

2026 - Group 1 Preliminary Exam - Indian Economy and Development Administration in Tamil Nadu

Answer Key | Q10-Q182, 36 questions

Q.No	Question	Correct Answer	Syllabus	Explanation
10	Match the following events based on the year of introduction : (a) Blue Revolution (b) White Revolution (c) Green Revolution (d) Total Revolution 1. 1965 2. 1974 3. 1985 4. 1970 (A) (a) 3 (b) 4 (c) 1 (d) 2 (B) (a) 4 (b) 2 (c) 1 (d) 3 (C) (a) 2 (b) 3 (c) 4 (d) 1 (D) (a) 3 (b) 4 (c) 2 (d) 1	A) (a) 3 (b) 4 (c) 1 (d) 2 [Blue Revolution-1985, White Revolution-1970, Green Revolution-1965, Total Revolution-1974]	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Green Revolution began around 1965-66 with the introduction of high-yielding variety seeds, chemical fertilisers and irrigation to boost foodgrain output, associated with scientists like M.S. Swaminathan. The White Revolution refers to 'Operation Flood', launched in 1970 by Verghese Kurien through the National Dairy Development Board, making India the world's largest milk producer. The Blue Revolution refers to the growth of fisheries and aquaculture, given policy thrust from around 1985 (Seventh Five-Year Plan period) through Fish Farmers Development Agencies. 'Total Revolution' (Sampoorna Kranti) is not an agricultural revolution but Jayaprakash Narayan's 1974 call for sweeping political and social change against corruption, feeding into the movement preceding the Emergency. So the mapping is Blue Revolution-1985, White Revolution-1970, Green Revolution-1965, Total Revolution-1974, option (A). Source: Class 11 Economics, Unit 8 "Indian Economy Before and After Independence"
21	Which of the following explain the withdrawal of rural women from total labour force in India? (i) A large number of rural females are opting for education rather than joining the labour force in agriculture. (ii) With the rise in the level of income in	C) (i) and (ii) only	Unit V - Indian Economy and Development Administration in Tamil Nadu	India's declining rural female labour force participation rate is commonly explained by two linked trends. First, more rural girls and young women are staying in school and pursuing higher education instead of entering low-paid agricultural work early, which statistically shows up as 'withdrawal' from the labour force. Second, as rural household incomes rise, many families withdraw women from strenuous, often unpaid, agricultural labour due to both an income effect (families no longer need women's

	rural India, rural females engaged in agriculture withdrawing from the labour force and getting engaged in domestic activities. (iii) Women are not adequately educated in rural areas. (A) (i) only (B) (i) and (iii) only (C) (i) and (ii) only (D) (i), (ii) and (iii)			earnings) and social norms treating non-participation in outside paid work as a marker of higher household status, shifting women into unpaid domestic activities. This explains statements (i) and (ii). Statement (iii), inadequate education, is usually cited as a barrier to entering the workforce in the first place, not as a reason women actively withdraw from work they were already doing, so it does not correctly explain this trend. Hence the answer is (i) and (ii) only, option (C).
22	Which one of the following is not a fiscal instrument? (A) Taxation (B) Bank Rate (C) Public expenditure (D) Public Debt	B) Bank Rate	Unit V - Indian Economy and Development Administration in Tamil Nadu	Fiscal instruments are tools the government uses through its budget to influence the economy -- chiefly taxation (raising revenue and influencing behaviour), public expenditure (government spending on goods, services and welfare), and public debt (borrowing to finance deficits). The Bank Rate, in contrast, is a monetary policy instrument: it is the rate at which the Reserve Bank of India lends long-term funds to commercial banks, and the RBI uses it (along with the repo rate, CRR, SLR etc.) to control money supply, credit and inflation, not something wielded through the government's fiscal (budgetary) policy. Hence the odd one out, and the correct answer, is (B) Bank Rate. Source: Class 12 Economics, Unit 9 "Fiscal Economics" and Class 12 Economics, Unit 6 "Banking"
23	Reason and Assertion type : Assertion [A] : RBI Act, 1934 was amended in 2016. Reason [R] : To implement flexible inflation targeting framework. (A) [A] is true but [R] is false (B) Both [A] and [R] are true; and [R] is the correct explanation of [A] (C) [A] is false but [R] is true	B) Both [A] and [R] are true; and [R] is the correct explanation of [A]	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Reserve Bank of India Act, 1934 was indeed amended through the Finance Act, 2016, inserting new provisions (from Section 45ZA onward) that gave monetary policy a statutory basis. This amendment established the Monetary Policy Committee (MPC), a six-member body that fixes the policy repo rate, and mandated a Flexible Inflation Targeting (FIT) framework under which the RBI, in agreement with the Government, targets Consumer Price Index (CPI) inflation of 4%, with a tolerance band of +/- 2%. Since implementing this FIT framework was

