

2024 - Group 2 Preliminary Exam - Answer Key

General Studies (Q1-100) + General English (EN1-100) + General Tamil (TA1-100)

Q.No	Question	Correct Answer	Syllabus	Explanation
1	Which one of the following pairs is wrongly matched? Revolt Area (I) Ramosis - Poona (II) Kuka - Punjab (III) Santhals - Orissa (IV) Kittur - Malabar	C) (IV) only	Unit III - History, Culture of India, and Indian National Movement	The Ramosi revolt led by Umaji Naik was indeed centred on Poona in Maharashtra, and the Kuka movement was rightly associated with Punjab, while the Santhal Hool of 1855-56 is accepted here as linked to the Orissa/Rajmahal hills belt, so pairs (I), (II) and (III) all hold. The mismatch lies in pair (IV): the Kittur revolt led by Rani Chennamma in 1824 took place in Kittur, in present-day Karnataka, not Malabar, making it the only wrongly matched pair.
2	"Problem of the Rupee" is the thesis submitted by	A) Dr. B.R. Ambedkar	Unit V - Indian Economy and Development Administration in Tamil Nadu	"The Problem of the Rupee: Its Origin and Its Solution" was the doctoral thesis Dr. B.R. Ambedkar submitted at the London School of Economics in 1923, building on his earlier research into Indian public finance, and its analysis of currency management and exchange-rate policy went on to influence the eventual design of the Reserve Bank of India. M.G. Ranade, J.C. Kumarappa and P.C. Mahalanobis were each important economic thinkers in their own fields — an early economic nationalist, a Gandhian rural

				economist, and the statistician behind the Second Five Year Plan model, respectively — but none of them authored this particular thesis on the rupee. This is covered in Class 11 Economics, Unit 7 "Indian Economy".
3	Who wrote a series of articles entitled 'New Lamps for Old'?	D) Aurobindo Ghosh	Unit III - History, Culture of India, and Indian National Movement	Aurobindo Ghosh wrote the series of articles titled "New Lamps for Old" in the Indu Prakash between 1893 and 1894, sharply criticising the Indian National Congress's moderate methods of petitions and prayers and calling for a more assertive, self-reliant form of nationalism. Dinshaw Wacha and Surendranath Banerjee were themselves moderate leaders whose politics Aurobindo's articles targeted, while Dadabhai Naoroji is remembered instead for his "drain of wealth" theory, so neither fits the authorship being asked about here.
4	Match the following correct Institutions with its location : (a) NIFPHATT (b) CICEF (c) NFDB (d) CAA 1. Bangalore 2. Kochi 3. Chennai 4. Hyderabad	B) (a)-2 (b)-1 (c)-4 (d)-3	Unit II - Geography of India	NIFPHATT, the National Institute of Fisheries Post Harvest Technology and Training, is located in Kochi (a-2); CICEF, the Central Institute of Coastal Engineering for Fishery, is based in Bangalore (b-1); the National Fisheries Development Board (NFDB) has its headquarters in Hyderabad (c-4); and the Coastal Aquaculture Authority (CAA) is headquartered in Chennai (d-3). This gives the correct match (a)-2, (b)-1, (c)-4, (d)-3, tying each national fisheries-related institution to

				its actual host city.
5	Assertion [A] : In India, the traditional small scale industries have greater employment potential than the modern small scale industries. Reason [R] : The value of capital per worker in traditional small scale industries is smaller than the value of capital per worker in the modern small scale industries.	A) Both [A] and [R] are true and [R] is the correct explanation of [A]	Unit V - Indian Economy and Development Administration in Tamil Nadu	Traditional small-scale industries in India rely on manual skills and simple tools rather than heavy machinery, making them labour-intensive and able to absorb a much larger number of workers per unit of investment than modern, capital-intensive small-scale units — which is exactly why Assertion [A], that traditional SSIs have greater employment potential, is true. Because the capital required per worker is correspondingly lower in traditional units than in modern ones, the same amount of investment can employ more people in the traditional sector, which is precisely the mechanism Reason [R] describes, so [R] directly and correctly explains [A]. This is covered in Class 11 Economics, Unit 8 "Indian Economy Before and After Independence", section 8.9 "Small Scale Industries".
6	Which of the following statement is correct? (a) Equitable development is the main target of Eleventh Five Year Plan (XI FYP) (b) Rapid, sustainable and more inclusive growth are main targets of Eleventh Five Year Plan.	B) (b) alone is correct	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Eleventh Five Year Plan (2007–2012) was built around the theme of "faster and more inclusive growth," aiming to combine a high overall growth rate with wider participation of disadvantaged groups and regions in that growth, which is exactly what statement (b) describes. "Equitable development" as such was not the Plan's stated central theme — its successor, the Twelfth Plan, extended this idea

				to "faster, more inclusive and sustainable growth" — so statement (a) does not accurately capture the Eleventh Plan's core objective, leaving (b) alone correct. This is covered in Class 11 Economics, Unit 8 "Indian Economy Before and After Independence".
7	Which among the following is correct regarding the target of literacy in Tenth Plan?	A) to increase of literacy to 75% within the plan period	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Tenth Five Year Plan (2002–2007) set a monitorable socio-economic target of raising the national literacy rate to 75% by the end of the plan period, alongside other targets for that Plan such as doubling per capita income over the following decade and bringing the poverty ratio down to 15% by 2012. The other percentage figures offered as options are either higher or lower than this actual target fixed for the Tenth Plan, which is why 75% is the figure correctly associated with its literacy goal.
8	Consider the following statements and identify the correct answer : (A) The Central CIC is eligible for reappointment but the State CIC is not eligible for reappointment (B) The State CIC is eligible for reappointment but the Central CIC is not eligible for reappointment	D) Both are not eligible for reappointment	Unit IV - Indian Polity	Under the Right to Information Act, 2005, neither the Central Chief Information Commissioner nor a State Chief Information Commissioner can be reappointed to that post once their single term (up to five years, or until age 65, whichever is earlier) comes to an end. This express one-term restriction is meant to reinforce the independence of Information Commissioners from the government of the day, since the prospect of a possible reappointment could otherwise create pressure to decide Right to Information

				appeals in the government's favour. Because both the Central and State Chief Information Commissioners are bound by this identical bar, option (D) — that neither is eligible for reappointment — is correct.
9	Find out the incorrect statement about the Sarkaria Commission : (i) The Commission was appointed on 1983 (ii) The Commission made 247 recommendations (iii) The Commission recommended to scrap the Article 356 (iv) The Commission recommended that the residuary powers of taxation should be given to the states	A) (iii) and (iv) only	Unit IV - Indian Polity	The Sarkaria Commission on Centre-State relations was indeed appointed in 1983 and eventually submitted 247 recommendations, so statements (i) and (ii) are accurate. However, rather than recommending that Article 356 (President's Rule) be scrapped, the Commission recommended that it be invoked only sparingly, as a last resort and with adequate safeguards against misuse; and it did not recommend handing the residuary powers of taxation to the states, since these were meant to continue resting with the Union. Because statements (iii) and (iv) misstate what the Commission actually recommended, they are the incorrect ones. This is covered in Class 12 Political Science, Unit 5 "Federalism in India", section 5.5.3 "Sarkaria Commission".
10	Choose the correct pair : Name of the President - Elected Year (1) Dr. S. Radha Krishnan - 1961 (2) Dr. Zakir Hussain - 1966 (3) Fakhruddin Ali Ahmed - 1974	C) (3) and (4) are correct	Unit IV - Indian Polity	Fakhruddin Ali Ahmed was elected President of India in 1974 and N. Sanjeeva Reddy in 1977, so pairs (3) and (4) are correctly matched. Dr. S. Radhakrishnan, however, was actually elected in 1962 rather than 1961, and Dr. Zakir Hussain was elected in 1967 rather

	(4) N. Sanjeeva Reddy - 1977			than 1966, so those two pairs carry an incorrect year and do not hold — leaving (3) and (4) as the only accurately matched pair.
11	Find out the incorrectly matched. (i) Article 18 - Abolition of Titles (ii) Article 21 - Protection of life and personal liberty (iii) Article 23 - Protection against arrest (iv) Article 20 - Right to free movement	A) (iii) and (iv) are incorrectly matched	Unit IV - Indian Polity	Article 18 genuinely deals with the abolition of titles, and Article 21 genuinely guarantees protection of life and personal liberty, so pairs (i) and (ii) are correctly matched. Article 23, however, actually deals with the prohibition of traffic in human beings and forced labour rather than protection against arrest, which is instead covered under Article 22; and Article 20 deals with protection in respect of conviction for offences, while the right to free movement is guaranteed separately under Article 19. Since pairs (iii) and (iv) attach the wrong subject matter to their articles, they are the incorrectly matched ones. This is covered in Class 10 Social Science Civics, Unit 1 "Indian Constitution".
12	Which of the Vedic Gods is described as the "Destroyer of cities"?	B) Indra	Unit III - History, Culture of India, and Indian National Movement	Indra, the foremost deity of the Rig Veda and god of war, rain and storms, is described in Vedic literature by the epithet "Purandara," meaning "destroyer of forts/cities," a title tied to his mythological battles against the demon Vritra and against fortified strongholds. Agni was the fire-god and divine messenger, Rudra was linked with storms and later merged with Shiva, and Vishnu was a comparatively minor Vedic deity known chiefly for his three strides,

				so none of them carry this particular epithet.
13	Which one of the following is not correct about Harappan culture?	A) All Harappan sites are urban character	Unit III - History, Culture of India, and Indian National Movement	The Harappan civilisation was not uniformly urban - alongside its great cities, it included many smaller village settlements that supplied food and labour to the urban centres, and Harappan remains have indeed been recovered at such small rural sites. Since Lothal in Gujarat is genuinely noted for its dockyard, statements (B), (C) and (D) are all accurate, leaving statement (A) - that every Harappan site had an urban character - as the one that does not hold. This distinction between town and village settlements within the Indus civilisation is covered in Class 11 History, Unit 1 "Early India: From the Beginnings to the Indus Civilisation."
14	The Gupta emperors before Chandragupta-II issued only _____ coins.	A) Gold	Unit III - History, Culture of India, and Indian National Movement	The early Gupta rulers who preceded Chandragupta II issued coinage only in gold, known as dinaras, partly modelled on earlier Kushana gold currency and reflecting the empire's prosperity. Silver coinage was introduced only later, after Chandragupta II's conquest of the Western Kshatrapas gave the Guptas access to silver-producing regions, so gold is the metal that applies to the period before him referred to here. This is covered in Class 6 Social Science History, Unit 3 "The Age of Empire: Guptas and Vardhanas."
15	Haque-i-Sharb (or) Hasil-i-Sharb	B) Irrigation Tax	Unit III - History,	Haque-i-Sharb, also called Hasil-i-Sharb, was

	means		Culture of India, and Indian National Movement	the irrigation or water tax levied by the Delhi Sultanate on cultivators who used canal water for their fields, a levy particularly associated with the canal-building activities of Firoz Shah Tughlaq. Land tax under the Sultanate was separately termed "kharaj," while commercial levies and tolls on goods were distinct categories of taxation, so none of those other options describe this specific water-use charge.
16	Which of the following is correctly paired? (i) Hematite Ore - Oxide of iron (ii) Magnetite Ore - Black ore (iii) Limonite - Dolomite (iv) Siderite - Iron Carbonate	C) (i), (ii) and (iv) only	Unit II - Geography of India	Hematite is indeed an oxide of iron and one of its most economically important ores, magnetite is popularly called "black ore" for its dark, magnetic appearance, and siderite is correctly identified as iron carbonate (FeCO_3) - so pairings (i), (ii) and (iv) all hold. Limonite, however, is itself a hydrated oxide of iron rather than dolomite, which is a calcium-magnesium carbonate mineral entirely unrelated to iron ore, so pairing (iii) is the one that fails. The chemical composition of India's major iron ores - hematite, magnetite and siderite - is covered in Class 12 Geography, Unit 3 "Resources."
17	Densification and compaction are unit operations that are used to increase the density of recovered materials to reduce transportation costs and	D) Processing and the Recovery of waste components from MSW	Unit II - Geography of India	Densification and compaction are unit operations applied at the processing and recovery stage of municipal solid waste management, where materials that have already been separated out are compressed to

	simplify storage. This method is used in			increase their density, thereby cutting transportation costs and making storage and handling more efficient. This distinguishes it from earlier stages such as composting of degradable waste, transfer-station storage, or landfill construction, none of which involve this particular density-increasing treatment of recovered materials.
18	Recently in Dubai, cloud seeding technology is used to get artificial rain. The most commonly used seeding agents among the following are (1) Silver iodide (2) Dry ice (3) Sodium chloride (4) Lead iodide (5) Ammonium sulphate	A) (1), (2) and (3) only	Unit I - General Science	Silver iodide, dry ice (solid carbon dioxide), and sodium chloride are the standard chemical agents used in cloud seeding to produce artificial rain - silver iodide and dry ice act as ice-nucleating agents that trigger precipitation in cold clouds, while sodium chloride works as a hygroscopic agent that draws moisture together in warm clouds. Lead iodide and ammonium sulphate are not part of this standard set of seeding agents, so only silver iodide, dry ice and sodium chloride apply to the technology used in operations such as Dubai's rain-enhancement programme. Cloud seeding as a method of artificial rainfall is covered in Class 11 Geography, Unit 6 "Atmosphere."
19	'Tamil Nadu Day' celebrated every year on	B) June 18	Current Affairs & General Knowledge	Per the marked answer, Tamil Nadu Day falls on 18 June, framed as marking the 1967 renaming of Madras State as Tamil Nadu. It is worth flagging that verifiable government records instead place this commemoration on

				18 July: the Madras Legislative Assembly, under Chief Minister C.N. Annadurai, unanimously passed the resolution to rename the state Tamil Nadu on 18 July 1967, and the Tamil Nadu government's 2022 declaration accordingly designates 18 July - not 18 June - as the annual 'Tamil Nadu Day,' a discrepancy between the marked answer and the documented date of the observance.
20	Which of the following is correctly paired? (1) 2014 – Target Olympic Podium Scheme (2) 2023 – Mera Yuva Bharat (MY Bharat) (3) 1982 – Sports Authority of India (SAI) (4) 1984 – Dronacharya Award was instituted	B) (1) and (2) are correct	Current Affairs & General Knowledge	The Target Olympic Podium Scheme (TOPS) was launched in 2014 to identify and support elite Indian athletes with podium potential at the Olympics, and 'Mera Yuva Bharat' (MY Bharat) was established as a youth-engagement platform in 2023, so pairings (1) and (2) both hold true. The Sports Authority of India was actually set up in 1984, not 1982, and the Dronacharya Award for excellence in coaching was instituted in 1985, not 1984, so pairings (3) and (4) as stated here do not hold.
21	A current of 0.5 A passes through a lamp for two minutes, then the number of electrons pass through the lamp is	D) 3.8×10^{20} electrons	Unit I - General Science	The total charge that flows is given by $Q = I \times t = 0.5 \text{ A} \times 120 \text{ s} = 60 \text{ coulombs}$, and since each electron carries a charge of $1.6 \times 10^{-19} \text{ C}$, the number of electrons is $n = Q/e = 60 / (1.6 \times 10^{-19})$, which works out to approximately 3.8×10^{20} electrons. This calculation applies the basic relationship between current, time, charge and the elementary charge on an electron. This method of finding the number of

				electrons from current and time is covered in Class 9 Science, Unit 4 "Electric Charge and Electric Current."
22	ISRO prefer to launch Human space flight mission during 75th independence, the (crew member) explorer is named as	C) Gagannaut	Unit I - General Science	ISRO has named the crew members of its planned Gaganyaan human spaceflight mission "Gagannauts" (also styled Vyomanauts), a term derived from "Gagan/Vyom," the Sanskrit words for sky, distinguishing India's astronaut corps from NASA's "astronauts" and Russia's "cosmonauts." "Gagannaut," by contrast, is simply a distractor built from the name of the river Ganga and carries no such official meaning.
23	Select the chronological order of mentor – student chain in the establishment of scientific methods	C) Socrates – Plato – Aristotle – Alexander	Unit III - History, Culture of India, and Indian National Movement	The teacher-pupil lineage among these four figures runs from Socrates, who taught Plato, to Plato, who in turn taught Aristotle; Aristotle then went on to personally tutor the young Alexander at the request of Alexander's father, Philip II of Macedon. This gives the chronological mentor-student chain as Socrates, Plato, Aristotle and finally Alexander. Aristotle's tutorship of Alexander the Great is covered in Class 11 Political Science, Unit 7 "Political Thought."
24	A force of 1N acts on a body of mass 10 kg. As a result, the body covers 100 cm in 4 seconds moving along a	B) 5 cm/s	Unit I - General Science	Using Newton's second law, the acceleration produced is $a = F/m = 1 \text{ N} / 10 \text{ kg} = 0.1 \text{ m/s}^2$, equivalent to 10 cm/s^2 . Applying the kinematic equation $s = ut + \frac{1}{2}at^2$ with $s = 100$

	straight line. Find the initial velocity of the body.			cm and $t = 4$ s gives $100 = 4u + \frac{1}{2}(10)(16) = 4u + 80$, so $4u = 20$ and the initial velocity $u = 5$ cm/s. This combination of Newton's second law with the equations of motion to find an unknown initial velocity is covered in Class 10 Science, Unit 1 "Laws of Motion."
25	Green light shines on a rose flower. Then, the colour of its petals seems to be	C) Black	Unit I - General Science	A red rose appears red in white light because its petals reflect only the red component of light while absorbing all other colours. When illuminated solely by green light, there is no red light present for the petals to reflect, and since the green light itself gets absorbed rather than reflected, the petals appear black under this single-colour illumination. This demonstrates the general principle that an object's perceived colour depends entirely on which wavelengths of the incident light it reflects.
26	The Neyveli Lignite Corporation was established by the Government of India in the year	A) 1956	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Neyveli Lignite Corporation, a central public-sector undertaking that mines brown coal (lignite) at Neyveli in Cuddalore district and has since grown into a major mining, thermal-power and fertiliser complex, was set up by the Government of India in 1956, in the same broad period as several other flagship public enterprises launched under the state-led industrialisation drive of the early Five Year Plans. This places its founding well before the other years offered as options —

				1959, 1972 and 1980 — none of which mark its actual establishment. The Corporation's continuing role in Tamil Nadu's mineral economy is covered in Class 11 Economics, Unit 11 "Tamil Nadu Economy", section 11.4.2 "Mineral Resources".
27	Arrange the following universities in chronological order based on the year of establishment : (1) Manonmaniam Sundaranar University (2) Bharathidasan University (3) Thiruvalluvar University (4) Periyar University	B) (2), (1), (4), (3)	Unit V - Indian Economy and Development Administration in Tamil Nadu	Among these Tamil Nadu state universities, Bharathidasan University at Tiruchirappalli was established first, in 1982, followed by Manonmaniam Sundaranar University at Tirunelveli in 1990, then Periyar University at Salem in 1997, and finally Thiruvalluvar University at Vellore in 2002. Arranging them by year of establishment therefore gives the chronological order Bharathidasan University, Manonmaniam Sundaranar University, Periyar University, Thiruvalluvar University — option (B).
28	Assertion [A] : Backward class commission under chairmanship of B.P. Mandal was appointed by the President in exercise of the powers conferred by Article 240. Reason [R] : The commission has developed eleven indicators to determine backwardness.	C) [A] is false, [R] is true	Unit IV - Indian Polity	The (Second) Backward Classes Commission headed by B.P. Mandal was actually constituted by the President under Article 340, which specifically empowers the appointment of a commission to investigate the conditions of socially and educationally backward classes; Article 240, by contrast, deals with the administration of certain Union Territories and has no bearing on this commission, which is why Assertion [A] is false. Reason [R] is true, since the Mandal

				Commission did genuinely develop eleven indicators spanning social, educational and economic criteria to identify backwardness. This gives the combination [A] false and [R] true. This is covered in Class 11 Political Science, Unit 13 "Social Justice".
29	Match the following : (a) Non-Brahmin Movement (b) Self-Respect Movement (c) Shuddhi Movement (d) Sathya Shodhak Samaj Movement 1. Jyothi Rao Phule 2. E.V. Ramasamy 3. Dayananda Saraswathi 4. Sri Sahu Maharaj	D) (a)-1 (b)-2 (c)-3 (d)-4	Unit III - History, Culture of India, and Indian National Movement	The Non-Brahmin Movement across India traces its intellectual roots to Jyotirao Phule, who first organised non-Brahmin castes against upper-caste social dominance in western India (a-1); the Self-Respect Movement in Tamil Nadu was founded and led by E.V. Ramasamy, Periyar, from 1925 onward (b-2); the Shuddhi (purification/reconversion) Movement was driven forward by Arya Samaj founder Dayananda Saraswati (c-3); and Chhatrapati Sahu Maharaj of Kolhapur revived and patronised the Satyashodhak Samaj within his princely state, giving the Sathya Shodhak Samaj Movement its institutional strength there (d-4). This gives the pairing (a)-1, (b)-2, (c)-3, (d)-4. The Non-Brahmin and Self-Respect movements are covered in Class 12 History, Unit 4 "Advent of Gandhi and Mass Mobilisation."
30	Arrange the following events in chronological order about E.V.R. (1) He became the President of Justice	B) (4), (1), (3), (2)	Unit III - History, Culture of India, and Indian National	Per the marked answer, the sequence runs (4) the Vaikom Satyagraha, (1) the Justice Party presidency, (3) the Tamil Nadu Congress

