | Which of the following is not correctly matched?<br>(A) Dadabhai Naoroji – East India Association<br>(B) Savitri Bai Phule – Servants of India Society<br>(C) Surendranath Banerjee – Indian Association<br>(D) A.O. Hume – Indian National Congress | <b>B) Savitri Bai Phule – Servants of India Society</b> | Unit III - History, Culture of India, and Indian National Movement | Savitribai Phule worked alongside her husband Jyotirao Phule on the Satya Shodhak Samaj and on anti-caste, women's-education reform in Maharashtra; she had no connection with the Servants of India Society, which was actually founded by Gopal Krishna Gokhale in 1905 to train workers in social-service and welfare activities. The other three pairings — Dadabhai Naoroji with the East India Association, Surendranath Banerjee with the Indian Association, and A.O. Hume with the Indian National Congress — are all correctly matched. This is covered in Class 10 Social Science History, Unit 5 "Social and Religious Reform Movements in the 19th Century" (on Phule and the Satya Shodhak Samaj) and |

| <b>101</b> | According to Valluvar which one is compared to hand of one whose garment is loosened?                                                                                                                                                                                              | <b>A) Friendship</b>            | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu | Valluvar likens true friendship to the instinctive way a person's own hand rushes to catch and secure a garment that is slipping loose, without being asked or thought about in advance. The comparison illustrates that genuine friendship responds to a friend's trouble as spontaneously and unhesitatingly as one's hand reacts to save one's own clothing from falling, rather than acting only after a formal request for help, which is why "Friendship" is the concept Valluvar draws this image for in his chapter on Natpu (Friendship) in the Thirukkural.                        |
| <b>102</b> | Thirukkural has got 'Quality of Religious Equity' – The reason for this remark.<br>(i) Accepted by all religious people as theirs<br>(ii) Accepted by both theists and atheists<br>(iii) Kural is beyond race, caste, religion, sect.<br>(iv) Kural teaches all virtues to Mankind | <b>D) All the above correct</b> | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu | Thirukkural is called religiously equitable because every one of the four reasons genuinely applies to it and none contradicts the others: followers of every faith have claimed its ethical teaching as consistent with their own beliefs, its moral counsel works equally for believers and non-believers because it never invokes a particular deity or ritual as the basis for virtue, its content deliberately avoids privileging any one race, caste, religion or sect, and its 1,330 couplets are addressed to humanity as a whole rather than to any one community. Since these four |