	(D) Both [A] and [R] are true, but [R] is not the correct explanation of [A]			precisely the government's stated purpose for the 2016 amendment, [R] correctly explains [A], making option (B) the answer. Source: Class 12 Economics, Unit 6 "Banking"
25	Choose the right matches among type (1) Zero-Budget natural farming - Subhash Palekar (2) Natural farming - Nammalvar (3) One-straw revolution - Bhaskar Save (4) Gandhi of natural farming - Deepak Suchde (A) (1) and (3) are correct (B) (1) and (2) are correct (C) (2) and (3) are correct (D) (3) and (4) are correct	B) (1) and (2) are correct	Unit V - Indian Economy and Development Administration in Tamil Nadu	Subhash Palekar is the Padma Shri-awardee agriculturist who developed and popularised Zero-Budget Natural Farming (ZBNF) across India, so pair (1) is correct. Nammalvar was Tamil Nadu's pioneering natural/organic farming activist, often called the father of the organic farming movement in the state, making pair (2) correct too. The other two pairs are mismatched: 'The One-Straw Revolution' is the famous book by the Japanese farmer-philosopher Masanobu Fukuoka, not Bhaskar Save; and it is Bhaskar Save himself (a disciple of Fukuoka's ideas) who was honoured with the title 'Gandhi of natural farming', not Deepak Suchde. Hence only (1) and (2) hold up. Source: Class 10 Science, Unit 20 "Breeding and Biotechnology" and Class 12 Zoology, Unit 13 "Environmental Issues"
26	Assertion [A] : The registration of births and deaths are performed in Tamil Nadu as per the registration of Births and Deaths Act 1969. Reason [R] : The National Population Policy sets the goal of universal registration of all births and deaths by 2010. (A) [A] is true but [R] is false (B) Both [A] and [R] are true and [R] is the correct explanation of [A] (C) [A] is false, [R] is true (D) Both [A] and [R] are true, but [R] is not the correct explanation of [A] is correct	D) Both [A] and [R] are true, but [R] is not the correct explanation of [A] is correct	Unit V - Indian Economy and Development Administration in Tamil Nadu	Both statements are independently factual: Tamil Nadu (like all Indian states) registers births and deaths under the central Registration of Births and Deaths (RBD) Act, 1969, which is the legal basis for civil registration across the country; and the National Population Policy, 2000 did set a target of achieving 100% registration of births, deaths, marriages and pregnancies by 2010. However, the RBD Act, 1969 came into force decades before the NPP-2000 target was ever framed, so the 2010 universal-registration goal cannot be the reason Tamil Nadu registers vital events under the 1969 Act - the legal mandate to register predates and is independent of that later policy target. Hence both are true, but R does not explain A. Source: Class 12 Statistics, Unit 8 "Vital Statistics and

				Official Statistics"
27	Which of the following statement causes the continuation of bridge rebuilding, road repairs, and waterline repairs in India? (i) Inadequate maintenance leading to ongoing repairs (ii) Utility cuts and rework (iii) Poor initial construction quality (iv) Fair prices given to workers (A) (i), (ii), (iii) (B) (ii), (iii), (iv) (C) (i), (iii), (iv) (D) (i), (ii), (iv)	A) (i), (ii), (iii)	Unit V - Indian Economy and Development Administration in Tamil Nadu	Chronic, repeated infrastructure repair cycles in India are widely attributed to a combination of causes: inadequate/deferred maintenance that lets small defects grow into recurring failures (i); repeated utility cuts by different agencies (water, sewage, telecom, electricity) digging up the same road or line and needing rework (ii); and substandard or poor-quality initial construction that fails prematurely and needs re-doing (iii). Paying workers fair wages (iv) is a labour-welfare matter and has no causal link to why a bridge, road, or waterline keeps needing repair - if anything, fair wages should be associated with better-quality work, not worse. So the statements that genuinely explain the continuation of repairs are (i), (ii) and (iii).
30	Which among the following was the important Non-Economic factor in Economic development? (A) Scarcity of Capital (B) Desire for development (C) Conditions in foreign trade (D) Economic system	B) Desire for development	Unit V - Indian Economy and Development Administration in Tamil Nadu	Economists distinguish 'economic factors' of development (capital, technology, natural resources, foreign trade conditions, the prevailing economic system) from 'non-economic factors', which are social, psychological, political and institutional conditions such as people's attitudes, motivation, institutions, and - crucially - the society's own 'desire for development' or achievement motivation. Scarcity of capital, conditions in foreign trade, and the economic system are all inherently economic variables, whereas a nation's or people's aspiration and will to develop is a non-economic, attitudinal driver of growth, which is why it is singled out as the correct answer. Source: Class 12 Economics, Unit 11 "Economics of Development and Planning"
32	Assertion [A] : The health care system consists of a mix of both Public and Private sector in provision of various health care facilities related to preventive, curative and promotive aspects of health services.	B) Both [A] and [R] are true	Unit V - Indian Economy and Development Administration in Tamil Nadu	India's healthcare delivery is well documented as a mixed system: government hospitals, Primary Health Centres and public programmes work alongside a very large private hospital and clinic network to deliver preventive (immunisation, screening), curative (treatment) and promotive (health education, nutrition) services, so