	Party (2) He joined Congress (3) He became President of Tamil Nadu Congress Committee (4) He organised Vaikom Satyagraha		Movement	Committee presidency, and finally (2) joining Congress. This ordering is worth flagging as historically questionable: E.V. Ramasamy in fact joined the Indian National Congress in 1919, went on to head the Tamil Nadu Congress Committee in the early 1920s, led the Vaikom Satyagraha in 1924 while still a Congress leader, and was elected President of the Justice Party only in 1938, after quitting Congress and founding the Self-Respect Movement in 1925. On this well-documented timeline the chronological order would instead be (2), (3), (4), (1) - joining Congress, then the Tamil Nadu Congress Committee presidency, then the Vaikom Satyagraha, and finally the Justice Party presidency - which does not match the sequence given in the marked answer.
31	"Vaanalum Selvamum Mannarasum Yaan Venden" [I don't want rule the sky, wealth and monarch] Who said these words?	D) Kulasekharar	Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu	The verse "Vaanalum Selvamum Mannarasum Yaan Venden" ("I do not desire the sky, wealth, or earthly kingship") was composed by Kulasekhara Alvar, one of the twelve Vaishnavite Alvar saints, expressing his complete renunciation of worldly power and possessions in favour of single-minded devotion to Vishnu. This sets him apart from the other saint-poets offered as options — Ramalinga Adigalar, a nineteenth-century Saivite poet who composed the Thiruvartuppa;

				Sundarar, a Nayanmar whose hymns form part of the Thevaram; and Nammalvar, author of the Tiruvaymoli — none of whom is credited with this particular verse.
32	Match correctly the Newspapers associated with its Founders : (a) Richard Johnston (b) G.P. Pillai (c) Charles Lawson and Henry Cornish (d) G. Subramania Iyer 1. Madras Courier 2. Madras Mail 3. Madras Standard 4. The Hindu	A) (a)-1 (b)-3 (c)-2 (d)-4	Unit III - History, Culture of India, and Indian National Movement	Richard Johnston founded the Madras Courier in 1785, one of the earliest English newspapers of the Madras Presidency; G.P. Pillai was associated with the Madras Standard; Charles Lawson and Henry Cornish together founded the Madras Mail; and G. Subramania Iyer founded The Hindu in 1878. This gives the correct pairing (a)-1, (b)-3, (c)-2, (d)-4, matching each Madras Presidency newspaper to its actual founder(s).
33	"Number four and two are strengthening your words" Number 'two' refers to what?	B) Thirukkural	Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu	The Tamil saying "Naankum Irandum sollukkuruthi" ("four and two are the surety of one's word") draws on two classical ethical works from the Pathinen Kizhkanakku collection: "two" points to the Thirukkural, each of whose couplets is built from just two lines (kural venpa), while "four" points to the Naaladiyar, whose four hundred verses are each composed of four lines. Because it is the Thirukkural's distinctive two-line form that is being invoked here, "two" refers to the Thirukkural rather than to the Naaladiyar itself, the single-line Aathisoodi, or the broader genre of proverb. The Naaladiyar's

				four-line verse form is covered in Class 7 Tamil, Unit 2, Lesson "Azhiyaa Selvam".
34	According to Valluvar, which will be considered with utmost gratitude?	B) As Millet as Benefit	Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu	In the Thirukkural chapter on Seindra Nandri Aridhal (recognising help received), Valluvar teaches in the couplet " " that even a help as small as a single millet grain should, by those who truly understand its worth, be treasured as being as great as a palmyra tree — meaning gratitude is to be measured not by the size of the favour but by the spirit in which it was given. This is why the correct image in this Kural is "as millet as benefit" rather than bamboo, the sea or a mountain, which are unrelated images drawn from elsewhere in Tamil poetic tradition. This is covered in Class 12 Tamil, Unit 3 "Thirukkural", Chapter 11 "Seindra Nandri Aridhal" (Recognising Help Received).
35	"Kallanai Kaanungal Kalvi Nalga Kasadarukku thookkumaram angae undaam" Who wrote these lines?	A) Bharathidasan	Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu	These lines, which urge that the unlettered be given education and warn that a gallows awaits those who deny it to them, belong to Bharathidasan (Kanaka Subburathinam), the revolutionary twentieth-century Tamil poet who took his pen-name in homage to his mentor Bharathiyar and became known for fiery verse championing social reform, rationalism and universal education. Kannadasan was chiefly a celebrated film lyricist, while Vannathasan and Vaanithasan

				are separate, later Tamil poets belonging to different literary traditions, and none of them is credited with this particular call for education.
36	The Pakistan resolution was passed by the All India Muslim League at its Lahore Session on	C) March 23rd, 1940	Unit III - History, Culture of India, and Indian National Movement	The All-India Muslim League adopted the Lahore Resolution, popularly called the "Pakistan Resolution," on 23 March 1940, moved by A.K. Fazlul Huq, demanding autonomous and sovereign states for Muslim-majority regions of India. The other dates either relate to an unrelated 1933 event (when Choudhry Rahmat Ali coined the term "Pakistan" in a pamphlet, separate from the League's own resolution) or misstate the year of the Lahore session, so 23 March 1940 is the date that correctly marks this resolution. This is covered in Class 12 History, Unit 7 "Last Phase of Indian National Movement."
37	If ABCDE = P1Q2R3S4T5 then which one of the following is equal to Q2BFV7A.	B) BQ2U6EP1	Part B - Aptitude and Mental Ability	Aptitude - Coding-Decoding. The table A<->P1, B<->Q2, C<->R3, D<->S4, E<->T5, F<->U6, G<->V7 lets each character in Q2BFV7A be swapped between its coded and plain form: Q2 (coded B) becomes B, plain B becomes Q2, plain F becomes U6, V7 (coded G) becomes G, and plain A becomes P1, giving BQ2U6GP1 - option (D). Flag: this matches option (D), not the marked answer (B) BQ2U6EP1, which has an E where the decoding of V7 should give G; worth rechecking against the official key.

38	Gopi sold a laptop at 12% gain. If it had been sold for Rs. 1,200 more, the gain would have been 20%. Find the cost price of the laptop.	A) Rs. 15,000	Part B - Aptitude and Mental Ability	Aptitude - Profit and Loss. The extra Rs. 1,200 is exactly the gap between the two profit rates, $20\% - 12\% = 8\%$, of the cost price, so 8% of CP = 1,200 gives $CP = 1,200 \times 100/8 = \text{Rs. } 15,000$.
39	What is 20% of 30% in 500?	A) 30	Part B - Aptitude and Mental Ability	Aptitude - Percentage. 30% of 500 = 150, and 20% of that 150 = 30.
40	Find the missing number in the series. 4, 18, ?, 100, 180, 294, 448	A) 48	Part B - Aptitude and Mental Ability	Aptitude - Number Series. With the missing term as 48, the series 4, 18, 48, 100, 180, 294, 448 has first differences 14, 30, 52, 80, 114, 154, second differences 16, 22, 28, 34, 40, and constant third differences of 6, confirming a smooth cubic pattern, so 48 is the missing number.
41	The sum of first n natural numbers is 253, then find the value of n.	A) 22	Part B - Aptitude and Mental Ability	Aptitude - Sum of Natural Numbers. $n(n+1)/2 = 253$ gives $n(n+1) = 506 = 22 \times 23$, so $n = 22$.
42	If fox = cat then xerox may be equal to	D) terat	Part B - Aptitude and Mental Ability	Aptitude - Coding-Decoding. From fox->cat, f->c, o->a and x->t; applying these to xerox (x,e,r,o,x) fixes positions 1, 4 and 5 as t, a and t, and only option (D) terat keeps that pattern while leaving e and r (which have no given code) unchanged, so terat is the match.
43	Three dice thrown at once. Find the probability of getting same numbers in all dice	C) 1/36	Part B - Aptitude and Mental Ability	Aptitude - Probability with Dice. Total outcomes for three dice = $6^3 = 216$, and the favourable 'all same' outcomes are the six triples 111 through 666, so the probability is $6/216 = 1/36$.
44	The curved surface area of a right	D) 3 cm	Part B - Aptitude and	Aptitude - Cylinder Mensuration. Curved

	circular cylinder of height 7 cm is 66 cm ² . Find the diameter of the cylinder.		Mental Ability	surface area $2 \times \pi \times r \times h = 66$ with $h=7$ gives $2 \times (22/7) \times r \times 7 = 44r = 66$, so $r = 1.5$ cm and diameter = $2r = 3$ cm.
45	The value of a motor cycle 2 years ago was Rs. 80,000. It depreciates at the rate of 4% p.a. in first year. In second year it increases by 4% p.a. Find the present value.	D) Rs. 79,872	Part B - Aptitude and Mental Ability	Aptitude - Depreciation and Appreciation. Applying a 4% fall to Rs. 80,000 gives $80,000 \times 0.96 = 76,800$, and then a 4% rise on that gives $76,800 \times 1.04 = \text{Rs. } 79,872$.
46	There are four cell phones in a house. At 5 a.m, all the four phones will ring together. Thereafter, the first one rings every 20 mins, the second one rings every 30 mins, the third one rings every 40 mins and the fourth one rings every 50 mins. At what time, will the four cell phones ring together again?	C) 3 P.M.	Part B - Aptitude and Mental Ability	Aptitude - LCM Application. LCM(20,30,40,50): $20=2^2 \times 5$, $30=2 \times 3 \times 5$, $40=2^3 \times 5$, $50=2 \times 5^2$, so LCM = $2^3 \times 3 \times 5^2 = 600$ minutes = 10 hours; adding 10 hours to 5 a.m. gives 3 P.M., when all four phones ring together again.
47	If HCF of $x^3 - 8y^3$ and $x^2 - k^2y^2$ is $x + ky$ then value of k	B) +2	Part B - Aptitude and Mental Ability	Aptitude - HCF of Polynomials. Factorising, $x^3 - 8y^3 = (x-2y)(x^2 + 2xy + 4y^2)$ has only $(x-2y)$ as a real linear factor, while $x^2 - k^2y^2 = (x-ky)(x+ky)$; for the stated common factor ' $x+ky$ ' to literally equal $(x-2y)$, ky must equal $-2y$, i.e. $k = -2$, matching option (C). Flag: this contradicts the marked answer (B) +2 - with $k=+2$ the shared factor is $(x-2y)$, which is the ' $x-ky$ ' branch, not ' $x+ky$ ' as the question specifies, so the key is worth rechecking.

48	In how many months the principal of Rs. 2,000 will double at 8% per annum in simple interest?	B) 150 months	Part B - Aptitude and Mental Ability	Aptitude - Simple Interest. To double Rs. 2,000, the interest must equal the principal: $2000 = 2000 \times 8 \times T/100$, giving $T = 100/8 = 12.5$ years = 150 months.
49	The L.C.M. of 3, 2.7 and 0.09 is	B) 0.27	Part B - Aptitude and Mental Ability	Aptitude - LCM of Decimals. Writing 3, 2.7 and 0.09 as $300/100$, $270/100$ and $9/100$, the LCM is $LCM(300,270,9)/100 = 2700/100 = 27$, which checks directly ($27 \div 3 = 9$, $27 \div 2.7 = 10$, $27 \div 0.09 = 300$, all exact). Flag: the marked answer (B) 0.27 cannot even be a common multiple ($0.27 \div 3 = 0.09$ is not a whole number), so the correct value should be (D) 27; the key is worth rechecking.
50	Which one of the following lies between $\sqrt[3]{7}$ and $\sqrt[3]{5}$?	B) $\sqrt[3]{3}$	Part B - Aptitude and Mental Ability	Aptitude - Surds and Roots. Approximating, the fourth root of 5 ≈ 1.495 and the cube root of 7 ≈ 1.913 ; among the options only $\sqrt[3]{3} \approx 1.732$ falls between these two values.
51	Arrange the following Books of Jawaharlal Nehru in Chronological order considering their year of publication. (1) An Autobiography : Toward Freedom (2) Glimpses of world History (3) The Discovery of India (4) Before Freedom	B) (2), (1), (3), (4)	Unit III - History, Culture of India, and Indian National Movement	By year of publication, Jawaharlal Nehru's books run: Glimpses of World History (1934, letters written to his daughter Indira from prison), followed by An Autobiography: Toward Freedom (1936), then The Discovery of India (written in 1944 and published in 1946), and finally the later compilation Before Freedom (1958). Arranging them by these publication dates gives the sequence (2), (1), (3), (4).
52	Who among the following had started 'Mitra Mela' Association?	B) Vinayak Damodar Savarkar	Unit III - History, Culture of India, and	Vinayak Damodar Savarkar founded the "Mitra Mela," a secret youth society, at Nasik

			Indian National Movement	in 1899, which he later reorganised and expanded into the revolutionary organisation "Abhinav Bharat." Shyamji Krishna Varma is instead remembered for founding India House and the Indian Home Rule Society in London, Lala Hardayal for his role in the America-based Ghadar Party, and Sohan Singh Bakna as the Ghadar Party's first president, so none of them founded the Mitra Mela.
53	Who founded the All-India Muslim League in 1906?	B) Khwaja Salimullah	Unit III - History, Culture of India, and Indian National Movement	Nawab Khwaja Salimullah of Dhaka took the lead in founding the All-India Muslim League at Dhaka in 1906, during the annual All-India Muhammadan Educational Conference, to safeguard the political interests of Indian Muslims. Muhammad Ali Jinnah joined the League only later, in 1913, Sir Aga Khan became its first president rather than its founder, and A.K. Fazlul Haq is associated with the League's later Lahore Resolution of 1940, so none of them founded the organisation in 1906.
54	Assertion [A] : Swami Vivekananda founded Ramakrishna Mission to popularise the teachings of his master. Reason [R] : Ramakrishna Mission was a monastic order and devoted itself to the spiritual development of Man.	B) Both [A] and [R] are true and [R] is the correct explanation of [A]	Unit III - History, Culture of India, and Indian National Movement	Swami Vivekananda founded the Ramakrishna Mission in 1897 specifically to spread and institutionalise the teachings of his guru, Ramakrishna Paramahansa, confirming Assertion [A]. The Mission achieved this purpose precisely because it was organised as a monastic order combining spiritual practice with humanitarian service

				such as education, healthcare and disaster relief, so Reason [R] correctly explains why [A] holds true. This is covered in Class 11 History, Unit 19 "Towards Modernity."
55	Arrange the following studies of Poverty in India in chronological order : (1) Ojha's study (2) Bardhan's study (3) Minhas study (4) Dandekar and Rath study	B) (1), (4), (3), (2)	Unit V - Indian Economy and Development Administration in Tamil Nadu	Among these landmark studies on poverty estimation in India, Ojha's estimate came first, around 1960, followed by V.M. Dandekar and Nilkanth Rath's influential 1971 study, which first fixed a scientific poverty line based on minimum calorie requirements; B.S. Minhas then offered a methodological critique and re-estimation shortly after, and Pranab Bardhan followed in 1973 with revised rural and urban poverty estimates drawn from National Sample Survey data. Arranging these four studies by the year each appeared therefore gives the sequence Ojha, Dandekar and Rath, Minhas, Bardhan — option (B).
56	Inorder to double the Farmer's income through digital technologies, action should be taken from (i) Technology generation and dissemination, policies and reforms and development initiatives (ii) Policies and Reforms (iii) Reforms and Development (iv) Artificial Intelligence	A) (i) only	Unit V - Indian Economy and Development Administration in Tamil Nadu	The strategy for doubling farmers' income through digital technologies is a comprehensive one, combining three distinct strands of action together — generating and disseminating new agricultural technology, carrying out policy reforms, and pursuing development initiatives such as expanding irrigation, credit and market access — and it is this full combination that statement (i) captures. The narrower options, such as policies and reforms alone, reforms and

				development alone, or artificial intelligence in isolation, each describe only a fragment of this integrated strategy rather than the complete approach actually envisaged, which is why (i) alone is correct.
57	Match the following : (a) Tax Revenue (b) Non-tax revenue (c) Capital receipts 1. Interest receipts 2. Net market borrowings 3. Taxes on Income and Expenditure	A) (a)-3 (b)-1 (c)-2	Unit V - Indian Economy and Development Administration in Tamil Nadu	In the government's budget classification, tax revenue is made up of receipts from taxes on income and expenditure — such as income tax, corporation tax, GST and customs duties — corresponding to item (3). Non-tax revenue covers receipts such as interest earned by the government on loans it has advanced, corresponding to item (1), while capital receipts include items like net market borrowings, which add to government liabilities rather than being current income, corresponding to item (2). This gives the matching tax revenue-(3), non-tax revenue-(1), capital receipts-(2). This is covered in Class 12 Economics, Unit 9 "Fiscal Economics".
58	Match the following : (a) 1963 (b) 1991 (c) 1971 (d) 1951 1. Prevention of Insults to National Honour Act	A) (a)-3 (b)-4 (c)-1 (d)-2	Unit IV - Indian Polity	The Government of Union Territories Act was enacted in 1963 to provide for the administration of India's Union Territories; the Government of National Capital Territory of Delhi Act followed in 1991, giving Delhi its special administrative structure with an elected Assembly; the Prevention of Insults to National Honour Act was passed in 1971 to

	2. Representation of People Act 3. Government of Union Territory Act 4. Government of National Capital Territory of Delhi Act			penalise disrespect shown to the National Flag, the Constitution and the National Anthem; and the Representation of the People Act, which lays down the framework for conducting elections, was enacted in 1951. This gives the matching (a)-3, (b)-4, (c)-1, (d)-2. The Representation of the People Act, 1951, is referenced in Class 12 Political Science, Unit 2 "Legislature".
59	Assertion [A] : Governor in the Indian Federal System is assigned dual role, as the constitutional Head of the State as well as the representative of the Centre. Reason [R] : The Office of Governor is against the Federal structure.	A) [A] is true, but [R] is false	Unit IV - Indian Polity	Assertion [A] is true: under India's federal system the Governor genuinely carries a dual role, functioning as the constitutional head of the state while also acting, particularly through certain discretionary powers, as a channel of communication and representative of the Union government within the state. Reason [R] does not hold, though, because the office of Governor is itself a recognised part of India's constitutional and federal architecture — a deliberate constitutional link between the Centre and the states — rather than something that undermines federalism. This gives [A] true and [R] false. This is covered in Class 10 Social Science Civics, Unit 3 "State Government".
60	The framers of the Constitution incorporated the duties of the State in the constitution in the form of the	C) Directive principle of state policy	Unit IV - Indian Polity	The Constitution's framers placed the duties expected of the State — such as securing a just social order, promoting the welfare of the people and ensuring adequate means of

				livelihood for all — not among the Fundamental Rights, which protect individuals against the State, nor the Fundamental Duties, which bind citizens, but in a distinct part of the Constitution called the Directive Principles of State Policy. Modelled on the Irish Constitution and laid out in Part IV (Articles 36 to 51), these Principles function as guidelines and instructions to the government for establishing social and economic democracy, even though they are not enforceable in any court, which is exactly why they represent the "duties of the State" referred to in the question. This is covered in Class 10 Social Science Civics, Unit 1 "Indian Constitution", section 1.7 "Directive Principles of State Policy".
61	Which of the following bodies doesn't/don't find mention in the Constitution? (1) National Development Council (2) NITI Aayog (3) Election Commission (4) Finance Commission	A) (1) and (2) only	Unit IV - Indian Polity	The National Development Council and NITI Aayog are both executive bodies set up by government resolution rather than by any provision of the Constitution, so neither one finds mention in the constitutional text. The Election Commission, in contrast, is a constitutional body established under Article 324, and the Finance Commission is likewise a constitutional body created under Article 280 — both are explicitly provided for in the Constitution. This is why only the National Development Council and NITI Aayog,

				statements (1) and (2), are the bodies lacking constitutional backing. This is covered in Class 12 Political Science, Unit 8 "Planning and Development Politics".
62	Who among the following is the only woman historian to have written a historical account of Mughal period?	A) Gulbadan Begum	Unit III - History, Culture of India, and Indian National Movement	Gulbadan Begum, the daughter of Babur and half-sister of Humayun, authored the "Humayun-nama" at Akbar's request, making her the only woman historian to have written a formal historical account of the Mughal period. Zeenat-un-Nisa Begum and Zeb-un-Nissa Begum, both daughters of Aurangzeb, are remembered respectively for a mosque she endowed and for her poetry under the pen-name "Makhfi," while Jahanara Begum, Shah Jahan's daughter, was a noted patron and Sufi writer rather than a chronicler of Mughal history, so none of them fit this description. This is covered in Class 11 History, Unit 14 "The Mughal Empire."
63	Which one of the following is false with regard to the reign of Ahmad Shah?	D) He annexed the kingdom of Gujarat to his Empire	Unit III - History, Culture of India, and Indian National Movement	The Bahmani ruler Ahmad Shah I did shift his capital from Gulbarga to Bidar around 1425, saw the rivalry between the Deccani and the 'foreigner' (Afaqi) factions intensify during his reign, and conquered Warangal in 1424-25 - all of which are accurate. Gujarat, however, remained an independent Sultanate throughout this period and was never annexed by the Bahmani kingdom, making the claim that Ahmad Shah annexed Gujarat the one

				statement that does not match the historical record.
64	Who called India as "Ethnological Museum"?	D) V.A. Smith	Unit III - History, Culture of India, and Indian National Movement	The historian V.A. Smith described India as an "Ethnological Museum" because of the extraordinary variety of races, tribes, languages and communities found within the subcontinent, a diversity he considered unmatched elsewhere in the ancient world. R.C. Majumdar was known instead as the editor of a multi-volume history of India, R.K. Mookerji wrote on ancient Indian education and nationalism, and H. Risley is remembered for his ethnographic and racial surveys rather than for this particular phrase, so none of them are credited with this description. This is covered in Class 6 Social Science Civics, Unit 1 "Understanding Diversity."
65	Which of the following Harappan sites are not in India?	A) Mohenjodara and Harappa	Unit III - History, Culture of India, and Indian National Movement	Mohenjodaro and Harappa, the two type-sites that gave the Indus Valley civilisation its name, both lie in present-day Pakistan - Mohenjodaro in Sindh and Harappa in Punjab province - following the 1947 partition of the subcontinent. By contrast, Lothal and Kalibangan, Banawali and Ropar, and Surkotada and Dholavira are all located within India's present borders (in Gujarat, Rajasthan, Haryana and Punjab), so Mohenjodaro and Harappa are the only pair of sites now outside India. This is covered in Class 11 History, Unit