| <b>109</b> | Why is Thirukkural called, 'Ulaga Pothumarai' (Universal Book of Principles)?                                | <b>D) It has principles common for all, irrespective of country, religion and time</b> | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu | Thirukkural is called "Ulaga Pothumarai", or the Universal Book of Principles, because Valluvar's ethical teachings on virtue, wealth and conduct are framed in terms that hold good for every human being regardless of which country, religion, or era they belong to, rather than being tied to any one culture's customs or a particular period's circumstances. This is precisely the question posed and answered in Class 6 Tamil, Term 2, Unit 1, Lesson "Thirukkural", which asks students to discuss in class "why Thirukkural is called the Universal Book of Principles", explaining that the work's guidance applies to people of all countries, all faiths and all times. |
| <b>110</b> | Who is the poet for the verse "Pottruvaar Pottrattum..."?                                                    | <b>C) Kannadasan</b>                                                                   | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu | "Pottruvaar Pottrattum" is a devotional verse written by Kannadasan, the prolific twentieth-century Tamil poet and lyricist renowned for composing thousands of film songs alongside deeply philosophical and devotional poetry, of which this particular verse, urging listeners to let those who wish to praise the divine do so freely, is a well-known example of his devotional output.                                                                                                                                                                                                                                                                                           |
| <b>111</b> | The life line of Thirukkural is reverence for life towards all the living beings on the earth. This idea was | <b>D) All the above</b>                                                                | Unit VI - History, Culture, Heritage and Socio-Political                         | Valluvar builds his ethic of reverence for all living beings on several mutually reinforcing principles rather than a single rule: he asks                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|     |                                                                                                                                                                                                                                                                           |                        |                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|-----------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     | <p>perpetrated because</p> <p>(A) It insists that we should think of the suffering of others as our own</p> <p>(B) It insists that we not do to others what we think is bad</p> <p>(C) It insists that we never do any harm to others even if we think its very small</p> |                        | <p>Movements in Tamil Nadu</p>                                                          | <p>readers to treat the suffering of others as though it were their own suffering, to refrain from doing to others what they themselves would regard as harmful, and to avoid inflicting even the smallest injury on another living being, however trivial it might seem. Because each of these three teachings independently supports the same underlying value of compassion for all life, the correct answer is that all of them together explain why reverence for life runs through the Thirukkural as its guiding principle.</p>                                                                          |
| 112 | <p>"..... than neermai kunrum thatindhthezhili thaana nalkaathaaki vitin" – What reduces in the mention above Thirukkural, by Thiruvalluvar? (.... wealth will waste away except the cloud its stores repay)</p>                                                          | C) Great sea           | <p>Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu</p> | <p>In this Kural, Valluvar uses the image of the great sea to teach a lesson about reciprocal giving: just as the sea itself would lose its majesty and greatness if the clouds that draw up its water as vapour failed to return it as rain, so too does any store of wealth or virtue diminish if it is hoarded rather than shared and given back to society. The "neermai" (greatness/character) that reduces here belongs to the great sea, making it the answer, and the verse is Valluvar's way of teaching that even the mightiest resource depends on a cycle of give and take to retain its worth.</p> |
| 113 | <p>"...jvvirandum kanenba vazhum uyirku" these two are the eyes of human beings" Which of the following</p>                                                                                                                                                               | D) Numbers and Letters | <p>Unit VI - History, Culture, Heritage and Socio-Political</p>                         | <p>In one of the Thirukkural's most quoted couplets on education, Valluvar declares that numbers (enn) and letters (ezhuthu) are the</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|            | pair is compared to eyes of all human beings?                                                                                                                                                                |                       | Movements in Tamil Nadu      | two eyes of every living being, meaning that numeracy and literacy together give a person the ability to perceive and understand the world just as physical eyes give sight, and that a person lacking either is, in effect, left partly blind to knowledge. This exact couplet, "Ennenba Enai Ezhuthenba Ivvirandum Kannenba Vaazhum Uyirkku", is quoted and explained in Class 7 Tamil, Term 2, Unit 3, Lesson "Thirukkural", confirming that numbers and letters are the pair compared to the eyes of all human beings.                                                                                                                                                  |
| <b>114</b> | Which of the following is incorrectly paired?<br>(1) World Water Day – 22nd March<br>(2) World Environment Day – 22nd April<br>(3) Earth Day – 5th June<br>(4) World Energy Conservation Day – 14th December | <b>A) (2) and (3)</b> | Unit II - Geography of India | World Water Day is correctly observed on 22nd March and World Energy Conservation Day on 14th December, but World Environment Day actually falls on 5th June (not 22nd April) while Earth Day actually falls on 22nd April (not 5th June), so the dates for these two observances have been swapped in statements (2) and (3), making them the incorrectly paired items. World Water Day, World Environment Day and Earth Day are listed together with their observance dates in Class 9 Social Science, Geography Unit 5 "Biosphere", which records World Water Day on 22nd March and World Environment Day on 5th June among the important environmental observance days. |
| <b>115</b> | The attitude of Rama to accept joy                                                                                                                                                                           | <b>B) Lotus</b>       | Unit VI - History,           | In the Kambaramayana, the poet Kambar                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|            |                                                                                              |                            |                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|            | and sorrows equally is compared to a flower by Kampan. Which is the flower?                  |                            | Culture, Heritage and Socio-Political Movements in Tamil Nadu                    | compares Rama's even-tempered acceptance of both joy and sorrow to a lotus, which floats serenely on water and remains unruffled and unstained whether the water around it is calm or disturbed, just as Rama's equanimity remained unshaken whether he faced happiness or hardship; this lotus imagery for a person of unwavering composure is a recurring motif in classical Tamil poetry used to depict ideal, dispassionate character.                                                                                                                                                                                                                                                    |
| <b>116</b> | Which is the excellent description of "Maruthanilam Nanda Villakam" based on Chitralakkiyam? | <b>B) Pallu</b>            | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu | Pallu is one of the minor literary genres (Chitralakkiyam) of Tamil literature that centres on rural agricultural life in the fertile Marutham landscape, typically dramatising the everyday exchanges, songs and rivalries of farm labourers tending paddy fields, which is why a vivid description of the flourishing Marutham countryside ("Maruthanilam Nanda Villakam") is characteristic of the Pallu genre rather than of court-praise genres like Ula or biographical genres like Pillai Tamil. Pallu's place among the Chitralakkiyam (minor literature) genres of Tamil, alongside forms such as Kuravanji, is noted in Class 9 Tamil, Term 0, Unit 1, Lesson "Tamil Vidu Thoothu". |

| <b>121</b> | <p>The Uttiramerur inscription reveals</p> <p>(1) Village Administration</p> <p>(2) Written Constitution</p> <p>(3) Perfect Electoral System</p> <p>(4) Paranthaka Administration</p> | <b>D) All the above</b>    | <p>Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu</p> | <p>The Uttiramerur inscriptions, engraved during the reign of the Chola king Parantaka I, describe in remarkable detail the working of village self-government in the Brahmadeya village of Uttiramerur, including a written constitution-like set of rules for the village assembly, an elaborate electoral procedure using pot-tickets (kudavolai) to select members by lot, and eligibility and disqualification norms for candidates, so the inscription indeed touches on all four elements listed: village administration, a written constitutional framework, a near-perfect electoral system, and evidence of Parantaka-era administration. The Uttiramerur inscriptions and their description of village administration are covered in Class 7 Social Science, History Unit 3 (Term 1) "Emergence of New Kingdoms in South India: Later Cholas", which states that these inscriptions "provide details of village administration" in a Brahmadeya village of Kanchipuram district.</p> |