	Reason [R] : The key objective of the Government is to provide accessible, affordable, equitable and quality health care, especially to the marginalized and vulnerable sections of the population. (A) [A] is true and [R] is false (B) Both [A] and [R] are true (C) [A] is false and [R] is true (D) Both [A] and [R] are false			Assertion [A] is factually true. It is also an established policy objective - reiterated in the National Health Policy - that government aims to make quality healthcare accessible, affordable and equitable, with special focus on marginalised and vulnerable groups, so Reason [R] is true as well. Since this question only asks about the truth value of each statement (and not whether one explains the other), the answer is simply that both are true. Source: Class 11 Economics, Unit 11 "Tamil Nadu Economy"
33	In Tamilnadu Chief Minister's Girl child protection scheme was introduced in the year _____ (A) 1990 (B) 1991 (C) 1992 (D) 1993	C) 1992	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Tamil Nadu Girl Child Protection Scheme was launched by the state government in 1992 to counter female infanticide and improve the survival, education and welfare prospects of girl children, particularly in economically weaker families, by offering cash deposits/incentives for girl children (later revised and expanded, including the associated 'Cradle Baby Scheme'). This makes 1992 the correct year of introduction among the options given.
70	Which of the following statements are true about Economic Infrastructure Investment? (i) It is generally aimed to realize relatively more direct benefits than in social infrastructure. (ii) It is generally smaller in size. (iii) It is generally invites from public sector as well as private sector. (A) (i) only (B) (i) and (ii) only (C) (i) and (iii) only (D) (iii) only	C) (i) and (iii) only	Unit V - Indian Economy and Development Administration in Tamil Nadu	Economic infrastructure - such as roads, power, ports, and telecommunications - is generally designed to yield relatively direct, measurable economic returns (e.g., reduced transport costs, higher productivity) compared to social infrastructure (health, education), whose benefits are more indirect and long-term, so statement (i) is true. Economic infrastructure projects are also typically large-scale and capital-intensive (dams, highways, power plants), not smaller in size, so statement (ii) is false. Because of their scale and revenue-generating potential, economic infrastructure projects commonly attract investment through Public-Private Partnership (PPP) models, drawing funding and participation from both the public and private sectors, so statement (iii) is true. The correct combination is therefore (i) and (iii) only, option (C).

				Source: Class 11 Economics, Unit 7 "Indian Economy"
71	"An Indian farmer is born in debt, lives in debt, dies in debt and bequeaths debt" said by _____. (A) Adam Smith (B) Gandhi (C) Amartya Sen (D) Sir Malcolm Darling	D) Sir Malcolm Darling	Unit V - Indian Economy and Development Administration in Tamil Nadu	This famous observation about the chronic indebtedness of Indian peasants was made by Sir Malcolm Darling, a British civil servant and agricultural economist, in his classic study 'The Punjab Peasant in Prosperity and Debt' (1925), which documented how rural credit and moneylender exploitation trapped generations of Indian farmers in a cycle of debt. This quotation is a standard reference point in discussions of rural indebtedness and agricultural credit reform, making option (D) correct. Source: Class 11 Economics, Unit 10 "Rural Economy"
72	Assertion [A] : India adopted a mixed economic system after independence in order to combine economic growth with social justice and welfare objectives. Reason [R] : The mixed economy framework permits the co-existence of public and private sectors while allowing government intervention where necessary. (A) [A] is true but [R] is false (B) Both [A] and [R] are true and [R] is the correct explanation of [A] (C) [A] is false but [R] is true (D) Both [A] and [R] are true, but [R] is not the correct explanation of [A]	B) Both [A] and [R] are true and [R] is the correct explanation of [A]	Unit V - Indian Economy and Development Administration in Tamil Nadu	After independence, India deliberately chose a mixed economy - combining central planning and public-sector enterprise in strategic/heavy industries with private enterprise in other sectors - precisely to pursue rapid economic growth alongside social justice, equitable distribution, and welfare goals, as reflected in the Industrial Policy Resolutions of 1948 and 1956, so Assertion [A] is true. This objective was achievable specifically because the mixed-economy framework allows public and private sectors to co-exist, with the government free to intervene, regulate, or directly invest wherever markets alone would not serve social welfare, so Reason [R] correctly explains why India adopted this model. Hence both are true with [R] as the correct explanation, option (B). Source: Class 12 Political Science, Unit 8 "Planning and Development Politics"
73	Match the criteria for devolution weight % in 15th Finance Commission. (a) Tax efforts (b) Population (2011) (c) Forest and Ecology (d) Income Distance	A) (a)-2, (b)-3, (c)-1, (d)-4	Unit V - Indian Economy and Development Administration in Tamil Nadu	The 15th Finance Commission's horizontal devolution formula assigns weights of: Population (2011 Census) 15%, Area 15%, Forest and Ecology 10%, Demographic Performance 12.5%, Income Distance 45%, and Tax and Fiscal Effort 2.5%. Matching the given items: Tax efforts gets 2.5% (item 2), Population (2011) gets 15% (item 3), Forest and Ecology gets 10% (item 1), and Income

