Q1. Which city has been declared the sole capital of Andhra Pradesh under the Andhra Pradesh Reorganisation (Amendment) Act, 2026?

- **A. Amaravati (correct answer)**
- B. Visakhapatnam
- C. Vijaywada
- D. Kurnool

Explanation: The Andhra Pradesh Reorganisation (Amendment) Act 2026 was notified after receiving assent from Droupadi Murmu, officially declaring Amaravati as the sole capital of Andhra Pradesh. The amendment modifies the Andhra Pradesh Reorganisation Act 2014 by explicitly stating that Amaravati shall be the capital. After bifurcation and creation of Telangana, Hyderabad was designated as a common capital for up to 10 years, after which Andhra Pradesh had to establish its own capital. The Andhra Pradesh Assembly passed a resolution on March 28 supporting Amaravati as the sole capital, enabling the legislative process.

Q2. Which state government has launched the "Majha Gaon, Arogyasampann Gaon" initiative?

- A. Odisha
- B. Uttar Pradesh
- C. Maharashtra (**correct answer**)
- D. Karnataka

Explanation: The Maharashtra government has launched the "Majha Gaon, Arogyasampann Gaon" (My Village, Healthy Village) initiative to provide accessible, preventive healthcare services directly to rural and remote areas. With a budget of Rs.65.25 crore, this initiative focuses on improving sanitation, nutrition, and controlling lifestyle diseases while empowering villages to become self-sufficient in health management. It prioritizes maternal and child health, alongside mental health awareness. The initiative involves creating committees from state to village levels to monitor progress, aiming for active public participation.

Q3. The India-UN Development Partnership Fund was established in which year?

- A. 2017 (**correct answer**)
- B. 2018
- C. 2019
- D. 2020

Explanation: The India-UN Development Partnership Fund Board of Directors recently met at India's Permanent Mission in New York to review its operations, ongoing projects, and future plans. The fund was established in 2017 by India in partnership with the United Nations to support development projects in other developing countries, especially in the Global South. It is implemented by UN agencies in collaboration with partner governments and managed by the United Nations Office for South-South Cooperation. The fund promotes South-South Cooperation through demand-driven, country-led development initiatives aimed at shared prosperity.

Q4. Project Chetak operates primarily in which region of India?

- A. Rajasthan, Punjab, Gujarat (**correct answer**)
- B. Karnataka, Kerala, Tamil Nadu
- C. Jammu and Kashmir, Ladakh
- D. Arunachal Pradesh, Sikkim, Assam

Explanation: The 47th Raising Day of Project Chetak was celebrated in Bikaner, Rajasthan by the Border Roads Organisation (BRO). Project Chetak was established in 1980 in the strategically important western sector of India. It plays a crucial role in developing and maintaining infrastructure across Rajasthan, Punjab, and northern Gujarat. The project has significantly contributed to border connectivity, national security, and regional development. It is one of the largest BRO projects in terms of geographical coverage.

Q5. As per the International Renewable Energy Agency Renewable Capacity Statistics 2026 report, what is India's rank in the renewable energy market globally?

- A. First

- B. Second
- C. Third (**correct answer**)
- D. Fourth

Explanation: India ranked 3rd globally in the renewable energy market in 2025, as per the International Renewable Energy Agency Renewable Capacity Statistics 2026 report. The country's total renewable energy capacity reached 250.5 GW, driven mainly by strong growth in solar and wind energy. About 37 GW of solar capacity was added, along with a record increase in wind power. India is placed behind China and the United States, reflecting its rapid expansion and growing global leadership in clean energy transition.

Source: <https://www.gktoday.in/quizbase/current-affairs-quiz-april-2026>

Q6. Which three states have been the primary contributors to wind capacity addition in FY 2025-26?

- A. Gujarat, Karnataka, and Maharashtra (**correct answer**)
- B. Rajasthan, Punjab and Haryana
- C. Uttar Pradesh, Madhya Pradesh and Punjab
- D. Odisha, Bihar and Jharkhand

Explanation: India recorded its highest-ever annual wind energy addition of 6.05 Gigawatt (GW) in FY 2025-26, surpassing the previous peak of 5.5 GW in FY 2016-17. This reflects a strong 46% year-on-year growth over FY 2024-25, indicating accelerated onshore wind deployment. India's cumulative installed wind power capacity has exceeded 56 GW, making it one of the leading global wind energy markets. Gujarat, Karnataka, and Maharashtra have been the primary contributors to wind capacity addition in FY 2025-26.

Q7. Which institution launched the report titled "From Borrowers to Builders: Women and India's Evolving Credit Market"?

- A. Reserve Bank of India
- B. Ministry of Finance
- C. Securities Exchange Board of India
- D. NITI Aayog (**correct answer**)

Explanation: NITI Aayog released the 2nd edition of the report "From Borrowers to Builders: Women and India's Evolving Credit Market" on 7 April 2026 in New Delhi. The report highlights that women borrowers in India hold a credit portfolio of Rs.76 lakh crore, accounting for 26% of total system credit. Women's credit exposure has grown 4.8 times since 2017, indicating a shift from basic access to deeper participation in the formal credit ecosystem. The number of credit-active women borrowers has grown at a CAGR of 9% (2017-2025), while credit penetration increased from 19% to 36%. Total outstanding credit to women rose from Rs.16 lakh crore in 2017 to Rs.76 lakh crore in 2025.

Q8. International Mine Awareness Day is observed every year on which day?

- A. April 3
- B. April 4 (**correct answer**)
- C. April 5
- D. April 6

Explanation: International Mine Awareness Day is observed every year on April 4 to raise awareness about the dangers of landmines and promote demining efforts. The 2026 theme is "Invest in Peace; Invest in Mine Action". This theme highlights the critical need for funding to accelerate mine clearance, support victims, and secure stability in conflict-affected areas. First observed in 2006, the day emphasizes global efforts in mine clearance, victim support, and the use of new technologies to create a landmine-free world.

Q9. Which state government has declared cancer a notifiable disease to strengthen surveillance of non-communicable diseases in April 2026?

- A. Odisha
- B. Karnataka
- C. Telangana (**correct answer**)
- D. Kerala

Explanation: The Telangana government has declared cancer a notifiable disease to strengthen surveillance of non-communicable diseases. All healthcare facilities, including government and private hospitals, diagnostic labs, and clinics, must report cancer cases within one month of diagnosis. The move aims to create a centralized cancer registry for accurate estimation of incidence and prevalence. It will support evidence-based policymaking, better planning of palliative care, and improved resource management. The Mehdi Nawaz Jung Institute of Oncology and Regional Cancer Centre has been designated as the Centre of Excellence for data validation and coordination with the national registry.

Q10. The headquarters of Indian Council of Agricultural Research (ICAR) is located in which city?

- A. Mumbai
- B. New Delhi (**correct answer**)
- C. Chennai
- D. Hyderabad

Explanation: Indian Council of Agricultural Research set up a Special Task Force (STF) to design mitigation strategies for agriculture sector challenges. Indian Council of Agricultural Research (ICAR) is an autonomous body under Department of Agricultural Research and Education (DARE), Ministry of Agriculture and Farmers Welfare. It was established on 16 July 1929 under Societies Registration Act, 1860, based on Royal Commission on Agriculture recommendations. ICAR played a key role in Green Revolution and advancing agricultural higher education; headquarters at New Delhi.

Monthly - August 2025

Q11. The Mahanadi River, that was recently seen in news, flows through which states?

- A. Bihar and Jharkhand
- B. Madhya Pradesh and Uttar Pradesh
- C. Rajasthan and Gujarat
- D. Chhattisgarh and Odisha (**correct answer**)

Explanation: Odisha and Chhattisgarh, after a long legal battle in the Mahanadi Water Dispute Tribunal, have now agreed to resolve the river water dispute mutually. Mahanadi River is a major east-flowing

peninsular river in Chhattisgarh and Odisha. It originates from the Sihawa range in Dhamtari district, Chhattisgarh. It flows eastward, enters Odisha near Cuttack, and drains into the Bay of Bengal near Paradip. Major tributaries include Seonath, Hasdeo, Ib, Ong, Mand, Tel, and Jonk. It is known for high silt deposition capacity.

Q12. What is the new official name given to the Bastar Olympics?

- A. Tribal Youth Games
- B. Khelo India Tribal Games (**correct answer**)
- C. Bharat Khel Mahotsav
- D. None of the Above

Explanation: Recently, Bastar Olympics in Chhattisgarh has been officially given national status as 'Khelo India Tribal Games'. It is part of the "Promotion of Rural and Indigenous/Tribal Games" component under the Khelo India Scheme. Traditional tribal sports like Mallakhamb, Kalaripayattu, Gatka, Thang-Ta, Yogasana, and Silambam are already supported under this scheme. Khelo India Scheme was launched in 2016-17 to promote sports participation and excellence across India. The scheme is extended till 2025-26 with a total budget of Rs.3790.50 crore.

Q13. Where was a national conference on Denotified, Nomadic, and Semi-Nomadic Tribes (DNT/NT/SNTs) held?

- A. New Delhi (**correct answer**)
- B. Chennai
- C. Dehradun
- D. Jaipur

Explanation: A national conference on Denotified, Nomadic, and Semi-Nomadic Tribes (DNT/NT/SNTs) was held in New Delhi recently. Community leaders demanded the formation of a permanent national commission for their welfare. The demand follows the Idate Commission's 2018 report, which recommended permanent support structures. These communities lack land rights, remain highly marginalised, and face economic deprivation. The Development and Welfare Board for Denotified, Nomadic and Semi-Nomadic Communities (DWBDNCs) was formed in 2019 to support them. The Scheme for Economic Empowerment of DNTs (SEED) offers free coaching, housing, health insurance, and livelihood aid to poor families.

Q14. Which country has become the first European Union (EU) country to ban all weapons trade with Israel?

- A. Germany
- B. Estonia
- C. Finland
- D. Slovenia (**correct answer**)

Explanation: Slovenia became the first European Union (EU) country to ban all weapons trade with Israel. The arms embargo was announced by Prime Minister Robert Golob after a cabinet meeting. The decision was taken due to the ongoing war in Gaza. Slovenia acted independently as the EU failed to agree on a

joint position due to internal divisions. No military export permits to Israel have been issued by Slovenia since October 2023.

Q15. The Sabarmati River, which was recently in the news, originates from which mountain range?

- A. Vindhya Range
- B. Satpura Range
- C. Western Ghats
- D. Aravalli Range (**correct answer**)

Explanation: On 1 August 2025, the Union Government informed Lok Sabha that 13 river stretches in Gujarat are officially classified as polluted. Sabarmati River, especially the stretch between Raysan to Vautha, is the worst affected with a Biochemical Oxygen Demand (BOD) level of 292 mg/litre. Sabarmati River is a monsoon-fed, west-flowing river. It originates from the Aravalli Mountain Range in Udaipur district, Rajasthan. The river is called Wakal in its early course and flows southwest through Rajasthan and Gujarat. It empties into the Gulf of Khambhat in the Arabian Sea.

Q16. Which state government has launched a Standard Operating Procedure (SOP) under the Shree Anna Abhiyan (SAA) to conserve landraces?

- A. Rajasthan
- B. Gujarat
- C. Odisha (**correct answer**)
- D. Maharashtra

Explanation: Odisha launched a Standard Operating Procedure (SOP) under the Shree Anna Abhiyan (SAA) to conserve landraces and empower smallholder farmers. Landraces are genetically diverse traditional seed varieties adapted to local conditions with traits like pest resistance and climate resilience. The SOP bridges the gap between formal seed systems and community-led traditional seed systems. It expands beyond millets to include pulses, cereals, and tubers. Surveys will identify valuable landraces based on farmers' knowledge and scientific traits.

Q17. Which state has become the first in India to implement faceless adjudication under State Goods and Services Tax (GST)?

- A. Gujarat
- B. Madhya Pradesh
- C. Kerala (**correct answer**)
- D. Maharashtra

Explanation: Recently, Kerala became the first state in India to implement faceless adjudication under State Goods and Services Tax (GST). The pilot project was launched today in two districts of Kerala. Faceless adjudication means all procedures are done digitally without any face-to-face interaction between taxpayers and GST officials. All steps including issuing show cause notices, receiving responses, and passing final orders will be done on an online platform. This move aims to ensure transparency, reduce corruption, and improve ease of doing business.

Q18. CLOVES Syndrome Awareness Day is observed every year on which day?

- A. August 1
- B. August 2
- C. August 3 (**correct answer**)
- D. August 4

Explanation: CLOVES Syndrome Awareness Day is observed every year on 3rd August to support affected individuals and promote early diagnosis and treatment. CLOVES stands for Congenital Lipomatous Overgrowth, Vascular malformations, Epidermal nevi, and Spinal/Skeletal anomalies. CLOVES Syndrome is a rare overgrowth genetic disorder caused by mutations in the PIK3CA gene. The PIK3CA gene affects the PI3K enzyme, which regulates cell functions and may cause cancer if mutated. It belongs to a group of disorders called PIK3CA-related overgrowth spectrum (PROS). The syndrome was formally classified in 2007-2009 but may have been first documented in 1867.

Q19. Basohli Utsav is celebrated in which state/UT?

- A. Himachal Pradesh
- B. Jammu and Kashmir (**correct answer**)
- C. Lakshadweep
- D. Uttarakhand

Explanation: Jammu and Kashmir Lieutenant Governor Manoj Sinha unveiled the teaser and brochure for the upcoming Basohli Utsav. The five-day festival is scheduled from 28th September to 2nd October 2025 in Kathua border district, Jammu and Kashmir. Basohli, a hilly town in Kathua, is famous for its Basohli painting, which received a Geographical Indication (GI) tag in 2023. The event is being organised with support from Indira Gandhi National Centre for Arts (IGNCA) and Vishwasthali organisation. This third edition will focus on Ramayana traditions, featuring related exhibitions, booklets, folk arts, and cultural competitions.

Q20. Dorjilung Hydropower Project is located in which country?

- A. Nepal
- B. Bhutan (**correct answer**)
- C. Myanmar
- D. Bangladesh

Explanation: Infrastructure work on Bhutan's 1125 MW Dorjilung Hydropower Project began recently. This marks deeper India-Bhutan economic diplomacy with private sector involvement. Tata Power Company Limited from India is partnering with Bhutan's Druk Green Power Corporation (DGPC) in a joint venture. Dorjilung is a run-of-river project located in Lhuentse and Mongar districts of Bhutan on the Kurichhu River. It houses six Francis turbines to produce 4.5 terawatt-hours (TWh) annually.

Monthly - December 2025

Q21. Trade Enablement and Marketing (TEAM) Initiative has been launched under which scheme?

- A. Prime Minister's Employment Generation Programme (PMEGP)
- B. Micro Units Development and Refinance Agency (MUDRA) Scheme
- C. Raising and Accelerating MSME Performance (RAMP) scheme (**correct answer**)
- D. Startup India Initiative

Explanation: Trade Enablement and Marketing (TEAM) Initiative is a sub-scheme of Raising and Accelerating MSME Performance (RAMP), a Central Sector Scheme. Total outlay is Rs.277.35 crore for 2024-2027. It uses Digital Public Infrastructure (DPI) to support Micro, Small and Medium Enterprises (MSMEs) in e-commerce. MSMEs get access to Open Network for Digital Commerce (ONDC) for online stores, digital payments, and logistics. The TEAM portal helps in digital registration and linking with Seller Network Participants (SNPs). It targets 5 lakh Micro and Small Enterprises (MSEs), with 50% women-owned. The scheme details were shared in Rajya Sabha by the Minister of State for MSMEs.

Q23. What is the IUCN conservation status of the Red-breasted parakeet that was recently spotted at National Institute of Technology (NIT) Patna?

- A. Endangered
- B. Critically Endangered
- C. Least Concern
- D. Near Threatened (**correct answer**)

Explanation: Two pairs of red-breasted parakeets were spotted on the National Institute of Technology (NIT) Patna campus, exciting birdwatchers and highlighting local biodiversity. These birds are listed as Near Threatened on the International Union for Conservation of Nature (IUCN) Red List. This is the first confirmed sighting of red-breasted parakeets in Bihar. Scientific name of the species is *Psittacula alexandri*, also called the moustached parakeet. They are native to Southeast Asian countries and easily identified by the large red patch on their breast.