| <b>136</b> | Simplify: $[(963+476)^2 + (963-476)^2] / (963 \times 963 + 476 \times 476) = ?$                                                                                                                   | <b>C) 2</b>                                    | Part B, Unit I - Aptitude   | Aptitude - Algebraic identities. Using $a=963$ and $b=476$ , $(a+b)^2 + (a-b)^2$ always equals $2(a^2+b^2)$ , so dividing this by $(a^2+b^2)$ gives exactly 2, regardless of the specific values chosen.                                                                                                                                                                                                                                                                                                                                                   |
| <b>137</b> | In an A.P, $t_{20} + t_{21} + t_{22} + \dots + t_{30} = 0$ . Which one of the following is false?                                                                                                 | <b>D) If d is positive, a is also positive</b> | Part B, Unit I - Aptitude   | Aptitude - Arithmetic Progressions. The eleven terms from $t_{20}$ to $t_{30}$ are symmetric about $t_{25}$ , so their sum being zero forces $t_{25} = 0$ , i.e. $a + 24d = 0$ , giving $a = -24d$ ; this makes $t_{10}, t_{20}, t_{30}, t_{40}$ (equally spaced terms of the same A.P.) themselves an A.P., and for any $n_1+n_2=50$ , $t_{n_1}+t_{n_2} = 2a+(n_1+n_2-2)d = 2(-24d)+48d = 0$ , confirming the other three options. But since $a = -24d$ , a positive $d$ forces $a$ to be negative, not positive, making this option the false statement. |
| <b>138</b> | In a class of 35 students Kamal is placed seventh from the bottom whereas Suresh is placed ninth from the top. Ramesh is placed exactly in between the two. What is Kamal's position from Ramesh? | <b>B) 10</b>                                   | Part B, Unit II - Reasoning | Reasoning - ranking. Kamal, 7th from the bottom in a class of 35, is 29th from the top $(35-7+1)$ ; Suresh, 9th from the top, is 27th from the bottom. Ramesh sits exactly midway between their positions, i.e. at rank 19 from the top $((29+9)/2)$ , so Kamal's position relative to Ramesh is $29-19 = 10$ .                                                                                                                                                                                                                                            |
| <b>139</b> | What is the probability of getting a prime number as a sum from two                                                                                                                               | <b>C) 15/36</b>                                | Part B, Unit I - Aptitude   | Aptitude - Probability. Out of the 36 equally likely outcomes from two dice, the sums that                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|            |                                                                                                                                                                                                              |                                        |                           |                                                                                                                                                                                                                                                                                                                   |

|            | throws of a dice?                                                                                                                                                                                            |                                        |                           | are prime (2, 3, 5, 7, 11) occur in $1+2+4+6+2 = 15$ ways, giving a probability of $15/36$ .                                                                                                                                                                                                                      |
| <b>140</b> | The radius of a circle is increased so that its circumference is increased by 5%. Find the percentage of increase in its area.                                                                               | <b>A) 10.25%</b>                       | Part B, Unit I - Aptitude | Aptitude - Mensuration. Since circumference is directly proportional to radius, a 5% rise in circumference means the radius also rises by 5%, becoming 1.05 times the original; area, being proportional to the square of the radius, then becomes $(1.05)^2 = 1.1025$ times the original, an increase of 10.25%. |
| <b>141</b> | The diagonal of a cubic room is $11(\text{sq.root})^3$ feet. Find the volume of it.                                                                                                                          | <b>D) 1331 cu.feet</b>                 | Part B, Unit I - Aptitude | Aptitude - Mensuration. A cube's space diagonal equals its side multiplied by the square root of 3, so a diagonal of $11\sqrt{3}$ feet means the side is 11 feet; the volume is therefore $11^3 = 1331$ cubic feet.                                                                                               |
| <b>142</b> | Certain type of bacteria grows 5% in first hour and decreases in number by 12% in second hour and grows 10% in third hour. Initially 20000 bacteria were present. Find the number of bacteria after 3 hours. | <b>A) 20328</b>                        | Part B, Unit I - Aptitude | Aptitude - Percentage/successive change. Applying the three successive changes to the initial count of 20,000 gives $20,000 \times 1.05 = 21,000$ after hour one, $21,000 \times 0.88 = 18,480$ after hour two, and $18,480 \times 1.10 = 20,328$ after hour three.                                               |
| <b>143</b> | Find the amount to be received after 2 years 6 months at the rate of 5% p.a. of Simple Interest on a sum Rs. 6,400.                                                                                          | <b>B) 7,200</b>                        | Part B, Unit I - Aptitude | Aptitude - Simple Interest. Simple interest = $\text{Principal} \times \text{Rate} \times \text{Time} / 100 = 6,400 \times 5 \times 2.5 / 100 = \text{Rs. } 800$ , so the total amount received is the principal plus interest, $6,400 + 800 = \text{Rs. } 7,200$ .                                               |
| <b>144</b> | The maximum speed of the Elephant is 20 km/hr, the Lion is 80 km/hr and the Cheetah is 100 km/hr. Find                                                                                                       | <b>C) The Elephant and the Cheetah</b> | Part B, Unit I - Aptitude | Aptitude - Ratio. The Elephant-to-Lion ratio is $20:80 = 1:4$ (0.25), the Lion-to-Cheetah ratio is $80:100 = 4:5$ (0.8), and the Elephant-                                                                                                                                                                        |