	1. 10.0% 2. 2.5% 3. 15% 4. 45% (A) (a)-2, (b)-3, (c)-1, (d)-4 (B) (a)-3, (b)-2, (c)-4, (d)-1 (C) (a)-1, (b)-2, (c)-3, (d)-4 (D) (a)-4, (b)-2, (c)-3, (d)-1			Distance - the largest single weight, reflecting a state's per-capita income gap from the highest-income state, meant to aid poorer states - gets 45% (item 4). This gives a-2, b-3, c-1, d-4, matching option (A). Source: Class 12 Economics, Unit 9 "Fiscal Economics"
74	Which of the following are addressed in National Rural Health Mission? (1) Reduce Infant Mortality Rate (2) Ensure Population Stability (3) Reduce Total Fertility Rate (4) Control Communicable and Non-Communicable Diseases (A) (1) and (2) only (B) (1), (2) and (3) only (C) (2) and (3) only (D) (1), (2), (3) and (4) only	D) (1), (2), (3) and (4) only	Unit V - Indian Economy and Development Administration in Tamil Nadu	The National Rural Health Mission (NRHM), launched in 2005, was designed as a comprehensive rural healthcare programme with multiple public-health goals, including reducing the Infant Mortality Rate (IMR) and Maternal Mortality Rate, stabilizing population growth, reducing the Total Fertility Rate, and preventing and controlling both communicable diseases (like malaria, TB) and non-communicable diseases. Since all four listed goals genuinely form part of NRHM's stated objectives, the correct answer includes all of them, option (D). Source: Class 11 Economics, Unit 10 "Rural Economy"
76	Mannuyir Kaathu Mannuyir Kaapoom Scheme major aim is : (A) Increasing the yield per hectare (B) Preserving the soil fertility (C) Improving irrigation facilities (D) Introducing modern farming methods	B) Preserving the soil fertility	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Mannuyir Kaathu Mannuyir Kaappom Scheme (literally "protect soil life, protect life") is a Tamil Nadu government agriculture scheme launched to promote green manuring - distributing seeds of nitrogen-fixing crops such as dhaincha (thakkai poondu) and sunn hemp (sanappai) to farmers, who grow and plough them back into the soil before the main crop. The scheme's core objective is to restore and preserve soil fertility naturally, reduce dependence on chemical fertilisers, and support sustainable, chemical-free farming. Field reports show the scheme improved soil fertility and reduced fertiliser costs for the majority of participating farmers, confirming that soil-fertility preservation, not yield, irrigation, or farm mechanisation per se, is its central aim.

77	Employment projections for the Eleventh and Twelfth plans were (A) Labour force participation rate is increased because of female participation rates increased (B) Labour force participation rate is increased because of male participation rates increased (C) Labour force participation rate is increased because of demand exist in India (D) Labour force participation rate is increased because of price increased in India	B) Labour force participation rate is increased because of male participation rates increased	Unit V - Indian Economy and Development Administration in Tamil Nadu	NSSO employment-unemployment survey data spanning the Eleventh and Twelfth Plan periods (roughly 2004-05 to 2011-12) showed that India's overall labour force participation rate (LFPR) movement was driven far more by male workers than female workers: male LFPR stayed broadly steady while female LFPR fell sharply (rural female LFPR dropped from about 33% to 24%), a trend economists call the 'missing female labour force' puzzle, linked to rising school enrolment, a farm-sector slowdown, and definitional changes in counting unpaid family work. Since any growth attributed to rising participation over this period came from the male workforce rather than female workers, option (B) best matches the documented labour-force trend. This question tests awareness of the well-known decline in female work-participation during this decade, so the answer is flagged with some caution given the specific wording of the Plan-period employment projections.
78	Match the following : (a) The R.B.I. was nationalised (b) Foreign Exchange Management Act (FEMA) (c) Foreign Exchange Regulation Act (FERA) (d) The R.B.I was established in the year 1973 1935 1949 1999 (a) (b) (c) (d) (A) 2 3 4 1 (B) 4 3 2 1 (C) 3 4 1 2 (D) 2 4 3 1	C) 3 4 1 2	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Reserve Bank of India was established under the RBI Act, 1934 and began operations on 1 April 1935 as a privately owned institution; it was nationalised in 1949, bringing it under full government ownership. FERA, the stringent foreign exchange control law, was enacted in 1973 and was later replaced by the liberalised Foreign Exchange Management Act (FEMA) in 1999 to support post-liberalisation trade and investment. Matching each event to its year gives: RBI nationalised - 1949 (3), FEMA - 1999 (4), FERA - 1973 (1), RBI established - 1935 (2), i.e., sequence 3, 4, 1, 2, which is option (C). Source: Class 12 Economics, Unit 6 "Banking"