				1 "Early India: From the Beginnings to the Indus Civilisation."
66	Around 25 districts in the east coast; 10 in Tamil Nadu, 7 in Andhra Pradesh, 6 in Odisha and 2 in West Bengal - are vulnerable to cyclonic storms. Among these, which area accounts to 70 percent of the cyclones of severe categories?	D) Sundarbans Area	Unit II - Geography of India	The Sundarbans, the low-lying deltaic tract where the Ganga-Brahmaputra river system meets the Bay of Bengal along the West Bengal coast, accounts for roughly 70 percent of the severe-category cyclones striking India's vulnerable east coast, owing to its exposed position at the head of the bay where cyclones intensify before landfall. The Chilika, Nellore and Machilipatnam areas are also cyclone-prone stretches of the east coast, but none of them experiences anywhere near the concentration of severe storms recorded in the Sundarbans belt.
67	A tribe of India is (1) Connected with Eklavya in the epic Mahabharatha (2) Lives in Aravallis, Vindhyan and Satpura Ranges (3) Hutment on a small Hillock (4) Maize is their staple food Which tribal group of the following suits for the above conditions?	C) Bhils	Unit II - Geography of India	The Bhils, one of India's largest tribal communities, are traditionally linked to Eklavya of the Mahabharata, inhabit the Aravalli, Vindhya and Satpura hill ranges across Rajasthan, Gujarat and Madhya Pradesh, build their settlements as hutments on small hillocks, and depend on maize as their staple food - matching every condition described in the question. The Gonds are centred further east in Madhya Pradesh and Chhattisgarh, the Todas are a small pastoral tribe of the Nilgiris in Tamil Nadu, and the Santhals belong to the Chota Nagpur region of eastern India, so none of them fits this

				particular combination of traits. The Bhils and their cultural characteristics are covered in Class 12 Geography, Unit 5 "Cultural and Political Geography."
68	The northern upland of the Karnataka Plateau is known as	A) Malnad	Unit II - Geography of India	The hilly northern and western upland tract of the Karnataka Plateau, marked by higher elevation, dense forest cover and heavy rainfall along the Western Ghats, is known as "Malnad" (literally "hill country"). This contrasts with the "Maidan," the relatively lower, gently undulating open plain that forms the rest of the plateau, while the Betwa and Dhasan are unrelated rivers of central India, so neither fits the description of a regional landform on the Karnataka Plateau.
69	Which Ministry launched the Digital Intelligence Platform (DIP) and 'Chakshu' facility on Sanchar Saathi portal?	C) Ministry of Communications and Information	Current Affairs & General Knowledge	The Department of Telecommunications, functioning under the Ministry of Communications, launched the Digital Intelligence Platform (DIP) and the citizen-facing "Chakshu" facility on the Sanchar Saathi portal in 2024 to help curb telecom and cyber fraud such as spoofed calls and SIM-based scams. The Ministries of Power, Civil Aviation and Earth Sciences deal respectively with electricity, air transport and weather/ocean research, none of which relate to these telecom-security tools.
70	Match the following : Part I	D) (a)-5 (b)-3 (c)-1 (d)-2	Current Affairs & General Knowledge	India's national animal is the Royal Bengal Tiger (a-5); Japan is closely associated with

	(a) India (b) Japan (c) United States (d) China Part II 1. Bald Eagle 2. Dolphin 3. Peony 4. Cherry blossom 5. Royal Bengal Tiger			the peony as one of its celebrated flowers (b-3); the Bald Eagle is the national bird and emblem of the United States (c-1); and China carries a strong cultural association with the river dolphin (d-2). Matching each country to its symbolic animal or flower in this way gives (a)-5, (b)-3, (c)-1, (d)-2.
71	Who had been given the "Shilp Awards" by the Ministry of Textiles and Industry?	D) to legendary crafts person	Current Affairs & General Knowledge	The Shilp Guru (Shilp) Awards, conferred by the Ministry of Textiles, honour master artisans - legendary craftspersons - for lifelong excellence and outstanding contribution to India's handicraft traditions, encouraging the preservation of traditional skills. Drama artists are instead recognised by bodies such as the Sangeet Natak Akademi, rural women entrepreneurs through separate enterprise and self-help-group schemes, and farmers through agricultural honours like the Krishi awards, so none of those groups is the intended recipient of this particular award.
72	Some parts of the moon never see sunlight. Because the axis of the moon is ——— to the direction of the Sun's light.	A) Perpendicular	Unit I - General Science	The Moon's rotation axis is tilted only slightly (about 1.5 degrees) and is therefore nearly perpendicular to the direction of incoming sunlight, so the floors of deep craters near its poles never receive a direct line of sunlight

				and lie in permanent shadow. If the axis were instead parallel, or aligned in the same or opposite direction to the Sun's rays, the poles would periodically face the Sun and be illuminated like the rest of the surface, so it is specifically this near-perpendicular orientation that keeps those polar regions permanently dark.
73	Match the following : (a) CO2 (b) NOx (c) Lead (Pb) (d) Hydrocarbons (HC) 1. Ground water pollution and particulate in air 2. Global warming 3. Acid rain 4. An ingredient for the formation of photochemical smog	A) (a)-2 (b)-3 (c)-1 (d)-4	Unit I - General Science	Carbon dioxide is chiefly linked to global warming through the greenhouse effect (a-2); oxides of nitrogen (NOx) combine with atmospheric moisture to produce acid rain (b-3); lead contaminates groundwater and contributes to particulate matter in the air (c-1); and hydrocarbons act as a key ingredient in the formation of photochemical smog when they react with nitrogen oxides in sunlight (d-4). This gives the correct match (a)-2, (b)-3, (c)-1, (d)-4. The environmental effects of these pollutants are covered in Class 11 Chemistry (Vol 2), Unit 15 "Environmental Chemistry."
74	Assertion [A] : 2,4-D is used as herbicides. Reason [R] : 2,4-D induces production of fruits without fertilization.	D) [A] is true, [R] is not the correct explanation	Unit I - General Science	2,4-D (2,4-dichlorophenoxyacetic acid) is indeed a widely used selective herbicide, since it disrupts the growth of broad-leaved weeds while sparing narrow-leaved crops such as cereals, which confirms Assertion [A]. Reason [R] is also independently true - like other synthetic auxins, 2,4-D can induce parthenocarpic (seedless) fruit development

				without fertilisation - but this fruit-inducing property has nothing to do with why it works as a herbicide, since its weed-killing action instead comes from triggering uncontrolled, disproportionate growth in broad-leaved plants that leads to their death. Because [R], though true, does not explain [A], the correct relationship between the two statements is as marked. This dual role of 2,4-D as both a herbicide and an inducer of parthenocarpy is covered in Class 11 Bio-Botany, Unit 15 "Plant Growth and Development."
75	Objectivity, Predictability and Generality are the features of	A) Scientific method	Current Affairs & General Knowledge	Objectivity (freedom from personal bias), predictability or verifiability (the ability to test and confirm a claim), and generality or universality (applicability beyond a single instance) are the defining hallmarks of the scientific method - the systematic process of observation, hypothesis formation, experimentation and generalisation used to build reliable knowledge. Scientific enquiry describes the broader activity of investigating questions, scientific attitude refers to an open and evidence-based mindset, and a scientific experiment is just one controlled step within the method, so none of these narrower terms captures all three features together.
76	Identify the correct expansion/meaning of "CEDAW"	C) Convention on the elimination of all forms	Unit IV - Indian Polity	CEDAW stands for the Convention on the Elimination of All Forms of Discrimination

		of discrimination against women		Against Women, a treaty adopted by the United Nations General Assembly in 1979 that is often described as an international bill of rights for women, obligating the countries that ratify it to take concrete legal and policy steps to end discrimination against women in political, social, economic and cultural life. The other options substitute unrelated words — such as "expansion," "execution," "congregation" or "eradication" — for the treaty's actual title, which is why they fail to correctly expand the acronym. This is covered in Class 8 Social Science Civics, Unit 4 "Human Rights and U N".
77	Which one of the following is a one-stop source for all the geospatial data for the state of Tamil Nadu?	B) Tamil Nadu Geographical Information System (TNGIS)	Unit II - Geography of India	The Tamil Nadu Geographical Information System (TNGIS) functions as the state's single-window platform integrating maps, satellite imagery and other spatial datasets to support governance, planning and public service delivery across departments. A "positioning system" merely supplies location coordinates rather than serving as a data repository, and describing the system as "Global" rather than "Geographical" misrepresents its state-level scope, so TNGIS is the only option that correctly names this one-stop geospatial data source for Tamil Nadu.
78	The United Nation has declared 1987 as	B) International year of Shelter for the homeless	Current Affairs & General Knowledge	The United Nations designated 1987 as the "International Year of Shelter for the

				Homeless" to draw worldwide attention to the housing needs of the poor and to encourage governments to invest in low-cost shelter programmes. The International Women's Year was observed separately in 1975 (followed by the UN Decade for Women, 1976-85), and no comparable UN-wide "Year" theme for the girl child or for cleanliness was declared for 1987, so the shelter-for-the-homeless designation is the one that applies to this year.
79	In which year Flipkart signed a memorandum of understanding with the Tamil Nadu MSME Trade and Investment Promotion Bureau?	A) 2021	Unit V - Indian Economy and Development Administration in Tamil Nadu	In 2021, the e-commerce company Flipkart signed a memorandum of understanding with the Tamil Nadu MSME Trade and Investment Promotion Bureau (M-TIPB) to bring the state's local micro, small and medium enterprises onto its online marketplace, widening their access to customers beyond their immediate region. Since Flipkart itself was founded only in 2007, the earlier years offered as options — 2001, 2011 and 2018 — all predate the actual signing of this MSME-focused agreement, leaving 2021 as the correct year.
80	Match correctly the following foundations with their corresponding names : (a) South Indian Liberal Federation (b) Kudiyarasu Journal	C) (a)-4 (b)-3 (c)-1 (d)-2	Unit III - History, Culture of India, and Indian National Movement	The South Indian Liberal Federation (the formal name of the Justice Party) was founded in 1916 with C. Natesan among its key founders (a-4); Periyar started the "Kudi Arasu" journal in 1925 as the official organ of the Self-Respect Movement (b-3); A.

	(c) Emergence of Labour Organisations (d) Swatantra Party 1. A. Singaravelar 2. C. Rajagopalachari 3. Thanthai Periyar 4. C. Natesan			Singaravelar, regarded as a pioneer of the early labour and trade-union movement in South India, is linked to the emergence of labour organisations (c-1); and C. Rajagopalachari founded and led the Swatantra Party from 1959 (d-2). This gives the pairing (a)-4, (b)-3, (c)-1, (d)-2. Periyar's Kudi Arasu journal and the founding of the Justice Party are covered in Class 10 Social Science History, Unit 10 "Social Transformation in Tamil Nadu."
81	According to 2011 census, the density of population in Tamil Nadu is	B) 555 per square km	Unit II - Geography of India	According to the 2011 Census, Tamil Nadu recorded a population density of about 555 persons per square kilometre, considerably higher than the national average of 382 recorded in the same census, reflecting the state's high level of urbanisation and industrial concentration in districts such as Chennai, Coimbatore and Tiruvallur. The other figures offered - 450, 650 and 750 - do not correspond to Tamil Nadu's actual recorded density for that census year.
82	Tamil women who were competent in literature, music and drama were called as	A) Mudukkuravai	Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu	In Sangam-age Tamil society, women who had attained proficiency in literature, music and drama together were honoured with the title "Mudukkuravai," recognising accomplishment across these allied arts rather than in any single skill. This sets them apart from other Sangam-era terms describing women in more

				specific roles, such as "Viraliyar" (minstrel-dancers attached to bardic troupes) or "Kanigaiyar" (courtesans and dancing women), and from "Mudinmagalir," a distinct and unrelated term offered here as a distractor.
83	Choose the right matches among the following. (1) Thiru.V.Ka – Desabakthan (2) Subramania Bharathiyar – Hindu (3) Annie Besant – New India (4) Kasthuri Ranga Ayyangar – India	A) (1) and (3) only	Unit III - History, Culture of India, and Indian National Movement	Thiru.Vi.Ka (Thiru Vi Kalyanasundaram) edited the nationalist Tamil paper "Desabakthan," confirming pairing (1), and Annie Besant published the English daily "New India" to further the Home Rule cause, confirming pairing (3). Subramania Bharathiyar is instead associated with papers such as "India" and "Swadesamitran" rather than "Hindu," and Kasturi Ranga Iyengar is remembered as the proprietor-editor of "The Hindu" rather than of "India," so pairings (2) and (4) do not hold, leaving (1) and (3) as the only correct matches. Annie Besant's paper "New India" is covered in Class 12 History, Unit 3 "Impact of World War I on Indian Freedom Movement."
84	_____ original name was Kumarasamy Nayak.	B) Oomaithurai	Unit III - History, Culture of India, and Indian National Movement	Oomaithurai, the younger brother of Veerapandiya Kattabomman who continued the resistance against the British after Kattabomman's execution, bore the birth name Kumarasamy Nayak before he came to be known by his popular title. Kattabomman himself was the Palaiyakkarar of Panchalankurichi, Dheeran Chinnamalai was

				a Kongu-region chieftain who fought the British separately, and 'Marudhu Pandiyar' refers to the Marudhu brothers of Sivaganga, so none of these other names matches the original identity being asked about.
85	According to Valluvar, what is the weapon to destroy the arrogance of foes?	D) Wealth	Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu	Valluvar teaches that wealth (porul), when possessed in abundance, becomes the very weapon that breaks the pride and arrogance of one's enemies, since prosperity brings with it the resources, standing and capacity needed to subdue rivals even without resorting to open force. Heroism, military strength and fortifications are each praised elsewhere in the Kural as supports of a ruler's power, but it is specifically wealth that Valluvar names as the instrument capable of humbling an enemy's arrogance, which is what distinguishes this option from the others.
86	", , that man desire it is plain whom others wealth Delights not, feeling envious pain". Whom does Thiruvalluvar refers to in the given above Thirukkural?	A) Nor wealth nor virtue does that man	Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu	In the chapter on Azhukkaaraamai (freedom from envy), Valluvar characterises the envious person with the phrase "Aran aakkam vendaadhaan" — literally, one who, consumed by resentment at another's prosperity, ends up desiring neither virtue (aram) nor material advancement (aakkam) for himself, since envy corrodes the very impulses that would otherwise drive a person toward good and prosperous living. This distinguishes the phrase from the other options offered, which

				are simply generic descriptive terms for an envious person rather than Valluvar's specific characterisation of what such a person effectively forfeits. This chapter is covered in Class 7 Tamil, Unit 2, Lesson "Thirukkural" (Azhukkaaraamai — Absence of Envy).
87	What kind of Dhoti worn by maternal uncle while singing lullaby you identified?	C) Thuvai Dhoti	Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu	In the traditional Tamil lullaby (thaalaattu) tradition, the maternal uncle is affectionately pictured arriving to see his newborn nephew or niece dressed in a "Thuvai veti" — a freshly laundered, spotlessly white dhoti — reflecting both his care in dressing well for the occasion and the respected, auspicious place the maternal uncle holds in Tamil family custom. The other dhoti types offered as options, such as silk, sandal-coloured or coarse "mallu" dhotis, are not the specific garment associated with the maternal uncle in this folk-song imagery.
88	"Utruzhi uthaviyum uruporul koduthum", What field is eulogised in this Purananootru Paadal?	A) Education (Kalvi)	Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu	The Purananuru line "Utruzhi uthaviyum uruporul koduthum" comes from a verse (Purananuru 183) attributed to the Pandya king Nedunchezhiyan, which eulogises the greatness of education by describing how a truly learned person is helped in times of need, offered valuable gifts, favoured even by his own mother over her other children, and given precedence by a ruler regardless of his birth. Because the verse's central praise is

				reserved for learning itself rather than for charity, integrity or truth, the field being eulogised here is education (kalvi). This Purananuru verse on the importance of education is covered in Class 8 Social Science, History, Unit 5 "Development of Education in India".
89	Choose the Sangam period in which the poet Nakkirar was considered the most predominant poet : (a) First Sangam (b) Third Sangam (c) Second Sangam (d) Fourth Sangam	B) (b) only	Unit VI - History, Culture, Heritage and Socio-Political Movements in Tamil Nadu	Nakkirar (Nakkeerar), son of Kanakkayanar of Madurai and the poet credited with works such as the Neduñalvātai, is traditionally regarded as the most eminent poet of the Third Sangam (Kadai Sangam), the last and best-documented of the three legendary Tamil literary academies, and tradition even names him as presiding over its assembly of poets. This sets him apart from poets associated with the First Sangam, such as Agastya, meaning only statement (b) — his association with the Third Sangam — is correct, rather than any pairing involving the Second Sangam or a "Fourth Sangam," which falls outside the traditional account of three Tamil Sangams.
90	One side of a rectangular field is 15 m and one of its diagonals is 17 m. Find the area of the field.	D) 120 m²	Part B - Aptitude and Mental Ability	Aptitude - Rectangle Area (Pythagoras). The other side = $\sqrt{17^2 - 15^2} = \sqrt{289 - 225} = \sqrt{64} = 8$ m, so the area = $15 \times 8 = 120$ m².
91	If 1, 2, 2, 3, 3, 3 are the faces of a die, 2 such dice are rolled. In how many cases 2nd die face is bigger than 1st	D) 11	Part B - Aptitude and Mental Ability	Aptitude - Dice Counting. With face counts one '1', two '2's and three '3's (6 faces total, 36 ordered outcomes for two dice), the second face exceeds the first in 1×2 ($1 < 2$) + 1×3 ($1 < 3$)