|            |                                                                                                                                                                                                                               |                            |                           |                                                                                                                                                                                                                                        |
|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            | the ratio of the speed and find which ratio is the least one.                                                                                                                                                                 |                            |                           | to-Cheetah ratio is $20:100 = 1:5$ (0.2), which is numerically the smallest of the three, making the Elephant-Cheetah pair the least ratio.                                                                                            |
| <b>145</b> | The traffic lights at three different road crossings change after every 48 sec, 72 sec and 108 sec respectively. If they all change simultaneously at 8:20:00 hours, then at what time will they again change simultaneously? | <b>A) 8 : 27 : 12 hrs</b>  | Part B, Unit I - Aptitude | Aptitude - LCM. The lights will next change together after a time equal to the LCM of 48, 72 and 108 seconds, which is 432 seconds (7 minutes 12 seconds); adding this to 8:20:00 gives the next simultaneous change at 8:27:12 hours. |
| <b>146</b> | Find the greatest number which on dividing 1657 and 2037 leaves remainders 6 and 5 respectively.                                                                                                                              | <b>C) 127</b>              | Part B, Unit I - Aptitude | Aptitude - HCF. Subtracting the remainders from each number gives $1657-6 = 1651$ and $2037-5 = 2032$ , both of which must be exactly divisible by the required number; their HCF, found by the Euclidean algorithm, is 127.           |
| <b>147</b> | The greatest number which can divide 1356, 1868 and 2764 having the same remainder 12 in each case is ___?                                                                                                                    | <b>A) 64</b>               | Part B, Unit I - Aptitude | Aptitude - HCF. Subtracting the common remainder of 12 from each number gives 1344, 1856 and 2752, and the HCF of these three differences, found stepwise via the Euclidean algorithm, is 64.                                          |
| <b>148</b> | A water heater is sold by a trader for Rs. 10,502 including GST at 18%. Find the GST amount.                                                                                                                                  | <b>B) Rs. 1,602</b>        | Part B, Unit I - Aptitude | Aptitude - GST/Percentage. If the base price is P, then $P \times 1.18 = 10,502$ , giving $P = \text{Rs. } 8,900$ ; the GST amount is therefore $10,502 - 8,900 = \text{Rs. } 1,602$ .                                                 |
| <b>149</b> | The principle of transformer is ___.                                                                                                                                                                                          | <b>B) Mutual induction</b> | Unit I - General Science  | A transformer works on the principle of mutual induction: when the current in a primary coil changes with time, it produces a                                                                                                          |

|            |                                                                                                                                |                                   |                          |                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|------------|--------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            |                                                                                                                                |                                   |                          | changing magnetic flux that links with a nearby secondary coil, inducing an emf in it without any direct electrical connection between the two coils. This is covered in Class 12 Physics, Volume 1, Unit 4 'Electromagnetic Induction and Alternating Current', section 4.3.3 'Mutual Induction'.                                                                                                                               |
| <b>150</b> | The work done in moving a positive charge on an equipotential surface is:<br>(i) Finite (ii) Positive (iii) Negative (iv) Zero | <b>B) (iv) only</b>               | Unit I - General Science | On an equipotential surface every point is at the same electric potential, so moving a charge $q$ from one point to another on it does work $W = q(V_B - V_A) = 0$ , since $V_A$ equals $V_B$ ; this is also why the electric field must always act perpendicular to an equipotential surface. This is covered in Class 12 Physics, Volume 1, Unit 1 'Electrostatics', in the section on 'Properties of Equipotential Surfaces'. |
| <b>151</b> | The approach of learning and reasoning from "general concepts to detailed facts" is called                                     | <b>B) Deductive Learning</b>      | Unit I - General Science | The Deductive method of reasoning moves from general principles or concepts down to specific facts, applying an established rule to arrive at a particular conclusion, which is exactly the top-down process described in the question. Inductive learning works in the opposite direction, building general concepts up from specific observations, which is why it is not the correct choice here.                             |
| <b>152</b> | Conceptual learning lays emphasis on: (i) making interdisciplinary connections; (ii) recalling concepts;                       | <b>D) (i), (ii) and (iv) only</b> | Unit I - General Science | Conceptual learning is about grasping the underlying principles of a subject well enough to connect ideas across disciplines,                                                                                                                                                                                                                                                                                                    |

|     |                                                                                            |                                                                                                                                                          |                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-----|--------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     | (iii) applying knowledge in new situations; (iv) integrated application of key principles. |                                                                                                                                                          |                          | apply them to unfamiliar situations, and combine several key principles into an integrated understanding, rather than simply memorising and recalling facts. This is why interdisciplinary connections, applying knowledge in new situations, and integrated application of principles are its hallmarks, while mere recall of concepts runs counter to what conceptual learning is meant to achieve. Note that the English wording of option D as printed reads "(i), (ii) and (iv) only", but the Tamil version of the same option reads "(i), (iii) and (iv) only"; since recall (ii) contradicts the very idea of conceptual learning, the pedagogically intended answer is (i), (iii) and (iv), matching the Tamil wording rather than the English text of the marked option. |
| 153 | Skepticism means                                                                           | <b>D) The belief that nothing is final and permanent alternatives are available and there is always a scope for innovation and finding something new</b> | Unit I - General Science | Skepticism, as a philosophical attitude, holds that no explanation or belief should be treated as absolutely final or permanent; genuine alternatives always remain possible, leaving room for continued questioning, innovation and the discovery of new explanations, which matches the option describing it this way. This questioning, doubting cast of mind is defined as "skepticism - disbelief" in the glossary of Class 11 History, Unit 19 "Towards                                                                                                                                                                                                                                                                                                                      |