Q25. What is the name of the third Fast Patrol Vessel (FPV) handed over to the Indian Coast Guard by Goa Shipyard Limited in December 2025?

- A. ICGS Saksham
- B. ICGS Samarth
- C. ICGS Amulya (**correct answer**)
- D. ICGS Akshar

Explanation: Goa Shipyard Limited handed over ICGS Amulya, the third of eight Fast Patrol Vessels (FPVs), to the Indian Coast Guard. The vessel is 51.43 m long, 330 tonnes, and uses Controllable Pitch Propellers (CPP) for better fuel efficiency. It has a top speed over 27 knots and a range of 1,500 nautical miles. It will be crewed by 6 officers and 35 sailors. It is built for fisheries protection, Exclusive Economic Zone (EEZ) surveillance, anti-smuggling, anti-piracy, and Search and Rescue (SAR) missions. The ship will strongly boost India's coastal and offshore security.

Q28. World Soil Day is observed annually on which day?

- A. December 2
- B. December 3
- C. December 4
- D. December 5 (**correct answer**)

Explanation: World Soil Day is observed annually on 5 December to highlight the importance of healthy soil for food security, ecosystems, and human well-being. The theme for World Soil Day 2025 is "Healthy Soils for Healthy Cities", focusing on the role of urban soils. Urban soils face pressures from rapid urbanisation, soil sealing, pollution, and loss of organic matter. Healthy soils in cities support food production, water purification, carbon storage, temperature regulation, and biodiversity conservation. Preserving soil health is essential for climate resilience, urban planning, and sustainable development.

Q29. Woraiyur cotton sari and Thooyamalli rice, which have recently secured the Geographical Indication (GI) tag, belong to which state?

- A. Tamil Nadu (**correct answer**)
- B. Maharashtra
- C. Andhra Pradesh
- D. Odisha

Explanation: Five products from Tamil Nadu received the Geographical Indications (GI - legal tag for regional products) status, raising the State's total to 74 GI products. The products are Woraiyur cotton sari, Kavindapadi naatu sakkarai (jaggery powder), Thooyamalli rice, Namakkal makkal pathirangal (soapstone cookware), and Ambasamudram choppu saman (wooden toys). Woraiyur saris are woven in Tiruchi using cotton from Coimbatore and natural dyes. Kavindapadi jaggery is made from local sugarcane using slow juice evaporation. Thooyamalli is a 135-140 day sambha rice variety, applied by the Tamil Nadu State Agricultural Marketing Board with National Bank for Agriculture and Rural Development (NABARD) support. Namakkal soapstone cookware gained approval through Micro, Small and Medium Enterprises (MSME) support.

Q32. Which state government launched Pilloo AI, a voice-based billing and accounting assistant for businesses?

- A. Andhra Pradesh (**correct answer**)
- B. Kerala
- C. Karnataka
- D. Odisha

Explanation: Andhra Pradesh Chief Minister N. Chandrababu Naidu launched Pilloo AI, a voice-based billing and accounting assistant for businesses. The app allows users to create invoices, record transactions, generate reports, and manage accounts by speaking in their native language. No prior accounting knowledge or complex software is required, saving time and reducing manual effort. Pilloo AI supports five Indian languages and can record daily sales and payments, generate balance sheets, receivables, and payables. It automates purchase and bank transaction entries by extracting data from uploaded bills and bank statements.

Q33. Operation Kiya is a joint counter-terrorism operation launched by Indian security forces in which region?

- A. Jammu and Kashmir (**correct answer**)
- B. Punjab
- C. Rajasthan
- D. Ladakh

Explanation: Operation Kiya is a joint counter-terrorism operation launched by Indian security forces in Jammu and Kashmir. It is currently in news due to an intense encounter in the forested Basantgarh area of Udhampur. The operation aims to track, contain, and eliminate infiltrated terrorists while protecting civilian areas. It also seeks to prevent terrorist movement across districts and infiltration corridors. The

operation is carried out by the Army's White Knight Corps, Counter Insurgency Force (Delta), Jammu and Kashmir Police, and Central Reserve Police Force (CRPF). It uses a cordon-and-search strategy to trap terrorists in forests and hilly terrain.

Q37. Which department launched Revised Pharmaceutical Technology Upgradation Assistance Scheme (RPTUAS)?

- A. Department of Chemicals and Petrochemicals
- B. Department of Pharmaceuticals (**correct answer**)
- C. NITI Aayog
- D. Ministry of Health and Family Welfare

Explanation: The Department of Pharmaceuticals launched the Revised Pharmaceutical Technology Upgradation Assistance Scheme (RPTUAS) in March 2024 to help existing pharmaceutical units upgrade technology. The scheme aims to ensure compliance with Revised Schedule-M and World Health Organization - Good Manufacturing Practices (WHO-GMP) quality standards. The total financial outlay of the scheme is Rs.300.10 crore for the financial years 2024-25 and 2025-26. Under RPTUAS, pharmaceutical units are eligible for incentives ranging from 10% to 20% of investment, with a maximum of Rs.2 crore, based on their turnover.

Q38. Which state leads the country in rooftop solar installations under PM Surya Ghar: Muft Bijli Yojana (PMSG: MBY)?

- A. Maharashtra
- B. Uttar Pradesh
- C. Gujarat (**correct answer**)
- D. Kerala

Explanation: More than 26 lakh households in India have benefited from PM Surya Ghar: Muft Bijli Yojana (PMSG: MBY) since its launch in February 2024. 20,85,514 rooftop solar (RTS) systems have been installed nationwide, providing clean energy access. Rs 14,771.82 crore in Central Financial Assistance (CFA) has been disbursed up to December 2025. The scheme allows eligible grid-connected residential consumers to install solar panels via the national portal. Gujarat leads with 5.15 lakh installations benefiting 7.41 lakh households, followed by Maharashtra (3.92 lakh) and Uttar Pradesh (3.26 lakh). The programme promotes affordable household solar energy and supports India's clean energy transition.

Q40. Which initiative was launched in Union Budget 2026-27 to develop India into a global biopharmaceutical manufacturing hub?

- A. Biopharma SHAKTI (**correct answer**)

- B. Make in India-Pharma
- C. Pharma Vision 2030
- D. Pharma Vision 2030

Explanation: The Union Finance Minister announced the Biopharma SHAKTI initiative in the Union Budget 2026-27 initiative to strengthen India's biopharmaceutical sector. Biopharma SHAKTI stands for Strategy for Healthcare Advancement through Knowledge, Technology and Innovation. It aims to make India a global hub for biopharmaceutical manufacturing. The initiative will support domestic production of biologics and biosimilars. It will build a biopharma-focused network with three new National Institutes of Pharmaceutical Education and Research (NIPER).

Q42. Cellulitis, that was recently seen in news, is a common skin infection caused by which agent?

- A. Bacteria (correct answer)
- B. Virus
- C. Fungus
- D. Protozoa

Explanation: Recently, an observational study on cellulitis was published in the International Journal of Lower Extremity Wounds. Cellulitis is a common skin infection caused mainly by Streptococcus and Staphylococcus bacteria. It usually affects the legs, feet, and toes but can also involve face, arms, hands, and fingers. The infection affects tissues beneath the skin. Risk factors include skin wounds or a weakened immune system, which allow bacteria to enter easily. Cellulitis is generally not contagious, except rarely through open-wound contact with an infected person.

Q43. Sanskaar Shaala, a value-based education programme for children aged 4-14 years, was launched by which state government?

- A. Assam (correct answer)
- B. Mizoram
- C. Manipur
- D. Tripura

Explanation: Sanskaar Shaala, a value-based programme for children aged 4-14 years, was inaugurated in Guwahati by Assam Governor Lakshman Prasad Acharya. Sanskaar Shaala is a value-based programme aimed at developing ethical, social, and cultural awareness among children. The programme is implemented across Assam under the guidance of the Governor's office with support from educational institutions. It uses interactive learning methods such as hands-on sessions, workshops, and skill-development activities. The initiative promotes holistic growth, social responsibility, and a deep understanding of Indian cultural and ethical values from an early age.

Q44. Indian Coast Guard Ship (ICGS) Samudra Pratap was commissioned in which state?

- A. Kerala
- B. Goa (**correct answer**)
- C. Maharashtra
- D. Tamil Nadu

Explanation: Raksha Mantri Rajnath Singh commissioned ICGS Samudra Pratap, India's first indigenously designed pollution control vessel, built by Goa Shipyard Limited (GSL), on 5th January 2026 in Goa. The ship is the largest in the Indian Coast Guard (ICG) fleet and has over 60% indigenous content, with plans to increase to 90%. It enhances the ICG's capabilities in pollution control, firefighting, maritime safety, coastal patrol, and extended surveillance. It is equipped with advanced pollution detection systems, side-sweeping arms, skimmers, floating booms, and a pollution control lab, it can operate even in rough seas.

Q45. Which country has commissioned an upgraded Type 052D guided missile destroyer named Loudi?

- A. Japan
- B. Australia
- C. United States
- D. China (**correct answer**)

Explanation: The Chinese People's Liberation Army (PLA) Navy has commissioned an upgraded Type 052D guided missile destroyer named Loudi. The induction reflects China's rapid naval expansion to narrow the gap with United States naval strength. The warship adopts a new system and operational architecture. It has improved combat capabilities in air defence and sea attack roles. The destroyer also strengthens task force command and coordination abilities. The commissioning highlights China's focus on modern, network-centric naval warfare.

Q46. Which public sector telecom company rolled out nationwide Voice over WiFi (VoWiFi) services in India in January 2026?

- A. Mahanagar Telephone Nigam Limited (MTNL)
- B. Bharat Sanchar Nigam Limited (BSNL) (**correct answer**)
- C. Bharat Broadband Network Limited (BBNL)
- D. RailTel

Explanation: On New Year, Bharat Sanchar Nigam Limited (BSNL) launched Voice over WiFi (VoWiFi), also called Wi-Fi Calling, across all telecom circles in India. VoWiFi allows voice calls and messages over a

Wi-Fi network using the same mobile number and dialer. It works well in weak mobile signal areas like homes, basements, offices, and remote regions. The service is Internet Protocol Multimedia Subsystem (IMS)-based, supporting smooth Wi-Fi to mobile handover. VoWiFi is free of cost, reduces network congestion, and supports rural connectivity with broadband access.

Q47. The second phase of the Specialised Training Program in Cancer Care for BIMSTEC Countries was launched in which city?

- A. Mumbai
- B. Bengaluru
- C. Visakhapatnam (**correct answer**)
- D. Kolkata

Explanation: The second phase of the Specialised Training Program in Cancer Care for BIMSTEC Countries was launched at Homi Bhabha Cancer Hospital and Research Centre (HBCHRC), Visakhapatnam. The initiative addresses the rising cancer burden and unequal access to quality care in the region. It aims to improve cancer care services, enhance skills, and foster regional collaboration and research. The program was announced by PM of India at the 6th BIMSTEC Summit and is implemented by Tata Memorial Centre with Ministry of External Affairs support. The program strengthens oncology capacity in the BIMSTEC region and supports equitable, high-quality cancer care.

Q49. What is the name of the operation under which Delhi Police traced 1,303 missing persons in the southwest district last year?

- A. Operation Smile
- B. Operation Suraksha
- C. Operation Milap (**correct answer**)
- D. Operation Raksha

Explanation: Delhi Police traced 1,303 missing persons in the southwest district over the past year under Operation Milap, including 434 children and 869 adults. In December 2025 alone, 102 missing persons were found: 35 children and 67 adults. Operation Milap uses coordinated district-level efforts, inter-station

cooperation, and consistent follow-up to trace missing persons. Local informers and hospital/police records played a key role, along with displaying photographs at bus stands, railway stations, auto and e-rickshaw points. The initiative emphasizes community participation, urban public safety, and focused tracing of children.

Q51. Which municipal corporation deployed the AI-powered G-SPIDER robot for safe, human-free canal cleaning in high-risk areas?

- A. Thiruvananthapuram Municipal Corporation (**correct answer**)
- B. Lucknow Municipal Corporation
- C. Chennai Municipal Corporation
- D. Bengaluru Municipal Corporation

Explanation: Under Swachh Bharat Mission-Urban 2.0, Thiruvananthapuram Municipal Corporation deployed the AI-powered G-SPIDER robot for safe, human-free canal cleaning in high-risk areas. The robot was commissioned at the Amayizhanchan Canal near Thampanoor Railway Station, a stretch with restricted vertical clearance, continuous water flow, and unsafe human entry points. G-SPIDER is developed by Genrobotic Innovations, based on Cable-Driven Parallel Robotics (CDPR) architecture with AI-enabled vision and sensor intelligence. It autonomously detects, assesses, and removes mixed and hazardous waste using a five-degrees-of-freedom robotic mechanism with a biomimetic claw-type grabber.

Q52. World Obesity Day (WOD) is observed every year on which day?

- A. March 1
- B. March 2
- C. March 3
- D. March 4 (**correct answer**)

Explanation: World Obesity Day (WOD) is observed every year on 4 March across the world to raise awareness about the global obesity crisis and its growing impact on public health. The day aims to promote public health reforms, reduce stigma associated with obesity, and encourage coordinated global action to

prevent and manage obesity. March 4, 2026 marked the 12th observance of World Obesity Day since the global campaign was launched. The observance highlights the need for stronger policies, better healthcare systems, and healthier lifestyle choices to tackle obesity at both individual and societal levels.

Q54. According to SIPRI 2026 data, what is the position of India among the world's arms importers?

- A. First
- B. Second (**correct answer**)
- C. Third
- D. Fourth

Explanation: SIPRI (Stockholm International Peace Research Institute) reported on March 9, 2026, that global arms transfers increased to the highest level since 2011-2015. Ukraine was the largest arms importer, receiving 9.7% of global transfers, followed by India at 8.2%, highlighting India's continued dependence on foreign arms. Saudi Arabia (6.8%), Qatar (6.4%), and Pakistan (4.2%) completed the top five importers list. India's arms imports decreased by 4% compared to 2016-2020, with delays in domestic production persisting, though India is increasingly producing its own equipment. India shifted towards Western suppliers: Russia's share dropped to 40%, France supplied 29%, and Israel 15%; India was France's largest global client.

Q56. Human Metapneumovirus (HMPV) has recently spread rapidly across the West Coast of which country?

- A. Canada
- B. United States (**correct answer**)
- C. Australia
- D. United Kingdom

Explanation: Human Metapneumovirus (HMPV) is a highly contagious respiratory virus spreading rapidly on the West Coast of the United States (US). It belongs to the Pneumoviridae family, which also includes Respiratory Syncytial Virus (RSV). It mainly causes common cold-like respiratory illness. The virus spreads through air via coughing and sneezing, close personal contact, and touching contaminated surfaces then touching face. Common symptoms include cough, fever, nasal congestion, and shortness of breath. In severe cases, it may lead to bronchitis or pneumonia. No vaccine or specific antiviral treatment; care focuses on symptom management and preventing complications.

Q57. Which city launched the 'Saksham Skill Survey', the first initiative of its kind in India?

- A. Mumbai (**correct answer**)
- B. Chennai
- C. Hyderabad
- D. Bengaluru

Explanation: Mumbai's suburban district launched the 'Saksham Skill Survey', the first initiative of its kind in India, to assess the skills of youth aged 18-40 and enhance employability. The survey will cover 55,000 households in the H-West ward of Mumbai. Conducted door-to-door using AI, it will collect data on educational qualifications, skill interests, and training needs for employment. It is based on survey results, candidates will be provided a list of government-approved institutions and relevant courses. The aim is to train at least 15,000 candidates by next year and make 5,000 self-reliant through employment or entrepreneurship.

Q59. Which institute discovered the origin of a Coronal Mass Ejection (CME) shock for the first time?