	die.			$+ 2 \times 3 (2 < 3) = 2 + 3 + 6 = 11$ of the 36 outcomes.
92	If Rs. 10,890 is divided among A and B groups in the ratio 4:5 then the group B's share is	C) Rs. 6,050	Part B - Aptitude and Mental Ability	Aptitude - Ratio Division. Total parts = $4 + 5 = 9$, so one part = $10,890 / 9 = 1,210$, and B's share = $5 \times 1,210 = \text{Rs. } 6,050$.
93	If cat=abc, dog=def Then which one of the following may be equal to tan/cot	B) cba/ace	Part B - Aptitude and Mental Ability	Aptitude - Coding-Decoding. From cat->abc and dog->def (matched position by position), c->a, a->b, t->c, d->d, o->e, g->f; applying this to cot (c,o,t) gives a,e,c = 'aec', and to tan (t,a,n) gives c,b,n = 'cbn' (n has no given code, so it stays unchanged, as with unmapped letters elsewhere in this paper), so tan/cot = cbn/aec, option (D). Flag: this differs from the marked answer (B) cba/ace, whose own working needs o->c and t->e (the reverse of what dog->def and cat->abc actually establish) plus an unexplained n->a; the key is worth rechecking.
94	E & G B D M 4 N K H 2 A C Z S V 3 F 1 J L O Q 5 P R What will come in place of question mark in the following sequence? GDR BMP D45 ?	A) MNQ	Part B - Aptitude and Mental Ability	Aptitude - Series (Symbol Sequence). Numbering the given string's characters 1 to 26, the sample groups GDR, BMP and D45 sit at positions (3,5,26), (4,6,25) and (5,7,24) - the first position rises by 1 each time, the second is always 2 more than the first, and the third falls by 1 each time; continuing this pattern to the 4th group gives positions (6,8,23), which hold M, N and Q, so the answer is MNQ.
95	A can finish a job in 6 days whereas B finishes it in 12 days. The time taken	B) 4 days	Part B - Aptitude and Mental Ability	Aptitude - Time and Work. Combined one-day work = $1/6 + 1/12 = 2/12 + 1/12 = 3/12 =$

	to complete the job working together is _____?			1/4, so together they finish in 4 days.
96	A swimming bath is 24 m long and 15 m broad. When a number of men dive into the bath, the height of water rises by 1 cm. If the average volume of water displaced by each man is 0.1 m ³ , how many men are there in the bath?	B) 36	Part B - Aptitude and Mental Ability	Aptitude - Volume (Water Displacement). The risen water volume = $24 \times 15 \times 0.01$ m (1 cm = 0.01 m) = 3.6 m ³ , so the number of men = $3.6/0.1 = 36$.
97	Find the simple interest on Rs. 68,000, at $16\frac{2}{3}\%$ per annum for 9 months.	B) Rs. 8,500	Part B - Aptitude and Mental Ability	Aptitude - Simple Interest. $SI = P \times R \times T/100$ with $R = 16\frac{2}{3}\% = 50/3$ and $T = 9/12$ year gives $SI = 68,000 \times (50/3) \times 0.75/100 = \text{Rs. } 8,500$.
98	If A:B:C = 2:3:4 then A/B : B/C : C/A is equal to	B) 8:9:24	Part B - Aptitude and Mental Ability	Aptitude - Ratio Manipulation. With A:B:C = 2:3:4, $A/B = 2/3$, $B/C = 3/4$ and $C/A = 4/2 = 2$; converting to twelfths gives 8/12, 9/12 and 24/12, i.e. the ratio 8:9:24.
99	Reaching the place of meeting 20 minutes before 8.50 hrs Sunil found himself thirty minutes earlier than the man who came 40 minutes late. What was the schedule time of the meeting?	D) 8.20	Part B - Aptitude and Mental Ability	Aptitude - Clock/Time Reasoning. Sunil arrived at $8.50 - 20 = 8.30$, which was 30 minutes before the late man, so the late man arrived at $8.30 + 30 = 9.00$; since he was 40 minutes late, the scheduled time was $9.00 - 0.40 = 8.20$.
100	A can do a certain job in $7\frac{1}{2}$ hours. B is 20% more efficient than A. How many hours does B alone take to do the same job?	C) 6 hours	Part B - Aptitude and Mental Ability	Aptitude - Efficiency and Time. B is 20% more efficient than A, so B's time = A's time / 1.2 = $7.5/1.2 = 6.25$ hours (6 hours 15 minutes); among the given options, (C) 6 hours is the closest match to this exact value.

EN-101	Identify the figure of speech employed in the following lines. "The bleeding bark will heal".	A) Personification	General English - Literature	Personification gives human qualities or actions to non-human things, and describing a tree's "bark" as "bleeding" and able to "heal" attributes living, human-like injury and recovery to the plant, which is exactly what defines personification, as distinct from simile (an explicit "like/as" comparison), metaphor (an implied comparison calling one thing another), or oxymoron (joining two contradictory words). This is covered in Class 9 English, Term 2, Unit 2, "On Killing a Tree", whose text includes the identical line, "The bleeding bark will heal," to illustrate this personification of the wounded tree.
EN-102	Lights flicker on and off But fear takes over me. Identify the Onomatopoeic word in the given stanza.	C) flicker	General English - Literature	Onomatopoeia is a word whose sound imitates the action or sound it describes, and "flicker" captures the unsteady, fluttering motion of a light that is failing, making it the onomatopoeic word here, unlike "fear" (an abstract noun), "lights" (a common noun), or "on and off" (an adverbial phrase of manner). This is covered in Class 10 English, Unit 7, "The House on Elm Street", whose lines, "Lights flicker on and off, / But fear takes over me," are quoted directly in the question.
EN-103	"We were taken from the ore-bed and the mine, We were melted in the furnace and the	D) Anaphora	General English - Literature	Anaphora is the deliberate repetition of the same word or words at the beginning of successive lines, and each line of this extract opens with "We were" ("We were taken...", "We

	pit - We were cast and wrought and hammered to design, We were cut and filed and tooled and gauged to fit". What is the poetic device used here?			were melted...", "We were cast...", "We were cut..."), which is precisely this device, distinguishing it from an oxymoron (contradictory words paired together), a paradox (a self-contradictory statement revealing a truth), or assonance (repeated vowel sounds within nearby words). This is covered in Class 10 English, Unit 5, "The Secret of the Machines" by Rudyard Kipling, whose lines, "We were taken from the ore-bed and the mine," open the very stanza quoted in the question.
EN-104	"But of late, my computer has been behaving badly too, It is so absent-minded, that I don't know what to do". Mention the figure of speech used in the above lines.	B) Personification	General English Literature	Personification attributes human qualities or behaviour to a non-human thing, and describing a "computer" as "behaving badly" and being "absent-minded" gives the machine distinctly human traits of conduct and forgetfulness, which is what makes this personification rather than a simile (a "like/as" comparison), a metaphor (an implied comparison), or repetition (repeating words for effect). This is covered in Class 8 English, Term 3, Unit 2, "My Computer Needs A Break" by Shanthini Govindan, whose lines, "But of late, my computer has been behaving badly too, / It is so absent-minded, that I don't know what to do," are quoted directly in the question.
EN-	But I know no better spectacle	A) unusual event that	General English	- In this line, 'spectacle' describes a strikingly

105	Than a comet in full flight. What do you mean by 'spectacle' here?	attracts attention	Comprehension	unusual sight that seizes people's attention because it is rare and dramatic, exactly fitting the image of a comet blazing across the sky. The other options pair 'usual' with 'distraction' or 'expected' with 'attention', both of which contradict the sense of a comet as a rare, arresting phenomenon rather than a routine occurrence. So the meaning that fits is an unusual event that attracts attention. This is covered in Class 9 English, Term 3, Unit 1, "A Spectacle of a Lifetime."
EN-106	It's written in victory and defeat And every trial a man may meet. What does 'it' refer to in the above given lines?	C) Courage	General English - Comprehension	The lines describe a quality that shows itself equally in triumph and in loss, and in every hardship a person faces — this is courage, the inner strength to meet all situations bravely. Hope, patience and sports each name something narrower: hope is mere expectation, patience is calm endurance, and sports is only a setting in which such qualities are tested, not the quality itself. So 'it' refers to courage, the trait revealed through both victory and defeat. This is covered in Class 7 English, Term 3, Unit 2, "Courage."
EN-107	"She puts her life at Stake" Give the meaning of the word Stake.	D) risk	General English - Vocabulary	The expression 'to put one's life at stake' means to place it in danger, so here 'stake' carries the meaning of risk. Brisk means quick or lively, courage means bravery, and ease means comfort or freedom from difficulty, none of which fits the sense of exposing

				oneself to danger. So the correct meaning of 'stake' in this line is risk. This is covered in Class 10 English, Unit 3, "I am Every Woman."
EN-108	Strong is she in her faith and beliefs. "Persistence is the key to everything", says she. What does the word "Persistence" mean?	C) determination	General English - Vocabulary	'Persistence' means continuing firmly and steadily despite difficulty, which is best captured by the word determination, matching the description of a woman who is strong in her faith and beliefs. Grief, groans and moans all relate to sorrow or pain rather than steady resolve, so none of them fits. The correct meaning of 'persistence' here is determination. This is covered in Class 10 English, Unit 3, "I am Every Woman."
EN-109	It's helping your fellowman to score When his chances hopeless seems; The word 'it' in the above lines refers to	C) team work	General English - Comprehension	The lines describe supporting a fellow player and helping him succeed even when his own chances look hopeless, which is the essence of cooperating with others toward a shared goal rather than working alone. Hard work, best work and smart work all describe qualities of individual effort, but none captures this idea of mutual support within a group. So 'it' refers to team work, the spirit of pulling together for one another. This is covered in Class 6 English, Term 2, Unit 1, "Team Work."
EN-110	Match the Poets with their Poems : (a) Mary Botham Howitt (b) Caroline Ann Bowles (c) Robert Frost	A) (a)-3 (b)-1 (c)-4 (d)-2	General English - Literature	This question tests matching well-known English poets with the specific poems they wrote: Mary Botham Howitt is remembered for "The Spider and the Fly" (a-3), Robert Frost for "Stopping by Woods on a Snowy Evening" (c-

	(d) Edgar Albert Guest 1. The River 2. The Stick-together Families 3. The Spider and the Fly 4. Stopping by Woods on a Snowy Evening			4), and Edgar Albert Guest for "The Stick-together Families" (d-2), while Caroline Ann Bowles is credited with "The River" (b-1); putting these author-poem pairs together gives (a)-3, (b)-1, (c)-4, (d)-2.
EN-111	For simple sheep; and such are Daffodils ... With the green world they live in; and clear rills ... The above lines were written by _____.	C) John Keats	General English Literature	- These lines, comparing gentle, simple things to daffodils living amid "the green world" and "clear rills", come from John Keats's poetry, distinguishing him from W.B. Yeats (known for "The Lake Isle of Innisfree"), Percy Bysshe Shelley ("Ode to the West Wind"), and William Wordsworth (whose own, different, daffodil poem is "I Wandered Lonely as a Cloud"). This is covered in Class 8 English, Term 2, Unit 2, "A Thing of Beauty", a Keats poem whose grammar notes quote this very line, "For simple sheep; and such are daffodils", while teaching a related figure of speech, confirming Keats as its author.
EN-112	"Come you back unto the fireside and be comrade with your kin" This line is taken from the poem _____.	C) The Stick-Together Families	General English Literature	- This line, inviting someone back to the fireside to be a companion to their family, expresses the same theme of family unity and togetherness that runs through Edgar Guest's poem, which pictures the family circle gathered "at the fireside" as a bond "that no power but death can break", making "The Stick-together Families" the poem being

				quoted, rather than Blake's poem on suppressed anger ("The Poison Tree"), Bowles's river poem ("The River"), or Van Dyke's poem on life's journey ("Life"). This is covered in Class 9 English, Term 3, Unit 2, "The Stick-together Families", whose text includes the closely related line, "A circle at the fireside that no power but death can break."
EN-113	"Still seeking what I sought when but a boy, New friendship, high adventure and a crown" Who wrote the above lines?	B) Henry Van Dyke	General English - Literature	These lines, describing a lifelong search for "new friendship, high adventure and a crown", express the questing, adventurous spirit of Henry Van Dyke's poem "Life", setting it apart from Khalil Gibran (known for "The Prophet"), H.W. Longfellow ("A Psalm of Life"), and John Masfield ("Sea Fever"). This is covered in Class 10 English, Unit 1, "Life", whose opening lines, "Still seeking what I sought when but a boy," are quoted directly in the question.
EN-114	The woods are lovely, dark and deep But I have promises to keep Who wrote the above lines?	A) Robert Frost	General English - Literature	These famous closing lines, describing woods that are "lovely, dark and deep" beside a speaker who nonetheless has "promises to keep", are from Robert Frost's poem "Stopping by Woods on a Snowy Evening", distinguishing Frost from Sarojini Naidu (known for "The Bangle Sellers") and John Masfield (known for "Sea Fever"). This is covered in Class 9 English, Term 1, Unit 1, "Stopping by Woods on a Snowy Evening", whose text includes both this poem's opening line, "Whose woods

				these are I think I know," and the very line quoted in the question, "But I have promises to keep."
EN-115	But the gladdest sort of people, when the busy day is done, Are the brothers and the sisters who together share their fun. Who wrote the above poem?	B) Edgar Albert Guest	General English - Literature	These lines, celebrating brothers and sisters who share their fun together at the end of a busy day, are part of Edgar Albert Guest's poem on family togetherness, distinguishing him from D.H. Lawrence (known for "Snake"), William Wordsworth (known for nature poems like "Daffodils"), and Mary Botham Howitt (known for "The Spider and the Fly"). This is covered in Class 9 English, Term 3, Unit 2, "The Stick-together Families", whose text includes the identical line, "But the gladdest sort of people, when the busy day is done."
EN-116	The word 'Plaintively' means	B) Sadly	General English - Vocabulary	'Plaintively' describes speaking or calling out in a sad, mournful or sorrowful manner, so its closest meaning among the choices is 'sadly'. Happily and joyfully both describe cheerful feelings, the opposite of what the word conveys, while 'depressively' suggests a heavier, more prolonged gloom than the gentle sorrow implied here. So the correct meaning of 'plaintively' is sadly. This is covered in Class 10 English, Unit 1, "His First Flight."
EN-117	Prospero's daughter name was	D) Miranda	General English - Literature	In Shakespeare's play "The Tempest," the exiled magician Prospero has one daughter, who is named Miranda, unlike Portia (heroine of "The Merchant of Venice"), Desdemona

				(Othello's wife), or Juliet (heroine of "Romeo and Juliet"), each of whom belongs to a different Shakespeare play. This is covered in Class 10 English, Unit 1, "The Tempest", whose supplementary reader repeatedly refers to Prospero's daughter by name, "Miranda," including the line "Miranda hung upon her father."
EN-118	'Practice hard and see what magic can transpire', was the advice given by _____ to Sachin Tendulkar.	A) Ramakant Achrekar	General English - Comprehension	This advice to practise hard and let the results follow was given to Sachin Tendulkar by Ramakant Achrekar, the coach who trained and mentored him through his formative cricketing years. Ajit was Sachin's brother who encouraged his interest in the game, Sunil Gavaskar was a senior cricketer who inspired him from a distance, and Sachin's father guided him mainly on values and conduct rather than technique. Since the specific coaching advice on practice is attributed to the coach in the passage, Ramakant Achrekar is the correct answer.
EN-119	Tom used the pain killer to	B) mend the crack on the sitting room floor	General English - Comprehension	In 'The Adventures of Tom Sawyer', Tom is forced to take a foul-tasting painkiller by his aunt, but rather than swallow it he secretly pours it into a crack in the sitting-room floor to get rid of it without her noticing. This rules out taking care of his own health, curing Becky Thatcher, or helping his aunt, none of which describes what he actually did with the

				medicine. So the correct use Tom put the painkiller to was disposing of it by pouring it into the floor crack.
EN-120	The adventures of Tom Sawyer is a _____.	B) Novel	General English - Literature	"The Adventures of Tom Sawyer" by Mark Twain is a full-length work of prose fiction following a boy's growing-up adventures, and a book-length work of this kind is classified as a novel, distinct from a short story (a brief work read in one sitting), the broader umbrella category "fiction" (which includes novels, short stories, and more), or a "tale" (a short, often simple narrative). This is covered in Class 9 English, Term 2, Unit 1, "The Cat and the Pain-Killer" (an extract from "The Adventures of Tom Sawyer"), whose supplementary notes state directly that "The Adventures of Tom Sawyer" is a novel about a young boy Tom Sawyer growing up.
EN-121	What is the landform formed by silt called?	A) Alluvial	General English - Vocabulary	'Alluvial' describes land or soil built up from the fine sediment, or silt, that flowing water carries and deposits over time, forming fertile plains and deltas. A sinkhole forms from the collapse of dissolving rock, a meander is simply a bend in a river's course, and a fluvial terrace is a step-like bench shaped mainly by erosion rather than deposition. So the landform created specifically by deposited silt is called alluvial. This is covered in Class 9 English, Term 2, Unit 2, "Water – The Elixir of

				Life."
EN-122	Which historical character inspired Young Indira?	B) Joan of Arc	General English Literature	- As a child, young Indira Gandhi was deeply moved by the story of Joan of Arc, the French heroine, and dreamed of leading her own people to freedom in the same heroic way, which is why Joan of Arc, rather than the Rani of Jhansi, Sarojini Naidu, or Vijayalakshmi Pandit, is named as her childhood inspiration. This is covered in Class 9 English, Term 3, Unit 2, "A Birthday Letter", Jawaharlal Nehru's letter to young Indira, whose comprehension questions ask verbatim, "Which historical character inspired young Indira?", and whose text recalls, "Do you remember how fascinated you were when you first read the story of Joan of Arc, and how your ambition was to be something like her?"
EN-123	Why did we call Dr. Salim Ali as "Birdman of India"?	B) His immense contribution to the field of Ornithology	General English Literature	- Dr. Salim Ali earned the title "Birdman of India" because of his lifelong, pioneering work in ornithology, the scientific study of birds, through decades of surveys, popular writing, and conservation efforts that shaped how India understands and protects its bird life; this rules out unrelated fields such as climate research, orthopaedic medicine, or the study of water movements, none of which describe his actual area of expertise.
EN-124	In whose biography do you find this statement?	C) Mahatma Gandhi	General English Literature	- This statement, expressing a wish to abolish a deeply entrenched social evil completely if

	I would sweep them out of existence if I had the power.			given the power to do so, reflects Mahatma Gandhi's lifelong campaign against practices such as untouchability, which he condemned in the strongest terms in his writings and speeches, setting this quotation apart from Nehru's writings on nation-building, Mandela's account of fighting apartheid, or Lincoln's statements on slavery.
EN-125	Dr. Salim Ali was introduced to the serious study of birds by	A) W.S. Millard	General English Literature	- Salim Ali's serious, disciplined interest in ornithology began when, as a boy, he took a curious-looking sparrow he had shot to W.S. Millard, the secretary of the Bombay Natural History Society, who identified the bird for him and encouraged his budding curiosity, setting him on the path to becoming India's leading ornithologist; this distinguishes Millard's role from the other names, who are not credited with introducing him to bird study in this way.
EN-126	"Elephant Rides are for the Royals. Forget this Dream" – Who said this to Rani of Jhansi?	B) Moropant Tambe	General English Literature	- As a young girl, Manikarnika (who would later become the Rani of Jhansi) dreamed of riding an elephant like the ones she saw in royal processions, but her father, Moropant Tambe, told her that elephant rides were reserved for royalty and that she should set aside such a dream, a scene that foreshadows her later rise to become a queen herself; this distinguishes his role from Baji Rao (the Peshwa in whose household she grew up), Gangadhar Rao (the Maharaja she later married), and Pandit

				Dikshit.
EN-127	What was the name of the system that Nelson Mandela fought against?	B) Apartheid	General English - Literature	Nelson Mandela devoted his life to fighting "apartheid", the South African system of state-enforced racial segregation and discrimination that denied non-white citizens basic rights and opportunities, and his decades of resistance and eventual imprisonment were directed specifically against this policy, rather than against the general idea of violence, the American civil rights movement, or the Indian practice of sati referenced in the other options.
EN-128	Abraham Lincoln Proclaimed the abolition of slavery on	B) January 1, 1863	General English - Literature	Abraham Lincoln's Emancipation Proclamation, declaring enslaved people in the Confederate states to be free, took legal effect on January 1, 1863, a date that marks a turning point in the American Civil War and in the eventual abolition of slavery in the United States, distinguishing it from the other options, which shift either the month or the year by one increment.
EN-129	Match the words with their phrases : (a) Friendly relationship (b) Meet by chance (c) Use completely (d) Leave from the place 1. ran out 2. get along with 3. go away	C) (a)-2 (b)-4 (c)-3 (d)-1	General English - Vocabulary	'Get along with' describes having a friendly relationship with someone (a-2), 'come across' means to meet or find something by chance (b-4), 'run out' means to use up a supply completely (c-3), and 'go away' means to leave from a place (d-1). Matching each phrasal verb to the meaning it actually carries in everyday usage gives exactly this pairing. So the correct match is (a)-2, (b)-4, (c)-3, (d)-1.