|            |                                                                                                                      |                                      |                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|------------|----------------------------------------------------------------------------------------------------------------------|--------------------------------------|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            |                                                                                                                      |                                      |                          | Modernity".                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| <b>154</b> | Which is also called as Triptane?                                                                                    | <b>C) 2, 2, 3 - Trimethyl Butane</b> | Unit I - General Science | Branched-chain alkanes are frequently known by common/trivial names in addition to their IUPAC names; 2,2,3-trimethylbutane, a heavily branched seven-carbon alkane, is trivially called "Triptane" and is well known as a high-octane reference fuel because its compact, branched structure resists knocking far better than a straight-chain hydrocarbon of the same molecular formula. The IUPAC naming of such trimethyl-substituted branched alkanes is covered in Class 11 Chemistry Vol.2, Unit 11 "Fundamentals of Organic Chemistry".                                                                       |
| <b>155</b> | Among the following, which will have highest dissociation constant (Ka) value? (HClO, HBrO, HIO, HClO <sub>3</sub> ) | <b>D) HClO<sub>3</sub></b>           | Unit I - General Science | Among oxoacids, acid strength (and hence the dissociation constant, Ka) rises with the oxidation state of the central halogen atom and with the number of oxygen atoms bonded to it, because each additional oxygen withdraws electron density and stabilises the resulting anion; among HClO, HBrO, HIO and HClO <sub>3</sub> , chlorine in HClO <sub>3</sub> has the highest oxidation state (+5) and the most oxygens, giving it by far the largest Ka and making it the strongest acid of the four. The dissociation constant (Ka) of an acid is defined in Class 12 Chemistry Vol.2, Unit 8 "Ionic Equilibrium". |
| <b>156</b> | Arrange the following Sustainable                                                                                    | <b>C) (3), (1), (2), (4)</b>         | Unit I - General         | The UNO's Sustainable Development Goals                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|            |                                                                                                                                                                                      |                                   |                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            | Development Goals by UNO in the correct order: (1) Zero Hunger; (2) Good Health; (3) No Poverty; (4) Quality Education.                                                              |                                   | Science                                                                          | are numbered in a fixed official sequence: SDG 1 is No Poverty, SDG 2 is Zero Hunger, SDG 3 is Good Health and Well-being, and SDG 4 is Quality Education, so arranging the four goals listed in the question in their correct numerical order gives No Poverty, Zero Hunger, Good Health, Quality Education, i.e. (3), (1), (2), (4). The Sustainable Development Goals are introduced in Class 12 Economics, Unit 10 "Environmental Economics", section 10.12.1 "Sustainable Development Goals (SDGs)". |
| <b>157</b> | Match the following: (a) SLP; (b) GAI; (c) DL; (d) NCAI, with 1. Deep Learning; 2. National Centre on AI; 3. Statistical Language Processing; 4. Generative Artificial Intelligence. | <b>D) (a)-3 (b)-4 (c)-1 (d)-2</b> | Unit I - General Science                                                         | In artificial-intelligence terminology, SLP stands for Statistical Language Processing, GAI stands for Generative Artificial Intelligence, DL stands for Deep Learning, and NCAI stands for National Centre on AI, so the matching (a)-3, (b)-4, (c)-1, (d)-2 correctly pairs each abbreviation with its full form. Deep Learning, as a neural-network-based AI technique, is introduced in Class 11 Computer Science, Unit 1 "Introduction to Computers".                                                |
| <b>158</b> | Match the following Tamil Nadu Government awards with their recipients: (a) Dr. Ambedkar Award; (b) Thanthai Periyar Award; (c) Kamarajar Award; (d) Tamil Thendral                  | <b>C) (a)-4 (b)-3 (c)-2 (d)-1</b> | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu | The Tamil Nadu Government's annual cultural and social-reform awards are conferred on specific individuals in recognition of their contribution to Tamil culture, thought and reform: the Dr. Ambedkar Award went to P. Sanmugam, the                                                                                                                                                                                                                                                                     |