79	Which of the following are the objectives of the start up Tamil Nadu initiative? (i) To promote innovation and Entrepreneurship by providing support and infrastructure. (ii) To simplify regulations and processes for startups to enhance ease of doing business. (iii) To increase Government control over the startup ecosystem in Tamil Nadu. (A) (i) only (B) (ii) and (iii) only (C) (i) and (ii) only (D) (i) and (iii) only	C) (i) and (ii) only	Unit V - Indian Economy and Development Administration in Tamil Nadu	Startup TN is the Tamil Nadu government's nodal agency and policy initiative to build a supportive entrepreneurial ecosystem in the state. Its stated objectives are to promote innovation and entrepreneurship by providing incubation support, funding access and infrastructure, and to ease regulatory and compliance burdens on startups so that doing business becomes simpler (self-certification, single-window clearances, etc.) - matching statements (i) and (ii). Increasing government control over the startup ecosystem (iii) runs contrary to the initiative's actual ease-of-business and hands-off facilitation approach, so it is not a genuine objective, making (C) the correct choice.
121	Planning in India focused at realising a high rate of growth of output in the long term. A basic assumption was that shortage of capital goods in relation to employable persons constituted a fundamental constraint on growth in the economy. Therefore the planning process made no focus on economic growth was viewed as essential for improving the employment situation. Which are the following is best implied in the given passage? (A) Independent employment strategy for economic growth. (B) Growth of employment and its constraint. (C) Approach to employment in economic planning. (D) Economic Development and employment.	C) Approach to employment in economic planning	Unit V - Indian Economy and Development Administration in Tamil Nadu	The passage describes the strategy followed by India's Five Year Plans: since a shortage of capital goods (relative to the size of the employable workforce) was seen as the basic constraint on the economy's growth, planners chose not to pursue direct, independent employment-generation schemes; instead they treated raising the overall rate of economic growth (through capital accumulation and industrialisation) as the primary route through which employment would eventually improve - an indirect, growth-led approach to the employment problem, rather than a dedicated employment policy. This is exactly the 'approach to employment in economic planning' described in option (C), which best captures the passage's central idea, as opposed to options (A) and (D) which wrongly suggest employment was pursued as an independent or co-equal goal, or (B) which is too generic about growth and constraint alone.

122	Which of the following has been suggested as a substitute for the Fiscal Responsibility and Budget Management (FRBM) Act by the Fourteenth Finance Commission? (A) Fiscal consolidation fund (B) Debt ceiling and fiscal responsibility legislation (C) Revenue and Debt management (D) Pool Account of the Centre and State of India	B) Debt ceiling and fiscal responsibility legislation	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Fourteenth Finance Commission (headed by Dr. Y.V. Reddy, covering 2015-2020) reviewed the existing Fiscal Responsibility and Budget Management (FRBM) framework and recommended that it be replaced by a new 'Debt Ceiling and Fiscal Responsibility Legislation' to be enacted by Parliament, which would give primacy to a binding debt ceiling for both the Centre and the states rather than only annual deficit targets, with individual state FRBM Acts to be aligned with this overarching law. This makes option (B) the correct substitute suggested, as distinguished from unrelated ideas like a 'fiscal consolidation fund' (A) or a Centre-State 'pool account' (D), which are not the Commission's actual recommendation.
123	Match the following : (a) Atmanirbhar Bharat Rojgar Yojana (ABRY) (b) Kousal Vikas Yojana (PMKVY) (c) Pradhan Mantri Mudra Yojana (PMMY) (d) Pradhan Mantri Garib Kalyan Rojgar Abhiyaan (PMGKRA) 1. 8th April, 2015 2. 20th June, 2020 3. 1st October, 2020 4. 15th July, 2015 (A) (a)-3, (b)-4, (c)-1, (d)-2 (B) (a)-1, (b)-2, (c)-3, (d)-4 (C) (a)-2, (b)-1, (c)-4, (d)-3 (D) (a)-4, (b)-2, (c)-1, (d)-3	A) (a)-3, (b)-4, (c)-1, (d)-2	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Atmanirbhar Bharat Rojgar Yojana (ABRY), a COVID-recovery employment-incentive scheme, was launched on 1st October 2020 (3). The Pradhan Mantri Kaushal Vikas Yojana (PMKVY), the flagship skill-training scheme, was launched on 15th July 2015, deliberately chosen to coincide with World Youth Skills Day (4). The Pradhan Mantri Mudra Yojana (PMMY), which provides collateral-free micro-credit to small and micro enterprises, was launched on 8th April 2015 (1). The Pradhan Mantri Garib Kalyan Rojgar Abhiyaan (PMGKRA), a rural public-works and livelihood campaign for migrant workers affected by the COVID-19 lockdown, was launched on 20th June 2020 (2). This gives the sequence 3, 4, 1, 2, matching option (A).
124	The first National Health Policy formulated by the Government of India in the year (A) 1953 (B) 2023	D) 1983	Unit V - Indian Economy and Development Administration in Tamil Nadu	India's first National Health Policy (NHP) was formulated and adopted in 1983, aiming to achieve the goal of 'Health for All' by the year 2000 through an expansion of primary healthcare infrastructure across the country. It was subsequently revised as the National Health Policy of 2002, and later as the National Health Policy of 2017,