- A. Indian Institute of Astrophysics (IIA) (**correct answer**)
- B. Tata Institute of Fundamental Research (TIFR)
- C. Indian Space Science & Technology Organisation
- D. Vikram Sarabhai Space Centre (VSSC)

Explanation: Astronomers from Indian Institute of Astrophysics discovered the origin of a Coronal Mass Ejection (CME) shock for the first time. The CME-driven shock was recorded forming at a distance of about 1,30,000 km above the solar surface. This is the first confirmed detection of the "birth stage" of CME shocks, resolving a long-standing debate about their origin. Instruments used include the Gauribidanur Radio Telescope and Aditya-L1's Visible Emission Line Coronagraph (VELC) payload. Detecting shocks at onset helps predict solar storms more accurately and protects satellites, GPS systems, and power grids from damage.

Q63. Which country has launched the Compact Advanced Satellite 500-2 (CAS500-2)?

- A. Russia
- B. Ukraine
- C. Vietnam
- D. South Korea (**correct answer**)

Explanation: South Korea has launched the Compact Advanced Satellite 500-2 (CAS500-2) on May 3, 2026. The satellite is an Earth-observation satellite also known as Next-Generation Medium Satellite No. 2. It was launched aboard Falcon 9 from Vandenberg Space Force Base in the United States. The mission was overseen by the Korea Aerospace Administration. The launch was delayed for nearly four years due to changes from the Russia-Ukraine conflict. The satellite entered a sun-synchronous orbit at an altitude of about 498 kilometres. It successfully established communication with a ground station in Svalbard shortly after launch.

Q65. Naval Anti-Ship Missile-Short Range, India's first indigenous helicopter-launched anti-ship missile, has been developed by which organization?

- A. Hindustan Aeronautics Limited
- B. Indian Space Research Organization
- C. Defence Research and Development Organisation (**correct answer**)

- **D. Bharat Dynamics Limited**

Explanation: The Defence Research and Development Organisation and Indian Navy conducted the maiden salvo launch of the Naval Anti-Ship Missile-Short Range (NASM-SR) off the Bay of Bengal near Odisha. NASM-SR is India's first indigenous helicopter-launched anti-ship missile, replacing the Sea Eagle missile. It has been developed by Research Centre Imarat with other DRDO labs. The missile has a range of about 55 km and supports fire-and-forget capability in all weather conditions. It uses a solid booster and long-burn sustainer propulsion system.

Q66. India's first commercial seaplane service has been approved in which state/UT by the Directorate General of Civil Aviation?

- A. Andaman & Nicobar Islands
- **B. Lakshadweep (correct answer)**
- C. Goa
- D. Kerala

Explanation: India's first commercial seaplane service has been approved by the Directorate General of Civil Aviation. The operator is SkyHop Aviation. The initial launch of services will be in Lakshadweep. It will connect five islands internally and link them to the mainland. Trial water take-offs and landings were conducted in Rishikesh. The service will use a 19-seater aircraft and improve connectivity to remote regions. It is expected to boost tourism and reduce travel time in island areas.

Q67. TARA is India's first indigenous glide weapon system designed developed by which institution?

- A. Hindustan Aeronautics Limited
- **B. Defence Research and Development Organisation (DRDO) (correct answer)**
- C. Indian Space and Research Organization
- D. None of the Above

Explanation: Tactical Advanced Range Augmentation (TARA) was developed by DRDO's Research Centre Imarat along with other laboratories of the Defence Research and Development Organisation and Indian industry partners. DRDO and the Indian Air Force successfully carried out the maiden flight-trial of TARA off the coast of Odisha on 7 May 2026. TARA is India's first indigenous glide weapon system designed to convert unguided warheads into precision-guided weapons. It is a modular range extension kit developed to improve the accuracy, range, and lethality of low-cost weapons against ground-based targets.

Q68. Electronic Gold Receipts (EGRs) are regulated by which institution?

- A. Reserve Bank of India (RBI)
- **B. Securities and Exchange Board of India (SEBI) (correct answer)**
- C. Ministry of Finance
- D. Insurance Regulatory and Development Authority of India (IRDAI)

Explanation: National Stock Exchange (NSE) launched Electronic Gold Receipts (EGRs) as a new trading segment. Electronic Gold Receipts (EGRs) are dematerialised securities representing ownership of physical gold, held in Demat (Dematerialised) accounts. The underlying gold is stored in Securities and Exchange

Board of India (SEBI)-regulated vaults. A SEBI-registered Vault Manager (VM) ensures safe storage and standardisation. Each EGR is backed by actual gold, ensuring authenticity. Physical gold is deposited and converted into EGR units, which are tradable on exchanges. Investors can reconvert EGRs into physical gold.

Q71. Which organization released the World Migration Report 2026?

- A. United Nations Development Programme
- B. International Labour Organization
- C. International Organization for Migration (**correct answer**)
- D. United Nations High Commissioner for Refugees

Explanation: The International Organization for Migration released the World Migration Report 2026. Around 304 million people were living outside their country of birth by mid-2024. International migrants accounted for 3.7% of the global population in 2024, compared to 2.9% in 1990. The Mexico-United States corridor remained the world's largest migration corridor with around 11 million migrants. The India-United Arab Emirates corridor ranked fifth globally and mainly consisted of migrant workers. More than 8 million migrants lived in the United Arab Emirates, with Indians forming the largest nationality group at over 3

million people. The India-United States corridor was the sixth-largest migration corridor globally.

Q72. Operation Clawing Back has been conducted by which state government to curb illegal wildlife trade?

- A. Uttarakhand
- B. Himachal Pradesh (**correct answer**)
- C. Assam
- D. Sikkim

Explanation: Operation Clawing Back has been conducted by the Himachal Pradesh Forest Department to curb illegal wildlife trade. The operation targeted organised trafficking of wildlife body parts in Rohru, Himachal Pradesh. Authorities seized 85 leopard claws and five canine teeth during the operation. The illegal trade involved concealing wildlife parts in jewellery items like lockets and amulets. A case has been registered under the Wildlife Protection Act 1972. The operation aims to identify supply chains and prevent further wildlife crime. It highlights strict enforcement measures against illegal wildlife trafficking in India.

Q73. Which country has become the first non-European country to attend the European Political Community (EPC) summit?

- A. India
- B. Canada (**correct answer**)
- C. China
- D. Australia

Explanation: Canada has become the first non-European country to attend the European Political Community (EPC) summit in Yerevan, Armenia. Canadian Prime Minister Mark Carney aims to strengthen trade and diplomatic ties amid reduced access to United States markets. The summit reflects Western support for Armenia as it distances itself from Russia. The EPC initiative, supported by Emmanuel Macron, aims to enhance cooperation between European nations and partners.

Q74. SVAMITVA scheme was launched by which ministry?

- A. Ministry of Rural Development
- B. Ministry of Panchayati Raj (**correct answer**)
- C. Ministry of Housing and Urban Affairs
- D. Ministry of Agriculture

Explanation: The SVAMITVA Scheme is gaining attention after a survey by Indian Institute of Management Ahmedabad highlighted its positive impact on rural India. The study finds that the scheme is helping in formalising residential land ownership in villages. It is improving the financial position of Gram Panchayats through better property tax assessment. The SVAMITVA Scheme is a Central Sector Scheme of the Ministry of Panchayati Raj. SVAMITVA stands for Survey of Villages and Mapping with Improved Technology in Village Areas. It was launched nationwide on April 24, 2021, on National Panchayati Raj Day. The scheme aims to provide legal property ownership cards to rural households.

Q75. Canine Distemper disease, that was recently seen in news, is caused by which agent?

- A. Bacteria
- B. Virus (**correct answer**)
- C. Fungus
- D. Protozoa

Explanation: A tigress and four cubs died in Kanha Tiger Reserve, raising concern over Canine Distemper. It is a highly contagious disease caused by Canine Distemper Virus (CDV) affecting respiratory, gastrointestinal, and nervous systems. It mainly infects dogs, especially unvaccinated ones and puppies below four months. CDV is a multi-host pathogen affecting wildlife such as carnivores, big cats, marine mammals, and primates. Transmission occurs through direct contact or airborne exposure. Infected animals can shed the virus for months despite low environmental survival. There is no specific cure or antiviral treatment available. Vaccination is the most effective preventive measure.

Q76. A rare medicinal mushroom species, Cordyceps, was recently discovered in which northeastern state?

- A. Assam
- B. Manipur
- C. Tripura
- D. Arunachal Pradesh (**correct answer**)

Explanation: A rare medicinal mushroom species, Cordyceps, was recently discovered in East Siang district, Arunachal Pradesh, attracting scientific and commercial interest. Cordyceps is a parasitic fungus that grows on insect larvae, gradually replacing the host tissue and producing long stem-like structures. It is found across the world except Antarctica, while the rarest and most valuable species occur in the Himalayan regions of India, Nepal, and China. Popularly called "Himalayan gold," it is highly valued in traditional medicine, nutraceuticals, and pharmaceutical research due to its expensive market price.

Q77. The report "Moving Towards Effective City Government" was released by which organization?

- A. NITI Aayog (**correct answer**)
- B. Reserve Bank of India
- C. World Bank
- D. Ministry of Finance

Explanation: NITI Aayog released the report "Moving Towards Effective City Government: A Framework for Million-Plus Cities." India has 47 million-plus cities that house nearly one-third of the urban population and contribute about 60% of GDP. The report highlights challenges such as infrastructure deficits, poor service delivery, housing shortages, mobility issues, and environmental concerns. It notes that city governments have limited control over functions under the 74th Constitutional Amendment Act.

Q78. Which city in India has been ranked the world's fastest-growing major city through 2035, according to Savills' Growth Hubs Index?

- A. Bengaluru (**correct answer**)

- B. Mumbai
- C. New Delhi
- D. Hyderabad

Explanation: Bengaluru has been ranked the world's fastest-growing major city through 2035, according to the latest report by global real estate advisory firm Savills. The report, part of Savills' Growth Hubs Index under the Resilient Cities research programme, evaluated 245 global cities based on GDP growth projections, personal wealth, demographics, migration, and high-income households. Asia-Pacific cities dominate the rankings, with countries like Vietnam, China, and India leading, and cities such as Manila and Kuala Lumpur also featured in the top 20.

Monthly - November 2025

Q79. In November 2025, Energy Efficiency Services Limited (EESL) announced India's largest Geothermal Energy Technology (GET) pilot project in which state?

- A. Odisha
- B. Andhra Pradesh (**correct answer**)
- C. Gujarat
- D. Karnataka

Explanation: In November 2025, Energy Efficiency Services Limited (EESL), a Joint Venture (JV) under the Ministry of Power (MoP), announced India's largest Geothermal Energy Technology (GET) pilot project in Andhra Pradesh (AP). The project will be implemented at two tourism hubs - Araku Valley and Visakhapatnam (Vizag). It uses geothermal systems like Earth Air Tunnel (EAT) Systems and Ground Source Heat Pumps (GSHP). The system works by using the earth's constant underground temperature at a depth of 7-8 meters (m) for eco-friendly heating and cooling. The technology has a short payback period of 3-4 years, ideal for hotels and tourism infrastructure.

Q80. Who received the 2025 World Leader for Peace and Security Award?

- A. Yogi Dinesh Chander
- B. Sri Sri Ravi Shankar (**correct answer**)
- C. Baba Ramdev
- D. Jagdish Vasudev

Explanation: In November 2025, Gurudev Sri Sri Ravi Shankar, founder of the Art of Living Foundation, received the 2025 World Leader for Peace and Security Award. The award was presented by the Boston Global Forum (BGF) and the AI World Society (AIWS) at Harvard University, USA. It recognizes his significant contributions to global peace-building, reconciliation, and humanitarian service. The 2025 award marks the 10th anniversary of the award (2015-2025), honoring leaders with moral courage, visionary leadership, and compassion. The focus of the 2025 award is on advancing 21st-century peace through inner harmony, interfaith dialogue, and ethical governance.

Q83. Which country has become the eighth country in the world to introduce the Typhoid Conjugate Vaccine (TCV) into its immunisation programme?

- A. Sri Lanka
- B. Myanmar
- C. Bangladesh (**correct answer**)
- D. Nepal

Explanation: Bangladesh became the 8th country in the world to introduce the Typhoid Conjugate Vaccine (TCV) in its routine immunisation programme. Around 50 million children aged 9 months to 15 years will receive the vaccine under a nationwide campaign. India is the major vaccine supplier for this drive but has not yet included TCV in its Universal Immunisation Programme (UIP). Typhoid fever is caused by the Salmonella typhi bacterium and spreads through contaminated food and water or vectors like flies. The disease can lead to fever lasting several weeks, and complications like intestinal perforation can cause death. The World Health Organization (WHO) estimates 9-12 million global typhoid cases and over 1 lakh deaths annually - with India, Bangladesh, and Pakistan as hotspots

Q84. A new species of jumping spider named Pilia malenadu was recently discovered in which state?

- A. Karnataka (**correct answer**)
- B. Maharashtra
- C. Gujarat
- D. Tamil Nadu

Explanation: A new species of jumping spider named *Pilia malenadu* was recently discovered in the Western Ghats of Karnataka. It was found in Madhugundi, located in Mudigere taluk of Chikkamagaluru district. The species belongs to the *Pilia* genus of jumping spiders. It was named "*Pilia malenadu*" to honour the region where it was discovered. This is a historic find as the last *Pilia* species was recorded 123 years ago in 1902 in Kerala. For the first time, researchers found both male and female spiders of this genus.

Q85. Which state has become the first in India to eradicate extreme poverty?

- A. Andhra Pradesh
- B. Tamil Nadu
- C. Kerala (**correct answer**)
- D. Maharashtra

Explanation: On Kerala Piravi Day (November 1, 2025), Kerala declared eradication of extreme poverty, becoming India's first state to achieve this milestone. The success came under the Extreme Poverty Eradication Programme (EPEP) launched in 2021 by the Left Democratic Front (LDF) government. The Local Self-Government Department acted as the nodal agency, with 4 lakh trained personnel including officials, volunteers, and elected representatives. 59,000 families were confirmed as extremely poor after verification based on income, health, housing, and food security.

Q86. According to the Reserve Bank of India's report, which two countries together accounted for over one-third of the total FDI in India?

- A. United States and Singapore (**correct answer**)
- B. Mauritius and United Kingdom
- C. Singapore and Netherlands
- D. Japan and Germany

Explanation: The Reserve Bank of India (RBI) released the 2024-25 census on Foreign Liabilities and Assets (FLA) on October 29, 2025. The census covered Indian entities' cross-border assets and liabilities. Out of 45,702 entities, 41,517 reported Foreign Direct Investment (FDI) and Overseas Direct Investment (ODI) in their March 2025 balance sheets. The United States and Singapore together contributed over one-third of India's total FDI. Other major contributors were Mauritius, the United Kingdom, and the Netherlands. Total FDI stood at Rs.68.76 lakh crore, higher than Rs.61.88 lakh crore in 2023-24. The share of FDI was 20 percent from the United States, 14.3 percent from Singapore, 13.3 percent from Mauritius, 11.2 percent from the United Kingdom, and 9 percent from the Netherlands.

Q87. The Ramnami tribe is mainly found in which state?

- A. Chhattisgarh (**correct answer**)
- B. Andhra Pradesh
- C. Gujarat
- D. Maharashtra

Explanation: Recently, the Prime Minister broke protocol to let two Ramnami tribe members adorn him with their traditional peacock-feather crown. The Ramnami tribe is a unique sect from Chhattisgarh, India, known for tattooing the name "Ram" on their bodies and faces. The Ramnami Samaj emerged in the 19th

century as a peaceful protest against caste discrimination that barred temple entry. The movement was founded by Parsuram Bhardwaj, a low-caste sharecropper's son. Tattoos of "Ram" symbolize the belief in the omnipresence of God (nirgun Ram).

Q88. Which institute recently initiated research on the Cycad plant due to concerns about a potential neurotoxin?