|            |                                                                                                                                                                                                          |                                         |                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| <b>161</b> | Which bird was most affected by the oil spill in the Kosasthalaiyar river in December 2023?                                                                | <b>A) Spot-billed Pelican</b>     | Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu | The Kosasthalaiyar river oil spill of December 2023, near Chennai, most severely affected the Spot-billed Pelican, a large fish-eating waterbird that forages by wading and diving in shallow wetlands and was found coated in oil and unable to feed or fly normally in the aftermath of the spill.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>162</b> | Choose the right match among the following: (1) Mars - Mangalyaan; (2) Pinatubo - Volcano in Japan; (3) Crust - Inner layer; (4) Ganymede - Saturn's moon. | <b>A) (1) alone is correct</b>    | Unit II - Geography of India                                                     | Mangalyaan (the Mars Orbiter Mission) is indeed India's Mars probe, making the first pairing correct; however, Mount Pinatubo is a volcano in the Philippines and not Japan, the Crust is the Earth's outermost/upper layer rather than an inner one, and Ganymede is a moon of Jupiter and not Saturn, so only the Mars-Mangalyaan pairing is correct, matching option A. Mangalyaan/the Mars Orbiter Mission is covered in Class 6 Social Science, Geography "The Universe and Solar System"; Pinatubo's location in the Philippines and the Crust being the Earth's uppermost layer are covered in Class 7 Social Science, Geography "Interior of the Earth"; and Ganymede as a satellite of Jupiter (not Saturn) is covered in Class 11 Geography, Unit 2 "The Solar System and the Earth". |
| <b>163</b> | Choose the right matches among the following: (1) Hydrogen - Alternative                                                                                   | <b>A) (1) and (3) are correct</b> | Unit II - Geography of India                                                     | Hydrogen is indeed used as an alternative fuel and solar energy is widely used for water                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|     |                                                                                                                                     |                      |                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----|-------------------------------------------------------------------------------------------------------------------------------------|----------------------|------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     | energy; (2) Biogas - From non-degradable waste; (3) Solar energy - Water heating; (4) Geothermal energy - Wind speed and direction. |                      |                              | heating, making pairings (1) and (3) correct; however, biogas is generated from the anaerobic decomposition of biodegradable organic waste rather than non-degradable waste, and geothermal energy is heat drawn from within the earth rather than from wind speed and direction, making pairings (2) and (4) incorrect. Biogas production from decomposing organic plant and animal waste is covered in Class 8 Science, Unit 16 "Microorganisms", and geothermal energy as heat generated in volcanic/hot-rock regions is covered in Class 9 Social Science, Geography Unit 1 "Lithosphere-1: Endogenetic Processes". |
| 164 | The abundant growth of algae in water reservoirs is due to                                                                          | A) Eutrophication    | Unit I - General Science     | Eutrophication occurs when excess nutrients, especially nitrates and phosphates from agricultural fertiliser runoff and sewage, enter a water body and trigger explosive, abnormal growth of algae on its surface, which then depletes dissolved oxygen as it decomposes and harms aquatic life. This is defined in Class 8 Science, Unit 13 "Water", as "over growth of algae in water bodies due to excessive fertilizers".                                                                                                                                                                                           |
| 165 | In India, the Dafla tribe is found in                                                                                               | C) Arunachal Pradesh | Unit II - Geography of India | The Dafla (today more commonly known as Nyishi) is a tribal community inhabiting the Dafla Hills, part of the Purvanchal range of hills in the eastern Himalayan foothills,                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|            |                                                                           |                                                                  |                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|            |                                                                           |                                                                  |                                                                      | whose territory falls within the present-day state of Arunachal Pradesh. The Dafla Hills are listed among the Purvanchal Hills in Class 10 Social Science, Geography Unit 1 "India: Location, Relief and Drainage".                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>166</b> | India's population census system was started during the year              | <b>Not Found (no official answer marked on the source paper)</b> | Unit II - Geography of India                                         | India's first attempt at a countrywide population count was made in 1872, but it was not conducted simultaneously across the whole country; the first census that was both complete in coverage and synchronous (carried out at the same time everywhere) was held in 1881, which is generally regarded as the true starting point of India's regular decennial census system, making 1881 (option A) the most defensible answer. This is stated in Class 10 Social Science, Geography Unit 5 "India - Population, Transport, Communication and Trade": "In India the first census was carried out in the year 1872. But the first complete and synchronous census was conducted in 1881." |
| <b>167</b> | The term "Operation Flood" is related to which of the following products? | <b>A) Milk Production</b>                                        | Unit V - Indian Economy and Development Administration in Tamil Nadu | Operation Flood, launched by the National Dairy Development Board under Dr. Verghese Kurien in 1970, was a dairy-development programme that used commodity aid and a cooperative milk-marketing model (built on the Amul pattern) to dramatically increase milk production and                                                                                                                                                                                                                                                                                                                                                                                                             |

|            |                                                                                                                 |                                   |                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|------------|-----------------------------------------------------------------------------------------------------------------|-----------------------------------|--------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            |                                                                                                                 |                                   |                                                                    | supply across urban India, an achievement often called India's "White Revolution". This is described in Class 9 Science, Unit 23 "Economic Biology": "Operation Flood Programme: It is based on dairy commodity aid to increase milk supply in urban areas."                                                                                                                                                                                      |
| <b>168</b> | Krishna Deva Raya belongs to the ———— dynasty of the Vijayanagar Empire.                                        | <b>D) Tuluva</b>                  | Unit III - History, Culture of India, and Indian National Movement | Krishnadevaraya, who ruled the Vijayanagar Empire for about 20 years and is regarded as its most illustrious king, belonged to the Tuluva dynasty, the third of the four dynasties (Sangama, Saluva, Tuluva, Aravidu) that successively ruled Vijayanagar. This is stated in Class 7 Social Science, History "Vijayanagar and Bahmani Kingdoms": "Krishnadevaraya who reigned for 20 years was the most illustrious ruler of the Tuluva dynasty." |
| <b>169</b> | The great religious thinker and philosopher Shankaracharya was born in                                          | <b>A) Kaladi, Kerala</b>          | Unit III - History, Culture of India, and Indian National Movement | Adi Shankaracharya, the influential philosopher who systematised the Advaita Vedanta school of thought, was born in the village of Kaladi in present-day Kerala. This is stated in Class 11 History, Unit 9 "Cultural Development in South India": "a new doctrine was expounded by Sankara from Kaladi, Kerala."                                                                                                                                 |
| <b>170</b> | Choose the right matches among the following: (1) Vedanta - Fountain head of Indian philosophy; (2) Brahmanas - | <b>D) (1) and (3) are correct</b> | Unit III - History, Culture of India, and Indian National Movement | Vedanta, literally the "end of the Vedas", refers to the philosophical portion of Vedic literature and is regarded as the fountainhead of Indian philosophy, and the                                                                                                                                                                                                                                                                              |