	4. come across			
EN-130	Choose the correct synonym for the underlined word : Fill all the bowls, tubs, pails and pitchers with fresh water.	B) jugs	General English - Vocabulary	A 'pitcher' is a large container with a handle and spout used for holding and pouring liquids, which is precisely what a 'jug' is, making it the closest synonym among the choices. A mug is a small handled cup for drinking, a bucket is essentially the same as the 'pails' already listed separately in the sentence, and a pot is generally used for cooking or plants rather than pouring. So the word closest in meaning to 'pitchers' is jugs. This is covered in Class 9 English, Term 1, Unit 2, "The Envious Neighbour" (Supplementary).
EN-131	Choose the correct 'Synonym' by matching Column A and B : (a) Affluent (b) Dilate (c) Smacks (d) Summit 1. Widen 2. Spire 3. Wealthy 4. Drive	C) (a)-3 (b)-1 (c)-4 (d)-2	General English - Vocabulary	'Affluent' means wealthy, matching meaning 3; 'dilate' means to widen, as when eyes or pupils dilate, matching meaning 1; 'smacks (of)' in this sense means to drive or push forcefully into something, matching meaning 4; and 'summit' corresponds to a spire or peak, matching meaning 2. Pairing each word with its closest synonym in this way gives (a)-3, (b)-1, (c)-4, (d)-2. This is covered in Class 10 English, Unit 4, "The Attic," whose glossary defines 'affluent' as wealthy, 'dilated' as widened, and 'smacks' as driving forcefully.
EN-132	Add a prefix to the word 'Natural' to complete the sentence.	C) super	General English - Vocabulary	The prefix 'super-' combines with 'natural' to form 'supernatural', meaning beyond the ordinary laws of nature, which fits a job

	His job is to investigate _____ natural phenomenas.			investigating mysterious, unexplained phenomena. 'In-' and 'non-' do not form standard, recognised English words with 'natural' in this sense, and 'pro-' means 'in favour of' or 'forward', unrelated to this meaning. So the correct prefix to complete the word is 'super-'. This is covered in Class 7 English, Term 3, Unit 1, "Sindbad – My First Voyage" (Supplementary), which describes Sindbad 'witnessing supernatural phenomena' on his travels.
EN-133	Fill in the blanks with suitable article. India is _____ largest democracy in the world.	B) the	General English - Grammar	The definite article "the" is required immediately before a superlative adjective because a superlative always points to one unique item within its group, and "largest" here singles out India as the single greatest democracy in the world, unlike the indefinite articles "a"/"an" (used for one unspecified item beginning with a consonant or vowel sound) or the quantifier "all" (which denotes quantity, not identification). This is covered in Class 12 English, Unit 5, "The Chair", whose grammar notes on Degrees of Comparison state that the adjectives in superlative degree are preceded by the definite article "the".
EN-134	Identify the correct preposition from the options given below. I will have finished this essay _____	D) by	General English - Grammar	The preposition "by" means "not later than" and marks a deadline, which is exactly why it pairs with the future perfect tense to show an action that will be completed before a stated

	Friday.			point in time; here "I will have finished this essay by Friday" signals the essay will be done at some point up to and including Friday, unlike "in" (used for months/years), "on" (used for a specific day meaning "during" that day), or "at" (used for a precise clock time). This is covered in Class 9 English, Term 2, Unit 2, "Water – The Elixir of Life", which uses the identical construction, "By Friday, she will have had my car for a whole week!", to illustrate this future-perfect deadline sense of "by".
EN-135	Choose the correct question tag : This is the bus that I have to travel, — ———?	D) isn't it?	General English - Grammar	A question tag mirrors the statement's auxiliary verb and subject but reverses its polarity, so an affirmative statement takes a negative tag and vice versa; since "This is the bus that I have to travel" is affirmative and uses "is", its tag must be negative and use "is" too, with "it" standing in for "this" rather than repeating it, giving "isn't it?". This is covered in Class 11 English, Unit 4, "Tight Corners", whose grammar notes explain that a question tag is formed with the statement's auxiliary verb and subject, and that a positive statement takes a negative tag.
EN-136	Select the suitable tag. He lives in Europe, ———?	D) doesn't he?	General English - Grammar	"He lives in Europe" is an affirmative statement in the simple present with a third-person singular subject, and such statements form their question tags with the negative

				auxiliary "doesn't" plus the subject pronoun, since the main verb here is not a form of "be" and needs the "do"-auxiliary to build the tag; this rules out "isn't he?" (verb "be", present) and "wasn't he?"/"didn't he?" (past tense, which does not match the present-tense statement). This is covered in Class 11 English, Unit 4, "Tight Corners", whose grammar notes state that when a sentence contains a main verb, the question tag uses an appropriate form of the "do" verb.
EN-137	Match the Non-finite verb correctly : (a) Walking is healthy habit (b) I like to walk early in the morning (c) Having walked a long distance I felt tired (d) These are my walking shoes 1. Infinitive 2. Present Participle 3. Gerunds 4. Past Participle	B) (a)-3 (b)-1 (c)-4 (d)-2	General English Grammar	Non-finite verbs, gerunds, infinitives, and participles, do not change according to tense or subject the way finite verbs do: in "Walking is a healthy habit", "Walking" is a gerund because it functions as a noun (the subject); "to walk" in "I like to walk early in the morning" is an infinitive; "Having walked a long distance" is a past/perfect participle showing a completed prior action; and "walking shoes" uses "walking" as a present participle modifying the noun "shoes" like an adjective. Matching each use to its category gives (a)-3, (b)-1, (c)-4, (d)-2. This is covered in Class 9 English, Term 1, Unit 2, "I Can't Climb Trees Anymore", whose grammar section on Non-Finite Verbs uses these exact four examples, "Walking is a healthy habit", "I like to walk early in the morning", "These are my

				walking shoes", and "Having walked a long distance I felt tired", to illustrate gerunds, infinitives, and participles.
EN-138	Identify the sentence pattern of the following sentence. I painted the car blue.	A) SVOC	General English Grammar	- A sentence pattern is built by identifying each element's grammatical role: "I" is the Subject, "painted" is the Verb, "the car" is the Object, and "blue" is a Complement that describes the object rather than adding an adverbial detail, giving the pattern Subject-Verb-Object-Complement (SVOC), unlike SVC (no object), SVA (ends in an adverbial with no object), or SVOA (an adverbial follows the object). This is covered in Class 8 English, Term 2, Unit 2, "My Reminiscence", whose grammar notes on sentence patterns list "SVOC" with the identical example sentence, "I painted the car blue".
EN-139	Identify the sentence pattern of the following sentence. In 1998, Frank moved to London.	A) ASVA	General English Grammar	- This sentence opens with the adverbial phrase "In 1998" before its subject and verb, and closes with a second adverbial, "to London", describing place rather than an object receiving the action; identifying each part in order, Adverbial + Subject + Verb + Adverbial, gives the pattern ASVA, distinguishing it from ASVO (an object follows the verb), ASVC (a complement follows the verb), or SVIODO (a sentence with both an indirect and a direct object).
EN-	They rejoined the group as Sarah	C) dessert	General English	- 'Dessert' is the sweet course served after a

140	passed out ——— and coffee.		Vocabulary	meal, which is naturally passed around together with coffee, fitting the blank exactly. 'Desert' (one 's') instead means a dry, sandy region or, as a verb, to abandon someone, while 'dirt' means filth and 'dish' is simply a general word for a container or food item. So the correct homophone to complete the sentence is 'dessert'. This is covered in Class 11 Communicative English, Unit 6, in its glossary of commonly confused homophones such as 'desert' and 'dessert'.
EN-141	Select the grammatically correct sentence : (a) My son is fond of music (b) My son is fond to music (c) My son is fond in music (d) My son is fond with music	D) Only (a) is correct	General English - Grammar	The adjective "fond" is fixed to the preposition "of" in standard English, so "fond of" is the only grammatically correct collocation, ruling out "fond to", "fond in", and "fond with"; this makes "My son is fond of music" the sole well-formed sentence among the four, so the correct choice is "Only (a) is correct". This is covered in Class 10 English, Unit 6, "The Last Lesson", which uses the identical example sentence, "My son is fond of music", to teach this fixed prepositional collocation.
EN-142	Which of the following is a noun?	C) Sun	General English - Grammar	A noun is a naming word, it names a person, place, thing, or idea, and among the four options only "Sun" names a thing (a celestial body) rather than functioning primarily as an action word; "Put", "Walk", and "Call" are used chiefly as verbs describing actions, even though a couple of them can occasionally

				double as nouns. This is covered in Class 8 English, Term 1, Unit 1, "Hobby – Turns A Successful Career", whose grammar notes on Parts of Speech define a noun as "a naming word".
EN-143	A _____ of birds were flying on the sky.	C) flock of	General English Vocabulary	'Flock' is the standard collective noun used for a number of birds (or sheep), so 'a flock of birds' is the natural and correct expression. 'Swarm' is used for insects such as bees, and 'herd' is used for large grazing animals like cattle, while 'group' is too generic to be the specific term expected here. So the correct collective noun to complete the sentence is 'flock of'. This is covered in Class 8 English, Term 1, Unit 2, "Friendship," which lists 'a flock of birds' alongside other collective nouns such as 'a swarm of ants'.
EN-144	Identify which is the correct singular word and select the answer from the codes given below. (a) Crises (b) Media	D) Both (a) and (b) are plural word	General English Grammar	"Crises" and "media" are irregular plural forms borrowed from Latin and Greek: "crises" is the plural of the singular "crisis" (like hypothesis/hypotheses, oasis/oases), and "media" is the plural of the singular "medium" (like bacterium/bacteria, curriculum/curricula), so both words in the question are plurals rather than singulars, making "Both (a) and (b) are plural word" correct. This is covered in Class 8 English, Term 1, Unit 2, "Friendship", whose grammar notes list exactly this pattern of irregular

				plurals, including "crisis/crises" and "medium/media".
EN-145	Foreign + Exchange = _____ Find the blended word.	D) Forex	General English - Vocabulary	'Forex' is a portmanteau that blends the beginning of 'Foreign' with the end of 'Exchange', fusing parts of both words into a single new one, in the same pattern as 'brunch' (breakfast + lunch) or 'smog' (smoke + fog). The other options either keep both full words unchanged or retain an extra whole word alongside the blended part, so they are not true blends. The correctly blended word for 'Foreign + Exchange' is 'Forex'. This is covered in Class 12 English, Unit 5, "The Chair," whose portmanteau exercise directly asks students to blend 'Foreign + exchange'.
EN-146	Which two words blend together to form the new word 'Camcorder'?	B) Camera + recorder	General English - Vocabulary	'Camcorder' is formed by blending the beginning of 'Camera' with the ending of 'recorder', combining parts of both full words into one, just as 'brunch' blends 'breakfast' and 'lunch'. 'Cam' alone and 'corder' alone are merely the fragments that make up the blend, not the original source words, and 'order' is unrelated, since the second element actually comes from 'recorder'. So the two words that blend to form 'camcorder' are Camera and recorder. This is covered in Class 12 English, Unit 5, "The Chair," which lists 'Camcorder = camera + recorder' among its examples of portmanteau words.

EN-147	Which of the following is correct for? Overcoat	D) Preposition + Noun	General English Vocabulary -	'Overcoat' is built from the preposition 'over' joined to the noun 'coat', which makes it a Preposition + Noun compound rather than any combination involving two nouns or a verb. This rules out Noun + Preposition, Noun + Noun and Verb + Noun, since none of those word-class orders matches how 'over' and 'coat' actually combine. So 'overcoat' is correctly classified as Preposition + Noun. This is covered in Class 10 English, Unit 4, "The Attic," whose compound-word table lists 'overcoat' as an example of a Preposition + Noun compound.
EN-148	Identify the compound word that is : Gerund + Noun	C) Bleaching powder	General English Vocabulary -	'Bleaching' is a gerund, an -ing form of a verb acting as a noun-modifier, and 'powder' is a noun, so 'bleaching powder' is a Gerund + Noun compound. 'Cry baby' is Verb + Noun, while 'sun rise' and 'sun set' both join two nouns, making them Noun + Noun compounds instead. So the compound formed from a gerund plus a noun is 'bleaching powder'. This is covered in Class 10 English, Unit 4, "The Attic," whose compound-word table lists 'bleaching powder' as its example of a Gerund + Noun compound.
EN-149	Replace the underlined word with its American word : We should use the Bin for the garbage.	B) Trash Can	General English Vocabulary -	'Trash can' is the American English equivalent of the British word 'bin' or 'dustbin', used for the same container that holds garbage. 'Dust bin' and 'garbage bin' both keep the British

				term 'bin', and 'trash box' is not the standard expression, since American usage specifically pairs 'trash' with 'can'. So the correct American English replacement for 'bin' is 'trash can'. This is covered in Class 8 English, Term 3, Unit 2, "Cyber Safety," which lists 'trash can' among its British-versus-American vocabulary equivalents.
EN-150	And I Sunned it with smiles Identify the alliteration in the given line.	C) Sunned – smile	General English - Literature	Alliteration is the repetition of the same initial consonant sound in nearby words, and in "And I sunned it with smiles," both "sunned" and "smile(s)" begin with the /s/ sound, which is exactly this device, unlike "I – it" (different initial sounds), "And – with" (different initial consonants), or "Sunned – with" (/s/ versus /w/). This is covered in Class 9 English, Term 1, Unit 2, "A Poison Tree" by William Blake, whose text includes this exact line, "And I sunned it with smiles."
EN-151	To win, run as fast as the wind Identify the figure of speech in the given line.	C) Simile	General English - Literature	A simile makes an explicit comparison between two unlike things using a connecting word such as "like" or "as", and "run as fast as the wind" compares running speed to the wind using the "as ... as" construction, which is precisely a simile, unlike personification (giving human traits to non-human things), metaphor (an implied comparison without "like/as"), or anaphora (repeating words at the start of successive lines). This is covered in

				Class 8 English, Term 1, Unit 2, "Lessons in Life", whose grammar exercise directly asks students to write a sentence using "as fast as the wind" as an example of this simile structure.
EN-152	Which of the given option is a Metaphor?	C) His words are pearls of wisdom	General English - Literature	A metaphor makes an implied comparison by directly calling one thing another, without using "like" or "as", and "His words are pearls of wisdom" calls the words themselves "pearls," an implied comparison, unlike the other three options, which are all similes using "like" or "as ... as" to compare life to a chocolate box, a person to his twin, and a bus to a snail. This is covered in Class 8 English, Term 1, Unit 2, "Lessons in Life", whose text includes the identical example, "His words are pearls of wisdom," to illustrate a metaphor.
EN-153	Courage isn't a brilliant dash, A daring deed in a moment's flush; It isn't an instantaneous thing Born of despair with a sudden spring Write the Rhyme scheme of the poem.	C) AABB	General English - Literature	A rhyme scheme is found by matching the end-sounds of each line: here, the first two lines end in "dash" and "flush" which rhyme with each other, and the third and fourth lines end in "thing" and "spring" which rhyme with each other, giving the couplet pattern AABB, rather than the alternating pattern ABAB or the enclosed pattern ABBA. This is covered in Class 7 English, Term 3, Unit 2, "Courage" by Edgar Albert Guest, whose opening lines, "Courage isn't a brilliant dash," are quoted directly in the question.

EN-154	Speak gently to the young, for they Will have enough to bear – Pass through this life as best they may, 'T is full of anxious care! Write the Rhyme Scheme of the given stanza.	A) ABAB	General English Literature	-	Checking the end-sounds line by line, "they" (line 1) rhymes with "may" (line 3), and "bear" (line 2) rhymes with "care" (line 4), so the rhymes alternate between the odd and even lines, giving the pattern ABAB, rather than the couplet pattern AABB, the enclosed pattern ABBA, or a scheme where three lines share one rhyme. This is covered in Class 7 English, Term 1, Unit 3, "Your Space", whose text includes the identical line, "Speak gently to the young, for they."
EN-155	And all I ask is a windy day with the white clouds flying, And the flung spray and the blown spume, and the sea-gulls crying. The rhyming words in the above lines are	D) flying, crying	General English Literature	-	Rhyming words share the same end-sound, and "flying" and "crying" both end in the identical sound "-ying" at the close of their respective lines, which is what makes them the rhyming pair here, whereas "windy/white" and "spray/spume" only share initial sounds (alliteration, not rhyme), and "clouds/gulls" do not share an end-sound at all. This is covered in Class 7 English, Term 3, Unit 1, "Sea Fever" by John Masefield, whose lines, "with the white clouds flying... and the sea-gulls crying," are quoted directly in the question.
EN-156	And the wheel's kick and the wind's song and the white sail's shaking Pick out the figure of speech given in the above poetic line.	C) Alliteration	General English Literature	-	Alliteration is the repetition of the same initial consonant sound across nearby words, and this line repeats the /w/ sound in "wheel's," "wind's," and "white," which is exactly this device, unlike a metaphor (an implied comparison), a simile (a comparison using

				"like/as"), or hyperbole (deliberate exaggeration). This is covered in Class 7 English, Term 3, Unit 1, "Sea Fever" by John Masefield, whose text includes this identical line, "And the wheel's kick and the wind's song and the white sail's shaking."
EN-157	"I must go down to the seas again, to the Vagrant gypsy life" Gypsy life means _____.	B) A Wandering Man's Life	General English - Comprehension	'Vagrant gypsy life' describes an unsettled, roaming existence, free of a fixed home, which is exactly the life of a wanderer drawn out to sea. A sea captain's life implies command and navigation, a historian's life centres on studying the past, and an explorer's life implies purposeful journeys of discovery, none of which carries this sense of aimless roaming. So 'gypsy life' means a wandering man's life. This is covered in Class 7 English, Term 3, Unit 1, "Sea Fever."
EN-158	"But we ants never borrow; We ants never lend" Why do you think ants neither borrow nor lend?	C) Ants are wise and hard working	General English - Comprehension	Ants neither borrow nor lend because they are wise and industrious, gathering and storing enough food through their own steady labour rather than depending on others. This rules out describing them as lacking wisdom, being idle, or being foolish, since the poem instead praises their self-sufficiency and foresight. So the reason ants avoid both borrowing and lending is that they are wise and hard-working.
EN-159	You were the dad chosen for me The author's dad was chosen by _____	C) God	General English - Comprehension	The poem describes a father's love as something that 'was sent to me from

	—.			someplace up above', framing the father as divinely appointed rather than chosen by any earthly person. Mother, neighbours and friends are all people in the author's life, but none of them is credited with choosing the father in the poem. So it is God who is said to have chosen the dad for the author. This is covered in Class 8 English, Term 3, Unit 1, "Special Hero."
EN-160	Then my computer caught a virus, and fell very sick, So I had to call in a doctor, double quick. Why did the poet call the doctor?	A) as the computer fall very sick	General English - Comprehension	The lines state plainly that the computer 'caught a virus, and fell very sick', which is the direct reason the poet had to call in a doctor at once. Falling down, getting hurt and falling asleep each describe a different kind of trouble, but the poem specifically names sickness from a virus as the cause. So the doctor was called because the computer fell very sick. This is covered in Class 8 English, Term 3, Unit 2, "My Computer Needs A Break."
EN-161	"And all I ask is a merry yarn from a laughing fellow-rover, And quiet sleep and a sweet dream when the long trick's over" The above lines are in the poem –	B) Sea Fever	General English - Literature	These closing lines, longing for "a merry yarn from a laughing fellow-rover" and "quiet sleep... when the long trick's over" (a sailor's term for finishing a turn at the ship's wheel), express the seafaring speaker's yearning that runs through John Masefield's "Sea Fever", distinguishing it from Keats's "A Thing of Beauty", the reflective poem "Lessons in Life", or George Eliot's "Making Life Worthwhile".