- A. Indian Institute of Science (IISc), Bengaluru
- B. All India Institute of Medical Sciences (AIIMS), Bhubaneswar (**correct answer**)
- C. National Botanical Research Institute (NBRI), Lucknow
- D. Indian Council of Medical Research (ICMR), New Delhi

Explanation: AIIMS Bhubaneswar has started research on the Cycad plant due to the presence of BMAA (beta-N-methylamino-L-alanine), a possible neurotoxin. Cycads are palmlike, woody gymnosperm plants. They are ancient species that existed alongside dinosaurs for over 300 million years. They grow in various habitats, from wet rainforests and grasslands to semidesert and seasonally dry forests. Their distribution spans tropical and subtropical regions, including the Americas, Caribbean, sub-Saharan Africa, Madagascar, eastern India, China, Japan, Southeast Asia, Oceania, and Australia.

Q89. Anant Shastra surface-to-air missile system is developed by which organisation?

- A. Hindustan Aeronautics Limited (HAL)
- B. Bharat Dynamics Limited (BDL)
- C. Indian Space Research Organization (ISRO)
- D. Defence Research and Development Organisation (DRDO) (**correct answer**)

Explanation: The Indian Army has issued a tender to Bharat Electronics Limited (BEL) for five to six regiments of the indigenously developed 'Anant Shastra' surface-to-air missile system. The system was earlier known as Quick Reaction Surface-to-Air Missile (QRSAM) and is developed by Defence Research and Development Organisation (DRDO). The project is worth about Rs.30,000 crore and will boost air defence on borders with Pakistan and China. The mobile system can search, track and engage targets on the move with a 30 km firing range. It will complement Medium Range Surface-to-Air Missile (MRSAM) and Akash systems.

Q90. Which institution has launched a tool called "SARAL" to make scientific research more accessible?

- A. Anusandhan National Research Foundation (ANRF) (**correct answer**)
- B. Council of Scientific & Industrial Research (CSIR)
- C. NITI Aayog
- D. Ministry of Skill Development

Explanation: The Anusandhan National Research Foundation (ANRF) launched SARAL (Simplified and Automated Research Amplification and Learning) to make research easy and accessible. SARAL uses Artificial Intelligence (AI) to simplify complex research into videos, podcasts, posters, and presentations.

Anusandhan National Research Foundation (ANRF) aims to harness deep science and engineering to build deep tech products and start-ups. It is developing an AI Science and Engineering Open India Stack for drug discovery, aerospace design, climate studies, and advanced materials.

Q94. Kondareddypally, which became South India's first fully solar-powered village, is located in which state?

- A. Tamil Nadu
- B. Kerala
- C. Telangana (**correct answer**)
- D. Karnataka

Explanation: Kondareddypally in Vangoor Mandal, Nagarkurnool district, Telangana, became South India's first fully solar-powered village and India's second. The village has 514 homes and 11 government buildings running entirely on solar energy, providing uninterrupted power and eliminating electricity bills. Surplus energy is sold back to the grid, generating revenue for villagers. The Rs.10.53 crore project was funded by central government subsidies, corporate social responsibility (CSR) contributions, and executed by Telangana Renewable Energy Development Corporation Ltd (TREDCO) under Telangana Green Energy Mission.

Q95. The Indian Radio Software Architecture (IRSA) Standard 1.0 was developed by which organization?

- A. Bharat Electronics Limited (BEL)
- B. Defence Research and Development Organisation (DRDO) (**correct answer**)
- C. Indian Space Research Organisation (ISRO)
- D. Hindustan Aeronautics Limited (HAL)

Explanation: Recently, Defence Research and Development Organisation (DRDO), with the Integrated Defence Staff and Tri-Services, released Indian Radio Software Architecture (IRSA) Standard 1.0. It is India's first national specification for Software Defined Radios (SDR). IRSA 1.0 standardizes how different radio systems communicate securely and efficiently. Its vision is to make IRSA a global benchmark and promote export of IRSA-compliant SDR solutions to friendly nations. It defines interfaces, Application Programming Interfaces (APIs), execution environments, waveform portability, and SDR interoperability. It was developed under the Standardization of Indigenous SDR initiative by the Directorate of Standardization (DoS), Department of Defence Production (DDP), Ministry of Defence (MoD).

Q96. According to the National Crime Records Bureau (NCRB) report, which state reported the highest number of farm suicides in 2023?

- A. Maharashtra (**correct answer**)
- B. Andhra Pradesh
- C. Madhya Pradesh
- D. Karnataka

Explanation: The National Crime Records Bureau (NCRB) reported 10,786 farmer and agricultural worker suicides in 2023. Suicides from the farm sector made up 6.3% of total suicides (1,71,418) in India. Out of these, 4,690 were farmers/cultivators (4,553 male, 137 female) and 6,096 were agricultural workers (5,433 male, 663 female). Maharashtra (38.5%) recorded the highest share, followed by Karnataka (22.5%), Andhra Pradesh (8.6%), Madhya Pradesh (7.2%), and Tamil Nadu (5.9%). Several states like West Bengal, Bihar, Odisha, Jharkhand, Delhi, and others reported zero farm suicides. Experts say repeated suicides in 2021, 2022, and 2023 reflect a systemic agrarian crisis in India.

Q97. Who is the author of the book "Above and Beyond" released in October 2025?

- A. Shiv Kumar Mohanka (**correct answer**)
- B. Ram Mohan Naidu
- C. Vikram Seth
- D. Shahnawaz Hussain

Explanation: On October 7, 2025, Union Minister Ram Mohan Naidu, Ministry of Civil Aviation (MoCA), launched the book "Above and Beyond - Exploring the Amazing World of Aviation" in New Delhi. The book is authored by Shiv Kumar Mohanaka, Deputy Inspector General (DIG) of Central Industrial Security Force (CISF). The 445-page book showcases India's aviation journey, highlighting achievements from dreams to destinations. It draws on Shiv Kumar Mohanaka's 30 years of experience in CISF, providing a detailed view of the Indian aviation sector. Research includes a survey of 1,500 Indian flyers and explores future evolution of India's aviation ecosystem to meet global standards.

Q98. Which institution released the fourth edition of Trade Watch Quarterly report for FY 2024-25?

- A. Securities and Exchange Board of India
- B. NITI Aayog (**correct answer**)
- C. Reserve Bank of India
- D. Ministry of Finance

Explanation: The fourth edition of Trade Watch Quarterly for Q4 of FY 2024-25 was released on 6 October 2025 in New Delhi by NITI Aayog. It provides a comprehensive assessment of India's trade performance, covering merchandise and services exports, imports, and global demand trends. India's total trade in Q4 reached 441 billion, up 2.2% year-on-year. Merchandise exports declined slightly due to mineral fuels and organic chemicals, while electrical machinery, pharmaceuticals, and cereals grew. North America was the top export market, growing 25%; UAE became India's second-largest import source. The leather and footwear sector employs 4.4 million and contributes significantly to exports, with a 1.8% share in the 296 billion global market.

Q99. What type of missile is "Nimbrix" developed by Swedish defense company Saab?

- A. Counter-unmanned aircraft system (C-UAS) missile (**correct answer**)
- B. Anti-tank guided missile (ATGM)
- C. Intercontinental ballistic missile (ICBM)
- D. Surface-to-Surface missile (SAS)

Explanation: Swedish defense company Saab announced the development of a new missile named Nimbrix. Nimbrix is a counter-unmanned aircraft system (C-UAS) missile designed to target small unmanned aerial vehicles (UAVs). It is Saab's first dedicated C-UAS missile. The missile is designed to minimize costs using additive manufacturing and commercial and military off-the-shelf parts. It is a fire-and-forget guided missile with a range of up to 5 km. It uses an active seeker to track targets.

Q100. What is the name of India's first fully indigenous 32-bit microprocessor launched at Semicon India 2025?

- A. Aryabhata 3201
- B. Chandrayaan 3201
- C. Bhaskara 3201
- D. Vikram 3201 (**correct answer**)

Explanation: India unveiled its first fully indigenous 32-bit microprocessor, Vikram 3201, at Semicon India 2025. It is designed by Vikram Sarabhai Space Center (VSSC) and fabricated by Indian Space Research Organisation's (ISRO) Semiconductor Laboratory (SCL), Chandigarh. Vikram 3201 is designed specifically for rockets and satellites, unlike processors in smartphones or laptops. It is an upgrade of Vikram 1601, a 16-bit processor used in ISRO launch vehicles since 2009. The processor manages navigation, control, and mission management in launch vehicles. The launch supports India's semiconductor self-reliance, with five units under construction under the Design-Linked Incentive scheme.

Q102. Which organisation launched the BHARATI initiative to boost agri-food exports?

- A. Food Safety and Standards Authority of India (FSSAI)
- B. Agricultural and Processed Food Products Export Development Authority (APEDA) (**correct answer**)
- C. NITI Aayog
- D. Ministry of Agriculture & Farmers' Welfare

Explanation: The Agricultural and Processed Food Products Export Development Authority (APEDA) launched a new initiative called BHARATI. BHARATI stands for Bharat's Hub for Agritech, Resilience, Advancement and Incubation for Export Enablement. It aims to empower 100 agri-food and agri-tech startups, promote innovation, and create new export opportunities for young entrepreneurs. The initiative supports APEDA's vision of achieving \$50 billion in agri-food exports for Scheduled Products by 2030. BHARATI addresses export challenges like product development, value addition, quality assurance, perishability, wastage, and logistics.

Q103. What is the name of the newly developed hand-held, non-invasive brain injury diagnostic tool by ICMR and collaborators?

- A. NEUROSCAN

- B. BRAIN SAFE
- C. NEURONIC
- D. CEREBO (**correct answer**)

Explanation: CEREBO is a hand-held, portable, non-invasive brain injury diagnostic tool developed by Indian Council of Medical Research (ICMR), Medical Device & Diagnostics Mission Secretariat (MDMS), AIIMS Bhopal, NIMHANS Bengaluru, and Bioscan Research. It is designed for Traumatic Brain Injuries (TBIs) and detects intracranial bleeding and edema within a minute. The device is safe for infants and pregnant women and usable by paramedics and unskilled personnel. CEREBO provides colour-coded, radiation-free, cost-effective results where CT or MRI scans are inaccessible or delayed. It can be deployed in ambulances, trauma centres, rural clinics, and disaster response units.

Q104. The Typhon missile system was developed by which country?

- A. India
- B. China
- C. United States (**correct answer**)
- D. France

Explanation: United States (U.S.) and Japan are holding a joint military exercise where the Typhon intermediate-range missile system will be temporarily deployed in Japan. The Typhon missile system, also known as Mid-Range Capability (MRC) or Strategic Mid-Range Fires (SMRF), was developed by the United States and manufactured by Lockheed Martin. It uses a modular design that allows it to fire SM-6 missiles and Tomahawk cruise missiles. SM-6 missiles can engage targets beyond 320 km, while Tomahawk missiles offer deep-strike capability up to 1,500 km. The system is containerized, road-mobile, and highly survivable, allowing rapid deployment across allied regions.

Q106. The Indian contingent participating in Exercise Yudh Abhyas 2025 in Alaska belongs to which regiment of the Indian Army?

- A. Garhwal Rifles
- B. Dogra Regiment
- C. Madras Regiment (**correct answer**)

- **D. Sikh Regiment**

Explanation: In Exercise Yudh Abhyas 2025, the Indian Army is represented by a battalion from the Madras Regiment, one of the oldest and most decorated infantry regiments in India. The exercise is held at Fort Wainwright, Alaska, from September 1 to 14, 2025, with the US Army's 1st Battalion, 5th Infantry Regiment "Bobcats." This joint drill enhances combat preparedness, cooperation, and interoperability between Indian and US forces by focusing on areas such as heliborne operations, mountain warfare, and counter-unmanned aerial systems, underscoring India's commitment to international military collaboration.

Q107. Which Indian state carried out the country's first science-based, community-driven eradication of *Senna Spectabilis*?

- **A. Andhra Pradesh**
- **B. Kerala (correct answer)**
- **C. Tamil Nadu**
- **D. Maharashtra**

Explanation: Kerala conducted India's first science-based, community-driven eradication of *Senna spectabilis* in Wayanad Wildlife Sanctuary. *Senna spectabilis* is an invasive species native to American tropics. The tree grows 7-18 metres tall with a dense, spreading crown. It forms dense, sterile thickets, choking native plants, altering soil chemistry, and reducing food for herbivores. It closely resembles Kerala's state flower *Cassia fistula* (kanikkonna), which aided its initial planting. The eradication involved community participation and science-based methods to restore forest ecosystems and promote biodiversity recovery.

Source: <https://www.gktoday.in/quizbase/current-affairs-quiz-september-2025>

Q108. What is *Dioscorea balakrishnanii*, that was recently discovered in Kerala?

- **A. Invasive weed**
- **B. Butterfly**
- **C. Edible Tuber (correct answer)**
- **D. Frog**

Explanation: Researchers from Kerala discovered a new edible tuber named *Dioscorea balakrishnanii* in Wayanad district of Kerala. It belongs to the genus *Dioscorea* and is locally called 'chola kizhangu' by the Kattunayikar tribes. The tuber is edible when cooked and has excellent flavour. It is found only in the sholas of evergreen forests in the Western Ghats. Wayanad has 23 forms of more than 14 *Dioscorea* species, relatives of cultivated yam like kachil/kavat. The tuber has low glycemic index and potential for food security and medicinal use. Discovery highlights the importance of conserving unique ecosystems and wild relatives of crops.

Q110. The JCB Prize, which has been discontinued recently, is associated with which field?

- A. Journalism
- B. Sports
- C. Literature (**correct answer**)
- D. Agriculture

Explanation: Recently, the Indian literary world was shocked as the JCB Prize for Literature has been officially discontinued. The award, worth Rs 25 lakh for the best fiction work by an Indian author, ended with no future editions planned. It was established in 2018 by JCB India. The prize promoted Indian fiction and translations, awarding five out of seven winners for translated works in languages like Malayalam, Tamil, and Urdu. The JCB Prize, though short-lived, made a strong impact on regional literature and India's literary ecosystem.

Q132. What type of missile is the "Akash" that was recently seen in news?

- A. Air-to-Air Missile
- B. Surface-to-Air Missile (**correct answer**)
- C. Air-to-Surface Missile
- D. Surface-to-Surface Missile

Explanation: Recently, Brazil halted negotiations with India for the purchase of the Akash missile system, affecting India's defence export ambitions. The Akash missile system is a Medium Range Surface-to-Air Missile (SAM) designed to defend vital areas from aerial threats. It was indigenously developed by the Defence Research and Development Organisation (DRDO). It is manufactured by Bharat Dynamics Limited (BDL), based in Hyderabad. Akash can simultaneously engage multiple targets in Group Mode or Autonomous Mode. It has Electronic Counter-Counter Measures (ECCM) to resist electronic jamming.

Q133. THAAD Missile System was developed by which country?

- A. Russia
- B. United States (**correct answer**)
- C. France
- D. Israel

Explanation: Recently, the United States used up 15 to 20 percent of its Terminal High Altitude Area Defense (THAAD) missile system stock to defend against Iran's aerial strikes during a 12-day conflict involving attacks on nuclear sites by Israel and the US. The THAAD system is an advanced missile defence developed by the United States to destroy short-, medium-, and intermediate-range ballistic missiles in their terminal phase. THAAD is a vital part of US Ballistic Missile Defense (BMD) and can intercept targets both inside and outside the atmosphere.

- C. Surface-to-Air missile (**correct answer**)
- D. Surface-to-Surface missile

Explanation: Recently, India successfully destroyed two Aerial High-Speed Unmanned targets in Ladakh using Akash Prime missile. Akash Prime is an upgraded version of the Akash surface-to-air missile system designed for high-altitude use. It is a medium-range missile meant to defend mobile, semi-mobile, and static military assets from aerial threats. It features an indigenous Radio Frequency seeker for precise target tracking in the final flight phase. It can target threats at a range of 25 to 30 kilometers.

Topic - Economy & Finance

Q145. Which institution has launched the Financial Fraud Risk Indicator (FRI)?

- A. Reserve Bank of India (RBI)
- B. National Payments Corporation of India (NPCI)
- C. Department of Telecommunications' Digital Intelligence Unit (DoT-DIU) (**correct answer**)
- D. Indian Cyber Crime Coordination Centre (I4C)

Explanation: Recently, the Reserve Bank of India (RBI) directed all Scheduled Commercial Banks, Small Finance Banks, Payments Banks, and Co-operative Banks to use the Financial Fraud Risk Indicator (FRI). FRI was launched by the Digital Intelligence Unit (DIU) of the Department of Telecommunications (DoT). It is a risk-based tool that marks a mobile number as Medium, High, or Very High financial fraud risk. It helps banks, Non-Banking Financial Companies (NBFCs), and Unified Payments Interface (UPI) providers protect customers.