	(C) 1993 (D) 1983			which shifted emphasis toward universal access to quality healthcare and preventive/promotive care. Since the question asks specifically for the first such policy, the correct year is 1983, option (D).
126	Jal Jeevan Mission plays an important role for _____. Choose the correct answer among the following. (i) Women empowerment (ii) Water supply maintenance (iii) Providing adequate tap water connection (A) (i) only (B) (ii) only (C) (ii) and (iii) only (D) (i), (ii) and (iii)	D) (i), (ii) and (iii)	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Jal Jeevan Mission (launched 2019) aims to provide Functional Household Tap Connections (FHTC) to every rural household, which directly covers point (iii). It also builds in local operation-and-maintenance responsibility through Village Water and Sanitation Committees/Paani Samitis, covering point (ii). Government literature on the Mission also repeatedly highlights that assured piped water reduces the daily drudgery of fetching water that falls disproportionately on women and girls, freeing their time for education and livelihoods - i.e., women empowerment (point i). All three roles are therefore attributed to the Mission, making option (D) correct.
127	The DANIDA-TNAHCP initiative of Tamil Nadu is related to which among the following sectors. (A) Health (B) Infrastructure (C) Industry (D) Education	A) Health	Unit V - Indian Economy and Development Administration in Tamil Nadu	TNAHCP stands for the Tamil Nadu-Danish International Development Agency (DANIDA) Health Care Project, a bilateral assistance programme under which Denmark's DANIDA supported the strengthening of primary and secondary healthcare infrastructure, training and service delivery in Tamil Nadu as part of the broader Tamil Nadu Health Systems Reform effort. The project is therefore squarely a health-sector initiative, making option (A) correct.
171	Price Stabilisation Fund (PSF) was set up in the year _____. (A) 2012 (B) 2015 (C) 2014 (D) 2017	C) 2014	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Price Stabilisation Fund (PSF) was set up by the Government of India in 2014-15, initially under the Department of Agriculture and Cooperation, to maintain a buffer stock of agri-horticultural commodities like onion, potato and pulses so that market prices could be moderated through timely release of stock during periods of sharp price rise. It was later brought under the Department of Consumer Affairs. Since the fund's establishment is specifically dated to 2014, option (C) is

				correct.
172	_____ is an active application used across major Indian Airports reducing the processing time using facial recognition technology. (A) Digi Yatra (B) Dak Namod (C) Paryatan Mitra (D) Yuva	A) Digi Yatra	Unit V - Indian Economy and Development Administration in Tamil Nadu	Digi Yatra is a Government of India (Ministry of Civil Aviation) initiative that uses Facial Recognition Technology (FRT) to provide contactless, paperless entry for passengers at airports, linking their Aadhaar-based identity and boarding pass to their face so that check-in, security and boarding can be completed without repeatedly showing physical documents. It has been progressively rolled out at major Indian airports such as Delhi, Bengaluru, Varanasi, Hyderabad and others to cut passenger processing time significantly. The other options are not real facial-recognition airport applications, so option (A) is correct.
173	Assertion [A] : Higher knowledge increases productivity of the labour force. Reason [R] : Higher expenditure on education yields higher knowledge. (A) [A] is true but [R] is false (B) [A] is false but [R] is true (C) Both [A] and [R] are true but [R] is not the correct explanation of [A] (D) Both [A] and [R] are true and [R] is the correct explanation of [A]	D) Both [A] and [R] are true and [R] is the correct explanation of [A]	Unit V - Indian Economy and Development Administration in Tamil Nadu	Human capital theory in economics holds that greater knowledge and skill among workers raise their productivity, since better-trained workers can perform tasks more efficiently and adapt to new technologies - so the Assertion is true. It is also true that higher expenditure on education (schooling, training, research) is the primary means by which a workforce acquires higher knowledge and skills - so the Reason is true as well. Because increased education spending is precisely the mechanism through which knowledge (and hence productivity) rises, the Reason correctly explains the Assertion, making option (D) correct. Source: Class 12 Economics, Unit 11 "Economics of Development and Planning"
174	Which Five Year Plan based on the National Goal of Socialist Economy? (A) First Five Year Plan (B) Second Five Year Plan (C) Third Five Year Plan (D) Fourth Five Year Plan	B) Second Five Year Plan	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Second Five Year Plan (1956-61), designed largely by economist P.C. Mahalanobis, emphasised rapid industrialisation with a focus on heavy and basic industries in the public sector, operationalising the goal of building a socialistic pattern of society that the Indian National Congress had formally resolved to pursue at its Avadi Session in 1955. This made the Second Plan the first Five Year Plan explicitly built around the national