				This is covered in Class 7 English, Term 3, Unit 1, "Sea Fever", whose text ends with this exact line, "And quiet sleep and a sweet dream when the long trick's over."
EN-162	Autumn is English in red, yellow and brown Autumn is Indian Whenever leaves fall down Who wrote the above poem?	A) Nisha Dyrene	General English - Literature	This poem contrasts the English autumn's "red, yellow and brown" foliage with the Indian autumn marked simply by "leaves fall[ing] down", and this particular poem was written by Nisha Dyrene, distinguishing her from William Wordsworth (known for nature poems like "Daffodils"), D.H. Lawrence (known for "Snake"), and Mary Botham Howitt (known for "The Spider and the Fly"). This is covered in Class 6 English, Term 3, Unit 2, "Indian Seasons", whose text includes both the identical lines, "Autumn is English... Autumn is Indian," and credits the poem to Nisha Dyrene.
EN-163	"And one day, my naughty computer actually gobbled a worm, And behaved so erratically that it made me squirm". The poet was made to squirm because of the _____ behaviour of the computer.	C) erratic	General English - Comprehension	The line states that the computer 'behaved so erratically that it made me squirm', so the adjective 'erratic' — meaning unpredictable and inconsistent — is the word that directly matches the poem's own wording. Absent-minded, dreadful and hasty each describe a different quality (forgetfulness, terror, and haste respectively) rather than the unpredictable swings the poem actually describes. So the behaviour that made the poet squirm was erratic behaviour. This is

				covered in Class 8 English, Term 3, Unit 2, "My Computer Needs A Break."
EN-164	Every soul that touches yours Be it the slightest contact Who wrote the above lines?	C) George Eliot	General English - Literature	These opening lines, reflecting on how every soul that comes into contact with another leaves behind some small good, belong to George Eliot's poem on the lasting influence people have on one another, distinguishing her from William Shakespeare, Robert Frost, and John Masefield, each associated with very different works. This is covered in Class 8 English, Term 2, Unit 1, "Making Life Worth While", whose text opens with this identical line, "Every soul that touches yours."
EN-165	Who was chirping at the edge of the woods?	D) Birds	General English - Comprehension	'Chirping' is the characteristic short, sharp sound made by birds, unlike the mooing of a cow, the chattering of a monkey, or the barking of a dog. Since the text describes this specific sound coming from the edge of the woods, it must be birds that were chirping there. This is covered in Class 10 English, Unit 6, "The Last Lesson."
EN-166	On the way to his home, Peter stopped to pick ——— or to listen to the ———.	B) Blue flowers, the rabbits' soft tread	General English - Comprehension	According to the passage, Peter paused on his walk home either to pick the blue flowers growing along the way or to listen quietly for the soft tread of rabbits moving nearby. The other options substitute yellow flowers for blue, or the sound of waterfalls for the rabbits' footsteps, neither of which matches the specific details given in the text. So both

				blanks are correctly completed by 'blue flowers' and 'the rabbits' soft tread'.
EN-167	The setting of the play 'The Dying Detective' is in	D) Sherlock Holmes' bedroom	General English - Literature	The play "The Dying Detective" unfolds entirely within Sherlock Holmes's own bedroom at 221B Baker Street, where he pretends to be dying of a rare disease in order to trick the real culprit, Culverton Smith, into confessing, so the bedroom, not Victor Savage's house (the murder scene referenced in dialogue), Dr. Watson's house, or a New York apartment, is the play's actual setting. This is covered in Class 10 English, Unit 7, "The Dying Detective", the Arthur Conan Doyle play whose action takes place in this very room.
EN-168	Sir Arthur Ignatius Conan Doyle was a _____ writer.	C) British	General English - Literature	Sir Arthur Ignatius Conan Doyle, the creator of Sherlock Holmes, was born in Edinburgh, Scotland, and is identified as a British writer, part of the broader British literary tradition, rather than as Irish, American, or French, nationalities that do not match his birthplace or literary identity. This is covered in Class 10 English, Unit 7, "The Dying Detective", which introduces its author as "Arthur Conan Doyle" and discusses his life and work as a British writer.
EN-169	State which statement is correct : (1) Little Czar was a European brown bear cub	A) 1	General English - Comprehension	The text specifically introduces Little Czar as 'a very saucy but good-natured European brown bear cub' who challenges the American grizzly cub Little Cyclone, so his nationality is

	(2) Little Czar was an Indian brown bear cub (3) Little Czar was an American brown bear cub (4) Little Czar was a Germanian brown bear cub			explicitly given as European, not Indian, American or German. Only statement (1) matches this description exactly as stated in the passage. This is covered in Class 9 English, Term 1, Unit 2, "Little Czar and Little Cyclone" (Supplementary).
EN-170	Who brought up Sir Isaac Newton?	B) Grandmother	General English Comprehension	- According to the biographical account, Isaac Newton was left to the care of his 'good old grandmother' after his father had died before his birth and his mother remarried and moved away. This rules out the grandfather, father and mother as the ones who actually raised him, since the text credits the grandmother with his upbringing. So Newton was brought up by his grandmother. This is covered in Class 8 English, Term 2, Unit 1, "Sir Isaac Newton – The Ingenious Scientist."
EN-171	Beauty lies in the beholder's ———	B) Eyes	General English Vocabulary	- The well-known saying is 'Beauty lies in the eyes of the beholder', meaning that what counts as beautiful is a matter of individual, subjective perception rather than an objective fact. Head, brain and ear are not the words used in this fixed expression, since the proverb specifically locates the judgement of beauty in sight, not thought or hearing. So the correct completion is 'eyes'. This is covered in Class 8 English, Term 2, Unit 2, "My Reminiscence," whose warm-up section quotes

				this exact saying, 'Beauty lies in the eyes of the beholder'.
EN-172	"My Reminiscences" was written by ———.	D) Rabindranath Tagore	General English - Literature	"My Reminiscences" (also known by its Bengali title, "Jeevan Smriti") is the memoir written by Rabindranath Tagore, the Nobel-laureate poet also celebrated for "Gitanjali", distinguishing his authorship from Kamala Markandaya ("Nectar in a Sieve"), Ernest Hemingway ("The Old Man and the Sea"), and Toru Dutt ("Our Casuarina Tree"). This is covered in Class 8 English, Term 2, Unit 2, "My Reminiscence", whose text states directly that "My Reminiscences" were written by Tagore.
EN-173	"Great Leaders have something in them which inspires a whole people and makes them do great deeds". Who quotes this?	C) Jawaharlal Nehru	General English - Literature	This statement, observing that truly great leaders possess a quality that inspires an entire people to accomplish great deeds, is attributed to Jawaharlal Nehru, reflecting his own reflections on leadership and nation-building, rather than to Dr. C.N. Annadurai, Mahatma Gandhi, or Abraham Lincoln, each remembered for different, distinct sayings.
EN-174	When was Subash Chandra Bose born?	A) January 23, 1897	General English - Comprehension	Subhas Chandra Bose was born on January 23, 1897, in Cuttack, Odisha, as recorded in the biographical passage on his life. The other options keep the day January 23 or the date January 26 but pair them with incorrect years, none of which corresponds to his actual recorded birth year. So the correct date of his birth is January 23, 1897.

EN-175	Helen Keller's Autobiography was named _____.	B) The Story of my Life	General English Literature	- Helen Keller, who lost her sight and hearing in infancy yet went on to become an acclaimed author and lecturer, titled her autobiography "The Story of My Life", first published in 1903, distinguishing it from the similarly worded but incorrect titles "My Story", "My Life", and "Experiments with My Life" (which echoes Gandhi's own autobiography title instead).
EN-176	How did Kalpana Chawla die?	A) Space Shuttle Disaster	General English Comprehension	- Kalpana Chawla's life 'ended tragically during her second tour to space, when the space shuttle Columbia disintegrated' on 1 February 2003 as it re-entered the Earth's atmosphere. This was neither an aircraft crash, a launch-stage rocket failure, nor the loss of an unmanned satellite probe, since she died aboard the crewed shuttle during re-entry rather than at any of those other stages. So her death is correctly described as a Space Shuttle Disaster. This is covered in Class 11 Communicative English, Unit 4, "Kalpana Chawla, the First Indian Woman Astronaut."
EN-177	Raj was upset as he had done _____ in his English test.	B) poorly	General English Comprehension	- Raj's distress makes sense only if he performed badly, since doing well, doing better than before, or scoring an average result would not have upset him in the way the story describes. His grandmother then steps in to console him, which fits a poor result needing comfort rather than a good or middling one. So Raj was upset because he had done poorly

				in his test. This is covered in Class 7 English, Term 1, Unit 3, "The Tale of the Pencil" (Supplementary).
EN-178	His grandmother gave him a ———.	C) pencil	General English - Comprehension	After Raj did poorly on his test, his grandmother gave him a pencil and used its qualities — how it must be sharpened and worn down to become useful — as a lesson to comfort and encourage him. A sketch, a pen and a painting box are all different objects that do not carry this specific lesson about enduring hardship to improve. So the object the grandmother gave him was a pencil. This is covered in Class 7 English, Term 1, Unit 3, "The Tale of the Pencil" (Supplementary).
EN-179	Granny compared ——— with the pencil.	B) Raj	General English - Comprehension	Granny compared her grandson Raj with the pencil, drawing a parallel between the hardships a pencil undergoes to remain useful and the setbacks Raj needed to learn from after his poor test result. Babu, Ravi and Rajesh are names that do not belong to any character in this story, so none of them fits. It is Raj who is the boy compared to the pencil. This is covered in Class 7 English, Term 1, Unit 3, "The Tale of the Pencil" (Supplementary).
EN-180	Raj's pain of not doing well in his test was compared with ——— of pencils.	D) sharpening	General English - Comprehension	Granny compared Raj's pain at failing his test to the sharpening a pencil must endure, since a pencil becomes useful only after this painful process, just as hardship helps a person grow

				and improve. Writing, drawing and sketching are all things a pencil does once it is ready for use, not something painful done to the pencil itself. So the comparison is specifically with the sharpening of pencils. This is covered in Class 7 English, Term 1, Unit 3, "The Tale of the Pencil" (Supplementary).
EN-181	Raj understood that failures are stepping stones to	A) success	General English - Vocabulary	The fixed motivational saying is 'failures are the stepping stones to success', meaning setbacks and mistakes actually help a person climb toward eventual achievement rather than holding them back. Consoling and climbing describe actions or processes rather than a final destination, and 'strength' is plausible in meaning but is not the word fixed in this established phrase. So the phrase Raj came to understand completes with 'success'. This is covered in Class 7 English, Term 1, Unit 3, "The Tale of the Pencil" (Supplementary), whose comprehension exercise states, 'Raj understood that failures are stepping stones to' success.
EN-182	Choose the correct meaning of the phrase. Reconcile to	B) Accept half heartedly	General English - Vocabulary	'Reconcile (oneself) to' something means to bring oneself to accept an unpleasant or unavoidable situation, often without real enthusiasm, which is exactly what 'accept half-heartedly' describes. 'Maintain' means to keep something going, 'arrive suddenly' describes an unexpected appearance, and

				'continue' simply means to keep going, none of which carries this sense of reluctant acceptance. So the correct meaning of 'reconcile to' is to accept half-heartedly.
EN-183	Choose the correct Antonym for the underlined word 'Concentrate' from the option given.	C) Distract	General English - Vocabulary	'Concentrate' means to focus one's full attention on something, so its natural opposite is 'distract', which means to draw attention away and break that focus. 'Continual' relates to how often something happens rather than to attention, 'preventable' means capable of being avoided, and 'wise' describes good judgement, none of which is the opposite of concentrating. So the correct antonym of 'concentrate' is 'distract'.
EN-184	Match the following with correct Antonyms : (a) brisk (b) desperate (c) plaintive (d) praise 1. happy 2. criticize 3. hopeful 4. dull	B) (a)-4 (b)-3 (c)-1 (d)-2	General English - Vocabulary	'Brisk' (lively and quick) is opposed by 'dull' (a-4); 'desperate' (without hope) is opposed by 'hopeful' (b-3); 'plaintive' (mournful and sad) is opposed by 'happy' (c-1); and 'praise' (to commend) is opposed by 'criticize' (d-2). Matching each word to its true opposite in this way produces exactly this set of pairs. So the correct matching of antonyms is (a)-4, (b)-3, (c)-1, (d)-2.
EN-185	Select the correct prefix word for 'Violet' from the options given :	A) ultra	General English - Vocabulary	The prefix 'ultra-', meaning 'beyond', joins with 'violet' to form 'ultraviolet', the established term for light lying just beyond the violet end of the visible spectrum. 'Em-' is

				used in words like 'embody', 'super-' means 'above' as in 'supersonic', and 'in-' usually means 'not' or 'into', none of which combines with 'violet' to form a real word. So the correct prefix is 'ultra-', giving 'ultraviolet'.
EN-186	Pick a suitable prefix for the given word from the given options : Understand	C) mis	General English - Vocabulary	The prefix 'mis-', meaning 'wrongly', combines with 'understand' to form 'misunderstand', meaning to interpret something incorrectly. 'Re-' means 'again' as in 'rewrite', 'ir-' means 'not' as in 'irregular', and 'sub-' means 'under' as in 'submarine', none of which forms a real word when joined to 'understand'. So the correct prefix is 'mis-'. This is covered in Class 8 English, Term 1, Unit 3, "Being Safe," whose prefix table lists 'Mis- (wrong) → misbehave' alongside the same set of negative prefixes.
EN-187	Choose the correct tense form for the following sentence. If she works hard, she _____ a scholarship.	C) will get	General English - Grammar	This sentence follows the first conditional pattern used for real, likely future situations: "if" + present simple in the if-clause is paired with "will" + base verb in the main clause, so "If she works hard, she will get a scholarship" correctly matches the present-simple condition with a future result, unlike "would get" (second conditional, unreal present), "would have got" (third conditional, unreal past), or "won't get" (a first-conditional form but with a negative sense that reverses the intended cause-and-effect). This is covered in Class 8 English, Term 2, Unit 2, "My

				Reminiscence", whose grammar notes on Conditional Sentence Type 1 state that it uses the simple present in the if-clause with "will + infinitive" in the main clause.
EN-188	Select the correct tense. If you ——— hard you would have won the relay match.	D) had worked	General English - Grammar	This sentence is a third conditional, used for an unreal, hypothetical past situation and its imagined past result, which requires "if" + past perfect in the if-clause paired with "would have" + past participle in the main clause; since the main clause already gives "would have won", the if-clause must be "If you had worked hard, you would have won the relay match", ruling out the future form "will work", the present "works", and the participle "working", which needs an auxiliary to function as a verb at all. This is covered in Class 8 English, Term 2, Unit 2, "My Reminiscence", whose grammar notes on Conditional Sentence Type 3 state that the if-clause takes the past perfect while the main clause takes "would + have + past participle".
EN-189	Select the correct passive form of the sentence given. She had already sent the parcel	B) The parcel had already been sent by her	General English - Grammar	To form the passive voice, the object of the active sentence becomes the subject and the verb changes to "be" + past participle while the tense of the original sentence is preserved; since the active sentence "She had already sent the parcel" is in the past perfect tense ("had sent"), its passive form must also be past perfect, "had been sent", giving "The parcel

				had already been sent by her", rather than shifting to present perfect passive ("has already been sent") or simple past passive ("was already sent"). This is covered in Class 12 English, Unit 3, "In Celebration of Being Alive", whose grammar notes on Active and Passive Voice state that the tense of the verb does not change when converting to the passive.
EN-190	Choose the correct Active Voice for the given sentence : The rules should not be violated.	D) Nobody should violate the rules.	General English Grammar	- Converting a passive sentence back to active voice requires supplying a logical subject to perform the action while keeping the same modal verb and the same negative sense; "The rules should not be violated" becomes active as "Nobody should violate the rules", which preserves both "should" and the prohibition by making "nobody" the one who must not break the rules, unlike an affirmative rewording ("You should violate..."), an awkward double-negative order ("Anybody should not..."), or a shift to a plain imperative ("Do not violate..."), which drops the modal structure altogether. This is covered in Class 12 English, Unit 3, "In Celebration of Being Alive", whose grammar notes on Active and Passive Voice cover converting sentences between the two voices while keeping the same verb form and meaning.
EN-	Which of the following is suitable to	B) talking	General English	- The verb "stop" changes meaning depending

191	complete the meaning? I stopped ——— to him.		Grammar	on what follows it: "stop" + gerund ("-ing" form) means to cease an ongoing activity, while "stop" + infinitive ("to" + verb) means to pause in order to do something else; since the sentence describes ending an existing habit of talking to someone, it needs the gerund "talking" ("I stopped talking to him" means I no longer talk to him), not the infinitive "to talk" (which would mean pausing in order to begin talking), the perfect gerund "having talked" (which does not follow "stopped" naturally), or the passive "being talked" (which wrongly makes the speaker the one talked about).
EN-192	Someday people will ——— of our great exploits.	C) write	General English - Grammar	After the modal verb "will", English requires the base form of the verb, so the blank needs "write" (meaning to record something in words), matching the sense of "Someday people will write of our great exploits"; this rules out "reads" (a third-person present form) and "wrote" (a past-tense form), both incompatible with "will", and also its homophone "right", which sounds identical to "write" but means correct or a direction rather than the act of composing text. This is covered in Class 9 English, Term 1, Unit 1, "Goal Setting", whose vocabulary exercise on homophones asks students to find the homophone of "right" (i.e. "write"), the exact word pair tested here.

EN-195	Choose the correct preposition : Miranda hung ——— her father saying, "Why are you so ungente"?	A) upon	General English Grammar	-	The phrasal verb "hang upon" means to cling to someone or depend on them emotionally, which is exactly the sense needed here as Miranda clings to her father while questioning his harshness, so "Miranda hung upon her father" is correct, unlike "hang on" (to wait or grip physically), "in" (a plain locational preposition with no idiomatic sense of clinging), or the informal "hang with" (to spend time with someone). This is covered in Class 10 English, Unit 1, "The Tempest", whose supplementary reader text uses this exact line, "Miranda hung upon her father," saying, "Why are you so ungente?"
EN-196	Select the correct meaningful sentence from the following.	D) News never comes too late.	General English Grammar	-	"News" looks plural because it ends in "-s", but it is an uncountable noun that is always treated as grammatically singular, so it must take the singular verb "comes", which is exactly what makes "News never comes too late" a correctly agreeing and meaningful sentence, while the other options misapply verb agreement to a mixed noun phrase, a compound subject, or a collective noun. This is covered in Class 10 English, Unit 6, "The Last Lesson", whose grammar notes on tricky subject-verb agreement give the identical example, "News never comes too late", to show that "news" takes a singular verb.
EN-	Pick out the complex sentence from	B) One who does not	General English	-	A complex sentence contains exactly one main

197	the given options.	love one's country is a wretched person	Grammar	clause joined to at least one subordinate clause; here, "One ... is a wretched person" is the main clause and "who does not love one's country" is a relative (subordinate) clause describing "one", which together form a complex sentence, unlike the simple sentences in (a) and (c), which have only one clause each, or the compound sentence in (d), where two independent clauses are joined by the coordinating conjunction "and". This is covered in Class 10 English, Unit 7, "The Dying Detective", whose grammar notes define a complex sentence as one that has one main clause and one or more subordinate clauses.
EN-198	Find out what kind of sentence is given below. 'If he is at home, I shall see him'.	C) Complex	General English - Grammar	The sentence has two clauses: "If he is at home" is a subordinate clause expressing a condition, and "I shall see him" is the main clause carrying the result, and a sentence made up of one main clause plus one subordinate clause is by definition complex, unlike a simple sentence (one clause only), a compound sentence (two independent clauses joined by a coordinating conjunction such as "and", "but", or "or"), or an imperative sentence (a command). This is covered in Class 10 English, Unit 7, "The Dying Detective", whose grammar notes define a complex sentence as one main clause combined with one or more subordinate

				clauses, exactly the structure this conditional sentence has.
EN-199	Combine the pairs of sentences by choosing the correct sentence. I saw a Tiger. It was wounded	B) I saw a wounded Tiger	General English - Grammar	When two short sentences share a subject and the second sentence merely adds a descriptive detail about the first sentence's object, that detail can be reduced to a single adjective placed before the noun it describes; "I saw a Tiger. It was wounded" combines this way into "I saw a wounded Tiger", where "wounded" now modifies "Tiger" directly, giving a neat, economical sentence rather than the awkward, meaning-reversing, or ungrammatical alternatives offered in the other options.
EN-200	Identify the correct Degree of Comparison : (1) Very few people in this town are as generous as Mr. Mohan. (2) I cannot do anything better for you than this.	B) (1) Positive Degree (2) Comparative Degree	General English - Grammar	The positive degree of comparison uses the pattern "as ... as" to state that two things are equal without ranking one above the other, as in sentence (1), "as generous as Mr. Mohan", while the comparative degree uses "-er ... than" or "better/worse ... than" to compare exactly two things and rank one above the other, as in sentence (2), "better ... than this"; matching each sentence to its structure gives (1) Positive Degree and (2) Comparative Degree. This is covered in Class 12 English, Unit 5, "The Chair", whose grammar notes on Degrees of Comparison Transformation explain that the positive degree uses structures like "as ... as" while the comparative degree compares two objects

				using "than".
TA-101	– ?	D)	General Tamil - Ilakkanam (Grammar)	The exam's own key only marks ' ' as the classification for without naming it further, while the other three options define classifications by a specific shared basis: compares based on shared action, compares based on shared benefit/effect, and compares based on shared shape/form. Since (skill/manner) describes the general way an action proceeds rather than fitting any one of these three named bases of comparison, the exam key treats it as falling outside all three, leaving the fourth option as the marked answer by elimination.
TA-102	.	B)	General Tamil - Sollarivu (Vocabulary)	The idiom " " (literally, "the child in the hands of the one who lifted it") refers to a child raised by someone other than its birth parent, a foster or adopted child who remains within its raiser's care and control, rather than describing stubbornness, blanket obedience to anyone, or simple obedience to the person raising them, which are the senses of the other options.
TA-103	' .	B)	General Tamil - Ilakkanam (Grammar)	In Tamil grammar, (verbs) fall into two types based on who performs the action: , where the subject carries out the action itself, and , where the subject makes or causes another person to perform the action (a

				causative construction), often built with suffixes like - /- or helper verbs such as / / . The exam key classifies ' as an instance of such a causative () construction, distinguishing it from (self-performed action) and the other listed terms. This is covered in Class 9 Tamil, Unit 1, the lesson (Sentence Grammar), which explains that is marked by causative suffixes such as - /- or auxiliary verbs like , , .
TA-104	?	D)	General Tamil - Ilakkanam (Grammar)	Tamil interrogative sentences () are classified by the kind of answer they seek: poses a request or command in question form, and expresses doubt or uncertainty. The exam key classifies ' ?' under a further such interrogative sub-type distinct from and , since the sentence poses an either/or framing about the presence of uniforms rather than issuing a command or voicing plain doubt.
TA-105	.	D) ?	General Tamil - Ilakkanam (Grammar)	In Tamil, when a statement contains a specific piece of information, comprehension can be tested by rewriting it as a question that specifically elicits that exact piece of information, usually with a matching (question word) such as , , or . Here the statement names ' ' as the veena said to date from Mahendravarman's time, and

				only option D is built so that its answer reproduces exactly this name (using , 'which veena...'), while the other options are yes/no (/) questions whose answer would not itself supply this specific piece of information. This is covered in Class 12 Tamil, Unit 8, the lesson , whose ' exercise teaches exactly this skill of building a question whose answer matches a given statement's key fact.
TA-106	- ' '.	C)	General Tamil - Ilakkanam (Grammar)	A (finite verb) is built from (verb root) + (tense marker) + a personal ending; in ' , the ending - marks (first person singular, 'I'), so its (grammatical description) is , distinct from a plural form such as ' ' (which would carry a plural ending) or a compound/adjectival reading of the word. This is covered in Class 9 Tamil, Unit 1, the lesson , which repeatedly identifies the ending - /- as the .
TA-107	.	D)	General Tamil - Ilakkanam (Grammar)	In a Tamil noun phrase built from several modifiers, the natural word order runs (possessive) → (adjective) → (head noun) → any linking word that follows. ' (possessive, 'of the Tamils') must precede ' (adjective, 'ancient'), which must precede the head noun ' (heroic sport), followed by ' ; only ' .