Q146. Bima Sakhi Yojana is an initiative of which institution?

- A. Ministry of Micro, Small and Medium Enterprises
- B. NITI Aayog
- C. Life Insurance Corporation of India (LIC) (**correct answer**)

- **D. Reserve Bank of India (RBI)**

Explanation: Life Insurance Corporation of India (LIC) recently signed a Memorandum of Understanding (MoU) with the Department of Rural Development to promote Bima Sakhi Yojana in rural India. The MoU was signed during the financial inclusion conclave 'Anubhuti' held in Goa in July 2025. Bima Sakhi Yojana is a performance-based stipendiary scheme launched by Life Insurance Corporation of India (LIC) for women empowerment. Selected women receive training and monthly stipends for three years - Rs.7,000 in the first year, Rs.6,000 in the second, and Rs.5,000 in the third. The scheme aims to appoint two lakh Bima Sakhis across India over the next three years.

Q147. What type of debt instrument pays no periodic interest but is issued at a discount rate to its face value?

- **A. Convertible Bonds**
- **B. Treasury Bills**
- **C. Zero-Coupon Bonds (correct answer)**
- **D. Floating Rate Bonds**

Explanation: Recently, the Power Finance Corporation withdrew its plan to issue zero-coupon bonds due to weak investor demand. Zero-coupon bonds are debt instruments that do not pay regular interest but are sold at a discount and redeemed at full face value on maturity. Also called discount bonds, they offer a lump sum payment at maturity, making their market price more volatile than regular coupon bonds. They suit both long-term and short-term investment goals and are seen as less risky since investors hold them till maturity. However, they do not provide regular income and are mainly suitable for long-term investors.

Q148. Which of the following states are the top three coffee-producing states in India?

- **A. Karnataka, Kerala, Tamil Nadu (correct answer)**
- **B. Kerala, Maharashtra, Odisha**
- **C. Tamil Nadu, Andhra Pradesh, Gujarat**
- **D. Karnataka, Assam, Kerala**

Explanation: Recently, India's coffee exports reached 1.8 billion, marking a 125 percent rise over the last 11 years due to efforts by the Coffee Board of India. In 2014-15, exports were valued at over 800 million, rising to 1.14 billion in 2022-23 and 1.28 billion in 2023-24. Europe is the top buyer of Indian coffee, with major importers including Italy, Germany, Belgium, Middle East countries, Korea, and Japan. The main coffee-producing states are Karnataka, Kerala, and Tamil Nadu. India ranks seventh in global coffee production with a 3.5 percent share and fifth in exports with a 5 percent share.

Q149. Which country has become 21st member to adopt Euro as its official currency?

- **A. Hungary**
- **B. Poland**
- **C. Sweden**
- **D. Bulgaria (correct answer)**

Explanation: Recently, European Union ministers approved Bulgaria to adopt the Euro from January 1, 2026, making it the 21st member of the eurozone. Bulgaria is located in southeastern Europe, occupying

the eastern part of the Balkan Peninsula. It shares borders with Romania to the north, Turkey and Greece to the south, North Macedonia to the southwest, and Serbia to the west. It is bounded by the Black Sea on the east. The Balkan Mountains cross the central part of the country.

Q150. Where has Google opened its first Safety Engineering Centre in the Asia-Pacific region?

- A. Hyderabad (**correct answer**)
- B. Chennai
- C. Bengaluru
- D. Mumbai

Explanation: Google opened its first Safety Engineering Centre in the Asia-Pacific region and fourth globally in Hyderabad on June 19, 2025. Telangana Chief Minister A Revanth Reddy officially inaugurated the Google Safety Engineering Centre (GSEC). The launch follows Google's "Safety Charter for India's AI-led Transformation" unveiled in Delhi on June 17. GSEC will work on protecting users from online fraud and securing enterprise and government systems. It will act as a strategic hub for responsible Artificial Intelligence (AI) and safety solutions.

Q151. Dholera Special Investment Region (SIR), India's first greenfield smart industrial city, is located in which state?

- A. Rajasthan
- B. Gujarat (**correct answer**)
- C. Andhra Pradesh
- D. Kerala

Explanation: Recently, the Ambassador of Japan to India led a high-level business delegation to the Dholera Special Investment Region (SIR). The visit aimed to explore strategic cooperation in semiconductors and smart city development. Dholera SIR, India's first greenfield smart industrial city, is located in Gujarat. The city focuses on advanced manufacturing, digital governance, and sustainable urban living. It is a key part of India's vision to boost high-tech investments, particularly in the semiconductor sector.

Q152. Which state has emerged as the top producer of processed potatoes in 2024-2025?

- A. Uttar Pradesh
- B. Karnataka
- C. Gujarat (**correct answer**)
- D. Maharashtra

Explanation: Gujarat recorded 48.59 lakh tonnes of potato production in the 2024-25 season, including varieties for French fries and wafers. Gujarat is now the top producer of processed potatoes in India, followed by Uttar Pradesh and Punjab. Processed potato production in India grew from less than 1 lakh tonnes in 2004-05 to 11.50 lakh tonnes in 2024-25. Banaskantha, Sabarkantha, and Aravalli are Gujarat's leading potato-growing districts, producing 38 lakh tonnes on 1.19 lakh hectares.

Q153. Economic Census in India is conducted by which ministry?

- A. Ministry of Corporate Affairs
- B. Ministry of Finance
- C. Ministry of Statistics and Programme Implementation (**correct answer**)
- D. Ministry of Home Affairs

Explanation: Ministry of Statistics and Programme Implementation (MoSPI) has urged integration of the 8th Economic Census preliminary work with the 16th Population Census. The Economic Census aims to capture a full count of all entrepreneurial activities in India at a specific point in time. It is conducted by Ministry of Statistics and Programme Implementation (MoSPI) to strengthen data-driven policymaking. The census provides detailed data on ownership patterns, employment numbers, and geographic spread of economic activities.

Q154. Who chaired the 29th meeting of the Financial Stability and Development Council (FSDC)?

- A. Governor of RBI
- B. Prime Minister
- C. Finance Minister (**correct answer**)
- D. None of the Above

Explanation: The Finance Minister recently chaired the 29th meeting of the Financial Stability and Development Council (FSDC). FSDC is a top-level non-statutory body formed by the Government of India in December 2010. Its main aim is to ensure financial stability and promote development in the financial sector. The council is chaired by the Union Finance Minister and includes key members like the Governor of Reserve Bank of India (RBI), Finance Secretary, and heads of regulatory bodies like Securities and Exchange Board of India (SEBI), Insurance Regulatory and Development Authority of India (IRDAI), and Pension Fund Regulatory and Development Authority (PFRDA).

Q155. According to the Global Energy Monitor (GEM), what is India's global rank in terms of solar power potential from abandoned coal mines?

- A. First
- B. Second
- C. Third
- D. Fourth (**correct answer**)

Explanation: India has the fourth highest potential globally to generate solar power from abandoned coal mines, according to the Global Energy Monitor (GEM). Telangana, Odisha, Madhya Pradesh, and Chhattisgarh are among the top 20 global regions with the highest land availability from closed mines and could together generate over 22 GW. Abandoned coal mines pose risks like methane leakage, which has 28 times more warming potential than carbon dioxide, and can lead to environmental damage and fatal accidents.

Source: <https://www.gktoday.in/quizbase/business-economy-banking-current-affairs>

Q156. Digital Payment Intelligence Platform (DPIP) is an initiative of which institution?

- A. Reserve Bank of India (RBI) (**correct answer**)

- B. NITI Aayog
- C. Ministry of Finance
- D. Securities and Exchange Board of India (SEBI)

Explanation: Recently, the Reserve Bank of India (RBI) involved major public and private sector banks to develop the Digital Payment Intelligence Platform (DPIP) as a Digital Public Infrastructure (DPI). The Digital Payment Intelligence Platform (DPIP) is an initiative of the Reserve Bank of India (RBI). It aims to improve fraud risk management by allowing real-time sharing and collection of intelligence to stop fraudulent digital transactions. The Reserve Bank Innovation Hub (RBIH) is building a prototype with 5-10 banks. DPIP will use advanced technologies to control payment-related frauds.

Source: <https://www.gktoday.in/quizbase/business-economy-banking-current-affairs>

Q157. The E-Kuber portal is the Core Banking Solution (CBS) of which institution?

- A. Reserve Bank of India (RBI) (**correct answer**)
- B. Securities and Exchange Board of India (SEBI)
- C. Export - Import Bank of India (Exim Bank)
- D. National Bank for Agriculture and Rural Development (NABARD)

Explanation: From July 16, 2025, the central government made it mandatory for departments and ministries to process payments above Rs.75 crore via the e-Kuber system. The aim is to increase transparency and speed up fund reconciliation. This move will help provide real-time data on government spending and improve tracking of payments to vendors and contractors. E-Kuber is the Core Banking Solution (CBS) of the Reserve Bank of India (RBI), launched in 2012. It enables commercial banks to access their RBI accounts anytime and from anywhere.

Source: <https://www.gktoday.in/quizbase/business-economy-banking-current-affairs>

Q158. Which state has become the third state in India to cross 1 crore registered investors, as per National Stock Exchange (NSE) data?

- A. Rajasthan
- B. Haryana
- C. Gujarat (**correct answer**)
- D. Punjab

Explanation: Recently, Gujarat became the third Indian state to cross 1 crore registered investors, as per National Stock Exchange (NSE) data. Maharashtra and Uttar Pradesh had already crossed this mark. These three states together form 36 per cent of India's total investor base, showing their big role in equity markets. As of May 2025, India has nearly 11.5 crore registered investors. North and East India saw growth of 24 per cent and 23 per cent in the past year, while South grew 22 per cent and West 17 per cent.

Source: <https://www.gktoday.in/quizbase/business-economy-banking-current-affairs>

Q159. According to World Bank, what is the projected economic growth of India for FY 2025-26?

- A. 5.8%
- B. 6.1%
- C. 6.3% (**correct answer**)
- D. 7.1%

Explanation: The World Bank has projected India's economic growth at 6.3% for the Financial Year (FY) 2025-26 in its latest Global Economic Prospects report. India is expected to maintain the fastest growth rate

among the world's largest economies. Growth in FY 2024-25 slowed due to a drop in industrial output, but construction and services sectors remained steady. Agricultural output recovered from severe drought conditions, supported by strong rural demand. Growth is expected to rise to an average of 6.6% in FY 2026-27 and FY 2027-28, helped by strong services and export growth.

Source: <https://www.gktoday.in/quizbase/business-economy-banking-current-affairs>

Q160. The Urban Consumer Confidence Survey (UCCS) is conducted by which institution in India?

- A. NITI Aayog
- B. Reserve Bank of India (RBI) (**correct answer**)
- C. NABARD (National Bank for Agriculture and Rural Development)
- D. Securities and Exchange Board of India (SEBI)

Explanation: The Reserve Bank of India (RBI) released its latest Urban Consumer Confidence Survey (UCCS) in May 2025. The UCCS showed that urban consumers had stable views about the current economic situation but were hopeful about the future. The UCCS is a bi-monthly survey by RBI to study urban household opinions on economy, employment, income, inflation, and spending. In May 2025, the survey covered 6,090 people from 19 cities. For the first time, RBI renamed it as UCCS, to separate it from the new Rural Consumer Confidence Survey.

Topic - Environment

Q161. Which state has topped in the Management Effectiveness Evaluation (MEE) of national parks and and wildlife sanctuaries for 2020-2025?

- A. Kerala (**correct answer**)
- B. Madhya Pradesh
- C. Maharashtra
- D. Karnataka

Explanation: Recently, Kerala has secured the top spot in the Management Effectiveness Evaluation (MEE) of national parks and wildlife sanctuaries by the Union Ministry of Environment and Forest for 2020-2025. Kerala scored 76.22% in the very good category. Eravikulam National Park in Kerala and Dachigam National Park in Jammu and Kashmir topped protected areas with an MEE score of 92.97%. Mathikettan Shola National Park and Chinnar Wildlife Sanctuary ranked fifth and sixth among the top 10. Chandigarh topped among Union Territories with 85.16%.

Source: <https://www.gktoday.in/quizbase/environment-biodiversity-current-affairs>

Q162. India's first butterfly sanctuary has been established in which state?

- A. Kerala (**correct answer**)
- B. Tamil Nadu
- C. Maharashtra
- D. Karnataka

Explanation: Recently, Kerala's Western Ghats became home to India's first butterfly sanctuary after the Aralam Wildlife Sanctuary in Kannur was renamed as Aralam Butterfly Sanctuary on 18 June 2025 by the Kerala State Wildlife Board. The sanctuary covers 55 square kilometers of tropical and semi-evergreen forests and hosts over 266 species of butterflies, more than 80% of all species in Kerala. Some butterfly

species found here are unique or endangered, and between October and February, the sanctuary sees a vibrant butterfly migration, especially of the Common Albatross.

Q163. Rhino DNA Index System (RhoDIS) was launched by which ministry?

- A. Ministry of Science and Technology
- B. Ministry of Tourism
- C. Ministry of Environment, Forests and Climate Change (**correct answer**)
- D. Ministry of Urban Development

Explanation: Recently, the Assam Forest Department began DNA profiling of rhino horns to add them to the Rhino DNA Index System (RhoDIS) India database. RhoDIS India was launched in 2016 by the Ministry of Environment, Forests and Climate Change (MoEFCC) in collaboration with the Wildlife Institute of India (WII), forest departments of Assam, West Bengal, and Uttar Pradesh, and World Wide Fund for Nature (WWF) India. RhoDIS is a wildlife forensic tool designed to help in solving wildlife crime cases. It creates a unique genetic signature for each rhino using DNA indexing.

Q164. Nilgiri Tahr is primarily found in which region of India?

- A. Himalayas
- B. Western Ghats (**correct answer**)
- C. Eastern Ghats
- D. Chotanagpur plateau

Explanation: A joint census in Kerala and Tamil Nadu recorded 2,668 Nilgiri Tahrs in total. Kerala has 1,365 Tahrs, with 841 in Eravikulam National Park (ENP), up from 827 in 2024. Tamil Nadu reported 1,303 Tahrs, mainly in Mukurthi and Grass Hills National Parks. Nilgiri Tahr, also called Nilgiri Ibex or Varayaadu, is a mountain ungulate found only in the southern Western Ghats. It is the only mountain ungulate species in southern India. It inhabits a 400 km stretch in the Western Ghats, across Kerala and Tamil Nadu. Nilgiri Tahrs live in open montane grasslands of the southwestern Ghats montane rain forests ecoregion

Q165. Coringa Wildlife Sanctuary (CWS) is located in which state?

- A. Kerala
- B. Maharashtra
- C. Andhra Pradesh (**correct answer**)
- D. Karnataka

Explanation: Experts from the Wildlife Institute of India (WII), Dehradun, recently radio-collared three endangered fishing cats in Coringa Wildlife Sanctuary (CWS). Coringa Wildlife Sanctuary (CWS) is located in Andhra Pradesh. This is the first time in India that fishing cats (*Prionailurus viverrinus*) have been collared to study their home range, breeding, prey, and behaviour. Coringa Wildlife Sanctuary lies in the Godavari estuary where the Coringa river meets the Bay of Bengal in Kakinada district.

Q166. Ranthambore Tiger Reserve is located in which state?

- A. Gujarat
- B. Maharashtra
- C. Karnataka
- D. Rajasthan (**correct answer**)

Explanation: The Supreme Court recently ordered the Rajasthan government to immediately ban all mining activities in the core area of Ranthambore Tiger Reserve. Ranthambore Tiger Reserve is located in Sawai Madhopur district, southeastern Rajasthan. It is named after the Ranthambore Fort, a UNESCO World Heritage Site within the reserve. The reserve lies between the Vindhya and Aravalli hill ranges and was once a royal hunting ground of Jaipur's Maharajas.