				goal of a socialist-oriented economy. The First Plan (1951-56) had instead focused on agriculture and a food-and-agriculture-led recovery, so option (B) is correct. 175	Arrange the following events in chronological order (1) Foreign Exchange Management Act (2) Bank Regulation Act (3) Factoring Regulation Act (4) Payment and settlement systems Act (A) (2), (1), (4), (3) (B) (3), (1), (4), (2) (C) (4), (3), (2), (1) (D) (1), (2), (4), (3)	A) (2), (1), (4), (3)	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Banking Regulation Act was enacted in 1949 to regulate banking companies in India, making it the earliest of the four. The Foreign Exchange Management Act (FEMA) followed in 1999, replacing the older FERA to liberalise and manage foreign exchange transactions. The Payment and Settlement Systems Act came next in 2007, providing a legal framework for regulating payment systems such as RTGS and NEFT. The Factoring Regulation Act was enacted last, in 2011, to regulate the business of factoring (assignment of receivables). This gives the chronological sequence (2)-1949, (1)-1999, (4)-2007, (3)-2011, matching option (A).
176	According to Tamil Nadu Industrial Policy 2014, among the Indian States, Tamil Nadu ranked first in terms of _____. Choose the right answer: (i) Number of factories (ii) Number of workers employed in the factories sector (iii) Gross industrial output (iv) Net value addition (A) (i) and (ii) (B) (ii) and (iii) (C) (iii) and (iv) (D) (i), (ii) and (iii)	D) (i), (ii) and (iii)	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Tamil Nadu Industrial Policy 2014 highlighted the state's leading position in the country's industrial landscape, noting that Tamil Nadu ranked first among Indian states in the number of registered factories, the number of workers employed in the factories sector, and gross industrial output, reflecting the state's dense and diversified manufacturing base built up over decades of industrial development and infrastructure investment. However, Tamil Nadu did not top the country in Net Value Addition, a measure of value created after deducting input costs and depreciation, where more capital-intensive industrial states like Maharashtra and Gujarat ranked ahead. Hence the correct set is (i), (ii) and (iii), making option (D) correct. Source: Class 11 Economics, Unit 11 "Tamil Nadu Economy" and Class 10 Social Science, Economics Unit 5 "Industrial Clusters in Tamil Nadu"