				' preserves this order, while the other options scramble the possessive, adjective, and noun out of sequence.
TA-108	.	D)	General Tamil - Ilakkiyam (Literature)	The genuine Thirukkural, from the chapter on Fraudulent Conduct (Kudaa Ozhukkam), reads " ": though straight, an arrow can cause harm, while though curved, the neck of a yaazh (lute) gives sweetness, likewise, a person's true nature must be judged by their actions, not by outward appearance. Option D alone preserves this word sequence and sense correctly, while the other options scramble the couplet's word order. This is covered in Class 8 Tamil, Term 0, Unit 2, the Thirukkural lesson, which teaches this exact couplet.
TA-109	, , , , , .	A) , , , , ,	General Tamil - Ilakkanam (Grammar)	Tamil (dictionary/alphabetical ordering) follows the standard sequence of vowel-sign combinations after a consonant: for words beginning with , the order runs < < < < , following the fixed vowel-sign sequence. Applying this to , , , places () first, then (), (), (), (), and () last, giving option A as the correctly ordered sequence.
TA-110	.	B)	General Tamil - Ilakkanam (Grammar)	A (root word) is the smallest, further-indivisible base of a word, to which tense and

				personal endings are added to build a complete finite verb; (fried, past tense, third-person masculine) is such a built-up form. Among the choices, the exam key marks as the root form underlying , rather than the unrelated poison-related words / or the numeral-related . This is covered in Class 7 Tamil, Term 1, Unit 3, the lesson , which defines a as a word that cannot be broken down into further (grammatical parts), using examples like , , and .
TA-111	' '	D)	General Tamil - Ilakkanam (Grammar)	In Tamil, a is built from (verb root) + (tense infix) + a personal ending; the future tense is regularly marked by inserting the infix - -/- - between the root and the ending. From the root ('to study'), adding the future infix - - and the ('I') ending - gives ('I will study'), whereas is present tense, is future but plural ('we'), and is not a valid Tamil verb form. This is covered in Class 9 Tamil, Unit 1, the lesson , which lists / among the (future-tense infixes) alongside the ending - .
TA-112	.	B) -	General Tamil - Sollarivu (Vocabulary)	In the "single letter as a complete word" (orezhuthu orumozhi) category of classical Tamil grammar, the single syllable " " carries the meaning "sword" (), distinguishing it

				from " " (which classically means honey/deity), " " (which means arrow), and " " (which functions as an imperative meaning "give").
TA-113	. (a) (b) (c) (d) 1. 2. 3. 4.	D) (a)-4 (b)-3 (c)-2 (d)-1	General Tamil - Sollarivu (Vocabulary)	Each single-letter word in classical Tamil carries its own fixed meaning: " " means youth/freshness, " " means love/affection, " " means to place, and " " means to eat, giving the correct match (a)-4, (b)-3, (c)-2, (d)-1.
TA-114	'Renaissance'	C)	General Tamil - Sollarivu (Vocabulary)	The coined Tamil equivalent for the English word "Renaissance" is " " (literally, "re-blossoming"), capturing the sense of a renewed flowering or resurgence, distinguishing it from " " (reconstruction) and " " (rethinking), which correspond to different English concepts.
TA-115	.	A) -	General Tamil - Sollarivu (Vocabulary)	Among the four idiom-and-meaning pairings offered, only option A correctly matches its traditional phrase to its true figurative sense, while the pairings in options B, C, and D each attach to the given phrase a meaning that properly belongs to a different expression.

TA-116	.	D) ; .	General Tamil - Ilakkanam (Grammar)	In Tamil orthography, when a word ending in the object-case marker () or the plural marker - is followed by a word beginning with a (hard consonant such as , , ,), that initial consonant must double (). Applying this rule, + must be written ' ', and + / + must double similarly, giving the fully correct sentence ' ; , unlike the other options, each of which omits one or more of these required doublings. This is covered in Class 9 Tamil, Unit 3, the lesson , which teaches exactly this doubling rule.
TA-117	.	A) -	General Tamil - Sollarivu (Vocabulary)	" " is a classical Tamil word meaning opposition or contradiction, so pairing it with " " (agreement/consent), effectively its opposite, is the mismatched pair here, whereas " " (meaning snake), " " (which also carries the meaning "mountain"), and " " (paired correctly with its intended sense) are all genuinely matching word-meaning pairs.
TA-118	(a) (b)	: C) (a)-3 (b)-4 (c)-1 (d)-2	General Tamil - Aasiriyar Nool (Author and Work)	In this matching exercise, each Sangam-era or classical Tamil text carries a traditional alternate name reflecting its content: is matched here with , with

	(c) (d) 1. 2. 3. 4.			, with , and with , giving the matched set (a)-3, (b)-4, (c)-1, (d)-2 as tested here.
TA-119	(a) (b) (c) (d) 1. 2. 3. 4.	: A) (a)-4 (b)-1 (c)-2 (d)-3	General Tamil - Aasiriyar Nool (Author and Work)	Tamil scholars and writers are often remembered by descriptive epithets reflecting their special contribution: , a Christian priest-scholar devoted to Tamil studies, is honoured with the title ; is called ; . , known for his command of many languages, is honoured as ; and . . , celebrated for his felicity with words, is honoured as . This gives the matched set (a)-4, (b)-1, (c)-2, (d)-3. This is covered in Class 10 Tamil, Unit 1, the lesson (which names . as) and Class 7 Tamil, Term 1, Unit 3, the lesson (which honours . . as).
TA-120		B)	General Tamil - Mozhi Varalaru (Language History)	The term ('the five great epics' of Tamil — , , , , and) was first used by the commentator in his (commentary), distinguishing him from other classical commentators , , and . This is covered in

				Class 12 Tamil, Unit 6, the lesson , whose ' ' exercise poses this exact question with the answer key) .
TA-121	" "	C)	General Tamil - Mozhi Varalaru (Language History)	Per the exam key, the term (an early form of the word later refined into) was first used by , distinguishing this early usage from other early European figures associated with Tamil/Dravidian studies, such as and .
TA-122		B)	General Tamil - Arivu (Tamil GK)	The Ramanathaswamy temple at Rameswaram, famed for its long pillared corridors and richly carved pillars, stands as a celebrated example of Nayak-period sculptural art, unlike the Thanjavur Big Temple (built under the Chola king Rajaraja I), the Srirangam temple at Tiruchi (built up by rulers across many periods), or the Kanchipuram temples (built under the Pallavas). This is covered in Class 9 Tamil, Term 0, Unit 6, the Sirpakkalai (Sculpture) lesson, which names the Nayak-era mandapams and cites Rameswaram's great temple among such Nayak-period constructions.
TA-123	' ' ?	C)	General Tamil - Arivu (Tamil GK)	"Thevaluthu" is the name of the percussion instrument (a type of parai frame-drum) associated specifically with Thevaraattam, a folk dance form of southern Tamil Nadu, distinguishing it from Mayilaattam (peacock-

				costume dance), Oyilaattam (danced while waving coloured cloth strips), and Kaavadiyaattam (the Murugan-devotion dance performed carrying kaavadi).
TA-124	" ",	B)	General Tamil - Ilakkiyam (Literature)	This affectionate letter addressed to " " (younger brother), describing scenes of bathing in streams and wandering through flower-decked groves, is written in the informal, endearing register for which Perarignar Anna's prose was distinctly known, unlike Kalaigarnar Karunanidhi's terse literary style, Rajaji's formal prose, or Mu. Varadharasanar's pure-Tamil idiom. This is covered in Class 9 Tamil, Term 0, Unit 8, the Yappilakkanam lesson, which lists " " among Perarignar Anna's well-known prose writings.
TA-125	" " ' '	D)	General Tamil - Sollarivu (Vocabulary)	In this Tamil idiom about giving "kuzhaai" for a diagnosed ailment, " " is a traditional folk name for the aloe vera plant (), a well-known home-remedy herb, distinguishing it from Kathirvempilai (Eclipta), Kuppaimeni (Acalypha, used for skin ailments), and Thoothuvalai (Solanum trilobatum, used for cough and cold).
TA-126	(a) (b)	: C) (a)-4 (b)-1 (c)-2 (d)-3	General Tamil - Mozhi Varalaru (Language History)	Each social-reform figure listed here is remembered for a specific area of work: _____ is linked to a hospital for leprosy patients (); _____ (

	(c) (d) 1. 2. 3. 4.			) campaigned for the (Devadasi Abolition Act); is remembered as a social volunteer; and is linked to women's education, giving the matched set (a)-4, (b)-1, (c)-2, (d)-3. This is covered in Class 8 Social Science (Tamil medium), Unit 8, the chapter , which names as a leading campaigner for the .
TA-127	.	C)	General Tamil - Sollarivu (Vocabulary)	" " is a classical honorific name for Madurai, tied to the Sundareswarar (Sokkanathar) temple and city in Tamil literary tradition, distinguishing it from Nellai (Tirunelveli, on the Thamirabarani), Tiruchi (on the Kaveri), and Kaveripoompattinam (known by its own special name, "Pugar"). This is covered in Class 10 Tamil, Term 0, Unit 4, the "Thiruvilaiyadal Puranam" lesson, which explicitly glosses " " as meaning Madurai.
TA-128	, ' ?	A)	General Tamil - Mozhi Varalaru (Language History)	Under British colonial rule, the ('gagging order') was used to bar a rousing public speaker from addressing political gatherings; per the exam key, this ban was imposed on (E.V. Ramasamy) because of the mass fervour his speeches provoked against colonial rule, distinguishing him from the other Tamil leaders . . , , and . .
TA-	" !	A)	General Tamil -	This Pongal-day address, which affectionately

129	, "		Ilakkiyam (Literature)	calls out " !" and speaks of shared hardship giving way to festive joy in the plain, intimate register of spoken Tamil, is characteristic of Perarignar Anna's distinctive oratorical style, unlike Ra.pi. Sethupillai's refined professorial prose, Gandhi's speeches on the freedom movement, or Mu. Varadharasanar's classical Tamil idiom.
TA-130	?	c)	General Tamil - Ilakkiyam (Literature)	Erode Thamizhanban is celebrated as a modern Tamil poet who experimented with and introduced brand-new short poetic forms into Tamil verse, much as he is credited elsewhere with bringing Haiku, Senryu and the hybrid Limer form into Tamil, unlike Kavikko Abdul Rahman (known for "Paalveedhi", "Aalapanai"), Kavi Arasu Mu. Metha (known for "Oorvalam", "Kanneer Poakkal"), or Rabindranath Tagore (the Bengali poet of "Gitanjali"). This is covered in Class 9 Tamil, Term 0, Unit 1, the "Thamizhoviya" lesson (his own poetry collection), and Class 11 Advance Tamil, Term 0, Unit 1 (Kavithaiyiyal), which credits him with introducing new short poetic forms such as Haiku, Senryu and Limer into Tamil.
TA-131	' ?	c)	General Tamil - Aasiriyar Nool (Author and Work)	(born), a poet who followed in 's poetic tradition, is honoured with the special title , distinguishing him from other poets given different honorific

				titles, such as (), himself (), and (known by other titles).
TA-132	_____	B) - . .	General Tamil - Mozhi Varalaru (Language History)	Per the exam key, the fact that Tamil manuscripts and records survive carefully preserved in the distant city of Paris despite the ravages of fire and flood elsewhere is recorded in the personal diary () of . . , the scholar renowned for rediscovering and printing lost Sangam-era palm-leaf texts, distinguishing this source from / , / , and / . . .
TA-133	?	D)	General Tamil - Aasiriyar Nool (Author and Work)	(1934-2015), a major modern Tamil short-story and novel writer, is credited with works such as (rendered here as), , and ; the exam key identifies as a work he did not write, making it the correct answer to this exclusion-type question.
TA-134	?	D)	General Tamil - Ilakkiyam (Literature)	Thiruvalluvar, in the chapter on Cherishing One's Kin (Sutrandhal), teaches that caring for and supporting one's own relatives is the sharpest test of true manliness, not helping travellers on the road (a virtue of hospitality), aiding one's enemies, or helping the indifferent, which belong to different ethical contexts. This is covered in Class 7 Tamil, Term 2, Unit 3, the Thirukkural lesson, which teaches the Sutrandhal (Cherishing One's Kin)

				chapter.
TA-135	— .	A)	General Tamil - Ilakkanam (Grammar)	A (verbal noun) is a noun formed from a verb root to name the action itself, typically using suffixes like - /- /- ; (from the root , 'to rot/decay') names the action of decaying, so its is , unlike (an incomplete verb form awaiting another verb), (a finite-verb form naming the doer of an action), or (a compound naming a quality). This is covered in Class 7 Tamil, Term 2, Unit 3, the lesson , which defines this - /- noun-from-verb formation.
TA-136	' —— ?	A)	General Tamil - Ilakkiyam (Literature)	This Thirukkural teaches that treating those who are greater than oneself with the same warmth and duty one shows one's own kin is reckoned the foremost of all virtuous qualities; the given second line alone completes the couplet's metre and sense correctly, while the other three options belong to different, unrelated couplets and disrupt the intended meaning.
TA-137	— .	C) ,	General Tamil - Ilakkiyam (Literature)	In the Kumbakarna Vadhai Padalam of Kamba Ramayanam, Kambar describes the deafening din used to rouse the sleeping giant Kumbakarna through a metre whose very rhythm mimics the sound of a pestle pounding again and again, alternately, like thunder rolling from one end of the world to the other,

				not the clash of colliding clouds, temple drums, or a single plain simile. This is covered in Class 10 Tamil, Term 0, Unit 5, the Kambaramayana lesson, which explicitly notes that this passage's metre, built on the sound of alternating pestle-blows, brings the scene of waking Kumbakarna vividly before the reader.
TA-138	" - (391 : 11-12)	B)	General Tamil - Ilakkanam (Grammar)	In classical Tamil poetics, a simile () can be built on different bases of resemblance: a (or) compares two things purely by their physical shape or form. In the quoted verse, the elephant's trunk moving over a hillock is likened to a snake gliding over it purely because of the matching physical shape and movement, making this a , unlike (a simile based on shared action) or (a simile based on shared benefit/effect).
TA-139	.	B)	General Tamil - Ilakkiyam (Literature)	Among the Sangam poets associated with particular thinais (poetic landscapes) in Kalithogai, the Mullai (pastoral) poems are attributed to Cholan Nalluruthiran, distinguishing him from Nallanthuvanar (author of the Neithal/coastal kali poems), Seraman Perungadungo (author of the Paalai/desert kali poems), and Ilanagaananar (author of the Marudham/riverine kali poems), each associated with a different thinai's poems

				in this anthology.
TA-140		D)	General Tamil - Sollarivu (Vocabulary)	This classical Tamil word denotes the turban or headgear wound around the head (), distinguishing it from " " (a type of drum), " " (a walking staff), and " " (laziness).
TA-141		D)	General Tamil - Ilakkiyam (Literature)	Seerapuranam, Umarupulavar's epic on the life of the Prophet, was undertaken at the request of the wealthy patron Valla Seethakkathi, and Abul Qasim Maraikkayar is likewise recorded as a patron who supported Umarupulavar in this work, distinguishing him from Abdul Khadir and Abdul Samad, names not linked to this history. This is covered in Class 11 Tamil, Term 0, Unit 5, the Seerapuranam lesson, which names both Seethakkathi and Abul Qasim Maraikkayar as the poet's patrons.
TA-142		B)	General Tamil - Ilakkanam (Grammar)	A is a short Tamil verse form composed in two-line stanzas, the two lines linked together by (rhyme); this two-line, rhyme-bound structure is what defines a poem as , as distinct from devices like (initial-letter repetition), (final-syllable rhyme), or (a metrical elision device), none of which describe an overall verse structure. This is covered in Class 6 Tamil, Term 3, Unit 2, the lesson , which explicitly states ' ' (a Kanni is a verse-type composed in two lines).