Source: <https://www.gktoday.in/quizbase/environment-biodiversity-current-affairs>

Q167. A rare albino "sunflower" squirrel has been spotted in which state recently?

- A. Rajasthan (**correct answer**)
- B. Gujarat
- C. Punjab
- D. Uttarakhand

Explanation: A rare albino "sunflower" squirrel was recently spotted in Tonk district, Rajasthan, creating excitement among wildlife lovers and researchers. It was seen at the Central Industrial Security Force (CISF) campus in Tonk-Deoli, living in a neem tree. Albino squirrels are extremely rare, occurring in about one in 100,000 cases. Although such squirrels have been seen before in Banswara and Dungarpur, they remain very uncommon. Experts say albino traits are genetic, and the offspring may not inherit the condition.

Source: <https://www.gktoday.in/quizbase/environment-biodiversity-current-affairs>

Q168. A new flowering plant species named Begonia nyishiorum was recently discovered in which state?

- A. Arunachal Pradesh (**correct answer**)
- B. Assam
- C. Sikkim
- D. Manipur

Explanation: Forest officials in Arunachal Pradesh recently discovered a new flowering plant species named Begonia nyishiorum in the East Kameng district. Begonia nyishiorum is a flowering plant that grows only in East Kameng, making it an endemic species. It grows on moist, shaded mountain slopes at altitudes between 1,500 and 3,000 metres above sea level. The name "nyishiorum" honours the Nyishi tribal community for their forest protection efforts.

Source: <https://www.gktoday.in/quizbase/environment-biodiversity-current-affairs>

Q169. A rare Marbled Cat, that was recently spotted in Assam, is native to which region?

- A. South and Southeast Asia (**correct answer**)
- B. Central Africa
- C. North America
- D. Australia

Explanation: In July 2025, researchers captured the first-ever photos of the elusive Marbled Cat in Kakoi Reserve Forest, Assam. The Marbled Cat (*Pardofelis marmorata*) is a small wild cat native to South and Southeast Asia. It resembles a miniature clouded leopard but is unrelated to it. In India, it mainly inhabits forests in the Northeastern states. Marbled Cats are solitary, nocturnal, and feed on small animals and birds. It is listed as Near Threatened on the International Union for Conservation of Nature (IUCN) Red List.

Source: <https://www.gktoday.in/quizbase/environment-biodiversity-current-affairs>

Q170. Where has India's first Centre of Excellence for Hornbill Conservation been established?

- A. Mudumalai Tiger Reserve
- B. Anamalai Tiger Reserve (**correct answer**)
- C. Kalakkad Mundanthurai Tiger Reserve
- D. Sathyamangalam Tiger Reserve

Explanation: Tamil Nadu has recently announced the establishment of India's first Centre of Excellence for Hornbill Conservation at Anamalai Tiger Reserve (ATR) in Coimbatore district. Hornbills, called "farmers of the forest", are vital seed dispersers aiding forest regeneration. They are under threat due to deforestation, habitat loss, and climate change impacts. Anamalai Tiger Reserve (ATR) was chosen due to its rich biodiversity and conservation history for species like tigers, elephants, and lion-tailed macaques.

Source: <https://www.gktoday.in/quizbase/environment-biodiversity-current-affairs>

Q171. Lac insects are mainly found in which region of the world?

- A. South America
- B. Sub-Saharan Africa
- C. Southeast Asia (**correct answer**)
- D. Northern Europe

Explanation: Recently, researchers at the Indian Institute of Science (IISc) discovered how lac insects produce laccaic acid, which is used to make lac pigment. Lac insects are hemimetabolous and undergo gradual metamorphosis with stages like egg, nymph instars, pupa, and adult. They are found in Southeast Asian countries like India, Thailand, Myanmar, and China, with India and Thailand being top producers. More than 90% of India's lac comes from Bihar, Jharkhand, West Bengal, Madhya Pradesh, Chhattisgarh, Eastern Maharashtra, and Northern Odisha.

Source: <https://www.gktoday.in/quizbase/environment-biodiversity-current-affairs>

Q172. What is the IUCN status of "Red Panda" that was recently seen in news?

- A. Endangered (**correct answer**)
- B. Critically Endangered
- C. Vulnerable
- D. Least Concern

Explanation: Recently, red panda cubs were born at Himalayan Zoological Park near Gangtok, Sikkim after a gap of 7 years under a conservation programme. Red panda is also called the lesser panda. It is a shy, solitary, herbivorous and tree-dwelling (arboreal) animal. It uses its long bushy tail for balance and warmth during winter. It is an indicator species that signals ecological changes. It is mainly found in mountain forests of India, Nepal, Bhutan, China and Myanmar. It is listed as Endangered on the International Union for Conservation of Nature (IUCN) Red List.

Source: <https://www.gktoday.in/quizbase/environment-biodiversity-current-affairs>

Q173. Which Indian state recently reintroduced the critically endangered Asian Giant Tortoise into a community reserve?

- A. Nagaland (**correct answer**)
- B. Assam
- C. Arunachal Pradesh
- D. Sikkim

Explanation: The critically endangered Asian Giant Tortoise has been reintroduced into Zeliang Community Reserve in Peren district, Nagaland. The initiative was led by the Nagaland Forest Department and the India Turtle Conservation Programme (ITCP). These tortoises were born in 2019 under a conservation project that began in 2018 with rescued pet tortoises. The species, once common in Nagaland, had nearly vanished over a decade ago. Also known as "small elephants of the forest," they aid in seed dispersal, forest regeneration, and cleaning the forest floor. A habitat suitability study identified Zeliang Reserve as ideal for reintroduction.

Source: <https://www.gktoday.in/quizbase/environment-biodiversity-current-affairs>

Q174. Where was the new species of planarian worm named Dugesia punensis recently discovered?

- A. Loktak Lake, Manipur
- B. Chilika Lake, Odisha
- C. Pashan Lake, Pune (**correct answer**)
- D. Dal Lake, Srinagar

Explanation: A new species of planarian worm named Dugesia punensis was recently discovered in Pashan Lake, Pune, Maharashtra. Planarians are aquatic flatworms known for their amazing ability to regenerate lost body parts. This species was found in a wetland within the Western Ghats, which is a biodiversity hotspot. The discovery marks the first time since 1983 that a new planarian species has been identified in India. Dugesia punensis adds to the understanding of India's freshwater biodiversity and highlights the ecological importance of urban wetlands like Pashan Lake.

Source: <https://www.gktoday.in/quizbase/environment-biodiversity-current-affairs>

Q175. Cnemaspis brahmaputra, that was recently seen in news, belongs to which species?

- A. Frog
- B. Fish
- C. Butterfly
- D. Gecko (**correct answer**)

Explanation: A new gecko species named Cnemaspis brahmaputra was recently discovered in Assam at Dirgheswari Temple on the northern bank of the Brahmaputra River. It has been named after the Brahmaputra River to honour the discovery location. The gecko belongs to the Cnemaspis podihuna clade, a group of small, daytime-active (diurnal) geckos. This clade was earlier believed to exist mainly in Sri Lanka. Its discovery in Assam proves an ancient biogeographic link between Sri Lanka and northeast India.

Q176. Where was the rare Long-billed Bush Warbler bird recently spotted after 46 years?

- A. Ladakh (**correct answer**)
- B. Uttarakhand

- C. Lakshadweep
- D. Himachal Pradesh

Explanation: Recently, a team of birders recorded India's first confirmed sighting in 46 years of the Long-billed Bush Warbler in Suru Valley, Ladakh. The Long-billed Bush Warbler is scientifically known as *Locustella major*. It is a medium-sized songbird with a long tail and long bill, measuring about 15-17 cm. It is found in Central Asian mountains, including parts of India, China, Pakistan, and Tajikistan. Its habitat includes grassy slopes, upland terraced fields, and forest edges at altitudes of 2400-3600 metres. It is listed as Near Threatened on the International Union for Conservation of Nature (IUCN) Red List.

Source: <https://www.gktoday.in/quizbase/environment-biodiversity-current-affairs>

Q177. Which AI-based tool was recently highlighted by wildlife scientists to identify Himalayan snow leopards using camera trap data?

- A. M-STrIPES (Monitoring System for Tigers - Intensive Protection and Ecological Status)
- B. SIMBA
- C. Camera Trap data Repository and Analysis Tool (CaTRAT) (**correct answer**)
- D. E-GujForest

Explanation: Recently, a wildlife scientist highlighted the use of CaTRAT (Camera Trap data Repository and Analysis Tool) to identify Himalayan snow leopards. CaTRAT is a software that uses artificial intelligence (AI) and neural network models to automatically sort camera trap images of animal species. It helps researchers efficiently process large volumes of photos and identify snow leopards in high-altitude regions.

Q178. A rare partially white laughing dove was recently spotted in which state?

- A. Odisha
- B. Tamil Nadu (**correct answer**)
- C. Bihar
- D. Maharashtra

Explanation: A rare partially white laughing dove was recently seen in Nagamalai hillock forest near Nambiyur in Erode, Tamil Nadu. Laughing Dove is a small pigeon also known as little brown dove, laughing turtle dove, palm dove, and Senegal dove. It is a resident breeder in Africa, the Middle East, and the Indian Subcontinent, including India, Pakistan, and Afghanistan. It lives in dry scrub and semi-desert areas and feeds on the ground.

Q179. Satkosia Tiger Reserve is located in which state?

- A. Gujarat
- B. Maharashtra
- C. Bihar
- D. Odisha (**correct answer**)

Explanation: The Odisha government recently invited bids to build a high-level bridge over the Mahanadi River near Satkosia Tiger Reserve, raising ecological concerns. Satkosia Tiger Reserve is located in Odisha across Angul, Cuttack, Boudh, Nayagarh districts. It includes Baisipalli Sanctuary and Satkosia Gorge Sanctuary. It is part of the Mahanadi Elephant Reserve. Satkosia lies at the junction of the Deccan

Peninsula and Eastern Ghats biogeographic regions.

Topic - Government Schemes

Q181. What is the name of the scheme recently approved for re-launch by the Employees' State Insurance Corporation (ESIC)?

- A. PRADHAN Scheme
- B. SPREE Scheme (**correct answer**)
- C. UDYOG Scheme
- D. SEWA Scheme

Explanation: Recently, the Employees' State Insurance Corporation (ESIC) approved the re-launch of the Scheme to Promote Registration of Employers/Employees (SPREE) from 1 July to 31 December 2025. SPREE was first launched in 2016 to expand Employees' State Insurance (ESI) coverage across India. Earlier, it helped register over 88,000 employers and 1.02 crore employees. The renewed SPREE offers a one-time chance for unregistered employers and left-out workers, including contractual and temporary staff, to enroll under the ESI Act.

Q182. Which state government has launched the Rajiv Gandhi Van Samvardhan Yojana?

- A. Uttarakhand
- B. Madhya Pradesh
- C. Himachal Pradesh (**correct answer**)
- D. Gujarat

Explanation: Himachal state government launched the 'Rajiv Gandhi Van Samvardhan Yojana' from Hamirpur to boost environmental conservation and public participation in forest management. It aims to increase green cover by planting fruit-bearing trees on barren forest lands and create jobs for local people. The 'Green Adoption Scheme' was also launched, where companies like Ambuja, Adani Foundation, and Ultra-Tech will undertake plantations under Corporate Social Responsibility (CSR). 'Van Mitras' were appointed to support forest protection and raise awareness, with many women among the recruits.

Q183. What is the name of the recently approved scheme focusing exclusively on agriculture and allied sectors?

- A. PM Fasal Suraksha Abhiyan
- B. Prime Minister Dhan-Dhaanya Krishi Yojana (**correct answer**)
- C. Krishi Shakti Yojana
- D. None of the Above

Explanation: Recently, the Union Cabinet led by the Prime Minister approved the Prime Minister Dhan-Dhaanya Krishi Yojana. It is the first scheme focused exclusively on agriculture and allied sectors. The scheme aims to boost productivity, crop diversification, sustainable farming, storage, irrigation, and credit access. It will be implemented through convergence of 36 existing schemes from 11 departments and state-private partnerships. 100 districts will be selected based on low productivity, low cropping intensity, and less credit disbursement.

Q222. Zagreb is the capital city of which country?

- A. Cyprus
- B. Croatia (**correct answer**)
- C. Hungary
- D. Serbia

Explanation: Prime Minister of India recently visited Croatia, becoming the first Indian Prime Minister to do so during his 3-nation tour after the G7 Summit in Canada. Croatia is located in Central and Southeast Europe along the eastern Adriatic Sea, giving it strategic maritime importance. Its capital is Zagreb, and it shares borders with Slovenia, Hungary, Serbia, Bosnia and Herzegovina, Montenegro, and Italy.

Q223. Machilipatnam city, that was recently seen in news, is located in which state?

- A. Karnataka
- B. Kerala
- C. Andhra Pradesh (**correct answer**)
- D. Odisha

Explanation: Machilipatnam is seeing a revival as nearly 48% work on the new Greenfield port at Manginapudi is completed. Machilipatnam, also called Masulipatnam, is a coastal city in Krishna district of Andhra Pradesh. It lies on the southeastern Coromandel Coast of India. In medieval times, it was a major port and global trading hub. Traders from different countries visited this vibrant town for commerce. The city is also known for its traditional handloom industry.

Q224. Cook Islands are located in which ocean?

- A. Atlantic Ocean
- B. South Pacific Ocean (**correct answer**)
- C. Indian Ocean
- D. Arctic Ocean

Explanation: New Zealand has recently suspended millions of dollars in budget funding to the Cook Islands due to growing tensions over the island group's closer ties with China. The Cook Islands are a group of 15 small islands spread over 2 million square kilometres in the South Pacific Ocean. They lie in the centre of the Polynesian Triangle, about halfway between Hawaii and New Zealand. Geographically, they are east of Niue, Tonga, and Samoa; northeast of New Zealand; south of Kiribati; and west of French Polynesia.

Source: <https://www.gktoday.in/quizbase/places-in-news-current-affairs>

Q225. Chios Island, that was recently seen in news due to wildfire, is located in which sea?

- A. Black Sea
- B. Aegean Sea (**correct answer**)
- C. Red Sea
- D. South China Sea

Explanation: Recently, a major wildfire broke out near the main town of Chios Island in the eastern Aegean Sea, with over 100 firefighters and water-dropping aircraft working to control the flames. Chios is a Greek island located in the Aegean Sea, just 8 kilometres off the western coast of Turkey. It is the fifth-largest island in Greece. Chios is known for producing mastic gum and is often called "the Mastic Island."

Source: <https://www.gktoday.in/quizbase/places-in-news-current-affairs>

Q226. Grand Ethiopian Renaissance Dam (GERD), that was recently seen in news, is built on which river?

- A. Blue Nile River (**correct answer**)
- B. Yangtze River
- C. Congo River
- D. Mekong River

Explanation: Ethiopia's Prime Minister recently announced that the Grand Ethiopian Renaissance Dam (GERD) is now complete and will be inaugurated in September. The Grand Ethiopian Renaissance Dam (GERD), earlier called the Millennium Dam, is built on the Blue Nile River. It is located in Ethiopia's

Benishangul-Gumuz region near the border with Sudan. The Blue Nile is a major tributary of the Nile River.

Source: <https://www.gktoday.in/quizbase/places-in-news-current-affairs>

Q227. Thitu Island, that was recently seen in news, is located in which region?

- A. South China Sea (**correct answer**)
- B. Red Sea
- C. Arabian Sea
- D. Black Sea

Explanation: A Chinese ship recently ran aground due to severe weather near Thitu Island, raising alert levels among Filipino soldiers in the disputed South China Sea. Thitu Island, also called Pag-asa Island in the Philippines, lies within the Spratly Islands in the South China Sea. The Spratly Islands are claimed entirely by China, Taiwan, and Vietnam, and partially by Malaysia and the Philippines. Thitu is the second largest natural island in the Spratlys and the biggest of the nine occupied by the Philippines.

Q228. Lake Tahoe, that was recently seen in news, is located in which country?