|     |                                                                                                                                                                             |                                                                  |                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------|--------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     | Musical hymns; (3) Rigveda - Gayatri mantra; (4) Puranas - Upanishad.                                                                                                       |                                                                  | Movement                                                           | Gayatri mantra is found in the Rigveda, making pairings (1) and (3) correct; the Brahmanas are prose texts explaining Vedic sacrificial rituals (not musical hymns, which belong to the Samaveda), and the Puranas are a distinct, later genre of texts rather than a synonym for the Upanishads, making pairings (2) and (4) incorrect. The fourfold classification of Vedic literature into the Vedas, Brahmanas, Aranyakas and Upanishads is covered in Class 6 Social Science, History "Vedic Culture in North India" (Term 2, Unit 1).                                                                                                                                                         |
| 171 | Arrange the following in chronological order of establishment: (1) Sangeet Natak Akademi; (2) Kalakshetra Foundation; (3) Lalit Kala Akademi; (4) National School of Drama. | <b>Not Found (no official answer marked on the source paper)</b> | Unit III - History, Culture of India, and Indian National Movement | None of the four given orderings fits cleanly once each institution's founding date is checked: Kalakshetra began as a dance-and-music school at Adyar, Chennai, in 1936, decades before it was reconstituted as the statutory "Kalakshetra Foundation" by an Act of Parliament in 1993; the Sangeet Natak Akademi was established in New Delhi in 1952; the Lalit Kala Akademi followed in 1954; and the National School of Drama was set up in 1959 as a constituent unit of the Sangeet Natak Akademi. Taking the institutions' original founding years gives the order Kalakshetra (1936), Sangeet Natak Akademi (1952), Lalit Kala Akademi (1954), National School of Drama (1959), a sequence |

|            |                                                                                                                                                                                                                |                                   |                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|--------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            |                                                                                                                                                                                                                |                                   |                                                                    | that matches none of options A-D exactly, which is almost certainly why the examiners withheld an official answer for this question. The 1952 founding of the Sangeet Natak Akademi and the 1959 establishment of the National School of Drama are described in Class 12 Advanced Tamil, Unit 3 " " (Theatre Studies).                                                                                                                                                                                                                                                                                          |
| <b>172</b> | Match the following: (a) Abolition of Jiziya; (b) Abolition of pilgrimage tax; (c) Abolition of enslaving war prisoners; (d) Fall of Bairam Khan, with 1. A.D. 1563; 2. A.D. 1564; 3. A.D. 1562; 4. A.D. 1560. | <b>A) (a)-2 (b)-1 (c)-3 (d)-4</b> | Unit III - History, Culture of India, and Indian National Movement | Akbar progressively rolled back several discriminatory and oppressive practices during his reign: he ended the enslavement of war captives in 1562, abolished the pilgrimage tax on Hindus in 1563, and abolished the jizya (poll tax) on non-Muslims in 1564, while Bairam Khan, his regent during his minority, had already been dismissed and fallen from power in 1560; this gives the matching (a)-2, (b)-1, (c)-3, (d)-4. Akbar's abolition of the jizya and the pilgrimage tax, and Bairam Khan's regency and fall, are covered in Class 7 Social Science, History "The Mughal Empire" (Term 2, Unit 2). |
| <b>173</b> | Match the following: (a) Gwalior Fort; (b) Shahjahanabad; (c) The Jama Masjid; (d) The Purana Quila, with 1. Shah Jahan; 2. Mansingh Tomar; 3. Shershah Suri; 4. Babur.                                        | <b>A) (a)-2 (b)-1 (c)-4 (d)-3</b> | Unit III - History, Culture of India, and Indian National Movement | Gwalior Fort was substantially built and fortified by the Tomar ruler Raja Man Singh Tomar, Shahjahanabad (the walled city now known as Old Delhi) was founded by Shah Jahan, the Jama Masjid referred to here is the one built at Sambhal on the orders of                                                                                                                                                                                                                                                                                                                                                     |

|     |                                                                                       |                                                                                                       |                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----|---------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     |                                                                                       |                                                                                                       |                                                                    | Babur (distinct from Shah Jahan's later, more famous Jama Masjid in Delhi), and the Purana Qila in Delhi is associated with Sher Shah Suri, who rebuilt and fortified it during his reign; this gives the matching (a)-2, (b)-1, (c)-4, (d)-3.                                                                                                                                                                                                                                                                                                                                                                          |
| 174 | _____ type of Indus pottery is the earliest example of its kind in the ancient world. | <b>B) Glazed</b>                                                                                      | Unit III - History, Culture of India, and Indian National Movement | Perforated, incised, knobbed and glazed pottery were all styles produced by Indus/Harappan potters, but the glazed pottery found at Harappan sites, coated with a smooth, glassy finish through firing, is considered the earliest known example of glazing anywhere in the ancient world, predating its appearance in other early civilisations.                                                                                                                                                                                                                                                                       |
| 175 | Which of the following statements about the Harappan Civilisation is not correct?     | <b>C) The people of Harappan Civilisation never disposed of their dead by the method of cremation</b> | Unit III - History, Culture of India, and Indian National Movement | The Harappans buried their dead, often elaborately with grave goods such as pottery, ornaments, jewellery, copper mirrors and beads, but archaeological evidence from Harappan sites also shows that cremation was practised at some sites, so the claim that they "never" disposed of their dead by cremation is factually incorrect, making it the statement that is NOT correct; the other three statements, about the sanctity of the pipal and acacia trees, the mother-goddess terracotta figurines, and the worship of a proto-Shiva figure, are all accurate. This is stated in Class 11 History, Unit 1 "Early |