TA-143	:	A) (a)-4 (b)-5 (c)-2 (d)-3 (e)-1	General Tamil - Sollarivu (Vocabulary)	Each classical word carries its own fixed meaning: " " means sky, " " means a weighing beam/lever, " " means a ship or vessel, " " means elephant, and " " means a tusk/horn, giving the correct match (a)-4, (b)-5, (c)-2, (d)-3, (e)-1.
TA-144		D)	General Tamil - Ilakkiyam (Literature)	Keerthanai (devotional song-poems) is classified as one of the Sitrilakkiyam (minor literary forms), distinct from Sangam literature (the ancient Ettuthogai/Pathuppaattu corpus), Neethi Ilakkiyam (didactic/moral works), and Bhakti Ilakkiyam (devotional hymn literature) as broader categories, since Keerthanai is specifically one of the many named sub-genres classed under Sitrilakkiyam. This is covered in Class 11 Advance Tamil, Term 0, Unit 1, the Kavithaiyiyal lesson, which explicitly states that Keerthanai is one of the Sitrilakkiyam types.
TA-145		B) +	General Tamil - Ilakkanam (Grammar)	Splitting a fused Tamil word into its original components means reversing the sound-changes made during (sandhi); the exam key analyses as formed from + ,

				two independent elements that fuse at their junction under standard sandhi to give the single surface form, rather than being split into components built around (honey), which do not match the word's actual formation. This is covered in Class 11 Tamil, Unit 2, the lesson , which teaches how to reverse sandhi changes to recover a compound word's original components.
TA-146	- _____ !	B)	General Tamil - Ilakkiyam (Literature)	This verse, praising the divine light hidden everywhere the way oil is hidden within a sesame seed, and urging the reader to inwardly worship and become aware of it, is a well-known composition of Idaikkattu Siddhar, distinguishing him from Kulambai Siddhar (known for other standalone verses), Pambatti Siddhar (known for the "Aadaai Paambe" refrain), and Thirumoolar (author of Thirumandiram). This is covered in Class 11 Advance Tamil, Term 0, Unit 1, the Kavithaiyiyal lesson, which quotes this very poem under Idaikkattu Siddhar's name.
TA-147	" " ?	C)	General Tamil - Aasiriyar Nool (Author and Work)	Among the twelve Vaishnavite saints, each is linked to specific hymns: composed , composed and , and composed . , the very first hymn of the , was composed by , which is why it is grouped as part of . This is

				covered in Class 12 Advanced Tamil, Unit 1, the lesson , which lists alongside .
TA-148	, , .	A)	General Tamil - Aasiriyar Nool (Author and Work)	(), one of the four foremost saints, was originally a Jain monk named before returning to Saivism; he came to be honoured with further titles such as ('father') and ('master of speech'), distinguishing him from the other , , and , each remembered by different epithets and different major works.
TA-149	' ' ?	D)	General Tamil - Aasiriyar Nool (Author and Work)	, one of the sixty-three saints and also counted among the , composed , a work of three thousand () verses on Saiva philosophy; because of this exact verse-count, came to be popularly called . This is covered in Class 8 Tamil, Unit 8, the lesson , which states that (the Thirumandiram composed by Thirumular has three thousand verses).
TA-150	' ?	B)	General Tamil - Ilakkiyam (Literature)	The saying " (better to earn a living beating a drum than to labour through mastering the Yaapparungalakkaarigai's metrical rules to compose verse) is a traditional remark on how demanding it is to learn prosody before one can write poetry, meaning that composing

				poetry is genuinely difficult, not that it is easy, unnecessary, or that drumming itself is the point. This is covered in Class 11 Advance Tamil, Term 0, Unit 4, the Ilakkana Varalaru (History of Grammar) lesson, which quotes this exact saying and poses this same question about its meaning.
TA-151	.	D)	General Tamil - Ilakkanam (Grammar)	(metonymy) occurs when the name of one thing is used to refer to something closely associated with it rather than the thing itself. In ' ?', the numbers / stand for age (five/fifty years); in ' ', / (banyan/neem) stand for tooth-cleaning twigs cut from those trees — both genuine uses of . ' ', however, contains no such substitution of an associated object's name for another thing, making it the proverb without . This is covered in Class 7 Tamil, Term 3, Unit 3, the lesson , which defines this device and gives similar examples of a name standing for an associated object.
TA-152	" "	B)	General Tamil - Ilakkanam (Grammar)	(rhyme) in Tamil verse means the second letter of each (metrical foot) matches across the line; when this second-letter match occurs specifically between the first and third of a line, rather than running through every , the resulting pattern is termed , as distinct from (rhyme across every),

				(rhyme confined to the line's closing), or (rhyme skipping one). In the quoted line, the matching second letter recurs between the first and third , which the exam key identifies as . This is covered in Class 9 Tamil, Unit 8, the lesson , which defines and its sub-types.
TA-153	. – ?	D)	General Tamil – Ilakkanam (Grammar)	describes an action performed by the subject itself with no outside cause, while is a causative in which the subject makes someone else perform the action. In ' ' (Gunavan walked), Gunavan performs the walking himself with no causative agent involved, so this is , unlike a causative form such as ' ' (made [someone] walk), which would be . This is covered in Class 9 Tamil, Unit 1, the lesson , which distinguishes from using exactly this kind of example.
TA-154	' '	C)	General Tamil – Ilakkanam (Grammar)	The same / distinction applies here: in ' ' (I ran on the ground), the subject performs the running itself, with no causing of another's action, so the sentence is , not a (command), a (built on an incomplete participle), or a causative . This is covered in Class 9 Tamil, Unit 1, the lesson , which teaches this same classification.
TA-		C)	General Tamil –	In Tamil, a double negative () can

155			Ilakkanam (Grammar)	cancel out to give an affirmative meaning rather than reinforcing the negation. ' ' combines two negative elements (- and), which together actually assert that Kumaran DID get wet (equivalent in meaning to ' '). Because the surface form is grammatically negative but the intended meaning remains affirmative, this is classified as (a negative construction whose meaning stays unchanged/affirmative), rather than a plain , a straightforward , or a .
TA-156		B)	General Tamil - Ilakkanam (Grammar)	Tamil verse metre is built from named (metrical feet) such as , , , and , each of which combines with a / ending to form longer foot-patterns such as or . The exam key identifies as the customary () (foot arrangement) tested here, distinguishing it from the other listed combinations, each of which pairs a different set of .
TA-157		C)	General Tamil - Ilakkanam (Grammar)	A (quality-noun) is a noun formed from a (quality/attribute) word, typically by adding the nominal suffix - ; is built from (whiteness) plus - , making it a genuine , unlike (a noun naming an action), (the object-case marker), or (metonymy). This is covered in Class 6 Tamil, Term 3, Unit 2, the lesson

				must qualify a following noun). This is covered in Class 8 Tamil, Unit 3, the lesson , which defines as a form that finishes with another verb rather than completing the sentence by itself.
TA-161		. C)	General Tamil - Ilakkanam (Grammar)	A (finite verb) is a complete verb form that finishes a sentence's meaning by itself, carrying tense and person/gender/number endings, unlike an (participle), which needs a following word to complete its sense. From the root ('come'), adding the past-tense marker and the third-person masculine singular ending - gives , a complete, self-sufficient , whereas is an incomplete and is a awaiting a noun. This is covered in Class 8 Tamil, Unit 2, the lesson , which teaches this completeness test for identifying a finite verb.
TA-162		. C) ,	General Tamil - Sollarivu (Vocabulary)	Though " " is spelled and sounds identical in both instances, it carries two distinct classical meanings here: rain () in one sense and "different/other" () in the other, illustrating how identical-sounding Tamil words can hold entirely separate meanings depending on context.
TA-163	(a) (b)	: C) (a)-3 (b)-2 (c)-4 (d)-1	General Tamil - Sollarivu (Vocabulary)	These near-homophones carry distinct classical meanings: " " means an anthill (), " " means to remove/eliminate (), " " means an animal (), and " " means "this

	(c) (d) 1. 2. 3. 4.			much/this measure" (), giving the correct match (a)-3, (b)-2, (c)-4, (d)-1.
TA-164	. Delegate ()	B)	General Tamil - Sollarivu (Vocabulary)	"Delegate," referring to a representative who speaks on behalf of a group at a conference or assembly, is rendered in Tamil as " " ("one who speaks/represents"), distinguishing it from " " (the equivalent for "Design") and " " (the equivalent for "Heredity").
TA-165	' '	C)	General Tamil - Ilakkanam (Grammar)	A is a finite verb form that has come to function as a noun referring to the doer of an action, without needing to attach a case-suffix or another noun. From the root ('to strike/announce'), adding the past-tense and third-person plural ending gives ('the one(s) who struck/announced'), a noun naming the agent, unlike (a naming the action itself), (a awaiting a following noun), or (a future/relative verb form). This is covered in Class 10 Tamil, Unit 1, the lesson , which defines as a that has taken on the nature of a noun.
TA-166	.	B) ×	General Tamil - Sollarivu (Vocabulary)	" " and " " both mean essentially the same thing ("will not leave/depart"), so pairing

				them as opposites is a mismatch, unlike " × " (night vs day), " × " (cold vs heat), and " × " (liking vs disliking), which are all genuine antonym pairs.
TA-167	.	D) + +	General Tamil - Ilakkanam (Grammar)	Splitting a fused classical Tamil compound into its component words means reversing the sound-changes of ; the exam key analyses as built from three original elements, + + , which fuse together under standard sandhi to give the single surface form, rather than being split into only two components as the other options suggest. This is covered in Class 11 Tamil, Unit 2, the lesson , which teaches how to reverse sandhi changes to recover a compound word's original components.
TA-168	.	D) + +	General Tamil - Ilakkanam (Grammar)	Applying the same reasoning, the exam key analyses the compound word as fusing three original elements, + + , under the rules of , rather than being split into only two components, or with an incorrect middle or final element, as the other options suggest. This is covered in Class 11 Tamil, Unit 2, the lesson , which teaches how to reverse sandhi changes to recover a compound word's original components.
TA-169	(a) (b)	: A) (a)-2 (b)-4 (c)-1 (d)-3	General Tamil - Ilakkanam (Grammar)	Tamil words are classified by whether their first and last letters are (vowels) or (consonants): begins with the vowel and

	(c) (d) 1. 2. 3. 4.			ends in the consonant , so it is ; begins with the consonant and ends in a vowel-carrying , so it is ; begins and ends with vowels (,), making it ; and begins and ends with consonants (,), making it . This is covered in Class 9 Tamil, Unit 6, the lesson , which contains the near-identical matching exercise ' , classifying words such as , , and by exactly these four categories.
TA-170		B)	General Tamil - Mozhi Varalaru (Language History)	, honoured with the title ('sun of language'), is regarded as having reached the pinnacle of Tamil etymological research (), distinguishing his contribution from (, author of the comparative grammar of Dravidian languages), . . (a Tamil scholar-politician), and . . (the reviver-editor of Sangam texts). This is covered in Class 12 Tamil, Unit 8, the lesson , which names as .
TA-171	. . . ?	D)	General Tamil - Mozhi Varalaru (Language History)	Per the exam key, . . serialised his own life-story, , in the Tamil weekly , distinguishing this journal from and the other unrelated named periodicals listed.
TA-172	.	D)	General Tamil - Mozhi Varalaru (Language History)	(originally named), a pioneering Tamil scholar and teacher at Madras Christian College, was the first to

				argue and popularise, through his own Tamil essay, that Tamil deserved to be recognised as a (‘a supreme, independent classical language’) — a claim the Indian government formally recognised only in 2004; this distinguishes him from . . . , . . . , and This is covered in Class 12 Tamil, Unit 3, the lesson . . . , which states that . . . is the one who ‘ . . . ’.
TA-173		B) .	General Tamil - Aasiriyar Nool (Author and Work)	. . . , a poet associated with the (modernist free-verse) movement and known for works such as . . . and . . . , is also remembered for having worked as a (lawyer/advocate) before his literary career, distinguishing him from the other named Tamil poets . . . , . . . , and . . . , each of whom followed a different profession.
TA-174	(a) (b) (c) (d) 1. 2. 3. 4.	: A) (a)-2 (b)-1 (c)-4 (d)-3	General Tamil - Aasiriyar Nool (Author and Work)	(. . .), a poet closely associated with M.K. Gandhi's independence movement and its ideals, is honoured with the title . . . ; . . . is separately known as . . . , . . . as . . . , and . . . as . . . , giving the matched set (a)-2, (b)-1, (c)-4, (d)-3. This is covered in Class 6 Tamil, Term 3, Unit 1, the lesson . . . , which introduces . . . in connection with Gandhi's presence in Tamil Nadu.
TA-	" "	A)	General Tamil -	Per the exam key, the drama/nadagam text

175			Aasiriyar Nool (Author and Work)	was recognised with a Sahitya Akademi Award, credited to , distinguishing this awardee from other well-known Tamil poets , and , none of whom received this particular award for this work.
TA-176	" , , – "	B)	General Tamil - Aasiriyar Nool (Author and Work)	(C.N. Annadurai) held that once a person's basic needs of food and clothing are met, the very next priority in life should go to books and libraries (); this famous statement is attributed to him rather than to Abraham Lincoln, Vivekananda, or Goethe, each remembered for other, different sayings. This is covered in Class 9 Tamil, Unit 5, the lesson , which quotes saying exactly this: ' !'
TA-177	" "	C)	General Tamil - Mozhi Varalaru (Language History)	Per the exam key, delivered a notable lecture titled ' ' at a World Tamil Conference (), distinguishing this speech from those of , , and .
TA-178	" . "	D) . .	General Tamil - Aasiriyar Nool (Author and Work)	. . , celebrated for his flowing, image-rich Tamil prose, is credited with the quoted passage praising the river's role in enriching the , describing the land as ' ' (rich in grain/prosperity) because of the river's abundance; this distinguishes him from other prominent Tamil writers and orators

				... , and , each remembered for different writings or speeches.
TA-179	1 : 26,350. 2 : 3 :	A) 1, 2 , 3	General Tamil - Ilakkiyam (Literature)	Statement 1 (that Sangam literature totals 26,350 lines) and statement 2 (that Sangam works rank among the foremost of world literatures for their antiquity and social record) are both taken as accurate claims about Sangam poetry, whereas statement 3 (that comparably elaborate ancient literatures exist in every world language) does not hold as a valid generalisation, so only statements 1 and 2 are correct.
TA-180	?	B)	General Tamil - Arivu (Tamil GK)	Stage-speech (medaippechu) is classed here as consisting of two broad types, distinguishing this count from the alternative options of three, four, or seven types offered.
TA-181	?	A)	General Tamil - Mozhi Varalaru (Language History)	In the history of the Tamil short story, the (from 1933) marks the first generation of modern short-fiction writers, including , . . , and . , who broke from earlier moralistic, plot-driven storytelling toward psychologically realistic modern fiction; hence the ' ' is classified as (the first generation), earlier than the later generations that followed it. This is covered in Class 11 Advanced Tamil, Unit 1, the lesson , which discusses the and its pioneering writers of modern Tamil short fiction.

TA-182	?	A)	General Tamil - Mozhi Varalaru (Language History)	Among Tamil folk performing arts, (balancing a decorated pot, , on the head while dancing) is regularly accompanied by (a peacock-feather dance) as a companion dance during temple-festival performances, both grouped among the traditional (instrument-accompanied) folk arts, distinct from , , and . This is covered in Class 12 Advanced Tamil, Unit 3, the lesson , which lists and together among Tamil Nadu's traditional folk performing arts.
TA-183	. . .	C)	General Tamil - Aasiriyar Nool (Author and Work)	. . . (. . .), a versatile Tamil scholar, social reformer, and trade-union pioneer, wrote a number of books including , , and ; the exam key identifies as a work not among his writings, making it the correct answer to this exclusion-type question.
TA-184	' '	B)	General Tamil - Aasiriyar Nool (Author and Work)	Per the exam key, the work was authored by , distinguishing this writer from the English Romantic poets Keats and Wordsworth and from the other named figure , none of whom is credited with this particular title.
TA-185	–	B)	General Tamil - Ilakkiyam (Literature)	"Puyalile Oru Thoni" by Pu. Singaram is regarded as the first significant novel centred on the lives of overseas/diaspora Tamils, drawing on the author's own experiences in

				Indonesia during the Second World War, unlike "Mannum Makkalum" (a novel on a different theme) or "Kadarpuraththil" and "Theevukkarai," which are not credited with this distinction. This is covered in Class 10 Tamil, Term 0, Unit 1, the "Puyalile Oru Thoni" lesson, which explicitly identifies this novel as the first about diaspora Tamils.
TA-186	?	C)	General Tamil - Mozhi Varalaru (Language History)	Per the exam key, honoured a Tamil dramatist with the title ' ' ('the towering figure of Tamil dramatic art'), identifying this figure as , distinguishing him from . . , , and . , each remembered for different contributions to Tamil literature and public life.
TA-187	?	B)	General Tamil - Ilakkiyam (Literature)	" " is the name of a classical Tamil poetic genre associated with teaching the impermanence of worldly things, and Mudhum (a Pathinenkeezhkanakku didactic work of a hundred venbas by Koodalur Kizhar) carries this genre-name in its own title, unlike Naaladiyaar (named for its four-line verse form), Elathi (named for a six-ingredient medicine), or Pazhamozhi (named for its content of proverbs), none of which are named after a thinai/genre. This is covered in Class 12 Advance Tamil, Term 0, Unit 1, the Kavithaiyiyal lesson, which introduces

				Mudhum among the Pathinenkeezhkanakku works.
TA-188	– .	D)	General Tamil - Ilakkanam (Grammar)	A is a compound in which a quality-word () is joined directly to the noun it qualifies, with the linking case-markers / elided; (whiteness, itself a) combines with an implied noun in exactly this elided way, making its , unlike (metonymy), (a verb-plus-noun compound), or (an action-noun). This is covered in Class 8 Tamil, Unit 5, the lesson , which defines as a compound where the / are dropped between a quality word and its noun.
TA-189	_____	C)	General Tamil - Aasiriyar Nool (Author and Work)	Among the (Eighteen Minor Didactic Works), three texts are named after medicinal-herb combinations; , made of 100 verses in which each verse packs three moral maxims (like the three-ingredient medicine , , curing bodily ailments), was composed by , distinguishing it from (), (), and (author of the similarly-structured). This is covered in Class 12 Advanced Tamil, Unit 1, the lesson , which states '100 ' for .
TA-190	?	B)	General Tamil - Ilakkiyam (Literature)	In Kamba Ramayanam's Guha Padalam (Ayodhya Kandam), Guhan, the chief of the hunter/boatmen community who ferries Rama

				across the Ganga, rules over the riverside settlement of Srīngaverapuram, distinguishing him from Nandivarman, Adhbudhiyadigal, and Sibi (the king famed for self-sacrifice), each a different figure. This is covered in Class 12 Tamil, Term 0, Unit 3 ("Virundhinar Illam"), the Kambaramayanam - Guha Padalam section, which narrates Guhan's story and his bond with Rama.
TA-191	' ' ?	B)	General Tamil - Ilakkiyam (Literature)	In this Kamba Ramayanam passage, the word " " is used as an epithet referring to Rama himself, distinguishing him from Vibhishana (Ravana's brother), Sugriva (the monkey chief), and Guhan (the hunter chief), each a distinct character in the same episode.
TA-192	?	A) 4	General Tamil - Mozhi Varalaru (Language History)	Ancient Tamil music recognised four types of (a stringed, harp-like instrument), each distinguished by its number of strings: (21 strings), (17 strings), (16 strings), and (7 strings) — four types in total. This is covered in Class 12 Tamil, Unit 6, the lesson , which lists exactly these four types along with their respective string-counts.
TA-193	" " —	A)	General Tamil - Ilakkiyam (Literature)	Silapadhikaram is honoured as "Kudimakkal Kaappiyam" (the Epic of the Common People) because, unlike epics centred on kings, it builds its story around the lives of ordinary citizens like Kovalan and Kannagi, unlike

				Manimekalai (which expounds Buddhist doctrine), Seevaka Sindhamani (a Jain-affiliated epic), or Valayapathi (another of the Aimperumkaappiyam). This is covered in Class 10 Tamil, Term 0, Unit 6, the Silapadhikaram lesson, which explicitly states that Silapadhikaram is celebrated as the "Kudimakkal Kaappiyam."
TA-194		C)	General Tamil - Ilakkanam (Grammar)	is a poetic device where the poet attributes a deliberate, human-like intention to an inanimate object's natural movement. In the quoted verse, a tall banner fluttering in the wind is imaginatively described as if it were waving a hand to say 'don't come', attributing conscious intent to what is really just wind-driven movement — the hallmark of , as opposed to , or . This is covered in Class 9 Tamil, Unit 7, the lesson , which labels a similar verse's device explicitly as .
TA-195		B)	General Tamil - Aasiriyar Nool (Author and Work)	, celebrated as the author of (the major Islamic Tamil literary epic on the life of the Prophet), is also credited with another work, , per the exam key, distinguishing this from and (not his works) and (a separate, unrelated text). This is covered in Class 11 Tamil, Unit 5, the lesson , which establishes as the author of this

				major work.
TA-196	?	D)	General Tamil - Ilakkiyam (Literature)	"Perumal Thirumozhi," part of the Naalayira Divya Prabandham, was composed by Kulasekara Azhwar, distinguishing him from Nammazhwar (author of Thiruvaimozhi and other works), Periyazhwar (author of Thiruppallaandu), and Andal (author of Thiruppavai and Naachiyar Thirumozhi). This is covered in Class 12 Advance Tamil, Term 0, Unit 1, the Kavithaiyiyal lesson, which lists Kulasekara Azhwar as the author of Perumal Thirumozhi among the twelve Azhwars' works.
TA-197	_____	B)	General Tamil - Ilakkanam (Grammar)	_____ is the poetic device where a single word or line is composed so as to carry two distinct meanings at once, as in the classical verse that describes _____ (coconut) and _____ (dog) simultaneously through the same wording. This device is also known by another name, _____, since both terms describe the same double-meaning technique, distinguishing it from _____ (simile), _____ (metaphor), or _____ (personified intent). This is covered in Class 8 Tamil, Unit 9, the lesson _____, which states explicitly, '_____' (this is also called _____), immediately after defining _____.
TA-198	?	A)	General Tamil - Ilakkiyam (Literature)	In Sundaram Pillai's play "Manonmaniyam," the subplot woven alongside the main story is titled "Sivakamiyin Saridham," distinguishing

				it from Kalki's later, unrelated novel "Sivakamiyin Selvan" and other invented titles that correspond to no actual subplot in the play. This is covered in Class 11 Tamil, Term 0, Unit 8, the Manonmaniyam lesson, which explicitly identifies "Sivakamiyin Saridham" as the subplot (kilaikathai) within the play.
TA-199	_____	A) 1891	General Tamil - Mozhi Varalaru (Language History)	based his Tamil drama on the English work 'The Secret Way' (referred to here as), completing it in the year 1891, and it is recognised as Tamil's first verse-form drama. This is covered in Class 11 Tamil, Unit 8, the lesson , which states that the drama was ' (The Secret Way) 1891 ' written (adapted from The Secret Way and written in Tamil in 1891 by Professor Sundaram Pillai).
TA-200	' '	B)	General Tamil - Ilakkiyam (Literature)	The line "Kudhambai! Ulagam nilaiyatrathu" (O Kudhambai! The world is impermanent), teaching that only the ceaseless, boundless movement of the universe is truly permanent, and that seekers of true wisdom need no worldly credential, is a composition of Kudhambai Siddhar, distinct from Idaikkattu Siddhar (known for verses on divine light hidden in all things), Pattinathar (known for renunciation-themed verses), and Sivavaakkiyar (known for verses rejecting

				caste). This is covered in Class 11 Advance Tamil, Term 0, Unit 1, the Kavithaiyiyal lesson, which quotes this exact poem under Kudhambai Siddhar's name.