- A. Australia
- B. France
- C. United States (**correct answer**)
- D. China

Explanation: Recently, a tragic incident occurred at Lake Tahoe where a boat capsized, causing the death of six people and leaving two missing. Lake Tahoe is a cobalt blue freshwater lake located in the Sierra Nevada Mountains on the border of California and Nevada, United States. Lake Tahoe contains extremely pure water, with 99.994% purity.

Source: <https://www.gktoday.in/quizbase/places-in-news-current-affairs>

Q229. Helgoland, that was recently seen in news, is located in which sea?

- A. Mediterranean Sea
- B. Red Sea
- C. North Sea (**correct answer**)
- D. Black Sea

Explanation: Physicists recently highlighted Helgoland as the birthplace of quantum theory. Helgoland is a small red-sandstone island in the German Bay (Deutsche Bucht) of the North Sea. It covers less than one square kilometre and was once used as a naval fortress. In June 1925, physicist Werner Heisenberg, suffering from hay fever, moved to Helgoland for relief. There, he abandoned the idea of electrons orbiting nuclei and focused only on observable experimental data. He organized light absorption and emission data into grids called matrices.

Source: <https://www.gktoday.in/quizbase/places-in-news-current-affairs>

Q230. Mount Denali, that was recently seen in news, is the highest peak of which continent?

- A. North America (**correct answer**)
- B. Europe

- C. South America
- D. Australia

Explanation: Sheikh Hasan Khan, a mountaineer from Kerala, is currently stranded at 17,000 feet on Mount Denali due to a severe snowstorm. He is attempting the Seven Summits Challenge, which involves climbing the highest mountain on each of the seven continents. His mission also honors Operation Sindoor, a tribute to the Indian Army's bravery and sacrifice. Mount Denali, also called Mount McKinley, is the highest peak in North America. The name "Denali" comes from the word "deenaalee" in the Koyukon language spoken in Alaska. It lies in the Alaska Range above the Denali Fault in south-central Alaska, United States.

Q231. Seine River, that was recently seen in news, is located in which country?

- A. Indonesia
- B. France (correct answer)
- C. Australia
- D. China

Explanation: After more than 100 years, swimmers officially returned to the River Seine in France since its closure in 1923. The River Seine is France's second-longest river after the Loire, stretching 775 kilometers. Its drainage basin, called the Paris Basin, covers about 79,000 square kilometers in northern France. Around 62% of the basin supports agriculture, holding 25% of France's farm activity and up to 30% of industry.

Q232. Barak Valley, that was recently seen in news, is located in which state?

- A. Sikkim
- B. Manipur
- C. Assam (correct answer)
- D. Meghalaya

Explanation: Recently, Assam Pradesh Congress Committee (APCC) president and Lok Sabha Member of Parliament (MP) Gaurav Gogoi urged the Prime Minister to resolve the worsening connectivity crisis in Barak Valley. Barak Valley is the southernmost region of Assam, named after the Barak River. It includes three districts - Cachar, Hailakandi, and Karimganj - covering about 9% of Assam's area. It borders Meghalaya (north), Mizoram (south), Manipur (east), and Tripura and Bangladesh (west).

Source: <https://www.gktoday.in/quizbase/places-in-news-current-affairs>

Q233. Tokara Islands, recently mentioned in news, are located in which country?

- A. Malaysia
- B. Japan (correct answer)
- C. China
- D. Indonesia

Explanation: Over 1,000 earthquakes have shaken the Tokara Islands in southern Japan in the past two weeks, creating an unprecedented seismic situation. The Tokara Islands are a small archipelago located south of Kyushu and north of the Amami Islands in Japan. They are also called the Toshima Islands, covered administratively by Toshima-mura (Toshima Village). The archipelago includes 7 inhabited islands

(e.g., Kuchinoshima, Nakanoshima, Suwanosejima) and 5 uninhabited islands (e.g., Gajajima, Kogajajima).

Source: <https://www.gktoday.in/quizbase/places-in-news-current-affairs>

Q234. Where is the Wandan mud volcano located?

- A. Japan
- B. Taiwan (**correct answer**)
- C. Philippines
- D. Indonesia

Explanation: Recently, the Wandan mud volcano in Taiwan erupted, sending bubbling mud into the air while locals set the escaping gases on fire with burning rags. A mud volcano is a small cone of mud and clay, usually less than a few meters high. It forms from hot water mixed with fine sediment, which either flows gently like lava or bursts out like a fountain due to volcanic gas and boiling water. The craters are shallow and erupt mud on and off, rebuilding cones that erode easily. Mud volcanoes, also called mud domes or sedimentary volcanoes, release gases like methane, carbon dioxide, and nitrogen along with often salty or acidic water.

Topic - Polity & Governance

Q236. Which state has become the first in India to ensure that all polling stations have fewer than 1,200 electors?

- A. Punjab
- B. Gujarat
- C. Haryana
- D. Bihar (**correct answer**)

Explanation: Bihar has become the first Indian state to ensure that all polling stations have fewer than 1,200 electors. This move is aimed at reducing overcrowding and improving voter convenience during elections. The Election Commission of India (ECI) added 12,817 new polling stations in Bihar. The total number of polling stations has increased from 77,895 to 90,712. This follows the State Instructional Representation (SIR) order issued on June 24, 2025. The SIR order revised the voter limit per polling station from 1,500 to 1,200. This model may serve as a guideline for other states and Union Territories.

Q237. Which state has become first in India to join Cruise Bharat Mission?

- A. Punjab
- B. Gujarat (**correct answer**)
- C. Jharkhand
- D. Haryana

Explanation: In July 2025, Gujarat became the first Indian state to officially join the Cruise Bharat Mission. Cruise Bharat Mission is a central government initiative to build a globally competitive cruise tourism ecosystem. Gujarat's move is a major step towards leading India's maritime tourism sector. The state has a long 2,340 km coastline and navigable rivers like the Sabarmati and Narmada. Gujarat aims to become a global cruise tourism hub through this strategic alignment.

Q238. Tura Bypass is being built in which state?

- A. Sikkim
- B. Meghalaya (**correct answer**)
- C. Assam
- D. Tripura

Explanation: The Central Government has approved Rs.951.27 crore for building the Tura Bypass in Meghalaya. The bypass will connect National Highway-127B (NH-127B) to National Highway-217 (NH-217) with a 2-lane road and paved shoulders. It will cover 29.03 km in Tura district and begin at Sanchonggre village and end at Jenggitchakgre village. It aims to ease congestion, improve travel time, and boost freight movement. The project will also enhance road safety and regional connectivity.

Q239. The Muthuvan Tribe is primarily found in which Indian states?

- A. Kerala and Tamil Nadu (**correct answer**)
- B. Bihar and Jharkhand
- C. Andhra Pradesh and Odisha
- D. Rajasthan and Gujarat

Explanation: Recently, a rare convention of the Muthuvan community was held to protect their language and culture as part of the International Day of the World's Indigenous Peoples. The Muthuvans, also called Mudugars, live in the border hill forests of Kerala and Tamil Nadu. They are divided into Malayalam Muthuvan and Pandi Muthuvan, each with a slightly different dialect. They coexist with wildlife, possess rich traditional medicinal knowledge, and preserve it across generations. Their society has six clans (Koottams) with sub-clans, following community endogamy and clan exogamy.

Q240. "India Skills Accelerator" is a joint initiative of the Ministry of Skill Development and Entrepreneurship and which organization?

- A. European Union (EU)
- B. International Monetary Fund (IMF)
- C. World Economic Forum (WEF) (**correct answer**)
- D. United Nations Development Programme (UNDP)

Explanation: Recently, the Minister of State for Skill Development and Entrepreneurship (MSDE) informed the Rajya Sabha about the India Skills Accelerator initiative. It is a joint initiative of the Ministry of Skill Development and Entrepreneurship (MSDE) and the World Economic Forum (WEF). It aims to bridge skill gaps through inclusive upskilling and reskilling. It promotes lifelong learning investment and government-industry collaboration. It serves as a national public-private platform to solve complex challenges through multi-stakeholder efforts.

Q241. Which state government has launched Majhi Vasundhara Campaign 6.0 to strengthen environmental conservation efforts ?

- A. Telangana
- B. Maharashtra (**correct answer**)
- C. Karnataka
- D. Jharkhand

Explanation: Recently, the Maharashtra government announced the launch of Majhi Vasundhara Campaign 6.0 from April 1, 2025, to March 31, 2026, covering 28,317 local self-government bodies. It is led by the Department of Environment and Climate Change. The campaign promotes environmental conservation by focusing on five elements: Earth, Water, Air, Fire, and Sky. It aims to spread climate awareness, encourage eco-friendly lifestyles, reduce carbon emissions, and control greenhouse gases (GHG).

Q242. Which institution has launched the India Electric Mobility Index (IEMI)?

- A. Reserve Bank of India
- B. Bureau of Indian Standards
- C. NITI Aayog (**correct answer**)
- D. Ministry of Electronics and Information Technology

Explanation: NITI Aayog recently launched the India Electric Mobility Index (IEMI). India Electric Mobility Index (IEMI) is a first-of-its-kind tool to track and rank States and Union Territories (UTs) on electric mobility progress. It evaluates all States and UTs out of 100 across 16 indicators under 3 core themes. Transport Electrification Progress measures electric vehicle (EV) adoption on the demand side. Charging Infrastructure Readiness tracks EV charging network development. EV Research and Innovation Status evaluates supply-side research and development.

Q243. What is a Bailey bridge that was recently mentioned in news?

- A. A type of underground tunnel
- B. A type of modular bridge with pre-built parts (**correct answer**)
- C. A wooden suspension bridge
- D. A cable-stayed steel bridge

Explanation: Residents of Milam village in Uttarakhand face severe access problems after an avalanche damaged the Bailey bridge over the Gaokha River. A Bailey bridge is a modular bridge with pre-built parts for quick assembly. It was invented by English civil engineer Donald Coleman Bailey in 1941. Bailey bridges are strong, portable, and versatile, designed for fast construction in tough conditions without heavy machinery.

Q244. The Central Industrial Security Force (CISF) functions under which Union Ministry?

- A. Ministry of Defence
- B. Ministry of External Affairs
- C. Ministry of Finance
- D. Ministry of Home Affairs (**correct answer**)

Explanation: The Union Ministry of Home Affairs (MHA) recently approved the recruitment of 58,000 more personnel for the Central Industrial Security Force (CISF). This move prepares CISF for securing future industrial hubs in Left Wing Extremism (LWE)-affected areas. CISF is a Central Armed Police Force (CAPF) under the Ministry of Home Affairs, headquartered in New Delhi. CISF was established in 1969 through the CISF Act, 1968, with an initial strength of just three battalions. It was declared an Armed Force of the Union in 1983 after amending the Act.

Q245. Ozzo Feni, which has recently received a Geographical Indication (GI) tag, belongs to which state?

- A. Maharashtra
- B. Telangana
- C. Karnataka
- D. Goa (**correct answer**)

Explanation: Ozzo Feni, a traditional liquor from Goa made from cashew apples, has received the Geographical Indication (GI) tag, marking a historic recognition. It is produced by Cazcar Distillery in Nanora village near Panaji, protecting its identity and boosting its market value. Feni is a strong Indian spirit made by fermenting and double distilling cashew apple juice or coconut sap. The Portuguese introduced cashew trees and distillation methods to Goa in the 1600s, later adopted by locals called bhatikars.

Q246. Which state government has digitized the National Family Benefit Scheme to enhance transparency and efficiency in June 2025?

- A. Uttar Pradesh (**correct answer**)
- B. Odisha
- C. Jharkhand
- D. Haryana

Explanation: The Uttar Pradesh (UP) government has digitised the National Family Benefit Scheme (NFBS) to ensure quick, transparent, and efficient financial aid to poor families. The scheme offers Rs.30,000 to the dependent of a deceased earning head, if the family's annual income is below Rs.56,460 in urban areas and Rs.46,080 in rural areas. Funds are transferred through the Public Financial Management System (PFMS) to Aadhaar-linked accounts.

Q247. Which city has been selected as the national host for the 11th International Day of Yoga (IDY)?

- A. Indore
- B. Visakhapatnam (**correct answer**)
- C. Chennai
- D. Kochi

Explanation: India will celebrate the 11th International Day of Yoga (IDY) on June 21, 2025, with Visakhapatnam as the national host city. Andhra Pradesh's "Yogandhra" initiative aims to integrate yoga into daily life of over two crore people. One lakh IDY events will be held across the state, with five lakh participants expected in Visakhapatnam. The Ministry of Ayush praised Andhra Pradesh's efforts as reflecting the IDY 2025 theme - "Yoga for One Earth, One Health."

Source: <https://www.gktoday.in/quizbase/india-government-politics-current-affairs>

Q248. Which state/UT is home to India's first E-Waste Recycling Eco Park?

- A. Delhi (**correct answer**)
- B. Uttarakhand
- C. Ladakh
- D. Himachal Pradesh

Explanation: Delhi is set to host India's first E-Waste Recycling Eco Park in Holambi Kalan, located in North Delhi. The E-Waste Eco Park is a dedicated facility for scientific recycling, dismantling, and recovery of electronic waste in an environmentally safe manner. It aims to be a model project for sustainable e-waste management in the country. The project was announced by Delhi's Environment Minister.

Source: <https://www.gktoday.in/quizbase/india-government-politics-current-affairs>

Q249. Which university has been selected as one of four Incubation Centres in the North Eastern region in July 2025?

- A. Rajiv Gandhi University, Arunachal Pradesh
- B. Nagaland University (**correct answer**)
- C. Mizoram University
- D. North Eastern Hill University, Meghalaya

Explanation: Nagaland University has recently been selected as one of four Incubation Centres in the North Eastern region under a Central Government initiative. The initiative is titled 'Establish, Develop, and Manage Entrepreneurship Development Centres and Incubation Centres in the Educational Institutes of the North Eastern Region'. It is sponsored by the North Eastern Council (NEC) and implemented by the Indian Institute of Entrepreneurship (IIE). In the first batch, Nagaland University's Kohima campus will incubate 44 beneficiaries. These include 16 from Arunachal Pradesh, 6 from Assam, 4 from Manipur, and 18 from Nagaland.

Source: <https://www.gktoday.in/quizbase/india-government-politics-current-affairs>

Q250. Where is India's first Green Data Centre being established?

- A. Ghaziabad, Uttar Pradesh (**correct answer**)
- B. Indore, Madhya Pradesh
- C. Jaisalmer, Rajasthan
- D. Sonapat, Haryana

Explanation: Recently, Uttar Pradesh Chief Minister Yogi Adityanath and Union Minister of State (Independent Charge) for Science and Technology Jitendra Singh laid the foundation stone for India's first

Green Data Centre in Sahibabad, Ghaziabad, Uttar Pradesh. The project is worth around Rs.1,000 crore and will have a 30 megawatt capacity with advanced energy-efficient and eco-friendly systems. The Green Data Centre will have a 30 megawatt capacity, energy-efficient design, renewable energy use, and eco-friendly systems like rainwater harvesting and smart cooling.

Q251. Who is the head of the newly formed panel to reduce student dependency on coaching centres?

- A. Subhas Sarkar
- B. Vineet Joshi (**correct answer**)
- C. Dharmendra Pradhan
- D. K. Sanjay Murthy

Explanation: Recently, the Union Education Ministry formed a panel led by Vineet Joshi to reduce student dependency on coaching centres and review competitive exams. Vineet Joshi is the Chairman of the Central Board of Secondary Education (CBSE). The panel has nine members and includes representatives from Indian Institute of Technology Madras, National Institute of Technology Trichy, Indian Institute of Technology Kanpur, and National Council of Educational Research and Training (NCERT), along with school principals. Its goal is to suggest ways to reduce the coaching culture and check the fairness of entrance exams.

Source: <https://www.gktoday.in/quizbase/india-government-politics-current-affairs>

Q252. Which institute recently launched the 'Gyanodaya' Centre for Pedagogical Innovation and Publishing?

