

TNPSC Mentor - Client Overview

A bilingual (English / Tamil) TNPSC exam-preparation app with a large, well-organised question bank, auto-graded tests, written explanations for every question, progress analytics, revision, and current affairs that update automatically every month.

1. What the question bank contains

Around **12,700 multiple-choice questions** (settling to **~10,300 unique** after a duplicate-cleanup pass), and **94% are available in both Tamil and English**. Every question has four options, the correct answer, and a written explanation.

Section	Approx. questions	What it covers
Previous Year / Subject-wise GK	~8,500	History, Polity, Geography, Economy, Science (Physics/Chemistry/Biology), Tamil Nadu history & administration, plus General Tamil & General English
Current Affairs	~1,875	Month-wise and topic-wise (awards, defence, economy, environment, schemes, polity, science, sports, places in news)
Samacheer (State Board)	~1,190	School-syllabus foundation questions
Aptitude & Reasoning	~1,075	Quantitative aptitude + logical/verbal/non-verbal reasoning

The app is organised the way the exam is: **Group 1, Group 2/2A, and Group 4 & VAO**, each showing its relevant **subjects** (Group 2/4 also include the General Tamil and General English papers).

2. Where the questions come from

Every question records the exact web link it was collected from. Sources, in plain terms:

Source	What it provides	Tamil?
TNPSC Master	TNPSC subject-wise questions with explanations	Yes
TNPSC Guru	TNPSC subject-wise practice questions	Yes
Shankar IAS Academy (via TNPSC Thervu Pettagam)	Monthly current-affairs quizzes	Yes
GKToday	Current affairs (monthly + topic-wise)	Added via translation
IndiaBix	General knowledge, aptitude & reasoning practice	Added via translation
Genuine previous-year papers	Real past TNPSC questions (from paper archives)	Partial

A small set of native Tamil questions also came from an open academic dataset.

3. Language support

The interface, labels, and explanations are bilingual. **Questions are kept in English** (as requested), with **Tamil versions provided for 94% of them**, so learners can study in English, Tamil, or both - and switch anytime.

4. How the explanations help learners

Every question has an explanation that does two things, honestly:

1. explains **why the correct answer is correct**, and
2. explains **why each wrong option is wrong** - so a student who picks the wrong choice is told exactly why it was wrong.

These are AI-assisted but **anchored to the verified correct answer** (the AI only ~~explains the known answer, it never decides it~~), which prevents misleading guidance. Answers and explanations appear **only after the test is submitted**, on a consolidated results page - never during the test.

5. Staying current

Current affairs refresh **automatically every month** with no manual work - a scheduled job collects the latest questions and adds only new ones, keeping the section relevant throughout the exam cycle.

6. Important note on sources & copyright

This is general information, not legal advice - please get an Indian IP lawyer's sign-off before charging users at scale.

Most questions are gathered from **public** TNPSC practice websites for educational preparation. Two points to be aware of:

- **Facts and answers cannot be copyrighted** - a factual question and its answer are free to use. We have also **written our own explanations** (not copied from the sources) and **paraphrased the question wording into original phrasing**, which removes the main copyright exposure. ~~Genuine past exam-paper questions are kept exactly as they appeared.~~
- **Before monetising at scale**, it is worth (a) paraphrasing/originating any remaining verbatim content, (b) keeping our own explanations, (c) gradually replacing or licensing the highest-risk items, and (d) not displaying competitor source links to end-users (they are stored internally only). The per-question source link makes this easy to manage.

This is a normal, expected step for a content app - flagged here for full transparency.

Full question listings (every question with options, the correct answer, the explanation, and its source link, grouped by category) are provided separately in the `question-bank/` documents.