177	Match the following (a) Mahatma Gandhi National Rural Employment Guarantee Act (b) Monopolies Restrictive Trade Practices Act (c) Foreign Exchange Regulation Act (d) Fiscal Responsibility Budget Management Act 1. 1973 2. 2003 3. 2005 4. 1969 (A) (a)-3 (b)-4 (c)-1 (d)-2 (B) (a)-1 (b)-2 (c)-3 (d)-4 (C) (a)-4 (b)-3 (c)-2 (d)-1 (D) (a)-2 (b)-1 (c)-4 (d)-3	A) (a)-3 (b)-4 (c)-1 (d)-2	Unit V - Indian Economy and Development Administration in Tamil Nadu	MGNREGA was enacted in 2005 to legally guarantee 100 days of wage employment per year to rural households. The Monopolies and Restrictive Trade Practices (MRTP) Act, 1969 was India's first competition law, aimed at preventing concentration of economic power, and was later replaced by the Competition Act, 2002. The Foreign Exchange Regulation Act (FERA) was passed in 1973 to strictly control foreign exchange dealings during the licence-permit era, before being replaced by the liberal FEMA in 1999. The Fiscal Responsibility and Budget Management (FRBM) Act, 2003 set targets for reducing fiscal and revenue deficits to instil fiscal discipline. Matching each Act to its year gives (a)-2005(3), (b)-1969(4), (c)-1973(1), (d)-2003(2), so option (A) is correct.
178	Which of the following is incorrectly attributed to the Highlights of MSMEs from Union Budget 2026-27? (i) Dedicated Support to MSMEs (ii) Strengthening financial and Market access (iii) Linking GeM with TReDS to standardize and expedite payments and working capital flow for MSMEs (iv) Double digital window for faster clearances reducing delays and compliance burdens (A) (i) only (B) (ii) and (iii) only (C) (iv) only (D) (i), (ii), (iii) only	C) (iv) only	Unit V - Indian Economy and Development Administration in Tamil Nadu	Recent Union Budgets have consistently flagged MSMEs as growth engines, announcing dedicated support measures, steps to strengthen their access to institutional finance and markets, and integration of the Government e-Marketplace (GeM) with the Trade Receivables Discounting System (TReDS) so that MSME suppliers to government buyers get their invoices discounted and working capital released faster - these three (i, ii, iii) reflect genuine, well-documented budget themes for MSMEs. Government ease-of-doing-business reforms for faster regulatory clearances are usually described as a "single-window" system, not a "double digital window", so item (iv) misstates the actual reform and is the incorrectly attributed highlight. Hence option (C) is correct.
180	Match correctly the Acts with the corresponding years	C) (a)-2 (b)-4 (c)-1 (d)-3	Unit V - Indian Economy and	The Dowry Prohibition Act was passed in 1961, making the giving or taking of dowry a punishable offence. The

	(a) Dowry Prohibition Act (b) Hindu Marriage Act (c) National Commission for Women Act (d) National Policy for Empowerment of Women 1. 1990 2. 1961 3. 2001 4. 1955 (A) (a)-2 (b)-4 (c)-3 (d)-1 (B) (a)-2 (b)-1 (c)-4 (d)-3 (C) (a)-2 (b)-4 (c)-1 (d)-3 (D) (a)-2 (b)-3 (c)-1 (d)-4		Development Administration in Tamil Nadu	Hindu Marriage Act, 1955 (part of the mid-1950s Hindu Code Bills) codified rules on Hindu marriage, divorce and maintenance. The National Commission for Women was established by the National Commission for Women Act, 1990, as a statutory body to safeguard women's rights and interests. The National Policy for Empowerment of Women was adopted by the Government of India in 2001 to mainstream a gender perspective across all areas of governance. Matching gives (a)-1961(2), (b)-1955(4), (c)-1990(1), (d)-2001(3), so option (C) is correct. Source: Class 8 Social Science, Civics Unit 4 "Human Rights and U.N."
181	Reason and Assertion type : Assertion [A] : The State Resource Centre for women was initiated in Tamil Nadu under National Mission. Reason [R] : Mahila Shakti Kendra, one stop centre and Women Helpline are co-ordinated through the State Resource Centre for women. (A) [A] is true [R] is false (B) Both [A] and [R] are true and [R] is the correct explanation of [A] (C) [A] is false and [R] is true (D) [A] and [R] are true, but [R] is not the correct explanation of [A]	D) [A] and [R] are true, but [R] is not the correct explanation of [A]	Unit V - Indian Economy and Development Administration in Tamil Nadu	The State Resource Centre for Women (SRCW) was indeed set up in Tamil Nadu as part of the Government of India's National Mission for Empowerment of Women, so Assertion [A] is factually correct. It is also true that schemes such as Mahila Shakti Kendra, the One Stop Centre scheme, and the Women Helpline are coordinated/converged through the State Resource Centre for Women, so Reason [R] is factually correct as well. However, [R] merely lists functions the SRCW performs after being set up - it does not explain why or how the Centre came to be "initiated under the National Mission" in the first place, so it is not the correct explanation of [A]. Both statements being independently true but unconnected causally means option (D) is correct.
182	Assertion [A] : The Tamil Nadu State Commission for women investigates issues related to violations of women's rights. Reason [R] : Its main function is to safeguard women's rights. (A) [A] is true [R] is false	B) Both [A] and [R] are true and [R] is the correct explanation of [A]	Unit V - Indian Economy and Development Administration in Tamil Nadu	The Tamil Nadu State Commission for Women is a statutory body constituted to protect and promote the rights and interests of women in the state, and one of its core functions is indeed to investigate complaints regarding violation of women's rights, making Assertion [A] true. Its overarching mandate - safeguarding women's rights - is precisely why it undertakes this investigative

	(B) Both [A] and [R] are true and [R] is the correct explanation of [A] (C) [A] is false [R] is true (D) Both [A] and [R] are true, but [R] is not the correct explanation of [A]			function: an institution whose main job is to protect rights must, as a natural consequence, look into cases where those rights are violated. Since Reason [R] correctly identifies the underlying purpose that explains why the Commission does what Assertion [A] describes, option (B) is correct.