- A. Indian Institute of Technology Delhi
- B. Indian Institute of Management Ahmedabad
- C. Indian Institute of Science, Bengaluru
- D. Indian Institute of Management Kozhikode (**correct answer**)

Explanation: Recently, the Indian Institute of Management Kozhikode (IIMK) launched the 'Gyanodaya' Centre for Pedagogical Innovation and Publishing. This initiative is part of IIMK's Vision 2047 and supports the goals of the National Education Policy (NEP). The main aim is to reform management education through innovative teaching methods. The centre will create and publish academic materials like case studies and books. It plans to blend Indian traditional knowledge with global educational practices. Gyanodaya will run its own manuscript platform named 'Pandulipi'. It will promote collaboration among learners, authors, and educational institutions.

Q253. Where is the headquarters of National Turmeric Board located?

- A. Telangana (**correct answer**)
- B. Karnataka
- C. Kerala
- D. Tamil Nadu

Explanation: Recently, Union Home Minister and Minister of Cooperation Shri Amit Shah inaugurated the headquarters of the National Turmeric Board in Nizamabad, Telangana. Prime Minister Shri Narendra Modi fulfilled a 40-year-old demand of turmeric farmers, especially in Telangana, by creating the National

Turmeric Board. The National Turmeric Board will help Nizamabad's turmeric reach many countries in 3-4 years. It will remove middlemen and build a full chain for turmeric packaging, branding, marketing, and export. Turmeric is called a wonder drug for its anti-viral, anti-cancer, and anti-inflammatory qualities.

Q254. What is the new motto adopted by the Full Bench of Lokpal of India?

- A. Justice for All, Power to None
- B. Empower Citizens, Expose Corruption (**correct answer**)
- C. Fight Corruption, Serve the Nation
- D. Transparency First, Accountability Always

Explanation: Recently, the Full Bench of Lokpal of India adopted a new motto-"Empower Citizens, Expose Corruption." Lokpal is a statutory anti-corruption authority established under the Lokpal and Lokayuktas Act, 2013. It addresses complaints related to corruption in public offices.

Source: <https://www.gktoday.in/quizbase/india-government-politics-current-affairs>

Q255. Kalvarayan Hills are located in which state?

- A. Kerala
- B. Karnataka
- C. Tamil Nadu (**correct answer**)
- D. Maharashtra

Explanation: For the first time, a tribal girl from the Kalvarayan Hills has secured admission to the Indian Institute of Technology (IIT), marking a historic achievement. The Kalvarayan Hills are located in the Eastern Ghats of Tamil Nadu and spread across 1,095 sq.km. These hills lie between the Kaveri River basin in the south and the Palar River basin in the north. They rise between 2,000 and 3,000 feet and stretch northeast from the Salem district. This success story highlights increasing access to higher education for tribal communities in remote regions.

Topic - Science & Technology

Q256. What kind of disorder is Tourette Syndrome that was recently seen in news?

- A. Autoimmune disorder
- B. Neurological disorder (**correct answer**)
- C. Cardiovascular disorder
- D. Rare genetic disorder

Explanation: Tourette Syndrome is a neurological disorder that causes sudden, involuntary movements or vocal sounds called tics. It usually starts between the ages of 2 and 15, with the average age of onset around six. It affects around 0.3% to 1% of the global population, as highlighted in recent reports. The condition is more common in boys than in girls. Tics can be mild or severe and may include blinking, jerking, or making sounds. In severe cases, it can impact speech, daily activities, and overall quality of life.

Source: <https://www.gktoday.in/quizbase/science-technology-current-affairs>

Q257. Which two Indian institutions recently demonstrated quantum communication over 1 km in

free space?

- A. Indian Space Research Organisation (ISRO) and Bhabha Atomic Research Centre (BARC)
- B. Indian Institute of Technology (IIT) Delhi and Defence Research and Development Organisation (DRDO) (**correct answer**)
- C. Indian Institute of Science Bangalore (IISc) and Council of Scientific and Industrial Research (CSIR)
- D. National Institute of Technology (NIT) Trichy and Bharat Electronics Limited (BEL)

Explanation: Recently, the Ministry of Defence announced that scientists from the Indian Institute of Technology (IIT) Delhi and the Defence Research and Development Organisation (DRDO) successfully demonstrated quantum communication over more than 1 km in free space. Quantum communication is a super secure method of sending information using tiny particles like photons. It uses principles of quantum physics, especially entanglement, to make communication channels tamper-proof. If someone tries to intercept the photons, the disturbance will be detected, revealing the breach. This makes quantum communication highly valuable for defence and national security.

Source: <https://www.gktoday.in/quizbase/science-technology-current-affairs>

Q258. Which country has launched the Synthetic Human Genome Project (SynHG), aiming to construct human DNA from scratch?

- A. France
- B. United Kingdom (**correct answer**)
- C. Australia
- D. Japan

Explanation: The United Kingdom has officially launched the Synthetic Human Genome Project, a groundbreaking effort to build human DNA from scratch. This project shifts from reading DNA, like in the Human Genome Project, to writing and assembling it synthetically. Scientists aim to create disease-resistant cells to repair damaged organs such as the heart, liver, and immune system. It could help treat genetic and age-related diseases by studying how genes control repair and development. Critics warn about ethical concerns like designer humans and synthetic life.

Source: <https://www.gktoday.in/quizbase/science-technology-current-affairs>

Q259. Stratospheric Aerosol Injection (SAI) technique was inspired by which natural phenomenon?

- A. Volcanic eruptions (**correct answer**)
- B. Earthquakes
- C. Solar flares
- D. Glacial melting

Explanation: A new study in the journal Earth's Future suggests a cost-effective way to use Stratospheric Aerosol Injection (SAI) to fight climate change. Stratospheric Aerosol Injection involves adding tiny reflective particles to the stratosphere to cool the Earth. It was inspired by volcanic eruptions, which naturally cool the planet by releasing aerosols. The method uses sulfur dioxide (SO₂), which turns into sulfate aerosols that reflect sunlight. This recent research may help make SAI more practical and affordable. Despite its promise, SAI still faces strong global opposition due to environmental and ethical concerns.

Source: <https://www.gktoday.in/quizbase/science-technology-current-affairs>

Q260. What is the new term coined by researchers to describe extended periods of atmospheric

thirst?

- A. Heatwave
- B. Dryburst
- C. Thirstwave (**correct answer**)
- D. Aridstorm

Explanation: Researchers have recently introduced a new term called "Thirstwaves" to describe long periods of high atmospheric thirst. A Thirstwave occurs when the daily evaporative demand stays above the historical 90th percentile for at least three consecutive days. Evaporative demand means how thirsty the atmosphere is or how much water it wants to absorb from the ground or plants. It is influenced by temperature, wind speed, humidity, and sunshine. Understanding thirstwaves can help farmers manage water more efficiently and boost crop production. This concept is important for improving climate resilience in agriculture and water planning.

Q261. Which country has launched the Global Observing Satellite for Greenhouse gases and Water cycle (GOSAT-GW)?

- A. China
- B. India
- C. Australia
- D. Japan (**correct answer**)

Explanation: Recently, Japan launched the Global Observing Satellite for Greenhouse gases and Water cycle (GOSAT-GW) from Tanegashima Space Centre. GOSAT-GW is an Earth observation satellite developed by the Japanese Aerospace Exploration Agency (JAXA). It was launched using the H-2A rocket. Its objectives are to monitor global-mean concentrations of Greenhouse Gases (GHGs), verify national anthropogenic GHG emissions inventories, and detect GHG emissions from large sources like megacities and power plants.

Q262. Indian astronaut Shubhanshu Shukla recently interacted with students from the International Space Station using which radio service?

- A. Amateur radio (Ham radio) (**correct answer**)
- B. Citizens band radio (CB radio)
- C. MicroMobile Radio
- D. Walkie-Talkies

Explanation: Recently, Indian astronaut Shubhanshu Shukla interacted with students from the International Space Station (ISS) using ham radio. Ham radio, also called amateur radio, is a licensed radio service using radio waves for communication. It is used for education, knowledge sharing, and emergency or SOS communication. It needs a transceiver, antenna, and dedicated frequency operated by licensed ham operators. Communication can be local, global, or in space. In India, anyone above 12 years can use ham radio with a licence from the Ministry of Electronics and Information Technology.

Q263. Which institute has developed a next-generation device that produces green hydrogen using only solar energy?

- A. Indian Institute of Science (IISc), Bengaluru
- B. Centre for Nano and Soft Matter Sciences (CeNS), Bengaluru (**correct answer**)
- C. National Physical Laboratory (NPL), Delhi
- D. Indian Institute of Technology (IIT) Bombay

Explanation: Recently, scientists from the Centre for Nano and Soft Matter Sciences (CeNS), Bengaluru, developed a next-generation device that produces green hydrogen using only solar energy. Green hydrogen is a clean fuel that can help decarbonize industries, power vehicles, and store renewable energy, but producing it affordably at scale has been difficult. The CeNS device splits water molecules using earth-abundant materials without fossil fuels or expensive resources, making it sustainable and scalable.

Q264. Where was India's first off-grid 5 megawatt (MW) green hydrogen pilot plant commissioned?

- A. Uttar Pradesh
- B. Gujarat (**correct answer**)
- C. Madhya Pradesh
- D. Odisha

Explanation: Adani Group has recently commissioned India's first off-grid 5 megawatt (MW) green hydrogen pilot plant in Kutch, Gujarat. The plant has been developed by Adani New Industries Limited (ANIL), which is the clean energy arm of Adani Enterprises Limited. An off-grid green hydrogen plant produces hydrogen using electrolysis powered entirely by renewable sources like solar or wind and is not connected to the main power grid. This plant runs fully on solar energy and includes a Battery Energy Storage System (BESS) for continuous operation.

Q265. Which country has developed the world's lightest brain control device to steer bees?

- A. India
- B. Russia
- C. China (**correct answer**)
- D. France

Explanation: Chinese researchers led by Professor Zhao Jieliang at Beijing Institute of Technology developed the world's lightest brain control device to steer bees. It is fixed on the bee's back with three fine needles connecting to the brain, sending signals to control direction. In trials, bees followed commands with 90% accuracy, including turning, moving forward, and reversing. The bee-based robotic model offers superior mobility, stealth, and adaptability for missions like urban combat, counterterrorism, and disaster relief.

Q266. What kind of disease is "Trachoma" that was recently mentioned in Mann Ki Baat programme?

- A. Blood infection
- B. Cardiovascular disease
- C. Bacterial eye disease (**correct answer**)
- D. Respiratory disease

Explanation: Recently, in the 'Mann Ki Baat' programme, the Prime Minister of India announced that India

has been declared free of Trachoma, a bacterial eye disease. Trachoma is caused by the bacterium *Chlamydia trachomatis* and spreads through contact with the eyes, eyelids, or throat secretions of infected people. The World Health Organization (WHO) calls it a neglected tropical disease, affecting around 150 million people worldwide. In 2017, India was declared free from infective Trachoma, with surveillance continuing until 2024.

Q267. Rice Yellow Mottle Virus, that was recently seen in news, is endemic to which continent?

- A. Asia
- B. Europe
- C. South America
- D. Africa (**correct answer**)

Explanation: A recent genomic study revealed the spread of Rice Yellow Mottle Virus or RYMV across African rice ecosystems, posing a serious threat to rice production. Rice Yellow Mottle Virus is a plant virus that affects rice and some related grasses. It first appeared in the mid-1800s in the Eastern Arc Mountains, now in Tanzania, a region rich in biodiversity. It is mainly found in Africa and is present in most rice-growing countries on the continent.

Q268. Recently, a salmonella outbreak linked to eggs has been recorded in which country?

- A. USA (**correct answer**)
- B. France
- C. India
- D. New Zealand

Explanation: A Salmonella outbreak linked to eggs has affected 79 people in seven U.S. states, with 21 hospitalized, as per recent reports. Salmonella is a type of bacteria that causes food poisoning, also called Salmonella infection. It lives in the intestines of animals and spreads through their feces into contaminated food or water.

Q269. What kind of disease is "Valley Fever" that was recently seen in news?

- A. Viral infection
- B. Bacterial infection
- C. Fungal infection (**correct answer**)
- D. Parasitic infection

Explanation: A new study highlights that dogs may help detect the early spread of Valley Fever, offering a new tool for public health. Valley Fever, or acute coccidioidomycosis, is a fungal infection caused by *Coccidioides* organisms found in soil. The fungi are common in the Pacific Northwest, southwestern United States, Mexico, Central America, and South America. The infection spreads when soil is disturbed and people or animals breathe in the fungal spores. Symptoms may be absent or resemble flu or pneumonia, and appear 5 to 21 days after exposure.

Q270. GLP-1 Drug, that was recently seen in news, is used for the treatment of which disease?

- A. Malnutrition
- B. Dengue
- C. Diarrhea
- D. Obesity (**correct answer**)

Explanation: Recently, Novo Nordisk launched its weight-loss injection semaglutide in India after Eli Lilly introduced tirzepatide. These are Glucagon-Like Peptide-1 (GLP-1) receptor agonists, which are drugs that copy the action of GLP-1, a gut hormone released after eating. GLP-1 helps control blood sugar, fat metabolism, and appetite in the body. These medicines usually come as injections, though oral forms are being developed. Semaglutide and tirzepatide are two leading GLP-1 Drugs. Semaglutide and tirzepatide transforming the treatment of obesity and diabetes in India.

Q271. Which country has developed a green chemical method using natural fatty acids from cooking oils to recover silver from e-waste?

- A. Finland (**correct answer**)
- B. Chile
- C. Denmark
- D. India

Explanation: Researchers in Finland have developed a green chemical method using natural fatty acids from cooking oils to recover silver from electronic waste (e-waste). This comes at a time when global silver demand is rising and e-waste is becoming a major issue, especially in countries like India. E-waste includes discarded devices like computers, phones, and TVs that are outdated or broken. India is the third-largest generator of e-waste in the world, after China and the United States.

Q272. What is "TOI-6894b" that was recently mentioned in news?

- A. Giant planet (**correct answer**)
- B. Asteroid
- C. New species of Frog
- D. New type of virus

Explanation: Scientists have recently discovered a giant planet named TOI-6894b orbiting a very small red dwarf star, which challenges existing theories. TOI-6894b is a gas giant, around 1.07 times the diameter of Saturn but with just over half its mass. This makes it extremely low in density, like a beach ball. It was found about 241 light-years away in the constellation Leo. The planet orbits very close to its host star and completes one full orbit in less than three Earth days.

Q273. What is "Gwada negative" that was recently mentioned in news?

- A. Asteroid
- B. Traditional medicine
- C. Spider
- D. Blood group system (**correct answer**)

Explanation: Recently, France's national blood agency, the French Blood Establishment (EFS), discovered a new blood group system called "Gwada negative," officially recognised by the International Society of Blood Transfusion (ISBT). It is scientifically named EMM-negative and registered as ISBT042. The name "Gwada negative" refers to the Guadeloupean origin of the woman who carries this rare blood type. This blood group is defined by the absence of the EMM antigen, a high-incidence antigen usually present in almost all humans.

Q274. Which organization has launched the Agricultural Monitoring and Event Detection (AMED) API for Indian farmers?

- A. Google (**correct answer**)
- B. Indian Council of Agricultural Research (ICAR)
- C. Food and Agricultural Organization (FAO)
- D. Ministry of Agriculture

Explanation: Google recently launched the Agricultural Monitoring and Event Detection (AMED) Application Programming Interface (API) to provide crop and field activity data across India. AMED API is an open-source artificial intelligence (AI)-based tool designed to monitor crops and detect agricultural events at field level. It offers data on crop type, crop season, field size, and past three years' agricultural activity. It helps in farm management by providing insights on soil, water, climate needs, and expected harvest volume.

Q275. DengiAll is a vaccine developed for which disease?

- A. Cholera
- B. Measles
- C. Dengue (**correct answer**)
- D. Tuberculosis

Explanation: Recently, India reached 50 percent enrolment in its Phase III clinical trial of the indigenous tetravalent dengue vaccine, DengiAll. DengiAll is developed by Panacea Biotec Limited under a licence from the National Institutes of Health (NIH), United States. It contains weakened forms of all four dengue virus subtypes, similar to the NIH vaccine except for inactive ingredients. The Indian Council of Medical Research (ICMR) is evaluating its safety and effectiveness through multiple institutes.