|            |                                                                                                                                                   |                                                                                       |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| <b>189</b> | Consider the following statement about GST :<br>(1) Both Central and State taxes will be collected at the point of sale<br>(2) The Central and State GST will be charged on the manufacturing cost<br>Which of the above statements are correct? | <b>C) Both (1) and (2)</b>         | Unit V - Indian Economy and Development Administration in Tamil Nadu | The Goods and Services Tax is a destination-based, multi-stage tax in which both the Central component (CGST) and the State component (SGST) are levied simultaneously on the value of a supply at the point of sale, right from the manufacturing/production stage through to final consumption, with input tax credit available at each stage to avoid a cascading tax-on-tax effect - so both statements describing GST as collected at the point of sale and as applying across the production-to-sale chain are consistent with how CGST and SGST actually operate. |
| <b>190</b> | The Effect of deficit financing is                                                                                                                                                                                                               | <b>A) increase in money supply</b> | Unit V - Indian Economy and Development Administration in Tamil Nadu | Deficit financing occurs when the government spends more than it collects in revenue and bridges the gap by borrowing from the public/RBI or, in effect, by having the central bank print additional currency; this directly expands the money supply in the economy, which is why deficit financing (used in moderation to fund development spending) is associated with an increase in money supply rather than a decrease in prices or an automatic rise in unemployment or interest rates. This is covered in the Class 12 Economics chapter on Monetary Economics.  |
| <b>191</b> | Some of the indices launched by NITI                                                                                                                                                                                                             | <b>C) (i) and (ii) only</b>        | Unit V - Indian                                                      | NITI Aayog has launched the Composite                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|            |                                                                                                                                              |                                                        |                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| <b>194</b> | Read the following passage and answer which event or movement is mentioned here :<br>"It left a profound impact on the political history of India. From a political angle the measure accentuated Hindu-Muslim differences in the region. By giving Muslims a separate territorial identity and a communal electorate the British government in a subtle manner tried to neutralise the possibility of major Muslim participation in the 'Indian National Congress'". | <b>A) Partition of Bengal</b>      | Unit III - History, Culture of India, and Indian National Movement | This passage describes the Partition of Bengal (1905), by which Lord Curzon divided the province along broadly religious lines into a Muslim-majority Eastern Bengal and a Hindu-majority Western Bengal; beyond its stated administrative rationale, the partition sharpened Hindu-Muslim political divisions in the region and, together with the subsequent introduction of separate communal electorates for Muslims (Indian Councils Act, 1909), was seen as part of a deliberate British strategy to check the growing unity of Hindus and Muslims within the Indian National Congress. |
| <b>195</b> | Reason and Assertion type :<br>Assertion [A] : Mahatma Gandhi suspended the Non-Cooperation movement in 1922 due to Chauri Chaura Incident<br>Reason [R] : Subhash Chandra Bose and some other leaders opposed the idea of Non-Violent struggle                                                                                                                                                                                                                       | <b>A) [A] is true [R] is false</b> | Unit III - History, Culture of India, and Indian National Movement | Mahatma Gandhi suspended the Non-Cooperation Movement in February 1922 after the Chauri Chaura incident, in which a violent mob set fire to a police station and killed policemen, convincing Gandhi that the movement had strayed from its strictly non-violent basis, making the Assertion true; the Reason, however, misattributes this decision to opposition from Subhash Chandra Bose and other leaders over non-violence - Bose                                                                                                                                                        |

|            |                                                                                                                                                                                                                                                                                                                        |                             |                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| 199 | <p>Which of the following statements are true about 1857 Revolt?</p> <p>(1) Even before the out break of the Revolt Mangal Pandey had become a martyr</p> <p>(2) At Kanpur the revolt was led by Zeenat Mahal</p> <p>(3) Kunwar Singh was the Chief Organiser of the revolt in Bihar</p> <p>(4) Rani Lakshmi Bai died while fighting on 17 June 1859</p> | C) (1) and (3) only  | Unit III - History, Culture of India, and Indian National Movement | <p>Mangal Pandey attacked his officers at Barrackpore on 29 March 1857 and was executed on 8 April 1857 - before the wider revolt broke out on 10 May 1857 - making him a martyr even before the general uprising began, so statement (1) is true; in Bihar, Kunwar Singh of Jagdishpur was indeed the chief organiser and leader of the revolt, making statement (3) true as well. However, the Kanpur revolt was led by Nana Sahib (with support from Tantia Tope), not Zeenat Mahal (who was associated with the Mughal court in Delhi), making statement (2) false, and Rani Lakshmi Bai actually died fighting at Gwalior on 17-18 June 1858, not 1859, making statement (4) false too - so only (1) and (3) are true. This is covered in the Class 8 Social Science History chapter on the People's Revolt.</p> |
